Subject: Phase I Environmental Site Assessment, 251 S Franklin Street, Fort Bragg, Mendocino County, California; APN 008-172-090

Enclosed is our Phase I Environmental Site Assessment (ESA) for the subject property located at 251 South Franklin Street in Fort Bragg, Mendocino County, California; identified as Mendocino County Assessor's parcel number (APN) 008-172-090.

As part of our detailed Phase I ESA, SHN encountered no past or present land uses that may have generated or caused the release of regulated or hazardous materials on the subject property, as defined in ASTM-International (ASTM) Standard E1527-21. SHN's research conducted for the subject property included site reconnaissance, reviews of historical, topographic, and Sanborn maps, aerial photographs, and agency records; and interviews.

Historical Recognized Environmental Conditions (HRECs) identified for adjacent properties and evaluated during our site assessment process include:

- Adjacent sites in the immediate vicinity of the subject property have had releases from leaking underground storage tanks (LUSTs) and aboveground storage tanks (ASTs).
- Each adjacent property of concern has received a No Further Action Letter issued by the North Coast Regional Water Quality Control Board stating that no additional remedial action is required.

More details are discussed in 4.2.1 Historical Environmental Use Information on Surrounding Area Properties.

Based upon the findings from this Phase I ESA, SHN believes that the information presented within has adequately addressed potential concerns regarding past land uses. As such, we have no recommendations.

If you have any questions, comments, or concerns; or if we can be of further assistance, please call me at (707) 845-5909.

Respectfully submitted,

SHN

Roland Rueber, PG
Senior Geologist

1.0 Introduction

1.1 Purpose

In August and September 2026, SHN conducted a Phase I environmental site assessment (ESA) for the subject property located at 251 S Franklin Street, Fort Bragg, Mendocino County, California; Mendocino County Assessor's parcel number (APN) 008-172-090 (subject property). Figure 1 presents a subject property location map and Figure 2 is a subject property plan. This Phase I ESA was requested by Housing Mendocino Coast to complete the due diligence process prior to the purchase of the subject property.

The purpose of conducting a Phase I ESA is to assess the subject property, largely based on current circumstances, with respect to the presence or absence in the environment of regulated or hazardous materials, as defined in the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA) and Department of Toxic Substances Control (DTSC) Title 22 of the California Code of Regulations. This report was prepared in general accordance with ASTM-International (ASTM) Standard E1527-21, Standard Practice for Environmental Site Assessments.

This Phase I ESA was conducted in general conformance with the regulations and sections according to the U.S. Environmental Protection Agency (EPA) Final Rule pertaining to standards and practices for all appropriate inquiries (AAI), and addresses the latest landowner liability protections that have evolved as a result of the United States Congress's actions and the new EPA rule (that is, the addition of the contiguous property owner and bona fide prospective purchaser defenses related to liability under the CERCLA [or Superfund]). The AAI Rule requires the environmental professional to include an opinion regarding additional appropriate investigation, if any, to detect the presence of hazardous substances or petroleum products. This practice is intended to permit a user to satisfy one of the requirements to qualify for the innocent landowner defense to CERCLA liability; that is, practices that constitute "all appropriate inquiry into the previous ownership and uses of the property consistent with good commercial or customary practice," as defined in 42 United States Code (USC) 9601 (35)(B).

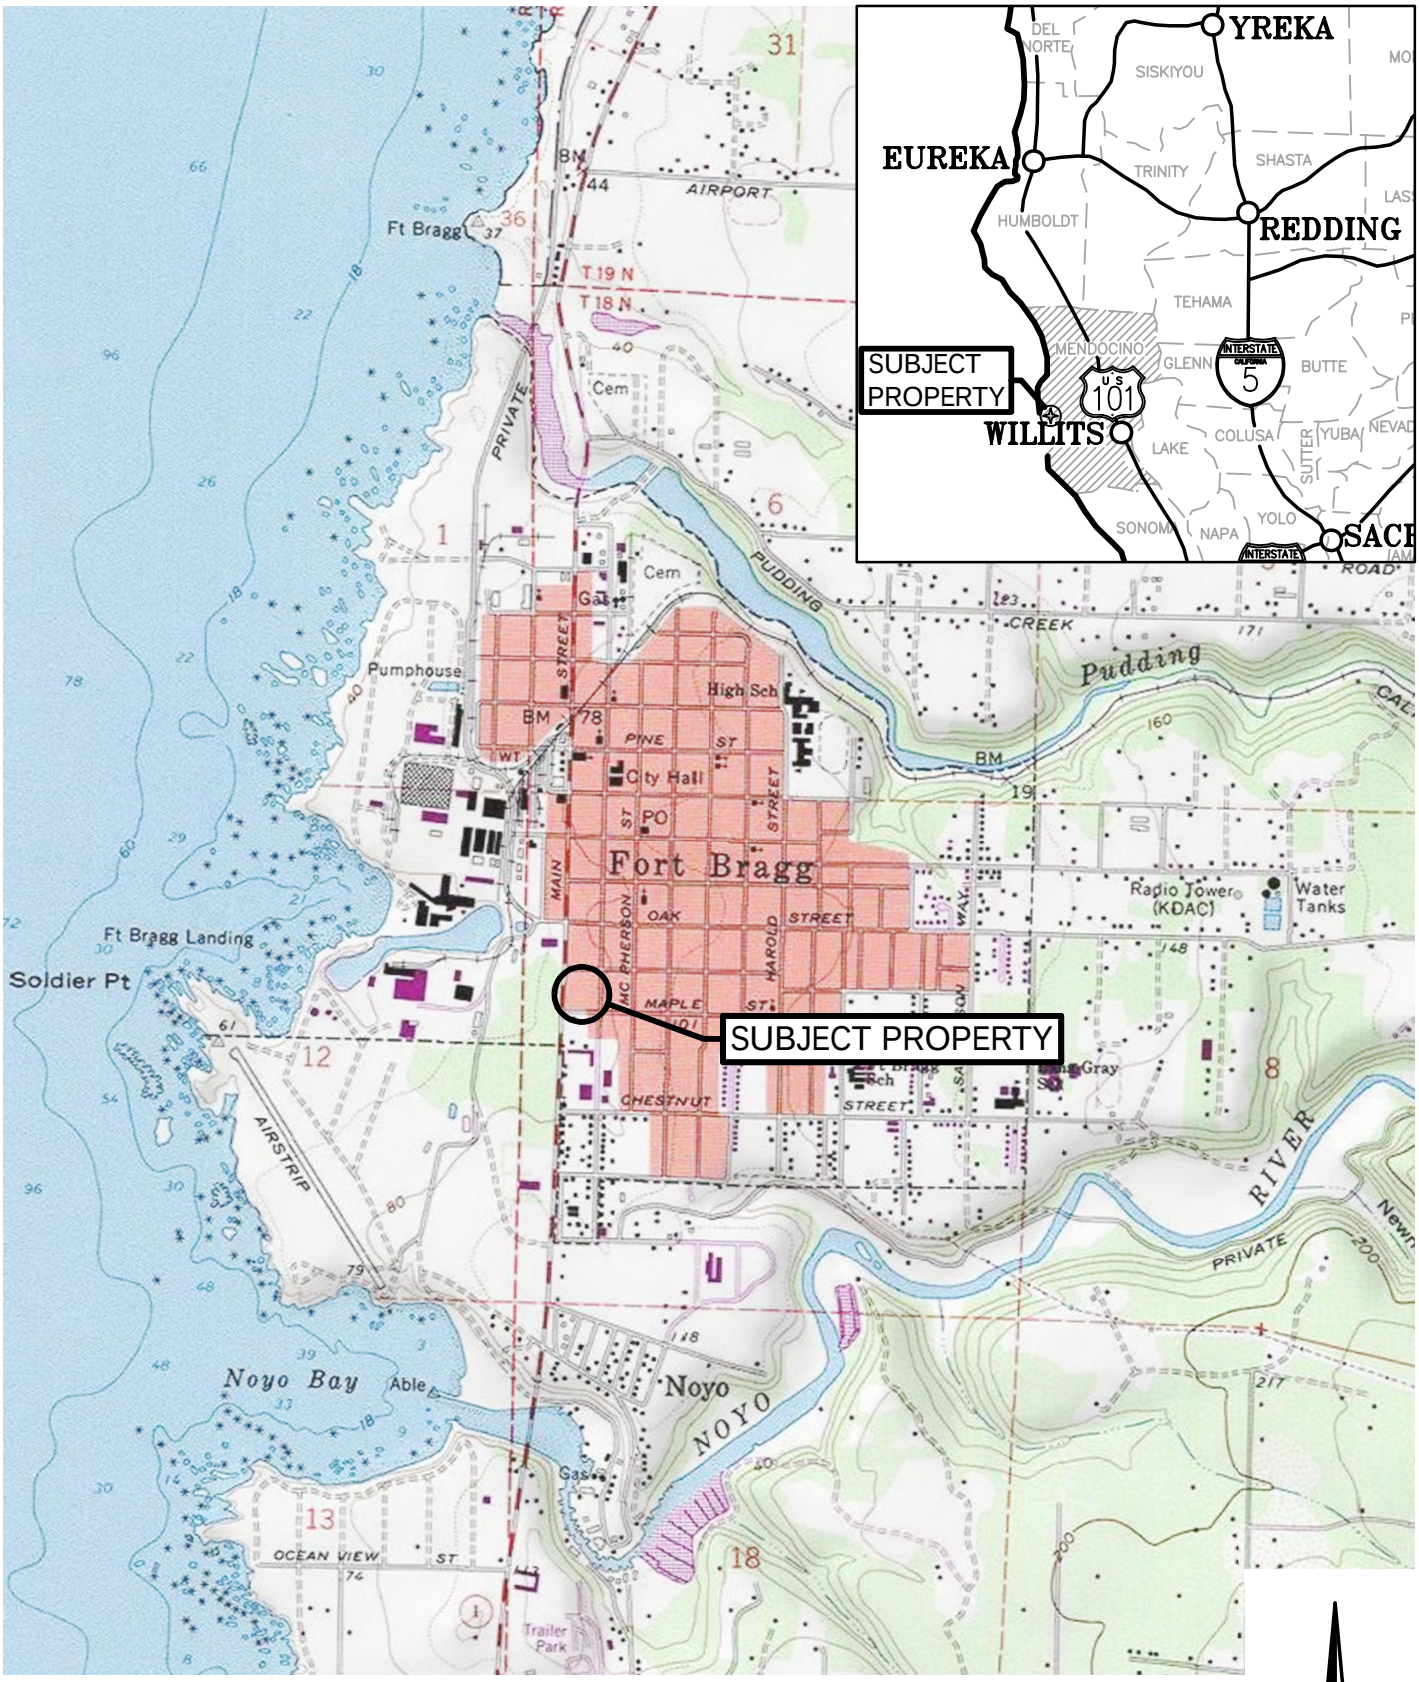

This report has been prepared on behalf of, and for the exclusive use of Housing Mendocino Coast and its designated representatives; furthermore, it is subject to and issued in connection with the agreement with SHN and the provisions thereof.

SHN	Housing Mendocino Coast Phase 1 ESA Fort Bragg, California	**Subject Property Plan** **251 S Franklin Street** September 2026 - 426058	**Figure** **2**

1.3 Scope of Work

In accordance with ASTM Standard E1527-21, SHN performed the following ESA services in preparation of this document:

- Conducted field reconnaissance of the subject property to look for evidence of existing or potential soil and groundwater contamination, or other potential recognized environmental conditions (RECs).
- Provided color photographs of the subject property (Appendix 1).
- Conducted a visual survey of the project vicinity, to identify businesses or facilities that may use, produce, and/or store reportable quantities of hazardous materials or generate hazardous waste. SHN conducted perimeter observations of the immediately adjacent properties for obvious signs of potential contaminant migration.
- Reviewed and/or discussed selected regulatory agency files and records that are maintained by the North Coast Regional Water Quality Control Board (RWQCB), the County of Mendocino Department of Environmental Health (MCDEH), the County of Mendocino Planning and Building Department, and the City of Fort Bragg. These file reviews were conducted to evaluate whether the subject parcels or any immediately adjacent parcels were likely to be a potential hazardous materials threat to the subject parcels (Appendix 2).
- Reviewed local and regional geological and groundwater conditions in the vicinity of the subject parcels. Identified existing or proposed municipal infrastructure for the subject parcels and vicinity, including potable water, wastewater, and stormwater provisions, as mandated by the ASTM guidelines.
- Examined aerial photographs of the subject parcels taken over an approximate 84-year period; reviewed the available United States Geological Survey (USGS) topographic maps, historical business directories, and Sanborn Fire Insurance maps (Appendix 3). Additionally, SHN reviewed the Assessor's parcel maps and other maps of interest. Also, a review of other reasonably ascertainable standard sources was conducted for developing a continuous site history dating back to the first known development, as recommended by the ASTM guidelines.
- Using the ASTM-designated search radii, SHN reviewed publicly available federal, state, county, and other regulatory agency lists and databases—including Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS), National Priorities List (NPL), and several other federal, Indian, and state listed sites—with known hazardous materials contamination and/or registered underground storage tanks (USTs) that are presently or were previously located on or near the subject parcels (Appendix 4).
- SHN reviewed the completed questionnaires from the owner and user and completed a site assessment questionnaire (Appendix 5).
- Identified and commented on the existence and significance of potential data gaps.
- Identified any RECs (if applicable).
- Provided an opinion regarding the need for additional appropriate investigation.
- Commented on the potential for vapor intrusion, as required by ASTM E1527-21.

2.0 Overview

2.1 Location

The subject property is located at 251 S Franklin Street, Fort Bragg, California; identified as Mendocino County APN 008-172-090. The predominant land uses in the area are residential, commercial, and industrial. The subject property is zoned for General Commercial. According to the Environmental Risk Information Services (ERIS) report, general topography slopes west; however, the subject property is relatively flat (Figure 1).

2.2 Description

The subject property consists of one rectangular shaped parcel totaling 1.064-acres in size. The subject property is currently undeveloped and consists of a vacant, grassy lot.

2.3 Utility Features

2.3.1 Sewer

The City of Fort Bragg provides sanitary sewer service to the subject property. No known leach fields or septic tanks were identified on the subject property.

2.3.2 Water Supply

The subject property is supplied with water by the City of Fort Bragg,

2.3.3 Stormwater

Stormwater flows west towards the alleyway and along Maple Street towards a drain near Highway 1. There are also storm drains along S. Franklin Street.

2.3.4 Electricity and Fiber Optics

Electricity is supplied to the project area by Pacific Gas and Electric (PG&E). Overhead powerlines extend along the alleyway immediately west of the subject property and along S. Franklin Street to the east.

2.3.5 Natural Gas

No known natural gas connections or meters were observed on the subject property.

2.4 Adjacent Properties

North: Immediately north of the subject property are residences. Further north is Madrone Street. Northwest of the subject property are commercial businesses including Hair Co Plus and Dwain Ray's Quality Carpet Care & Advanced Cleaning Service.

West: Immediately west of the subject property is an alleyway. Further west is the Ocean Breeze Lodge, Baymont by Wyndham Fort Bragg, and Main Street.

South: Immediately south of the subject property is Maple Street. Further south are commercial businesses and residences.

East: Immediately east of the subject property is S Franklin Street. Further east are residences and ScissorhandZ hair salon.

SHN did not observe any evidence of a hazardous release or potential release onto the subject property from the northern, eastern, southern, or western adjoining properties during the September 2026 site reconnaissance. Appendix 1 presents photographs of the subject property and the immediate adjacent areas.

2.5 Preliminary Title Report

A title report provides past owner information and can help identify historical uses of the subject property; however, no title report was provided, which is considered a data gap.

2.6 Synopsis of Results of Previous Environmental Investigations–ERIS Database

Using the ASTM Standard Practice E1527-21 recommended search radii, SHN reviewed the ERIS database, which tracks sites with known hazardous materials and hazardous material releases (Appendix 4). ERIS did not identify any potential or confirmed state or federal "Superfund" site located on or immediately adjacent to the subject property during its review of the EPA's CERCLIS and NPL databases.

The subject property does not appear on the EPA's Emergency Response Notification System (ERNS) database, nor does it contain any business or facility that is listed as a Resource Conservation and Recovery Act (RCRA) large quantity generator (LQG).

SHN reviewed databases regarding hazardous materials contamination that are maintained by the following agencies:

- EPA
- Federal NPL sites
- Federal CERCLIS sites
- Federal RCRA sites
- Federal ERNS sites
- State and tribal–equivalent CERCLIS; Confirmed Release List and Inventory (CRL); and Environmental Cleanup Site Information System (ECSI)
- State and tribal landfill and/or solid waste disposal site lists; Solid Waste Facilities database (SWF/LF)
- State and tribal leaking storage tank lists: Leaking Underground Storage Tank Database (LUST)
- State and tribal registered storage tanks lists;
- UST
- Federal listing of Federal Emergency Management Agency-owned (FEMA) USTs
- Many other lists, such as: Brownfield sites, open dump inventories, illegal dump sites, historical and old closed solid waste disposal sites, clandestine drug labs, Federal CERCLA and local lien

information, local Land Use Control Information (LUCIS), Hazardous Materials Information Reporting Systems (HMRIS), and spill data regarding oil and hazardous materials reported to the Environmental Response Program.

3.0 Environmental Setting

3.1 Regional Physiography

3.1.1 General Physiography

According to the ERIS report, the subject property is included in the National Wetland Inventory (NWI) and wetlands are shown on the vicinity maps listed in Appendix 4. The subject property is mapped as an area of minimal flood hazard. The subject property is situated at an average elevation of 77.48 feet above mean sea level.

3.1.2 Tectonic Setting

The subject property is located within a region of active tectonic deformation, with large-scale features. Northwestern California is in a complex tectonic region dominated by northeast-southwest compression associated with collision of the Gorda and North American tectonic plates. The Gorda plate is being actively subducted beneath North America, north of Cape Mendocino, along the southern part of what is commonly referred to as the Cascadia subduction zone. This plate convergence has resulted in a broad fold-and-thrust belt along the western edge of the accretionary margin of the North American plate. This fold-and-thrust belt is manifested as a series of northwest-trending, southeast-vergent thrust faults. These faults are active and can generate moderate-to-large-magnitude earthquakes. The subject property is not located within an Alquist-Priolo Zone (CDC, 2026a).

3.2 Soil Conditions

Geology in the vicinity of the subject property was mapped as Pleistocene age Older Quaternary alluvium and marine deposits (Appendix 4).

According to the ERIS report, the dominant upper soil component on the subject property is listed as Urban Land which consists of fluviomarine deposits derived from sedimentary rock (U.S. Department of Agriculture [USDA] Natural Resources Conservation Service [NRCS], 2026) (Appendix 4).

3.3 Groundwater Conditions

Based upon the ERIS report, there are three public water system supply sources listed as being within 1 mile of the subject property in the federal USGS and the Federal Reporting Data System Public Water System (FRDS PWS) databases, although location mapping of these systems is typically inaccurate. Groundwater is shallow in the area with levels recorded between 2.35 feet to 4.37 feet at the former Ebb Tide Lodge in 1998 (NCRWQCB, 1998a).

4.0 Results of Investigation

4.1 Site Reconnaissance

SHN performed the site reconnaissance on September 1, 2026, to assess current conditions. Site reconnaissance efforts consisted of a visual inspection of the subject property, noting potential sources or evidence of any hazardous materials releases, location and alignment of utilities, drainage patterns, uses of adjacent parcels, potential for migration from offsite sources, and any other pertinent or unusual information that would aid in the development of this Phase I ESA.

The subject property is comprised of one parcel totaling 1.064-acres in size. The subject property is vacant and consists of an undeveloped, grassy lot. An alleyway extends along the western boundary of the subject property, with commercial structures located further west. SHN observed overhead powerlines traversing the alleyway along the western boundary of the subject property. The subject property is bordered to the east by a sidewalk and S. Franklin Street, with residential properties located further east. Additional overhead powerlines were observed traversing the eastern side of S. Franklin Street. Maple Street, residences, and commercial businesses are located south of the subject property. North of the subject property are residences and Madrone Street.

Small amounts of fill material of unknown origin were observed in several areas throughout the subject property.

No offsite impacts were observed during the site walk. SHN completed a "Site Assessment Questionnaire" following the site walk (Appendix 5).

4.2 Project Vicinity

4.2.1 Historical Environmental Use Information on Surrounding Area Properties

SHN reviewed agency-listed facilities included in the ERIS database report (Appendix 4) for proximity to the subject property, position relative to groundwater flow direction, and constituents-of-concern. Table 2 lists properties within a 1/8-mile radius of the subject property that are known or suspected of having stored and/or used regulated materials, and/or have had hazardous material releases, including leaking USTs.

4.2.1.1 EBB TIDE LODGE (250 S MAIN STREET)

This site is located immediately west of the subject property where Baymont by Wyndham Fort Bragg is currently located. According to GeoTracker, this site was issued RWQCB Case No. 1NMC395 (State Water Resources Control Board [SWRCB], 2026a). Based on a Staff Memo from the RWQCB in August 1998, the EBB Tide Lodge was constructed between 1963 and 1972. The building contained a boiler and 250-gallon AST with diesel for heating water. The AST was removed from the site in the mid-1970s and replaced by propane powered water heaters. During a property transaction for the sale of the lodge, Phase 1 and Phase II EPAs were performed on the site. During the assessment, the raised concrete stand for the former AST was noted to be stained with a petroleum odor. During subsequent subsurface investigations, the stained concrete pad was removed, and samples were collected from beneath the former AST location. Analytical results showed that the petroleum hydrocarbon impact on the soil was low. It was noted that the Beacon #493 (Ultramar) site to the northwest of the subject property had a groundwater treatment system that was pumping groundwater for treatment and is cross gradient from the Ebb Tide Lodge (NCRWQCB, 1998a). The site received a Case Closure letter from the RWQCB on September 1, 1998, citing that the nearest identified receptor was over 2,000 feet from the site, adequate source removal was completed, possible impacts to groundwater were investigated, and residual soil

contamination appeared to pose little threat to water quality (NCRWQCB, 1998b). A note is on GeoTracker to notify the appropriate cleanup agency prior to a change in land use.

Based on the information reviewed and the case closed status, it is unlikely this site poses a hazardous materials threat to the subject property.

4.2.1.2 BEACON #493 (ULTRAMAR) (210 S MAIN STREET)

This site is located immediately northwest of the subject property. According to GeoTracker, this site was issued RWQCB Case No. 1TMC056 (SWRCB, 2026b). Based on a GeoTracker site history summary, a retail fuel station was located at 210 S Main Street to the northwest of the subject property. A UST fuel system released gasoline into the soil and groundwater. Subsurface investigations were performed to figure out the extent of the petroleum hydrocarbon impacted soil and groundwater (SWRCB, 2026b). Remediation activities included the removal of the UST systems and piping and the installation of a groundwater treatment system. Groundwater monitoring has shown contamination in the groundwater within the vicinity of the site, but the contamination is no longer spreading and is attenuating. No water supply wells were negatively impacted by the release. Based on a No Further Action Request from Horizon Environmental, Inc. gasoline impacted soil remains in the subsurface areas beneath South Main Street to the west of the site (Horizon Environmental, 2012).

The site received a No Further Action letter from the RWQCB on June 26, 2013, citing no further action related to the former USTs is required (RWQCB, 2013).

Based on the information reviewed and the case closed status, it is unlikely this site poses a hazardous materials threat to the subject property.

4.2.1.2 OLD COAST HOTEL (101 N FRANKLIN STREET)

This site is located north of the subject property. According to GeoTracker, this site was issued RWQCB Case No. 1TMC324. Limited information is available regarding this site. Based on GeoTracker, the case was closed as of March 1996 (SWRCB, 2026c), with a note to notify the appropriate cleanup agency prior to a change in land use.

Based on the information reviewed and the case closed status, it is unlikely this site poses a hazardous materials threat to the subject property.

4.2.1.3 OAKS MOTOR INN (140 OAK STREET)

This site is located north of the subject property. According to GeoTracker, this site was issued RWQCB Case No. 1TMC313 (SWRCB, 2026d).

Based on a Notice of Proposed of No Further Action memo from the NCRWQCB in November 2006, a 2,000-gallon heating oil UST containing diesel was removed from the site on July 18, 1995. Inspectors reported numerous holes ranging in size in the UST. Soil samples collected from tank pit reported total petroleum hydrocarbons (TPH) as diesel up to 7,100 mg/kg. Over excavation was conducted to remove obviously impacted soil. A total of eighteen soil borings and five monitoring wells were installed to determine the extent of contamination and impact to water quality. The monitoring wells were sampling quarterly until the sampling events showed that all constituents of concern were below laboratory detection limits (NCRWQCB, 2006).

The site received a No Further Action letter from the RWQCB on February 8, 2007, citing no further action related to the former UST is required (NCRWQCB, 2007).

Based on the information reviewed and the case closed status, it is unlikely this site poses a hazardous materials threat to the subject property.

4.2.2 Sanborn Maps

SHN reviewed Sanborn Fire Insurance Maps with coverage of the subject property (Appendix 3). Table 3 describes the features observed in the subject property and surrounding properties.

Table 3. Sanborn Maps Summary
251 S Franklin Street, Fort Bragg, Mendocino County, California; APN 008-172-090

Year	Description
1898	The subject property is not depicted on the map. The Sanborn maps start at Madrona Avenue to the north of the subject property. A few structures are noted across Madrona Avenue to the northeast of the subject property.
1909	The subject property is not depicted on the map. The surrounding area is similar to the 1898 Sanborn map except additional dwellings have developed to the northeast of the subject property.
1919	The subject property is vacant. Franklin Street is labeled along the eastern boundary of the subject property. Maple Avenue is labeled along the southern boundary of the subject property and Main Street is visible to the west. Several structures are noted immediately north of the subject property including a dwelling, an outhouse, and a stable. Dwellings, storage structures, and an auto garage are visible to the south of the subject property. Dwellings and an auto garage are shown to the northeast of the subject property.
1941	The subject property is vacant. A dwelling has been developed immediately north of the subject property. Multiple dwellings have developed to the east-northeast of the subject property. A water line is visible running along S Franklin Street.

4.2.3 Topographic Maps

SHN reviewed topographic maps with coverage of the subject property (Appendix 3). Table 4 describes the features observed in the subject property and surrounding properties.

Table 4. Topographic Maps Summary
251 S Franklin Street, Fort Bragg, Mendocino County, California; APN 008-172-090

Year	Description
1920 15-Min	The subject property is within a developed urban area labeled as Fort Bragg. The subject property is vacant. The subject property is surrounded by city blocks and structures. Noyo River is to the south-southwest of the subject property.
1943 15-Min	The subject property and surrounding areas are similar to the 1920 map, except a highway is visible to the west of the subject property. Further west is a railroad. A church and several large structures are noted to the northwest of the subject property along the coast of the Pacific Ocean.

Table 4. Topographic Maps Summary
251 S Franklin Street, Fort Bragg, Mendocino County, California; APN 008-172-090

Year	Description
1960 15-Min	The subject property and surrounding areas are similar to the 1943 map, except the highway to the west of the subject property is labeled as Main Street and Highway 1. Oak Street is labeled to the north of the subject property and Chestnut Street is labeled to the south. Soldier Point and Fort Bragg Landing are labeled to the east of the subject property along the coast of the Pacific Ocean.
1960 7.5-Min	The subject property and surrounding areas are similar to the 15-minute 1960 map, except Maple Street is labeled immediately south of the subject property. McPherson Street is labeled to the east of the subject property. A church, post office, and City Hall are noted north-northeast of the subject property.
1978 7.5-Min	The subject property and surrounding areas are similar to the 1960 maps.
2012 7.5-Min	Individual structures are not shown on this map. A firehouse is located northwest of the subject property.
2015 7.5-Min	The subject property and the surrounding areas are similar to the 2012 map, except Madrone Street is labeled to the north of the subject property.
2018 7.5-Min	The subject property and surrounding areas are similar to the 2015 map.
2021 7.5-Min	The subject property and the surrounding areas are similar to the 2018 map.

a. APN: Assessor's parcel number

4.2.4 Business Directory

SHN reviewed the business directories provided by ERIS and the subject property was not listed at 251 S Franklin Street. SHN reviewed listings from nearby properties; however, none of the listings were identified as having the potential to impact the subject property. The remaining properties listed are residential and commercial. Copies of the business directories are included in Appendix 2.

4.2.5 Aerial Photographs

SHN reviewed aerial photos provided by ERIS showing the subject parcels and surrounding properties (Appendix 3). Table 5 describes the features observed within the subject property, and surrounding properties.

Table 5. Historical Aerial Photographs
251 S Franklin Street, Fort Bragg, Mendocino County, California; APN[a] 008-172-090

Year	Source	Description
1942	ASCS[b]	The subject property is vacant. The subject property takes up the southeastern corner of a larger plot. The plot is mostly vacant and vegetated except for structures located immediately north of the subject property. Further north is a baseball field. S Franklin Street is visible to the east and Maple Street is visible to the south of the subject property. Highway 1 (Main Street) is located west of the subject property. A lumber mill is noted to the northwest of the subject property. The adjoining properties are occupied by residential and commercial structures.
1948	USGS[c]	The subject property is vacant and vegetated. A structure has developed immediately west of the subject property, and the vegetation has been cleared to the northwest of the subject property.
1957	USGS	The photo is of poor quality; however, it appears that a structure has developed immediately northwest of the subject property where the former Beacon #493 fuel station was previously located.
1963	CAS[d]	The subject property is vacant and vegetated. Additional structures have developed immediately west and northwest of the subject property where Baymont by Wyndham, Ocean Breeze Lodge, Dwain's Carpet Cleaning Service, and Hair Co Plus are currently located. The footprint of the lumber mill has expanded to the west-northwest of the subject property. Additional commercial and residential structures have developed to the north and south of the subject property.
1974	NASA[e]	The subject property and immediately surrounding areas are similar to the 1963 photo except additional commercial structures have developed to the north and south of the subject property. The lumber mill has continued to expand with a lumber storage yard to the southwest of the subject property.
1983	USGS	The subject property and surrounding areas are similar to the 1974 photo.
1987	USGS	The photo is of poor quality; however, it appears that the subject property and surrounding areas are similar to the 1983 photo.
1998	USGS	The subject property and surrounding areas are similar to the 1987 photo, except the subject property has been cleared of trees and the Beacon #493 structure to the northwest of the subject property has been demolished.
2003	USDA[f]	The subject property and surrounding areas are similar to the 1998 photo, except the footprint of the lumber mill has been greatly reduced.
2004	USDA	The subject property and surrounding areas are similar to the 2003 photo.
2005	USDA	The subject property and surrounding areas are similar to the 2004 photo.
2006	USDA	The subject property and surrounding areas are similar to the 2005 photo.
2009	USDA	The subject property and surrounding areas are similar to the 2006 photo.
2010	USDA	The subject property and surrounding areas are similar to the 2009 photo.
2012	USDA	The subject property and surrounding areas are similar to the 2010 photo.
2014	USDA	The subject property and surrounding areas are similar to the 2012 photo.
2016	USDA	The subject property and surrounding areas are similar to the 2015 photo.
2018	USDA	The subject property and surrounding areas are similar to the 2016 photo.

Table 5. Historical Aerial Photographs
251 S Franklin Street, Fort Bragg, Mendocino County, California; APN[a] 008-172-090

Year	Source	Description
2020	USDA	The subject property and surrounding areas are similar to the 2018 photo
2022	USDA	The subject property and surrounding areas are similar to the 2020 photo.
2024	USDA	The subject property and surrounding areas are similar to the 2022 photo.

5.0 Subject Property History and Operations

5.1 General Description

Based upon our review of the historical maps, aerial photographs, building permits, and investigative reports; SHN has summarized the general history of the subject property. The subject property has been vacant and undeveloped since it was acquired by the Carine family in the early 1900s.

5.2 Operations Using, Storing, or Disposing of Hazardous Substances

No observations related to the use, storage, or disposal of hazardous substances or petroleum products were made during the site inspection of the subject property.

5.3 Regulatory Agency Contacts

5.3.1 Mendocino County

In August 2026, SHN contacted Mendocino County using the NextRequest online portal to request any hazardous material storage records or planning and building permits for the subject property. SHN also conducted a search Mendocino County's Permit Search database. Mendocino County confirmed that they do not have any records on file for the subject property (Appendix 2).

5.3.2 City of Fort Bragg

In August 2026, SHN contacted the City of Fort Bragg using the NextRequest online portal to request any hazardous material storage records or planning and building permits for the subject property. The City provided documentation related to a proposed Dollar General development on the subject property; however, no additional records were available.

5.3.3 State Regulatory Databases

SHN accessed the following state regulatory websites and confirmed that the subject property and adjacent sites were not listed in their databases:

- SWRCB's Stormwater Multiple Application and Report Tracking System (SMARTS, 2026)
- Department of Toxic Substances Control EnviroStor (DTSC, 2026)
- U.S. EPA Cleanups in My Community (EPA, 2026)

5.4 Interviews and Questionnaires

The questionnaires were developed to address potential areas-of-concern from a hazardous materials perspective that may be present on the subject property and/or known RECs as defined in ASTM Standard E1527-21.

Thomas A. Carine, the current owner of the subject property, completed the Phase 1 ESA "Site Assessment Questionnaire" as a part of the interview process. Thomas A. Carine is not aware of any environmental cleanup lien or government notifications relating to past or recurrent violations with respect to the subject property.

Cynthia Sharon, Board President for Housing Mendocino Coast, complete the Phase 1 ESA "User Questionnaire" as a part of the interview process. Cynthia Sharon is not aware of any environmental cleanup lien or government notifications relating to past or recurrent violations with respect to the subject property.

These two questionnaires and the questionnaire completed by SHN are included in Appendix 5.

6.0 Discussion

6.1 Recognized Environmental Conditions

This section summarizes the findings in this assessment and identifies RECs, if they exist. A REC, as defined in ASTM Standard Practice E1527-21, means:

> " (1) the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release, or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment.
>
> A de minimis condition is not a recognized environmental condition" (ASTM, 2021).

No RECs were identified on the subject property.

A **controlled REC** is defined as a REC resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (as evidenced by issuing a "No Further Action" letter), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls. A controlled REC shall be listed as a REC; however, there are no controlled RECs on the subject property.

A **historical REC** is defined as a past release of any hazardous substance or petroleum product that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority, without subjecting the property to any required controls, such as property use restrictions, activity and use limitations, institutional controls, and/or engineering controls. Historical RECs were identified for adjacent properties. Based upon the findings of this assessment, these sites do not appear to have caused impacts to soil and/or groundwater at the subject property.

A **business environmental risk** is defined as a risk that can have a material environmental or environmentally driven impact on the business associated with the current or planned use of a parcel of commercial real estate, not necessarily limited to those environmental issues required to be investigated by ASTM Standard E1527-21. Consideration of business environmental risk issues may involve addressing one or more non-scope considerations. Business environmental risks include the following:

- Small areas of fill of unknown origin were observed on the subject property
- Adjacent listed sites have been closed by the regulatory agency but were closed prior to issuance of the Low-Threat UST Closure Policy.

No potential or confirmed state or federal Superfund sites are located on or immediately adjacent to the subject property. However, a few agency-listed sites, which are situated within 1/8 mile of subject property, have experienced unauthorized hazardous materials releases in presumed upgradient and cross-gradient locations. To date, none of these agency-listed sites are known to have impacted the subject property from a hazardous materials perspective.

SHN's research conducted for the subject property included interviews with people knowledgeable about the site and reviews of historical maps, aerial photographs, and agency records. This ESA revealed that the subject property has been a vacant lot since the early 1900s.

6.2 Potential for Vapor Intrusion

Given the review of regulatory cases within the vicinity of the subject property, the subject property history, and site closure, the potential for volatile organic compounds in site soil and groundwater and potential for vapor intrusion at the site is low.

7.0 Conclusions and Recommendations

SHN has performed this Phase I ESA in conformance with the scope and limitations of ASTM Standard Practice E1527-21 for the subject property located at 251 S Franklin Street, Fort Bragg, Mendocino County, California 95437. Any exceptions to, or deletions from, this practice are described in Section 9.0 of this report.

SHN encountered no evidence of past land uses on the subject property that may have caused the release of regulated or hazardous materials. There are historical RECs on adjacent properties that have

been remediated to the satisfaction of a regulatory agency. Therefore, as defined in ASTM E1527-21, SHN is recommending no further action at the subject property (such as a Phase II site assessment).

8.0 Limitations

Information contained in this ESA was obtained in part from ERIS (Appendix 4). SHN derived the data in this report primarily from visual inspections, examination of records in the public domain, and interviews with selected individuals with information about the property.

Except as otherwise stated in this report, SHN has not attempted to verify the accuracy or completeness of any such information. The passage of time, manifestation of latent conditions, or occurrence of future events may require further exploration at the property; analysis of the data; and re-evaluation of the findings, observations, and conclusions expressed in this report.

Because of the limitations stated above, the findings, observations, and conclusions expressed by SHN in this report are not, and should not be considered, an opinion concerning the compliance of any past or present owner or operator of the property with any federal, state, or local laws or regulations. No warranty or guarantee, express or implied, is made with respect to the data reported or findings, observations, and conclusions expressed in this report. Such data, findings, observations, and conclusions are based solely on site conditions in existence at the time of the investigation and are not representative of areas of the property that were not readily accessible or observable. No ESA can wholly eliminate uncertainty regarding the potential for an REC in connection with a property. Performance of this practice is intended to reduce, but not eliminate, uncertainty regarding the potential for RECs in connection with a property; this practice recognizes reasonable limits of time and cost.

The ASTM Standard E1527-21 guidance documents state that one of the objectives of a Phase I ESA is to identify the subject property's usage back to when the property was first developed or back to 1940 (whichever is earlier). The preparation of this Phase I ESA did not deviate significantly from the guidelines presented in ASTM E1527-21. SHN was able to delineate a continuous site history dating back to the early 1900s.

9.0 Data Gaps

SHN identified the following data gaps during this Phase I ESA:

- Many of the aerial photographs are several years apart.
- A title report was not provided.

Information regarding early ownership and usage of the subject property was obtained through historical research and maps in connection with the subject property. The data gap does not appear significant, given that the general history was defined, and it has been a vacant lot since the early 1900s.

10.0 Statement of Qualifications of Environmental Professionals

SHN's project team included Logan Wolfe, Julia Maddox, and Roland Rueber. Logan Wolfe performed the site walk. Julia Maddox assisted in preparing the report. Roland Rueber is a Professional Geologist in the State of California and has worked for SHN for more than 20 years. Roland provided quality assurance and quality control for this site assessment.

I declare that, to the best of my professional knowledge and belief, I meet the definition of an Environmental Professional as defined in §312.10 of 40 Code of Federal Regulations (CFR) 312. I have the specific qualifications based on education, training, and experience to assess a property of this nature, history, and setting of the subject property. I have developed and performed the All-Appropriate Inquiries (AAI) in conformance with the standards and practices set forth in 40 CFR Part 312.

_____ 9/29/2026

Roland Rueber, PG **Date**
Senior Geologist

Appendix 2
File Review Documents

CITY OF FORT BRAGG
PROFESSIONAL SERVICES AGREEMENT
WITH
FEHR & PEERS

THIS AGREEMENT is made and entered into this __ day of January, 2021 ("Effective Date"), by and between the CITY OF FORT BRAGG, a municipal corporation, 416 N. Franklin Street, Fort Bragg, California 95437 ("City"), and FEHR & PEERS, a California corporation, 100 Pringle Avenue; Suite 600, Walnut Creek, California 94596 ("Consultant").

W I T N E S S E T H :

A. WHEREAS, City proposes to utilize the services of Consultant as an independent contractor to prepare a Transportation Impact Assessment for the Dollar General Project at 231 South Franklin Street, as more fully described herein; and

B. WHEREAS, City and Consultant desire to contract for the specific services described in **Exhibit A** (the "Project") and desire to set forth their rights, duties and liabilities in connection with the services to be performed; and

C. WHEREAS, no official or employee of City has a financial interest, within the provisions of Sections 1090-1092 of the California Government Code, in the subject matter of this Agreement.

D. WHEREAS, the legislative body of the City on January 25, 2021 by Resolution No. _____ authorized execution of this Agreement on behalf of the City in accordance with Chapter 3.20 of the City Municipal Code and/or other applicable law;

NOW, THEREFORE, for and in consideration of the mutual covenants and conditions contained herein, the parties hereby agree as follows:

1.0. SERVICES PROVIDED BY CONSULTANT

1.1. Scope of Work. Consultant shall provide the professional services described in the Consultant's Proposal ("Proposal"), attached hereto as **Exhibit A** and incorporated herein by this reference.

1.2. Professional Practices. All professional services to be provided by Consultant pursuant to this Agreement shall be provided by personnel experienced in their respective fields and in a manner consistent with the standards of care, diligence and skill ordinarily exercised by professional consultants in similar fields and circumstances in accordance with sound professional practices. Consultant also warrants that it is familiar with all laws that may affect its performance of this Agreement and shall advise City of any changes in any laws that may affect Consultant's performance of this Agreement. Consultant shall keep itself informed of State and Federal laws and regulations which in any manner affect those employed by it or in any way affect the performance of its service pursuant to this Agreement. The Consultant shall at all times observe and comply with all such laws and regulations. City officers and employees shall not be liable at law or in equity occasioned by failure of the Consultant to comply with this section.

1.3. Performance to Satisfaction of City. Consultant agrees to perform all the work to the complete satisfaction of the City as hereinafter specified. Evaluations of the work will be done by the City Manager or his or her designee. If the quality of work is not satisfactory, City in its

discretion has the right to:

(a) Meet with Consultant to review the quality of the work and resolve the matters of concern;

(b) Require Consultant to repeat the work at no additional fee until it is satisfactory; and/or

(c) Terminate the Agreement as hereinafter set forth.

1.4. Warranty. Consultant warrants that it shall perform the services required by this Agreement in compliance with all applicable Federal and California employment laws, including, but not limited to, those laws related to minimum hours and wages; occupational health and safety; fair employment and employment practices; workers' compensation insurance and safety in employment; and all other Federal, State and local laws and ordinances applicable to the services required under this Agreement. Consultant shall indemnify and hold harmless City from and against all claims, demands, payments, suits, actions, proceedings, and judgments of every nature and description including attorneys' fees and costs, presented, brought, or recovered against City for or on account of any liability under any of the above-mentioned laws, which may be incurred by reason of Consultant's performance under this Agreement. To the extent that this Agreement may be funded by fiscal assistance from another governmental entity, Consultant and any subcontractors shall comply with all applicable rules and regulations to which City is bound by the terms of such fiscal assistance program.

1.5. Non-discrimination. In performing this Agreement, Consultant shall not engage in, nor permit its agents to engage in, discrimination in employment of persons because of their race, religion, color, national origin, ancestry, age, physical handicap, medical condition, marital status, sexual gender, sexual orientation, or disability except as permitted pursuant to Section 12940 of the Government Code. Such actions shall include, but not be limited to the following: employment, upgrading, demotion or transfer, recruitment or recruitment advertising, layoff or termination, rates of pay or other forms of compensation and selection for training, including apprenticeship. Consultant agrees to post in conspicuous places, available to employees and applicants for employment, a notice setting forth provisions of this non-discrimination clause.

Consultant shall, in all solicitations and advertisements for employees placed by, or on behalf of Consultant, state that all qualified applicants will receive consideration for employment without regard to race, religion, color, national origin, ancestry, age, physical handicap, medical condition, marital status, sexual gender, sexual orientation, or disability. Consultant shall cause the paragraphs contained in this Section to be inserted in all subcontracts for any work covered by the Agreement, provided that the foregoing provisions shall not apply to subcontracts for standard commercial supplies or raw materials.

1.6. Non-Exclusive Agreement. Consultant acknowledges that City may enter into agreements with other consultants for services similar to the services that are subject to this Agreement or may have its own employees perform services similar to those services contemplated by this Agreement.

1.7. Delegation and Assignment. This is a personal service contract, and the duties set forth herein shall not be delegated or assigned to any person or entity without the prior written consent of City. Consultant may engage a subcontractor(s) as permitted by law and may employ other personnel to perform services contemplated by this Agreement at Consultant's sole cost and expense. All insurance requirements contained in this Agreement are independently applicable to any and all subcontractors that Consultant may engage during the term of this

Agreement.

1.8. Confidentiality. Employees of Consultant in the course of their duties may have access to financial, accounting, statistical, and personnel data of private individuals and employees of City. Consultant covenants that all data, documents, discussion, or other information developed or received by Consultant or provided for performance of this Agreement are deemed confidential and shall not be disclosed by Consultant without written authorization by City. City shall grant such authorization if disclosure is required by law. All City data shall be returned to City upon the termination of this Agreement. Consultant's covenant under this Section shall survive the termination of this Agreement.

2.0. COMPENSATION AND BILLING

2.1. Compensation. Consultant's total compensation shall not exceed **Forty-nine Thousand Nine Hundred Thirty-five Dollars ($49,935.00).**

2.2. Additional Services. Consultant shall not receive compensation for any services provided outside the scope of work specified in the Consultant's Proposal or which is inconsistent with or in violation of the provisions of this Agreement unless the City or the Project Manager for this Project, prior to Consultant performing the additional services, approves such additional services in writing. It is specifically understood that oral requests and/or approvals of such additional services or additional compensation shall be barred and are unenforceable. Should the City request in writing additional services that increase the hereinabove described "Scope of Work," an additional fee based upon the Consultant's standard hourly rates shall be paid to the Consultant for such additional services. The City Manager may approve contract change orders not exceeding a total of 10% of the approved contract or up to the contingency amount whichever amount is less for any one project.

2.3. Method of Billing. Consultant may submit invoices to the City for approval on a progress basis, but not more often than monthly. Said invoice shall be based on the total of all Consultant's services which have been completed to City's sole satisfaction. City shall pay Consultant's invoice within forty-five (45) days from the date City receives said invoice. Each invoice shall describe in detail, the services performed, the date of performance, and the associated time for completion. Any additional services approved and performed pursuant to this Agreement shall be designated as "Additional Services" and shall identify the number of the authorized change order, where applicable, on all invoices.

2.4. Records and Audits. Records of Consultant's services relating to this Agreement shall be maintained in accordance with generally recognized accounting principles and shall be made available to City or its Project Manager for inspection and/or audit at mutually convenient times for a period of three (3) years from the date of final payment.

3.0. TIME OF PERFORMANCE

3.1. Commencement and Completion of Work. The professional services to be performed pursuant to this Agreement shall commence within five (5) days from the issuance of Notice to Proceed. Said services shall be performed in strict compliance with the schedule set forth in the Scope of Work attached hereto as **Exhibit A**. Consultant will complete the services in accordance with this Agreement by **March 31, 2021.** The Time of Completion may only be modified by a written amendment of the Agreement signed by both the City and the Consultant and in accordance with its terms.

3.2. Excusable Delays. Neither party shall be responsible for delays or lack of

performance resulting from acts beyond the reasonable control of the party or parties. Such acts shall include, but not be limited to, acts of God, fire, strikes, material shortages, compliance with laws or regulations, riots, acts of war, or any other conditions beyond the reasonable control of a party. If a delay beyond the control of the Consultant is encountered, a time extension may be mutually agreed upon in writing by the City and the Consultant. The Consultant shall present documentation satisfactory to the City to substantiate any request for a time extension.

4.0. TERM AND TERMINATION

4.1. Term. This Agreement shall commence on the Effective Date and expire on **June 30, 2021** unless previously terminated as provided herein or as otherwise agreed to in writing by the parties.

4.2. Notice of Termination. The City reserves and has the right and privilege of canceling, suspending or abandoning the execution of all or any part of the work contemplated by this Agreement, with or without cause, at any time, by providing at least ten (10) days prior written notice to Consultant. The termination of this Agreement shall be deemed effective upon receipt of the notice of termination. In the event of such termination, Consultant shall immediately stop rendering services under this Agreement unless directed otherwise by the City. If the City suspends, terminates or abandons a portion of this Agreement, such suspension, termination or abandonment shall not make void or invalidate the remainder of this Agreement.

If the Consultant defaults in the performance of any of the terms or conditions of this Agreement, it shall have ten (10) days after service upon it of written notice of such default in which to cure the default by rendering a satisfactory performance. In the event that the Consultant fails to cure its default within such period of time, the City shall have the right, notwithstanding any other provision of this Agreement, to terminate this Agreement without further notice and without prejudice to any other remedy to which it may be entitled at law, in equity or under this Agreement.

The City shall have the right, notwithstanding any other provisions of this Agreement, to terminate this Agreement, at its option and without prejudice to any other remedy to which it may be entitled at law, in equity or under this Agreement, immediately upon service of written notice of termination on the Consultant, if the latter should:

a. Be adjudged a bankrupt;

b. Become insolvent or have a receiver of its assets or property appointed because of insolvency;

c. Make a general assignment for the benefit of creditors;

d. Default in the performance of any obligation or payment of any indebtedness under this Agreement;

e. Suffer any judgment against it to remain unsatisfied or unbonded of record for thirty (30) days or longer; or

f. Institute or suffer to be instituted any procedures for reorganization or rearrangement of its affairs.

4.3. Compensation. In the event of termination, City shall pay Consultant for reasonable costs incurred and professional services satisfactorily performed up to and including

the date of City's written notice of termination within thirty-five (35) days after service of the notice of termination. Compensation for work in progress shall be prorated based on the percentage of work completed as of the effective date of termination in accordance with the fees set forth herein. In ascertaining the professional services actually rendered hereunder up to the effective date of termination of this Agreement, consideration shall be given to both completed work and work in progress, to complete and incomplete drawings, and to other documents pertaining to the services contemplated herein whether delivered to the City or in the possession of the Consultant. City shall not be liable for any claim of lost profits.

4.4. Documents. In the event of termination of this Agreement, all documents prepared by Consultant in its performance of this Agreement including, but not limited to, finished or unfinished design, development and construction documents, data studies, drawings, maps and reports, shall be delivered to the City within ten (10) days of delivery of termination notice to Consultant, at no cost to City. Any use of uncompleted documents without specific written authorization from Consultant shall be at City's sole risk and without liability or legal expense to Consultant.

5.0. INSURANCE

5.1. Minimum Scope and Limits of Insurance. Consultant shall obtain, maintain, and keep in full force and effect during the life of this Agreement all of the following minimum scope of insurance coverages with an insurance company admitted to do business in California, rated "A," Class X, or better in the most recent Best's Key Insurance Rating Guide, and approved by City:

(a) Broad-form commercial general liability, in a form at least as broad as ISO form #CG 20 01 04 13, including premises-operations, products/ completed operations, broad form property damage, blanket contractual liability, independent contractors, personal injury or bodily injury with a policy limit of not less than One Million Dollars ($1,000,000.00) per occurrence, Two Million Dollars ($2,000,000.00) aggregate, combined single limits. If such insurance contains a general aggregate limit, it shall apply separately to this Agreement or shall be twice the required occurrence limit. If Consultant maintains higher limits than the specified minimum limits, City requires and shall be entitled to coverage for the high limits maintained by the Consultant.

(b) Business automobile liability for owned vehicles, hired, and non-owned vehicles, with a policy limit of not less than One Million Dollars ($1,000,000.00), combined single limits, each incident for bodily injury and property damage.

(c) Workers' compensation insurance as required by the State of California and Employers Liability Insurance with a minimum limit of $1,000,000 per accident for any employee or employees of Consultant. Consultant agrees to waive, and to obtain endorsements from its workers' compensation insurer waiving subrogation rights under its workers' compensation insurance policy against the City, its officials, officers, agents, employees, and volunteers for losses arising from work performed by Consultant for the City and to require each of its subcontractors, if any, to do likewise under their workers' compensation insurance policies.

Before execution of this Agreement by the City, the Consultant shall file with the City Clerk the following signed certification:

> I am aware of, and will comply with, Section 3700 of the Labor Code, requiring every employer to be insured against liability of Workers' Compensation or to undertake self-insurance before commencing any of the work.

The Consultant shall also comply with Section 3800 of the Labor Code by securing, paying for and maintaining in full force and effect for the duration of this Agreement, complete Workers' Compensation Insurance, and shall furnish a Certificate of Insurance to the City Clerk before execution of this Agreement by the City. The City, its officers and employees shall not be responsible for any claims in law or equity occasioned by failure of the consultant to comply with this section.

(d) Professional errors and omissions ("E&O") liability insurance with policy limits of not less than Two Million Dollars ($2,000,000.00), combined single limits, per occurrence and aggregate. Architects' and engineers' coverage shall be endorsed to include contractual liability. If the policy is written as a "claims made" policy, the retro date shall be prior to the start of the contract work. Consultant shall obtain and maintain said E&O liability insurance during the life of this Agreement and for three years after completion of the work hereunder.

Neither the City nor any of its elected or appointed officials, officers, agents, employees, or volunteers makes any representation that the types of insurance and the limits specified to be carried by Consultant under this Agreement are adequate to protect Consultant. If Consultant believes that any such insurance coverage is insufficient, Consultant shall provide, at its own expense, such additional insurance as Consultant deems adequate.

5.2. Endorsements. The commercial general liability insurance policy and business automobile liability policy shall contain or be endorsed to contain the following provisions:

(a) Additional insureds: "The City of Fort Bragg and its elected and appointed boards, officers, officials, agents, employees, and volunteers are additional insureds with respect to: liability arising out of activities performed by or on behalf of the Consultant pursuant to its contract with the City; products and completed operations of the Consultant; premises owned, occupied or used by the Consultant; automobiles owned, leased, hired, or borrowed by the Consultant."

(b) Notice: "Consultant shall provide immediate written notice if (1) any of the required insurance policies is terminated; (2) the limits of any of the required polices are reduced; or (3) the deductible or self-insured retention is increased. In the event of any cancellation or reduction in coverage or limits of any insurance, Consultant shall forthwith obtain and submit proof of substitute insurance. Should Consultant fail to immediately procure other insurance, as specified, to substitute for any canceled policy, the City may procure such insurance at Consultant's sole cost and expense."

(c) Other insurance: "The Consultant's insurance coverage shall be primary insurance as respects the City of Fort Bragg, its officers, officials, agents,

employees, and volunteers. Any other insurance maintained by the City of Fort Bragg shall be excess and not contributing with the insurance provided by this policy."

(d) Any failure to comply with the reporting provisions of the policies shall not affect coverage provided to the City of Fort Bragg, its officers, officials, agents, employees, and volunteers.

(e) The Consultant's insurance shall apply separately to each insured against whom claim is made or suit is brought, except with respect to the limits of the insurer's liability.

5.3. Deductible or Self-Insured Retention. If any of such policies provide for a deductible or self-insured retention to provide such coverage, the amount of such deductible or self-insured retention shall be approved in advance by City. No policy of insurance issued as to which the City is an additional insured shall contain a provision which requires that no insured except the named insured can satisfy any such deductible or self-insured retention.

5.4. Certificates of Insurance. Consultant shall provide to City certificates of insurance showing the insurance coverages and required endorsements described above, in a form and content approved by City, prior to performing any services under this Agreement. The certificates of insurance and endorsements shall be attached hereto as **Exhibit B** and incorporated herein by this reference.

5.5. Non-limiting. Nothing in this Section shall be construed as limiting in any way, the indemnification provision contained in this Agreement, or the extent to which Consultant may be held responsible for payments of damages to persons or property.

6.0. GENERAL PROVISIONS

6.1. Entire Agreement. This Agreement constitutes the entire agreement between the parties with respect to any matter referenced herein and supersedes any and all other prior writings and oral negotiations. This Agreement may be modified only in writing, and signed by the parties in interest at the time of such modification. The terms of this Agreement shall prevail over any inconsistent provision in any other contract document appurtenant hereto, including exhibits to this Agreement.

6.2. Representatives. The City Manager or his or her designee shall be the representative of City for purposes of this Agreement and may issue all consents, approvals, directives and agreements on behalf of the City, called for by this Agreement, except as otherwise expressly provided in this Agreement.

Consultant shall designate a representative for purposes of this Agreement who shall be authorized to issue all consents, approvals, directives and agreements on behalf of Consultant called for by this Agreement, except as otherwise expressly provided in this Agreement.

6.3. Project Managers. The Project Manager designated to work directly with Consultant in the performance of this Agreement will be Chantell O'Neal, Assistant Director – Engineering Division. It shall be the Consultant's responsibility to assure that the Project Manager is kept informed of the progress of the performance of the services and the Consultant shall refer any decision, which must be made by City, to the Project Manager. Unless otherwise specified herein, any approval of City required hereunder shall mean the approval of the Project Manager.

Consultant designates Ian Barnes, PE, Senior Associate, as its Project Manager, who shall represent it and be its agent in all consultations with City during the term of this Agreement and who shall not be changed by Consultant without the express written approval by the City. Consultant or its Project Manager shall attend and assist in all coordination meetings called by City.

6.4. Notices. Any notices, documents, correspondence or other communications concerning this Agreement or the work hereunder may be provided by personal delivery, facsimile or if mailed, shall be addressed as set forth below and placed in a sealed envelope, postage prepaid, and deposited in the United States Postal Service. Such communication shall be deemed served or delivered: a) at the time of delivery if such communication is sent by personal delivery; b) at the time of transmission if such communication is sent by facsimile; and c) 72 hours after deposit in the U.S. Mail as reflected by the official U.S. postmark if such communication is sent through regular United States mail.

IF TO CONSULTANT:	IF TO CITY:
Ian Barnes, PE	City Clerk
Fehr & Peers	City of Fort Bragg

Walnut Creek, CA 94596	Fort Bragg, CA 95437
Tel: 925-930-7100	Tel: 707-961-2823
Fax: 925-933-7090	Fax: 707-961-2802

6.5. Attorneys' Fees. In the event that litigation is brought by any party in connection with this Agreement, the prevailing party shall be entitled to recover from the opposing party all costs and expenses, including reasonable attorneys' fees, incurred by the prevailing party in the exercise of any of its rights or remedies hereunder or the enforcement of any of the terms, conditions, or provisions hereof.

6.6. Governing Law. This Agreement shall be governed by and construed under the laws of the State of California without giving effect to that body of laws pertaining to conflict of laws. In the event of any legal action to enforce or interpret this Agreement, the parties hereto agree that the sole and exclusive venue shall be a court of competent jurisdiction located in Mendocino County, California. Consultant agrees to submit to the personal jurisdiction of such court in the event of such action.

6.7. Assignment. Consultant shall not voluntarily or by operation of law assign, transfer, sublet or encumber all or any part of Consultant's interest in this Agreement without City's prior written consent. Any attempted assignment, transfer, subletting or encumbrance shall be void and shall constitute a breach of this Agreement and cause for termination of this Agreement. Regardless of City's consent, no subletting or assignment shall release Consultant of Consultant's obligation to perform all other obligations to be performed by Consultant hereunder for the term of this Agreement.

6.8. Indemnification and Hold Harmless. If Consultant is not a design professional performing "design professional" services under this Agreement, as that term is defined in Civil Code Section 2782.8, Consultant agrees to defend, indemnify, hold free and harmless the City, its elected and appointed officials, officers, agents and employees, at Consultant's sole expense, from and against any and all claims, demands, actions, suits or other legal proceedings brought against the City, its elected and appointed officials, officers, agents and employees arising out of the performance of the Consultant, its employees, and/or authorized subcontractors, of the work undertaken pursuant to this Agreement. The defense obligation provided for hereunder shall apply

whenever any claim, action, complaint or suit asserts liability against the City, its elected and appointed officials, officers, agents and employees based upon the work performed by the Consultant, its employees, and/or authorized subcontractors under this Agreement, whether or not the Consultant, its employees, and/or authorized subcontractors are specifically named or otherwise asserted to be liable. Notwithstanding the foregoing, the Consultant shall not be liable for the defense or indemnification of the City for claims, actions, complaints or suits arising out of the sole active negligence or willful misconduct of the City. This provision shall supersede and replace all other indemnity provisions contained either in the City's specifications or Consultant's Proposal, which shall be of no force and effect.

6.9. Independent Contractor. Consultant is and shall be acting at all times as an independent contractor and not as an employee of City. Consultant shall have no power to incur any debt, obligation, or liability on behalf of City or otherwise act on behalf of City as an agent. Neither City nor any of its agents shall have control over the conduct of Consultant or any of Consultant's employees, except as set forth in this Agreement. Consultant shall not, at any time, or in any manner, represent that it or any of its or employees are in any manner agents or employees of City. Consultant shall secure, at its sole expense, and be responsible for any and all payment of Income Tax, Social Security, State Disability Insurance Compensation, Unemployment Compensation, and other payroll deductions for Consultant and its officers, agents, and employees, and all business licenses, if any are required, in connection with the services to be performed hereunder. Consultant shall indemnify and hold City harmless from any and all taxes, assessments, penalties, and interest asserted against City by reason of the independent contractor relationship created by this Agreement. Consultant further agrees to indemnify and hold City harmless from any failure of Consultant to comply with the applicable worker's compensation laws. City shall have the right to offset against the amount of any fees due to Consultant under this Agreement any amount due to City from Consultant as a result of Consultant's failure to promptly pay to City any reimbursement or indemnification arising under this paragraph.

6.10. PERS Eligibility Indemnification. In the event that Consultant or any employee, agent, or subcontractor of Consultant providing services under this Agreement claims or is determined by a court of competent jurisdiction or the California Public Employees Retirement System (PERS) to be eligible for enrollment in PERS as an employee of the City, Consultant shall indemnify, defend, and hold harmless City for the payment of any employee and/or employer contributions for PERS benefits on behalf of Consultant or its employees, agents, or subcontractors, as well as for the payment of any penalties and interest on such contributions, which would otherwise be the responsibility of City.

Notwithstanding any other agency, state or federal policy, rule, regulation, law or ordinance to the contrary, Consultant and any of its employees, agents, and subcontractors providing service under this Agreement shall not qualify for or become entitled to, and hereby agree to waive any claims to, any compensation, benefit, or any incident of employment by City, including but not limited to eligibility to enroll in PERS as an employee of City and entitlement to any contribution to be paid by City for employer contribution and/or employee contributions for PERS benefits.

6.11. Cooperation. In the event any claim or action is brought against City relating to Consultant's performance or services rendered under this Agreement, Consultant shall render any reasonable assistance and cooperation which City might require.

6.12. Ownership of Documents. All findings, reports, documents, information and data including, but not limited to, computer tapes or discs, preliminary notes, working documents, files and tapes furnished or prepared by Consultant or any of its subcontractors in the course of

performance of this Agreement, shall be and remain the sole property of City. Consultant agrees that any such documents or information shall not be made available to any individual or organization without the prior consent of City, but shall be made available to the City within ten (10) days of request or within ten (10) days of termination. Any use of such documents for other projects not contemplated by this Agreement, and any use of incomplete documents, shall be at the sole risk of City and without liability or legal exposure to Consultant. City shall indemnify and hold harmless Consultant from all claims, damages, losses, and expenses, including attorneys' fees, arising out of or resulting from City's use of such documents for other projects not contemplated by this Agreement or use of incomplete documents furnished by Consultant. Consultant shall deliver to City any findings, reports, documents, information, data, preliminary notes and working documents, in any form, including but not limited to, computer tapes, discs, files audio tapes or any other Project related items as requested by City or its authorized representative, at no additional cost to the City. Consultant or Consultant's agents shall execute such documents as may be necessary from time to time to confirm City's ownership of the copyright in such documents.

6.13. Public Records Act Disclosure. Consultant has been advised and is aware that this Agreement and all reports, documents, information and data, including, but not limited to, computer tapes, discs or files furnished or prepared by Consultant, or any of its subcontractors, pursuant to this Agreement and provided to City may be subject to public disclosure as required by the California Public Records Act (California Government Code Section 6250 *et seq*.). Exceptions to public disclosure may be those documents or information that qualify as trade secrets, as that term is defined in the California Government Code Section 6254.7, and of which Consultant informs City of such trade secret. The City will endeavor to maintain as confidential all information obtained by it that is designated as a trade secret. The City shall not, in any way, be liable or responsible for the disclosure of any trade secret including, without limitation, those records so marked if disclosure is deemed to be required by law or by order of the Court.

6.14. Conflict of Interest. Consultant and its officers, employees, associates and subconsultants, if any, will comply with all conflict of interest statutes of the State of California applicable to Consultant's services under this agreement, including, but not limited to, the Political Reform Act (Government Code Sections 81000, *et seq*.) and Government Code Section 1090. During the term of this Agreement, Consultant and its officers, employees, associates and subconsultants shall not, without the prior written approval of the City Representative, perform work for another person or entity for whom Consultant is not currently performing work that would require Consultant or one of its officers, employees, associates or subconsultants to abstain from a decision under this Agreement pursuant to a conflict of interest statute.

6.15. Responsibility for Errors. Consultant shall be responsible for its work and results under this Agreement. Consultant, when requested, shall furnish clarification and/or explanation as may be required by the City's representative, regarding any services rendered under this Agreement at no additional cost to City. In the event that an error or omission attributable to Consultant occurs, then Consultant shall, at no cost to City, provide all necessary design drawings, estimates and other Consultant professional services necessary to rectify and correct the matter to the sole satisfaction of City and to participate in any meeting required with regard to the correction.

6.16. Prohibited Employment. Consultant will not employ any regular employee of City while this Agreement is in effect.

6.17. Order of Precedence. In the event of an inconsistency in this Agreement and any of the attached Exhibits, the terms set forth in this Agreement shall prevail. If, and to the extent this Agreement incorporates by reference any provision of any document, such provision shall be

deemed a part of this Agreement. Nevertheless, if there is any conflict among the terms and conditions of this Agreement and those of any such provision or provisions so incorporated by reference, the conflict shall be resolved by giving precedence in the following order, if applicable: This Agreement, the City's Request for Proposals, the Consultant's Proposal.

6.18. Costs. Each party shall bear its own costs and fees incurred in the preparation and negotiation of this Agreement and in the performance of its obligations hereunder except as expressly provided herein.

6.19. No Third Party Beneficiary Rights. This Agreement is entered into for the sole benefit of City and Consultant and no other parties are intended to be direct or incidental beneficiaries of this Agreement and no third party shall have any right in, under or to this Agreement.

6.20. Headings. Paragraph and subparagraph headings contained in this Agreement are included solely for convenience and are not intended to modify, explain or to be a full or accurate description of the content thereof and shall not in any way affect the meaning or interpretation of this Agreement.

6.21. Construction. The parties have participated jointly in the negotiation and drafting of this Agreement. In the event an ambiguity or question of intent or interpretation arises with respect to this Agreement, this Agreement shall be construed as if drafted jointly by the parties and in accordance with its fair meaning. There shall be no presumption or burden of proof favoring or disfavoring any party by virtue of the authorship of any of the provisions of this Agreement.

6.22. Amendments. Only a writing executed by the parties hereto or their respective successors and assigns may amend this Agreement.

6.23. Waiver. The delay or failure of either party at any time to require performance or compliance by the other of any of its obligations or agreements shall in no way be deemed a waiver of those rights to require such performance or compliance. No waiver of any provision of this Agreement shall be effective unless in writing and signed by a duly authorized representative of the party against whom enforcement of a waiver is sought. The waiver of any right or remedy in respect to any occurrence or event shall not be deemed a waiver of any right or remedy in respect to any other occurrence or event, nor shall any waiver constitute a continuing waiver.

6.24. Severability. If any provision of this Agreement is determined by a court of competent jurisdiction to be unenforceable in any circumstance, such determination shall not affect the validity or enforceability of the remaining terms and provisions hereof or of the offending provision in any other circumstance. Notwithstanding the foregoing, if the value of this Agreement, based upon the substantial benefit of the bargain for any party, is materially impaired, which determination made by the presiding court or arbitrator of competent jurisdiction shall be binding, then both parties agree to substitute such provision(s) through good faith negotiations.

6.25. Counterparts. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original. All counterparts shall be construed together and shall constitute one agreement.

6.26. Corporate Authority. The persons executing this Agreement on behalf of the parties hereto warrant that they are duly authorized to execute this Agreement on behalf of said parties and that by doing so the parties hereto are formally bound to the provisions of this Agreement.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed by and through their respective authorized officers, as of the date first above written.

Personal Financial Information

Subject: **Proposal for a Transportation Impact Assessment for the Dollar General Project in Fort Bragg, California**

Dear Person

Thank you for contacting Fehr & Peers to prepare a transportation impact assessment (TIA) for the Dollar General project in central Fort Bragg, California. We understand that a TIA is requested to support the development of a 9,000 square foot retail building at 231 South Franklin Street in Fort Bragg. We understand that there is the potential for substantial community scrutiny on the CEQA VMT assessment for the project as well as on the informational Level of Service (LOS) assessment requested to be completed in parallel with the CEQA analysis.

The following scope of work includes five tasks.

Scope of Work

Task 1 – CEQA VMT Analysis

Fehr & Peers will leverage its recently-completed SB 743 implementation work with the Mendocino Council of Governments (MCOG) to assess the project's effect on VMT. As noted in the final report for the MCOG project, local-serving retail projects under 50,000 square feet may qualify for a finding of a less-than-significant VMT impact without further study. It is assumed, however, due to the potential for controversy on the project, a VMT calculation would still be required to demonstrate that the project's impacts are less-than-significant.

Fehr & Peers will use the latest available version of the MCOG travel demand model to assess VMT for the project. Per the MCOG report, because VMT per capita is expected to increase in the Fort Bragg area over time, Fehr & Peers will calculate project VMT (using the daily total VMT per service population metric) and project effect on VMT (using absolute VMT as the metric). VMT metrics will be calculated for the Baseline, Baseline plus Project, Cumulative and Cumulative plus Project scenarios. Plus Project VMT metrics will be compared against No Project scenario metrics using impact criteria developed through the MCOG SB 743 implementation project. Due to the project's close proximity to State Route 1, it is recommended that the thresholds in the OPR *Technical Advisory* be used as a basis for the selection of thresholds due to the high likelihood of Caltrans District 1 staff providing comments on the environmental document for the project. If significant impacts are found, mitigation measures will be proposed and their effects quantified using data from CAPCOA's *Quantifying Greenhouse Gas Reduction Measures*.

Task 2 – Other Required CEQA Analyses

Fehr & Peers will review site access and circulation for the project site using the provided site plan. This assessment will include reviewing the following items:

- Site access and interface with public roadway network, including drop-off/pick-up zones
- Vehicular access and circulation within and adjacent to the project site
- Pedestrian access and circulation within and adjacent to the project site
- Bicycle access and circulation within and adjacent to the project site
- Emergency vehicle access and circulation
- Consistency with approved plans related to the bicycle, pedestrian and transit modes

Recommendation measures will be developed to address potential deficiencies in these areas.

Task 3 – Informational Off-Site Level of Service Analysis

Fehr & Peers will complete an informational off-site LOS analysis of up to five intersections, to be selected in coordination with City staff. Per SB 743, this analysis is not part of the CEQA process, but could be helpful in determining the project's off-site effects for the purposes of comparison against City General Plan goals and policies related to the function of the circulation system.

Due to the effects of the COVID-19 pandemic, new traffic counts are generally not presently being collected for traffic studies as current traffic patterns are not considered to be representative of normal conditions. Fehr & Peers will use recent traffic count data from the City of Fort Bragg, if available. For other intersections for which data is not available from previous studies, Fehr & Peers will download and process StreetLight Data estimates of turning movement volumes and develop Existing Conditions volumes using this data. For the purposes of this scoping effort, it is assumed that all study intersections will require the StreetLight Data volume estimate approach.

Fehr & Peers will analyze intersection LOS for Existing, Existing plus Project, Cumulative and Cumulative with Project conditions using the Synchro software analysis package. Signal timing data will be requested from the relevant agencies. Project trip assignments will be developed using the data from Task 1. Cumulative forecasts will be developed using the latest version of the MCOG model. Project scenario operations will be compared against No Project scenario operations using the relevant criteria for the City of Fort Bragg; if new deficiencies are found, Fehr & Peers will propose improvement measures.

Task 4 – Documentation

Fehr & Peers will summarize the work from Tasks 1-3 in this scope of work in the following reports:

- Draft TIA
- Final TIA

It is assumed that the project team, City of Fort Bragg, and other reviewing agencies (Caltrans, etc.) may have moderate technical and editorial comments on the Draft TIA. We will respond to one round of consolidated comments (up to eight total staff hours) and prepare a Final TIA. This scope of work also assumes the TIA will serve as sufficient documentation for M-Group to incorporate findings into the DEIR; however, up to six hours of staff time is included to assist in responses to comments on the environmental documentation for the project.

Task 5 – Meetings/Conference Calls

Fehr & Peers will participate in up to two team conference calls over the course of the project. Additionally, Fehr & Peers will attend up to two four-hour evening virtual meetings over the course of the project (assumed to be Planning Commission and City Council meetings associated with adoption of the project). Additional meetings can be accommodated on a time-and-materials basis, subject to a scope amendment.

Schedule and Fee

Fehr & Peers will perform Tasks 1-5 on a time-and-materials basis for a not-to-exceed fee of $49,935. We will begin work following receipt of a fully executed contract. We anticipate that we can complete the Draft TIA within six to eight weeks of commencing work. We are committed to develop a mutually-agreeable schedule for our work based on more information about the timeline for the project. If the scope, schedule and fee are acceptable, please provide us with a contract for our review and execution.

Please contact Ian at (925) 930-7100 with questions or if you need additional information. We look forward to working with you on this project.

Sincerely,

FEHR & PEERS

Ian Barnes, PE
Senior Associate/Office Leader

PROJECT DESCRIPTION (Briefly describe project as shown on proposed plans.)

The project is a 9,100 +/- square foot Dollar General retail store to be located on 1.033-acre site, built in a single phase. The project is located at the corner of South Franklin Street and Maple Street (APN# 008-172-09-00). Loading/deliveries will occur at the North western corner of the building/site and an adequate area is provided for truck staging and movements. Operation hours are generally 8:00am to 9:00pm seven days per week. There are generally six to eight

CERTIFICATION

I hereby certify that I have read this completed application and that, to the best of my knowledge, the information in this application and all attachments is complete and accurate. I understand that failure to provide requested information or misstatements submitted in support of the application shall be grounds for either refusing to accept the application, for denying the permit, for suspending or revoking a permit issued on the basis of such misrepresentations, or for seeking of such further relief as may seem proper to the City.

INDEMNIFICATION AND HOLD HARMLESS AGREEMENT

ORDINANCE No. 771, adopted by the Fort Bragg City Council on September 26, 1994, requires applicants for discretionary land use approvals to sign the following Indemnification Agreement. Failure to sign this agreement will result in the application being considered incomplete and withheld from further processing.

As part of this application, the applicant agrees to defend, indemnify, release and hold harmless the City of Fort Bragg, its agents, officers, attorneys, employees, boards and commissions, as more particularly set forth in Fort Bragg Municipal Code Chapter 18.77, from any claim, action or proceeding brought against any of the foregoing individuals or entities, the purpose of which is to attach, set aside, void or annul the approval of this application or adoption of the environmental document which accompanies it. The indemnification shall include, but not be limited to, damages, costs, expenses, attorney fees or expert witness fees that may be asserted by any person or entity, including the applicant, arising out of or in connection with the approval of this application, whether or not there is concurrent, passive or active negligence on the part of the City, its agents, officers, attorneys, employees, boards and commissions.

EXHIBIT "A"
SCOPE OF SERVICES

CONSULTANT shall provide professional services for CITY focusing on programs related to the CITY's planning and development processes. The CONSULTANT shall manage these tasks below within the policy framework set forth by the CITY and act with independent judgement to ensure deliverables are met in accordance to the terms of this exhibit.

CONSULTANT shall complete review of the Dollar General project (251 South Franklin Street), which is a development proposal requesting Design Review/Site & Architectural Review for a new approximately 9,100 square foot retail store on a one-acre corner parcel. The project requires review by the CITY's Planning Commission.

Task Overview:

- Task 1 - Project Management
- Task 2 - Technical Review
- Task 3 - Environmental Review
- Task 4 - Report or Document Preparation
- Task 5 - Presentation
- Task 6 - Meeting Attendance

Task 1 – Project Management

Consulting Planner shall serve as the Project Manager for this project, which includes, but is not necessarily limited to the following: proactive application processing within city established timelines, to the extent feasible; establish a professional relationship with the applicant team, city staff and other project consultants; facilitate and coordinate meetings; maintain an organized and complete project file, remove extraneous material from the project file in compliance with the city's retention program; provide frequent updates to responsible City Contact; be responsive to city requests for information and project updates as needed; ensure overall quality assurance or work; properly invoice in accordance with this scope; and seek guidance from City Contact as needed.

Task 2 - Technical Review

Review the project in compliance with applicable technical codes, including state and federal law, local zoning codes, Coastal General Plan, Inland General Plan, Local Coast Program, Coastal Land Use & Development Code, City's Municipal Code, city policies, guidelines, plans and related documents that apply to the project. Apply these rules, regulations and procedures to the proposed project (two rounds of review).

Task 3 - Environmental Review

In consultation with City Contact, assess the project in compliance with the California Environmental Quality Act (CEQA); recommend appropriate level of environmental review and, upon agreement from City Contact, proceed preparing and/or overseeing the preparation of the applicable document or exception/exemption, as appropriate. **No cost here, since a separate scope of services for CEQA document will be prepared.**

Task 4 - Report or Document Preparation

For projects that require a report, use the city's templates to initiate and prepare reports, including all applicable attachments. Consulting Planner shall follow guidance and instruction from City Contact on format or other report-related procedures. Consulting Planner is expected to proactively monitor report review progress and adhere to the city's report timelines, unless otherwise directed. For projects that require a formal determination letter, Consulting Planner shall use applicable city templates to document city action.

Task 5 - Presentation
For projects that require a presentation, the Consulting Planner shall be responsible for preparing and submitting for review to the City Contact PowerPoint presentations to any city board, commission or the city council at least five days in advance of the meeting.

Task 6 – Meeting Attendance
Consulting Planner is expected to attend a city-initiated inter-department meeting within the first 30 days of application submittal, any required meetings related to the environmental review process, and when applicable to the project, the Consulting Planner shall anticipate attending Planning Commission and City Council meetings. **(One Planning Commission meeting)**

Task 7 - Contingency
From time to time work goes beyond the anticipated tasks identified above. A ten percent (10%) contingency shall be applied to all projects. Requests to use contingency funds shall be agreed to in writing with the City Contact prior to using these funds.

A-1 SCHEDULE OF PERFORMANCE

CONSULTANT shall perform the Services so as to complete each task as specified below. The time to complete each milestone may be increased or decreased by mutual written agreement of CONSULTANT and CITY so long as all work is completed within the term of the Agreement.

SCHEDULE

Tasks	Description	Hours
Task 1	Project Management	32
Task 2	Technical Review	16
Task 3	Environmental Review	0
Task 4	Report or Document Preparation	24
Task 5	Presentation	6
Task 6	Meeting Attendance	10
Task 7	Contingency	10
Total Hours		**98**

A-2 BUDGET SCHEDULE

Tasks	Description	Hours	Hourly Rate	Total
Task 1	Project Management	32	$165	$5,280

Task 2	Technical Review	16	$165	$2,640
Task 3	Environmental Review	0	$165	$0
Task 4	Report or Document Preparation	24	$165	$3,960
Task 5	Presentation	6	$165	$990
Task 6	Meeting Attendance	10	$165	$1,650
Task 7	Contingency	10	$165	$1,650
Sub-total Basic Services		98	$165	**$16,170**
Reimbursable Expenses				**$0**
Total Basic Services & Reimbursable Expenses				**$16,170**
Maximum Total Compensation				**$16,170**

EXHIBIT "A-3"
SCHEDULE OF RATES

M-GROUP STAFF	HOURLY RATE
Administrative Analyst/Planning Tech	$80

Principal Planner	$165
Principal in Charge	$250

METROPOLITAN PLANNING GROUP
a new design on urban planning

December 18, 2020

Chantell O'Neal
Assistant Director, Engineering Division
City of Fort Bragg Public Works Department
416 N Franklin St, Fort Bragg, CA 95437

Subject: **Proposal for Initial Study for 251 South Franklin Dollar General Store**

Dear Chantell O'Neal,

Metropolitan Planning Group (M-Group) is pleased to submit this proposal to provide environmental review services for a proposed development requesting Design Review/Site & Architectural Review for a new approximately 9,100 square foot retail store on a one-acre corner parcel to fulfill requirements under the California Environmental Quality Act (CEQA). Based on our understanding the environmental review is expected to culminate in an Initial Study that would provide the basis for a determination for an exemption or require a Mitigated Negative Declaration (MND).

M-Group has a successful track record of providing environmental review services to municipalities throughout the Bay Area and beyond. M-Group's environmental planners take a tailored approach to environmental review drawing upon our familiarity with local and regional planning efforts.

We understand the environmental considerations associated with sensitive issues. M-Group is well suited to provide the services that the City of Fort Bragg requests. Our staff is familiar with conducting environmental analyses in compliance with CEQA, and in line with federal, state, and local regulations and policies. This proposal outlines our team's understanding of the project and provides our proposed scope of work, staffing, budget, and timeline. We propose Sheldon S. Ah Sing, AICP, Principal Planner as the project manager; and Ranu Aggarwal, AICP, Senior Planner to complete the environmental analysis and Geoff Bradley, AICP, will serve as the Principal-In-Charge providing project oversight.

We appreciate the opportunity to submit a proposal for this project and look forward to providing environmental services to the City of Fort Bragg. We trust that information contained herein is sufficient for the City's purposes in evaluating this proposal. Should any additional information, qualifications or references be necessary, they can be provided upon request. Our proposal is good for up to 90 days from time of submittal. Please do not hesitate to contact us should you have any questions.

Sincerely,

GEOFF BRADLEY, AICP
Principal-In-Charge
gbradley@m-group.us
408.340.5642 x 102

PROJECT TEAM/ QUALIFICATIONS

M-Group's team consists of a well-rounded group of professionals with a range of environmental review experience and land use planning experience. M-Group Principal Geoff Bradley, AICP will serve as the Principal in Charge and oversee the project to ensure the environmental review is completed to the satisfaction of the City, at the highest quality, and on time and budget. Principal Planner Sheldon S. Ah Sing, AICP will serve as the Project Manager, overseeing preparation of the CEQA documentation, carrying out analysis in accordance with CEQA and act as the day-to-day contact for City staff. Ranu Aggarwal, AICP, Senior Planner, will assist with carrying out analysis in accordance with CEQA.

Our mission is to create *a new design on urban planning* by working closely with city and county staff, stakeholders, and decision makers to address community planning needs in a tailored and forward-looking way. Timeliness, efficiency, best practices and excellent customer service are at the core of our approach to planning consulting and staffing solutions.

The following includes brief profiles of key M-Group members experience. Their resumes are included as attachments.

GEOFF BRADLEY, AICP | PRINCIPAL-IN-CHARGE

Geoff has over 25 years of professional public and private experience working with a variety of architectural, planning, development firms and public agencies. Prior to the formation of M-Group, this included 10 years of public sector experience with Bay Area planning and redevelopment agencies, and 10 years of private sector experience. Geoff has worked with numerous jurisdictions throughout the Bay Area. His work includes downtown revitalization, major commercial, mixed-use, transit oriented projects, as well as updates of General Plans, Housing Elements and Zoning Codes.

SHELDON S. AH SING, AICP | PROJECT MANAGER + PRINCIPAL PLANNER

Sheldon has over 19 years of planning experience and tackles projects in a thoughtful and effective manner. He understands the full scope of planning best practices and can skillfully coordinate a multitude of public and private interests on complex projects, bringing them to successful completion. Sheldon has managed environmental documents for hillside development, Creekside development and development on former orchard property. Sheldon has also managed the entitlements for complex and high profile commercial, industrial, residential, mixed use, and Transit Oriented Development projects.

RANU AGGARWAL, AICP | SENIOR PLANNER

Ranu is an accomplished urban planner with over fifteen years of professional planning experience in diverse areas of Urban and Regional Planning. Ranu's professional practice philosophy emphasizes teamwork, thoroughness, accuracy, and efficient time management. Her expertise includes land use planning, development and environmental review, urban design, project management, graphic communications, presentations, community outreach, and geographic information systems. Ranu has worked for multiple cities in the Bay Area managing development and environmental review projects from residential subdivisions to commercial and industrial facilities. She conducts and coordinates review of complex projects to ensure the interests of the community are addressed in the review process. She has authored and managed preparation of environmental documents, and special studies for a variety of long range projects including general plan updates.

PROJECT UNDERSTANDING

It is understood that the City of Fort Bragg received an application for a Design Review for a new 9,100 square foot retail building on a one-acre vacant parcel.

The proposed project requires discretionary approval from the City of Fort Bragg. The project is subject to a Design Review/Sign and Architectural Review.

PROJECT APPROACH

M-Group proposes to draft an Initial Study to support the City in its determination for an exemption or a Negative Declaration/Mitigated Negative Declaration. The Initial Study will fully evaluate all environmental categories in accordance with the Environmental Checklist in the CEQA Guidelines. As a part of this effort all trustee and responsible agencies will be identified. The environmental setting, potentially significant environmental impacts, and measures to reduce potential impacts will be described. The level of impact following implementation of mitigation measures will be identified. M-Group will provide an environmental document that is concise, accurate and able to withstand scrutiny.

M-Group will work collaboratively with the City of Fort Bragg to ensure the timely completion of the CEQA document. M-Group will work collaboratively with City staff and the Project Team (through the City) to resolve concerns as they are identified. We will confer with regulatory agencies and stakeholders, as appropriate, to ensure that all parties of interest have the opportunity to provide input early in the process. We will take the initiative to keep the project on track by working proactively with City staff, responsible agencies and the applicant team. M-Group understands that the completion of a successful environmental document is dependent upon clear and direct communication, sound technical analysis, and attentive project management. We stay actively engaged in our projects from inception to completion.

AREAS OF CONCERN

M-Group will provide a comprehensive review of the existing physical conditions and regulatory context and will assess the project's potential to result in environmental impact for each environmental category in Appendix G of the CEQA guidelines. Given our understanding of the project context the primary areas of concern are expected to be transportation and the applicability of the new Vehicle Miles Travelled (VMT) thresholds established on July 1, 2020. We proposed that Fehr & Peers (under separate contract with the City) conduct a robust analysis (see Fehr & Peers scope of work) to address VMT and other transportation related issues.

M-Group will work collaboratively with City Staff and the applicant's team (through the City) as appropriate to secure the necessary technical studies to fully evaluate the project's impacts in line with State and Federal requirements. Should any services from M-Group's team be necessary beyond the scope of services identified herein a scope and budget augment will be necessary.

SCOPE OF SERVICES

The following describes M-Group's scope of work for the subject project.

TASK 1: PROJECT MANAGEMENT

Our team will be available throughout the environmental review process to correspond with City staff, and/or the applicant team (as appropriate), gather information, and address any concerns. Sheldon Ah Sing will serve as the Project Manager and the primary point of contact for the City. He will provide routine updates on progress and oversee coordination of the environmental team. This task includes one kick-off meeting with City staff to finalize the scope, schedule and budget. Included in this task are routine and ongoing check-ins, progress updates, coordination, and general correspondence over the course of the project.

***Task 1 Deliverables**: Kick-off meeting and a finalized project scope, schedule, and budget; bi-weekly status updates (via email or conference call) to keep the City informed of project progress; and summary memos detailing outcome of team meetings.*

TASK 2: BACKGROUND RESEARCH

M-Group will conduct a full review of all available information on the project site and vicinity including photo documentation, a records search of relevant documents, the history and past uses of the subject site, and applicable regulations. M-Group will provide recommendations to the City for notifying environmental agencies, any referrals, and carrying out notification.

***Task 2 Deliverable**: Memorandum outlining additional information or data needed to fill in any identified gaps, if applicable.*

TASK 3: PROJECT DESCRIPTION

M-Group will prepare a CEQA-compliant project description and coordinate with the City to confirm adequate scope and detail prior to proceeding with the environmental analysis. The project description will describe the proposed project and include background and site history information, environmental and regulatory conditions, location graphics, and other pertinent project details. Prior to proceeding with the environmental analysis, M-Group will secure confirmation that the project description has been prepared to the City's satisfaction and fully reflects the applicant's proposed project.

***Task 3 Deliverable:** Electronic version of the Administrative Draft Project Description including supporting graphics.*

TASK 4: DRAFT INITIAL STUDY

M-Group will prepare an Initial Study using the CEQA Guidelines Appendix G Environmental Checklist. M-Group will document the level of impact for each environmental category. The Initial Study will characterize the existing physical and regulatory setting, identify potential impacts and provide documentation to support a CEQA determination. M-Group will use any technical studies submitted to inform the Initial Study and support the level of impact determination.

***Task 5 Deliverables**: Administrative Draft Initial Study (electronic); and (technical studies and references will be provided electronically.*

TASK 5: FINAL INITIAL STUDY

Following review by the City, M-Group will incorporate any comments into a Final Initial Study. For purposes of this proposal it is presumed that the Initial Study will be the final product and deliverable. If it is determined that a Negative Declaration or Mitigated Negative Declaration is necessary, an amended scope of work and budget will follow.

***Task 5 Deliverables**: One electronic copy of the Final Initial Study.*

PROJECT SCHEDULE

We have dedicated sufficient staff resources to complete the environmental review as expeditiously as possible. The following project schedule presumes that environmental review will commence once a sufficient level project design detail is developed to adequately evaluate potential project impacts.

At project kickoff, specific target dates will be established in close coordination with City staff to identify calendar days for deliverables and reasonable response times from the City.

Task	Target Date
1. Project Management	
Project Management and Team Coordination • Kick-off Meeting/ Confirm Scope • Progress Reports • Team Meetings	Ongoing • Week 1 • Bi-weekly via email/phone • TBD
2. Background Research	
• Complete Background Research • Data Needs Memo to City	• Week 1 • Week 1
3. Project Description	
• Admin Draft Project Description to City • City to Provide Comments	• Week 1 • TBD
Technical Studies	
• Traffic Study (Fher & Peers)	• Week 5-6
4. Draft Initial Study	
• Administrative Draft Initial Study • City to Provide Comments	• Week 7 • TBD
5. Final Initial Study	
• Administrative Final Initial Study/MND	• 1 Week Following City Comments

COST PROPOSAL

We have prepared a budget that includes the cost estimates for completing the work for Tasks 1 through 5, as described above. We anticipate a not to exceed budget of $9,966, inclusive of a 10% contingency.

M-Group understands that the project specific contract will be on a percentage basis within the total not to exceed budget amount. M-Group will bill the City by percent complete on a monthly basis.

PROJECT ASSUMPTIONS

1. M-Group will coordinate with the City to ensure that any records and past reports relevant to the project area including previous environmental review documents and any technical reports, etc., are obtained and referenced.

2. M-Group will coordinate directly with appropriate departments and/or through the City Designee to ensure that any considerations associated with emergency vehicle access, police protection, and infrastructure capacity are incorporated into the environmental review.

3. M-Group's team will be granted access to the project site in timely manner to carry out necessary fieldwork and data collection.

4. City staff will assemble and provide M-Group with all responses received through the initial noticing and referral process.

5. The City will provide M-Group with a complete application packet and will forward any new or revised plans or data as materials are submitted.

6. This scope of work assumes that the project will not undergo substantive modifications in design or intensity once environmental review is underway.

7. This scope of work assumes that no new technical studies, beyond those identified as herein, will be required. If during the course of analysis further technical reports are needed or supplementation information recommended, a budget adjustment would be required.

8. This scope of work assumes that the environmental review will culminate in an Initial Study, if potentially significant impacts are identified and project design modifications to avoid impacts cannot be identified then a Mitigated Negative Declaration will be warranted requiring a scope and budget adjustment.

9. We anticipate that the project would be complete its public hearings within four months from the start of the CEQA work. If the project exceeds this timeframe, then additional project management hours may be needed with a budget augmentation request agreed to by the City.

BUDGET

251 S. FRANKLIN - DOLLAR GENERAL 18-Dec-20		M-GROUP			
Task Number / Description		Sheldon Ah Sing, Project Manager	Ranu Aggarwal, Senior Planner	M-Group Hours	Subtotal
	Hourly Billing Rate	$165	$145		
TASK 1:	PROJECT MANAGEMENT				
1.1	Kick off meeting & Project Management	10	0	10	$1,650
	Task 1 Subtotal:	*10*	*0*	10	$1,650
TASK 2:	BACKGROUND RESEARCH / SITE VISIT				
2.1	Background research	2	4	6	$910
2.2	Prepare Data Needs Memo	0	2	2	$290
	Task 2 Subtotal:	*2*	*6*	8	$1,200
TASK 3:	PROJECT DESCRIPITION				
3.1	Admin Draft Project Description	0	1	1	$145
3.2	Final Project Description	1	1	2	$310
	Task 3 Subtotal:	*1*	*2*	*3*	$455
	TECHNICAL STUDIES				
	Traffic Study (Fehr & Peers) (separate scope)	0	0	0	$0
	Task Subtotal:	*0*	*0*	*0*	$0
TASK 4:	DRAFT INITIAL STUDY				
4.1	Prepare Administrative Draft Intitial Study	3	24	27	$3,975
4.2	Prepare Screencheck Draft IS	2	6	8	$1,200
	Task 5 Subtotal:	*5*	*30*	*35*	$5,175
TASK 5:	FINAL INITIAL STUDY				
5.1	Draft Final Initial Study	0	4	4	$580
	Task 6 Subtotal:	*0*	*4*	*4*	$580
Project Subtotal (hours + budget)		*18*	*42*	*60*	*$9,060*
Direct Costs					*$0*
				Subtotal	$9,060
10% Contigency Costs					$906
Project Total					**$9,966**

NOTES

1. M-Group reserves the right to re-allocate hours and include assistance from other planners within M-Group to complete the tasks, as necessary, but within the total budget.
2. Cost Proposal is for a Not-to-exceed Contract with monthly invoicing based on task completion.
3. Travel time and expenses have been factored into the budget.
4. Unexpected issues out of scope or extended timeline out of the control of M-Group may necessitate the need to additional budget.

FEHR PEERS

December 18, 2020

Personal Financial Information

Subject: **Proposal for a Transportation Impact Assessment for the Dollar General Project in Fort Bragg, California**

Dear Personal

Thank you for contacting Fehr & Peers to prepare a transportation impact assessment (TIA) for the Dollar General project in central Fort Bragg, California. We understand that a TIA is requested to support the development of a 9,000 square foot retail building at 231 South Franklin Street in Fort Bragg. We understand that there is the potential for substantial community scrutiny on the CEQA VMT assessment for the project as well as on the informational Level of Service (LOS) assessment requested to be completed in parallel with the CEQA analysis.

The following scope of work includes five tasks.

Scope of Work

Task 1 – CEQA VMT Analysis

Fehr & Peers will leverage its recently-completed SB 743 implementation work with the Mendocino Council of Governments (MCOG) to assess the project's effect on VMT. As noted in the final report for the MCOG project, local-serving retail projects under 50,000 square feet may qualify for a finding of a less-than-significant VMT impact without further study. It is assumed, however, due to the potential for controversy on the project, a VMT calculation would still be required to demonstrate that the project's impacts are less-than-significant.

Fehr & Peers will use the latest available version of the MCOG travel demand model to assess VMT for the project. Per the MCOG report, because VMT per capita is expected to increase in the Fort Bragg area over time, Fehr & Peers will calculate project VMT (using the daily total VMT per service population metric) and project effect on VMT (using absolute VMT as the metric). VMT metrics will be calculated for the Baseline, Baseline plus Project, Cumulative and Cumulative plus Project scenarios. Plus Project VMT metrics will be compared against No Project scenario metrics using impact criteria developed through the MCOG SB 743 implementation project. Due to the project's close proximity to State Route 1, it is recommended that the thresholds in the OPR *Technical Advisory* be used as a basis for the selection of thresholds due to the high likelihood of Caltrans District 1 staff providing comments on the environmental document for the project. If significant impacts are found, mitigation measures will be proposed and their effects quantified using data from CAPCOA's *Quantifying Greenhouse Gas Reduction Measures*.

Task 2 – Other Required CEQA Analyses

Fehr & Peers will review site access and circulation for the project site using the provided site plan. This assessment will include reviewing the following items:

- Site access and interface with public roadway network, including drop-off/pick-up zones
- Vehicular access and circulation within and adjacent to the project site
- Pedestrian access and circulation within and adjacent to the project site
- Bicycle access and circulation within and adjacent to the project site
- Emergency vehicle access and circulation
- Consistency with approved plans related to the bicycle, pedestrian and transit modes

Recommendation measures will be developed to address potential deficiencies in these areas.

Task 3 – Informational Off-Site Level of Service Analysis

Fehr & Peers will complete an informational off-site LOS analysis of up to five intersections, to be selected in coordination with City staff. Per SB 743, this analysis is not part of the CEQA process, but could be helpful in determining the project's off-site effects for the purposes of comparison against City General Plan goals and policies related to the function of the circulation system.

Due to the effects of the COVID-19 pandemic, new traffic counts are generally not presently being collected for traffic studies as current traffic patterns are not considered to be representative of normal conditions. Fehr & Peers will use recent traffic count data from the City of Fort Bragg, if available. For other intersections for which data is not available from previous studies, Fehr & Peers will download and process StreetLight Data estimates of turning movement volumes and develop Existing Conditions volumes using this data. For the purposes of this scoping effort, it is assumed that all study intersections will require the StreetLight Data volume estimate approach.

Fehr & Peers will analyze intersection LOS for Existing, Existing plus Project, Cumulative and Cumulative with Project conditions using the Synchro software analysis package. Signal timing data will be requested from the relevant agencies. Project trip assignments will be developed using the data from Task 1. Cumulative forecasts will be developed using the latest version of the MCOG model. Project scenario operations will be compared against No Project scenario operations using the relevant criteria for the City of Fort Bragg; if new deficiencies are found, Fehr & Peers will propose improvement measures.

Task 4 – Documentation

Fehr & Peers will summarize the work from Tasks 1-3 in this scope of work in the following reports:

- Draft TIA
- Final TIA

It is assumed that the project team, City of Fort Bragg, and other reviewing agencies (Caltrans, etc.) may have moderate technical and editorial comments on the Draft TIA. We will respond to one round of consolidated comments (up to eight total staff hours) and prepare a Final TIA. This scope of work also assumes the TIA will serve as sufficient documentation for M-Group to incorporate findings into the DEIR; however, up to six hours of staff time is included to assist in responses to comments on the environmental documentation for the project.

Task 5 – Meetings/Conference Calls

Fehr & Peers will participate in up to two team conference calls over the course of the project. Additionally, Fehr & Peers will attend up to two four-hour evening virtual meetings over the course of the project (assumed to be Planning Commission and City Council meetings associated with adoption of the project). Additional meetings can be accommodated on a time-and-materials basis, subject to a scope amendment.

Schedule and Fee

Fehr & Peers will perform Tasks 1-5 on a time-and-materials basis for a not-to-exceed fee of $49,935. We will begin work following receipt of a fully executed contract. We anticipate that we can complete the Draft TIA within six to eight weeks of commencing work. We are committed to develop a mutually-agreeable schedule for our work based on more information about the timeline for the project. If the scope, schedule and fee are acceptable, please provide us with a contract for our review and execution.

Please contact Ian at (925) 930-7100 with questions or if you need additional information. We look forward to working with you on this project.

Sincerely,

FEHR & PEERS

Ian Barnes, PE
Senior Associate/Office Leader

RE: Fort Bragg, CA Dollar General
Comments/Correction for Application DR2-20 (Design Review/Site & Architectural Review)

Dear [redacted]

The following comments previously provided by the City in its letter dated 12/30/20 have been reviewed and addressed as indicated in the response.

General Comments/Corrections:

1. Sheet L1.1: The hardscape area adjacent to the store entry along South Franklin is inconsistent in size than shown on the other sheets.
Response: The site has been adjusted per comments and is coordinated with the landscape plans. See revised sheet L1.1.

2. Sheets C4.1/L1.1: The trash enclosure is not in the same location as shown on other sheets.
Response: The site has been adjusted per comments and the dumpster location is consistent throughout. See revised sheet C4.1 and L1.1.

3. Sheets L1.1/C4.1/C3.1/C2.1: Floor plan entry into building is inconsistent. Is there an entry on the south side? Should be consistent with Sheets F-1 and A-1.
Response: There is an entry door on the side; there is no entry on the east side. All sheets are consistent. See revised sheet L1.1, C3.1, C2.1 and C4.1.

4. Provide Photometric and electrical plans. These will provide detail on exterior lighting on building and within the parking lot. Demonstrate compliance with Code Section 18.30.070, Outdoor Lighting. Consult Page 2-31 of the City's Commercial Design Guidelines.
Response: Please see sheet ES-1 for site lighting, Photometric Plan created by LEDS and exterior lighting cut sheets (8-1/2 x 11 pages).

5. Sheet A1.0: "Finish Legend", need to know the colors of the materials.
- Provide "Materials Board" for samples.
- Note #27: "to match #9" What is the color?

- Notes 18A, B & C – what is the manufacturer? Provide the specifications. Provide sample or specification of "dark brown" color.
- Notes #22, 23 & 24: Provide specification for "white" color.
- Provide detail, color, finish and specification for gooseneck lights.

Response:

- Materials Board is being created and will be provided under separate cover.
- Sheet A-2 and A-10 both show brick as Belden Brick 661 Smooth – this is a gray brick (see Materials Board)
- All awnings are Dark Brown; color True Brown. Sample color is on the Material Board.
- #22 through #24 are all prepainted white by Hardie Company or equal. See Material Board.
- Gooseneck lights are manufactured from RAB and color of the fixture is black. Refer to the light cut sheets (8-1/2 x 11 pages).

6. Sheet L1.1: Need to demonstrate compliance with Code Section 18.34.050(c)(4)(a)(i)—15 foot setback requirement along South Franklin where only 10 feet is proposed.
Response: The landscape has been updated to be 15' wide. See L1.1

- Code Section 18.34.050(c)(4)(a)(v) need to demonstrate compliance for South Franklin (8 trees) and Maple (four trees)
  Response: Landscape Plan has been revised accordingly. See L1.1
- Provide note on plans that no structure, sign, landscape shall exceed 42 inches in height within the intersection sight triangle (20 feet by 20 feet) at Maple and South Franklin in compliance with Code Section 18.30.060 (E)(1)(a)(2). Also provide note for driveways.
  Response: Note added to plan. See L1.1

7. Demonstrate compliance with Code Section 18.30.110 & 18.30.050 Solid Waste/Recyclable Material Storage. Show trash enclosure elevations, height and materials used.
Response: Please see sheet A-9 for dumpster enclosure elevations, height and materials used.

8. Sheet L1.1: Will the project propose a fence or wall along the north property line? Demonstrate compliance with Code Section 18.30.050 – Fences, Walls & Screening. Provide height and finish information.
Response: Fence is per civil plans, a note calling out fence by civil added to sheet L1.1. Fence is called out on the C2.1 sheet.

9. Sheet C2.1: "Site Information" Show square footage for parking and lot coverage area. Understood this is shown elsewhere.
Response: This information has been added to C2.1.

10. Parking is 1 space per 400 square feet of interior floor area consistent with "General Retail" and not 1 per 300 square feet for a convenience store. The use does not meet the definition for convenience store. Update plans.
Response: Noted, please see updated parking requirements on sheet C2.1 for update to 1 space per 400 sq. ft. Parking has also been reduced in order to reconfigure the loading space location.

11. Bicycle parking is 10% of required vehicle parking as described in Code Section 18.36.060.

Update plans.
Response: Noted, please see updated parking requirements for bike parking on sheet C2.1 for 10% of required vehicle parking.

12. The minimum driveway width is 23 feet. It appears the driveways are excessive in width. See Commercial Design Guidelines Page 2-28 through 2-30 provide guidance on loading areas. It appears that there is a pinch point for the loading space. Need to also consider clearance from obstructions (See Code Section 18.36.100(E)(3) & 18.36.110(B)(1) regarding vertical clearance of 14 feet. Suggest relocating or adjusting area, narrowing the driveway, eliminating extra parking spaces.
Response: Noted, loading area has been moved to resolve the pinch point around the drive, furthermore the width of the drive has been reduced to the minimum width the delivery truck turn will allow. The western drive reduced by 6' and is now 24' wide, the northern drive reduced by 5' and is now 31' wide. See sheet C2.1.

13. Design Guidelines Page 2-30. Use of specimen trees (36-inch box or larger) in groupings and rows at major focal points such as project entries and pedestrian gathering places. While the Zoning Code mentions the minimum is 15-gallon for initial plantings for tree size. Do recommend going bigger where warranted. Consider 24-inch box trees.
Response: 24" box trees added to plan at the building frontage corner Franklin and Maple. See L1.1.

14. Demonstrate compliance with Code Section 18.30.050(F)(2) – Fences, Walls and Screening for roof top mechanical equipment.
Response: Noted, screening for roof top mechanical equipment has been provided, please see sheet A-8 for Roof Plan.

15. Provide more details on plan for corner at Maple and South Franklin. It appears there are some undefined amenities and hardscape.
Response: Benches and trash receptacle have been provided at the corner of Maple and South Franklin to encourage Goal C-11 and give customers a place to enjoy their purchased goods.

16. Design Guidelines Page 2-24 – Windows, dark tinted glass and mirror-like films are strongly discouraged. It is good to see fenestration incorporated into the design of the building and would continue to support the design. Understood that there are "back of house", "offices" and "display" areas that translate well from the exterior. Recommend providing vision glass to view false wall. See picture below.

This photo is taken from an arterial road. The building has no storefront entries onto this elevation. This is the "back of the house" for both tenants. The establishment on the right includes wall behind the window and provided tile and some additional signage, while the bank applied an opaque finish to the windows. I am not suggested adding more signs, but just to have the effect that it is not a vacant building. It appears that there is additional area on the site to accommodate this adjustment.

Response: Noted, building windows have all been revised to clear glass. Most of the glazing will have a painted white wall beyond. Keyed notes 12A and 12B will have the transom glass visible into the store.

City of Fort Bragg General Plan Policies:

Goal CD-4 Improve the appearance and effectiveness of parking facilities.

1. Policy CD-4.1 Parking Location: Wherever feasible, locate parking facilities to the rear of the development so that the building facade is contiguous with the street frontage, and parking areas are hidden from the street.

Response: Parking has been maximize to the rear of the building with additional required parking provide with required landscape buffers this allows for the store façade to be contiguous with South Franklin Street

Goal CD-5 Use lighting to create a sense of security and to provide cohesion to the physical structure of the community.

1. Policy CD-5.1 Security: Establish standards to ensure that on-site lighting is adequate to provide security while not producing excessive glare.

Response: Noted, please see added sheet ES-1 and Photometric Plan for site lighting to comply with Goal CD-5.

2. Policy CD-5.2 Lighting Design Review Guidelines: Apply lighting design guidelines in the Citywide Design Guidelines and the City's Zoning Ordinance.
Response: Noted, please see added sheet ES-1 for site lighting to comply with Goal CD-5.

3. Policy CD-5.3: Exterior lighting (except traffic lights, navigational lights, and other similar safety lighting) shall be minimized, restricted to low intensity fixtures, and shielded so that no light shines beyond the boundary of the property.
Response: Noted, please see added sheet ES-1 and Photometric Plan for site lighting to comply with Goal CD-5.

Goal LU-4 Promote the economic vitality of the City's existing commercial areas.
1. Policy LU-4.1 Formula Businesses and Big Box Retail: The location, scale, and appearance of formula businesses and big box retail shall not detract from the economic vitality of established commercial businesses, and shall be consistent with the small town, rural character of Fort Bragg.
Response: Noted, prototypical building to be subjugated by a new custom-built store to encourage the economic vivacity of the City of Fort Bragg.

Goal C-11 Make it easier and safer for people to walk in Fort Bragg.
1. Policy C-11.1 Continuous Sidewalks: Require an uninterrupted pedestrian network of sidewalks, with continuous sidewalks along both sides of streets. New development shall provide sidewalks along project frontages to close gaps in the City's sidewalk network.
Response: Noted, new sidewalk has been provided along the frontage of Maple Street and will connect to existing sidewalk at the corner with South Franklin Street.

2. Policy C-12.5: Bicycle Parking: Provide adequate and secure bicycle parking at bus stops, schools, the library, parks, City offices, and commercial areas.
Response: Bicycle parking has been provided at store entry along South Franklin Street.

Personal Financial Information

RE: Application DR2-20 (Design Review/Site & Architectural Review)

Dear Applicant,

Thank you for your responses to the comments in the December 30, 2020 letter. There are several follow up comments based on the updated information submitted.

General Comments/Corrections

1. Gooseneck lighting. The cut-sheets identify the color to be bronze, while the plans identify the color to be black. Make sure that the color is identified consistently (bronze or black).

2. Gooseneck lighting. The gooseneck lighting should include a shade. See picture from manufacturer:

3. Gooseneck lighting & Wall signs. Typically, gooseneck lighting is applied to signs that do not have its own illumination. The proposed wall signs include internal illumination. Consider "halo-lit" illumination with no gooseneck lighting or no internal illumination for signs with the gooseneck lighting.

4. Wall signs. Should eliminate the raceway if internal illumination is proposed. With new construction, there is no reason to include a raceway when the electrical can be placed within the wall. Each letter would be individually placed on the wall. The City's *Sign Design Guidelines* discourage the use of raceways and encourage individual letters.

5. Freestanding sign. The sign location is not provided on the site plan; however, prior renderings had shown the sign being located at the intersection corner, presumably outside of the "sight-distance triangle". Provide the location of the sign on the site plan.

6. Freestanding sign. The freestanding sign should be located perpendicular to the street (*Sign Design Guidelines*).

7. Freestanding sign. Provide the area of the sign on the plans. Each sign face appears to measure approximately 50 square feet. Based on the profile of the sign, the sign includes two sign faces. The sign appears to be 100 square feet in size, when counting both sides.

8. Freestanding sign. The sign may be internally illuminated, but only the sign copy should be illuminated and not the background of the sign (*Sign Design Guidelines*). As proposed, the background of the sign, the "yellow" portion is illuminated while the copy is black. Consider backlight sign (picture below from *sign design guidelines*). Consider using yellow lighting to preserve the branding.

9. Freestanding sign. The base of the sign should be the same width of the of the sign (looking at the face of the sign). As proposed, the sign is designed as a pole sign with metal panels obscuring the pole and not a monument sign. The base will need to include the same materials used on the building. Consider using the brick as used at the base on the building and on the solid waste enclosure. Need to justify the height of the sign. Ten feet is incompatible with the vicinity streets given the traffic speeds and appears to dominant the street. Consider a sign that is around six feet in height.

(Typical Dollar General sign)

10. Freestanding sign. Sheet 1 of 3. Need to identify the "parts list" on the plans – aluminum cabinet and plastic face.

11. Freestanding sign. In accordance with Fort Bragg Zoning Code 18.38.080.C.3, provide an illuminated street address plate on the base of the sign.

12. Signs. Table 3-12 in Fort Bragg Zoning Code 18.38 stipulates the maximum sign area per tenant within the commercial district is 100 square feet. Based on the project proposal, all signs total approximately 200 square feet (99.6 square feet for the two wall signs and 100 square feet for the freestanding sign). Provide a sign plan that conforms to zoning code.

13. Trash receptacle. Who is maintaining the trash receptacle proposed at the intersection corner?

14. Roof-top equipment. It is good to see a solution to the exposure of the roof-top equipment as shown on Sheet A-10. It would be better to include a parapet to obscure the equipment and provide a safety barrier for those that need to service the equipment. Provide a revision that replaces the proposed screening with a parapet that incorporates the surrounding aesthetic materials.

15. Property-line fence. Provide a profile of the fence on Sheet L1.1 showing the proposed design of the fence.

Next Steps

We would need some clarification on these items prior to setting a Planning Commission meeting hearing date. Please address these comments in a resubmittal. If you have any questions, feel free to contact me at 408-809-9516 or sahsing@m-group.us.

Sincerely,

Sheldon S. Ah Sing, AICP

Contract Planner

CITY OF FORT BRAGG
PROFESSIONAL SERVICES AGREEMENT
WITH
FEHR & PEERS

THIS AGREEMENT is made and entered into this 30th day of June, 2021 ("Effective Date"), by and between the CITY OF FORT BRAGG, a municipal corporation, 416 N. Franklin Street, Fort Bragg, California 95437 ("City"), and FEHR & PEERS, a California corporation, 100 Pringle Avenue; Suite 600, Walnut Creek, California 94596 ("Consultant").

W I T N E S S E T H :

A. WHEREAS, since January 2021, City has been utilizing the services of Consultant as an independent contractor to prepare a Transportation Impact Assessment for the Dollar General Project at 231 South Franklin Street, as more fully described herein; and

B. WHEREAS, City and Consultant desire to contract for the specific services described in **Exhibit A** (the "Project") and desire to set forth their rights, duties and liabilities in connection with the services to be performed; and

C. WHEREAS, no official or employee of City has a financial interest, within the provisions of Sections 1090-1092 of the California Government Code, in the subject matter of this Agreement; and

D. WHEREAS, the legislative body of the City on January 25, 2021 by Resolution No. 4350-2021 authorized execution of an Agreement on behalf of the City in accordance with Chapter 3.20 of the City Municipal Code and/or other applicable law; and

E. WHEREAS, on January 29, 2021, City and Consultant entered into a Professional Services Agreement ("Agreement") for Consultant to perform the professional services required for the Project; and

F. WHEREAS, the Term of the Agreement expired on June 30, 2021; and

G. WHEREAS, the Consultant is still performing tasks for the City which are in various stages of completion and need to be finished; and

H. WHEREAS, there are still sufficient funds budgeted for these activities; and

I. WHEREAS, City and Consultant desire to execute this Agreement to afford consultant additional time for completion of the Project as set forth below.

NOW, THEREFORE, for and in consideration of the mutual covenants and conditions contained herein, the parties hereby agree as follows:

1.0. SERVICES PROVIDED BY CONSULTANT

1.1. Scope of Work. Consultant shall provide the professional services described in the Consultant's Proposal ("Proposal"), attached hereto as **Exhibit A** and incorporated herein by this reference.

1.2. Professional Practices. All professional services to be provided by Consultant pursuant to this Agreement shall be provided by personnel experienced in their respective fields

DocuSign Envelope ID: 5BB27AEB-8D29-4CBF-B68A-A54EDACA57E9

and in a manner consistent with the standards of care, diligence and skill ordinarily exercised by professional consultants in similar fields and circumstances in accordance with sound professional practices. Consultant also warrants that it is familiar with all laws that may affect its performance of this Agreement and shall advise City of any changes in any laws that may affect Consultant's performance of this Agreement. Consultant shall keep itself informed of State and Federal laws and regulations which in any manner affect those employed by it or in any way affect the performance of its service pursuant to this Agreement. The Consultant shall at all times observe and comply with all such laws and regulations. City officers and employees shall not be liable at law or in equity occasioned by failure of the Consultant to comply with this section.

1.3. Performance to Satisfaction of City. Consultant agrees to perform all the work to the reasonable satisfaction of the City as hereinafter specified. Evaluations of the work will be done by the City Manager or his or her designee. If the quality of work is not satisfactory, City in its discretion has the right to:

(a) Meet with Consultant to review the quality of the work and resolve the matters of concern;

(b) Require Consultant to repeat the work at no additional fee until it is satisfactory; and/or

(c) Terminate the Agreement as hereinafter set forth.

1.4. Warranty. Consultant warrants that it shall perform the services required by this Agreement in compliance with all applicable Federal and California employment laws, including, but not limited to, those laws related to minimum hours and wages; occupational health and safety; fair employment and employment practices; workers' compensation insurance and safety in employment; and all other Federal, State and local laws and ordinances applicable to the services required under this Agreement. Consultant shall indemnify and hold harmless City from and against all claims, demands, payments, suits, actions, proceedings, and judgments of every nature and description including attorneys' fees and costs, presented, brought, or recovered against City for or on account of any liability under any of the above-mentioned laws, which may be incurred by reason of Consultant's performance under this Agreement. To the extent that this Agreement may be funded by fiscal assistance from another governmental entity, Consultant and any subcontractors shall comply with all applicable rules and regulations to which City is bound by the terms of such fiscal assistance program.

1.5. Non-discrimination. In performing this Agreement, Consultant shall not engage in, nor permit its agents to engage in, discrimination in employment of persons because of their race, religion, color, national origin, ancestry, age, physical handicap, medical condition, marital status, sexual gender, sexual orientation, or disability except as permitted pursuant to Section 12940 of the Government Code. Such actions shall include, but not be limited to the following: employment, upgrading, demotion or transfer, recruitment or recruitment advertising, layoff or termination, rates of pay or other forms of compensation and selection for training, including apprenticeship. Consultant agrees to post in conspicuous places, available to employees and applicants for employment, a notice setting forth provisions of this non-discrimination clause.

Consultant shall, in all solicitations and advertisements for employees placed by, or on behalf of Consultant, state that all qualified applicants will receive consideration for employment without regard to race, religion, color, national origin, ancestry, age, physical handicap, medical condition, marital status, sexual gender, sexual orientation, or disability. Consultant shall cause the paragraphs contained in this Section to be inserted in all subcontracts

DocuSign Envelope ID: 5BB27AEB-8D29-4CBF-B68A-A54EDACA57E9

for any work covered by the Agreement, provided that the foregoing provisions shall not apply to subcontracts for standard commercial supplies or raw materials.

1.6. Non-Exclusive Agreement. Consultant acknowledges that City may enter into agreements with other consultants for services similar to the services that are subject to this Agreement or may have its own employees perform services similar to those services contemplated by this Agreement.

1.7. Delegation and Assignment. This is a personal service contract, and the duties set forth herein shall not be delegated or assigned to any person or entity without the prior written consent of City. Consultant may engage a subcontractor(s) as permitted by law and may employ other personnel to perform services contemplated by this Agreement at Consultant's sole cost and expense. All insurance requirements contained in this Agreement are independently applicable to any and all subcontractors that Consultant may engage during the term of this Agreement.

1.8. Confidentiality. Employees of Consultant in the course of their duties may have access to financial, accounting, statistical, and personnel data of private individuals and employees of City. Consultant covenants that all data, documents, discussion, or other information developed or received by Consultant or provided for performance of this Agreement are deemed confidential and shall not be disclosed by Consultant without written authorization by City. City shall grant such authorization if disclosure is required by law. All City data shall be returned to City upon the termination of this Agreement. Consultant's covenant under this Section shall survive the termination of this Agreement.

2.0. COMPENSATION AND BILLING

2.1. Compensation. Consultant's total compensation shall not exceed **Forty-nine Thousand Nine Hundred Thirty-five Dollars ($49,935.00).**

2.2. Additional Services. Consultant shall not receive compensation for any services provided outside the scope of work specified in the Consultant's Proposal or which is inconsistent with or in violation of the provisions of this Agreement unless the City or the Project Manager for this Project, prior to Consultant performing the additional services, approves such additional services in writing. It is specifically understood that oral requests and/or approvals of such additional services or additional compensation shall be barred and are unenforceable. Should the City request in writing additional services that increase the hereinabove described "Scope of Work," an additional fee based upon the Consultant's standard hourly rates shall be paid to the Consultant for such additional services. The City Manager may approve contract change orders not exceeding a total of 10% of the approved contract or up to the contingency amount whichever amount is less for any one project.

2.3. Method of Billing. Consultant may submit invoices to the City for approval on a progress basis, but not more often than monthly. Said invoice shall be based on the total of all Consultant's services which have been completed to City's reasonable satisfaction. City shall pay Consultant's invoice within forty-five (45) days from the date City receives said invoice. Each invoice shall describe in detail, the services performed, the date of performance, and the associated time for completion. Any additional services approved and performed pursuant to this Agreement shall be designated as "Additional Services" and shall identify the number of the authorized change order, where applicable, on all invoices.

2.4. Records and Audits. Records of Consultant's services relating to this Agreement shall be maintained in accordance with generally recognized accounting principles and shall be

DocuSign Envelope ID: 5BB27AEB-8D29-4CBF-B68A-A54EDACA57E9

made available to City or its Project Manager for inspection and/or audit at mutually convenient times for a period of three (3) years from the date of final payment.

3.0. TIME OF PERFORMANCE

3.1. Commencement and Completion of Work. The professional services to be performed pursuant to this Agreement shall commence within five (5) days from the issuance of Notice to Proceed. Said services shall be performed in strict compliance with the schedule set forth in the Scope of Work attached hereto as **Exhibit A**. Consultant will complete the services in accordance with this Agreement by **October 31, 2021.** The Time of Completion may only be modified by a written amendment of the Agreement signed by both the City and the Consultant and in accordance with its terms.

3.2. Excusable Delays. Neither party shall be responsible for delays or lack of performance resulting from acts beyond the reasonable control of the party or parties. Such acts shall include, but not be limited to, acts of God, fire, strikes, material shortages, compliance with laws or regulations, riots, acts of war, or any other conditions beyond the reasonable control of a party. If a delay beyond the control of the Consultant is encountered, a time extension may be mutually agreed upon in writing by the City and the Consultant. The Consultant shall present documentation satisfactory to the City to substantiate any request for a time extension.

4.0. TERM AND TERMINATION

4.1. Term. This Agreement shall commence on the Effective Date and expire on **January 31, 2022** unless previously terminated as provided herein or as otherwise agreed to in writing by the parties.

4.2. Notice of Termination. The City reserves and has the right and privilege of canceling, suspending or abandoning the execution of all or any part of the work contemplated by this Agreement, with or without cause, at any time, by providing at least ten (10) days prior written notice to Consultant. The termination of this Agreement shall be deemed effective upon receipt of the notice of termination. In the event of such termination, Consultant shall immediately stop rendering services under this Agreement unless directed otherwise by the City. If the City suspends, terminates or abandons a portion of this Agreement, such suspension, termination or abandonment shall not make void or invalidate the remainder of this Agreement.

If the Consultant defaults in the performance of any of the terms or conditions of this Agreement, it shall have ten (10) days after service upon it of written notice of such default in which to cure the default by rendering a satisfactory performance. In the event that the Consultant fails to cure its default within such period of time, the City shall have the right, notwithstanding any other provision of this Agreement, to terminate this Agreement without further notice and without prejudice to any other remedy to which it may be entitled at law, in equity or under this Agreement.

The City shall have the right, notwithstanding any other provisions of this Agreement, to terminate this Agreement, at its option and without prejudice to any other remedy to which it may be entitled at law, in equity or under this Agreement, immediately upon service of written notice of termination on the Consultant, if the latter should:

a. Be adjudged a bankrupt;

b. Become insolvent or have a receiver of its assets or property appointed because of insolvency;

DocuSign Envelope ID: 5BB27AEB-8D29-4CBF-B68A-A54EDACA57E9

c. Make a general assignment for the benefit of creditors;

d. Default in the performance of any obligation or payment of any indebtedness under this Agreement;

e. Suffer any judgment against it to remain unsatisfied or unbonded of record for thirty (30) days or longer; or

f. Institute or suffer to be instituted any procedures for reorganization or rearrangement of its affairs.

4.3. Compensation. In the event of termination, City shall pay Consultant for reasonable costs incurred and professional services satisfactorily performed up to and including the date of City's written notice of termination within thirty-five (35) days after service of the notice of termination. Compensation for work in progress shall be prorated based on the percentage of work completed as of the effective date of termination in accordance with the fees set forth herein. In ascertaining the professional services actually rendered hereunder up to the effective date of termination of this Agreement, consideration shall be given to both completed work and work in progress, to complete and incomplete drawings, and to other documents pertaining to the services contemplated herein whether delivered to the City or in the possession of the Consultant. City shall not be liable for any claim of lost profits.

4.4. Documents. In the event of termination of this Agreement, all documents prepared by Consultant in its performance of this Agreement including, but not limited to, finished or unfinished design, development and construction documents, data studies, drawings, maps and reports, shall be delivered to the City within ten (10) days of delivery of termination notice to Consultant, at no cost to City. Any use of uncompleted documents without specific written authorization from Consultant shall be at City's sole risk and without liability or legal expense to Consultant.

5.0. INSURANCE

5.1. Minimum Scope and Limits of Insurance. Consultant shall obtain, maintain, and keep in full force and effect during the life of this Agreement all of the following minimum scope of insurance coverages with an insurance company admitted to do business in California, rated "A," Class X, or better in the most recent Best's Key Insurance Rating Guide, and approved by City:

(a) Broad-form commercial general liability, in a form at least as broad as ISO form #CG 20 01 04 13, including premises-operations, products/ completed operations, broad form property damage, blanket contractual liability, independent contractors, personal injury or bodily injury with a policy limit of not less than One Million Dollars ($1,000,000.00) per occurrence, Two Million Dollars ($2,000,000.00) aggregate, combined single limits. If such insurance contains a general aggregate limit, it shall apply separately to this Agreement or shall be twice the required occurrence limit. If Consultant maintains higher limits than the specified minimum limits, City requires and shall be entitled to coverage for the high limits maintained by the Consultant.

(b) Business automobile liability for owned vehicles, hired, and non-owned vehicles, with a policy limit of not less than One Million Dollars

DocuSign Envelope ID: 5BB27AEB-8D29-4CBF-B68A-A54EDACA57E9

($1,000,000.00), combined single limits, each incident for bodily injury and property damage.

(c) Workers' compensation insurance as required by the State of California and Employers Liability Insurance with a minimum limit of $1,000,000 per accident for any employee or employees of Consultant. Consultant agrees to waive, and to obtain endorsements from its workers' compensation insurer waiving subrogation rights under its workers' compensation insurance policy against the City, its officials, officers, agents, employees, and volunteers for losses arising from work performed by Consultant for the City and to require each of its subcontractors, if any, to do likewise under their workers' compensation insurance policies.

Before execution of this Agreement by the City, the Consultant shall file with the City Clerk the following signed certification:

> I am aware of, and will comply with, Section 3700 of the Labor Code, requiring every employer to be insured against liability of Workers' Compensation or to undertake self-insurance before commencing any of the work.

The Consultant shall also comply with Section 3800 of the Labor Code by securing, paying for and maintaining in full force and effect for the duration of this Agreement, complete Workers' Compensation Insurance, and shall furnish a Certificate of Insurance to the City Clerk before execution of this Agreement by the City. The City, its officers and employees shall not be responsible for any claims in law or equity occasioned by failure of the consultant to comply with this section.

(d) Professional errors and omissions ("E&O") liability insurance with policy limits of not less than Two Million Dollars ($2,000,000.00), combined single limits, per occurrence and aggregate. Architects' and engineers' coverage shall be endorsed to include contractual liability. If the policy is written as a "claims made" policy, the retro date shall be prior to the start of the contract work. Consultant shall obtain and maintain said E&O liability insurance during the life of this Agreement and for three years after completion of the work hereunder.

Neither the City nor any of its elected or appointed officials, officers, agents, employees, or volunteers makes any representation that the types of insurance and the limits specified to be carried by Consultant under this Agreement are adequate to protect Consultant. If Consultant believes that any such insurance coverage is insufficient, Consultant shall provide, at its own expense, such additional insurance as Consultant deems adequate.

5.2. Endorsements. The commercial general liability insurance policy and business automobile liability policy shall contain or be endorsed to contain the following provisions:

(a) Additional insureds: "The City of Fort Bragg and its elected and appointed boards, officers, officials, agents, employees, and volunteers are additional insureds with respect to: liability arising out of activities performed by or on behalf of the Consultant pursuant to its contract with the City; products and completed operations of the Consultant; premises owned, occupied or used by the Consultant; automobiles owned, leased, hired, or borrowed by

DocuSign Envelope ID: 5BB27AEB-8D29-4CBF-B68A-A54EDACA57E9

the Consultant."

(b) [Section Removed.]

(c) Other insurance: "The Consultant's insurance coverage shall be primary insurance as respects the City of Fort Bragg, its officers, officials, agents, employees, and volunteers. Any other insurance maintained by the City of Fort Bragg shall be excess and not contributing with the insurance provided by this policy."

(d) Any failure to comply with the reporting provisions of the policies shall not affect coverage provided to the City of Fort Bragg, its officers, officials, agents, employees, and volunteers.

(e) The Consultant's insurance shall apply separately to each insured against whom claim is made or suit is brought, except with respect to the limits of the insurer's liability.

5.3. Deductible or Self-Insured Retention. If any of such policies provide for a deductible or self-insured retention to provide such coverage, the amount of such deductible or self-insured retention shall be approved in advance by City. No policy of insurance issued as to which the City is an additional insured shall contain a provision which requires that no insured except the named insured can satisfy any such deductible or self-insured retention.

5.4. Certificates of Insurance. Consultant shall provide to City certificates of insurance showing the insurance coverages and required endorsements described above, in a form and content approved by City, prior to performing any services under this Agreement. The certificates of insurance and endorsements shall be attached hereto as **Exhibit B** and incorporated herein by this reference.

5.5. Non-limiting. Nothing in this Section shall be construed as limiting in any way, the indemnification provision contained in this Agreement, or the extent to which Consultant may be held responsible for payments of damages to persons or property.

5.6 Notification of Changes to Insurance: Consultant shall provide immediate written notice if: (1) any of the required insurance policies is terminated; (2) the limits of any of the required polices are reduced; or (3) the deductible or self-insured retention is increased. In the event of any cancellation or reduction in coverage or limits of any insurance, Consultant shall forthwith obtain and submit proof of substitute insurance. Should Consultant fail to immediately procure other insurance, as specified, to substitute for any canceled policy, the City may procure such insurance at Consultant's sole cost and expense.

6.0. GENERAL PROVISIONS

6.1. Entire Agreement. This Agreement constitutes the entire agreement between the parties with respect to any matter referenced herein and supersedes any and all other prior writings and oral negotiations. This Agreement may be modified only in writing, and signed by the parties in interest at the time of such modification. The terms of this Agreement shall prevail over any inconsistent provision in any other contract document appurtenant hereto, including exhibits to this Agreement.

6.2. Representatives. The City Manager or his or her designee shall be the representative of City for purposes of this Agreement and may issue all consents, approvals,

DocuSign Envelope ID: 5BB27AEB-8D29-4CBF-B68A-A54EDACA57E9

directives and agreements on behalf of the City, called for by this Agreement, except as otherwise expressly provided in this Agreement.

Consultant shall designate a representative for purposes of this Agreement who shall be authorized to issue all consents, approvals, directives and agreements on behalf of Consultant called for by this Agreement, except as otherwise expressly provided in this Agreement.

6.3. Project Managers. The Project Manager designated to work directly with Consultant in the performance of this Agreement will be Chantell O'Neal, Assistant Director – Engineering Division. It shall be the Consultant's responsibility to assure that the Project Manager is kept informed of the progress of the performance of the services and the Consultant shall refer any decision, which must be made by City, to the Project Manager. Unless otherwise specified herein, any approval of City required hereunder shall mean the approval of the Project Manager.

Consultant designates Ian Barnes, PE, Senior Associate, as its Project Manager, who shall represent it and be its agent in all consultations with City during the term of this Agreement and who shall not be changed by Consultant without the express written approval by the City. Consultant or its Project Manager shall attend and assist in all coordination meetings called by City.

6.4. Notices. Any notices, documents, correspondence or other communications concerning this Agreement or the work hereunder may be provided by personal delivery, facsimile or if mailed, shall be addressed as set forth below and placed in a sealed envelope, postage prepaid, and deposited in the United States Postal Service. Such communication shall be deemed served or delivered: a) at the time of delivery if such communication is sent by personal delivery; b) at the time of transmission if such communication is sent by facsimile; and c) 72 hours after deposit in the U.S. Mail as reflected by the official U.S. postmark if such communication is sent through regular United States mail.

Fax: 925-933-7090	Fax: 707-961-2802

6.5. Attorneys' Fees. In the event that litigation is brought by any party in connection with this Agreement, the prevailing party shall be entitled to recover from the opposing party all costs and expenses, including reasonable attorneys' fees, incurred by the prevailing party in the exercise of any of its rights or remedies hereunder or the enforcement of any of the terms, conditions, or provisions hereof.

6.6. Governing Law. This Agreement shall be governed by and construed under the laws of the State of California without giving effect to that body of laws pertaining to conflict of laws. In the event of any legal action to enforce or interpret this Agreement, the parties hereto agree that the sole and exclusive venue shall be a court of competent jurisdiction located in Mendocino County, California. Consultant agrees to submit to the personal jurisdiction of such court in the event of such action.

6.7. Assignment. Consultant shall not voluntarily or by operation of law assign, transfer, sublet or encumber all or any part of Consultant's interest in this Agreement without City's prior

DocuSign Envelope ID: 5BB27AEB-8D29-4CBF-B68A-A54EDACA57E9

written consent. Any attempted assignment, transfer, subletting or encumbrance shall be void and shall constitute a breach of this Agreement and cause for termination of this Agreement. Regardless of City's consent, no subletting or assignment shall release Consultant of Consultant's obligation to perform all other obligations to be performed by Consultant hereunder for the term of this Agreement.

6.8. Indemnification and Hold Harmless. Consultant agrees to defend, indemnify, hold free and harmless the City, its elected and appointed officials, officers, agents and employees, at Consultant's sole expense, from and against any and all claims, demands, actions, suits or other legal proceedings arising out of, pertaining to, or relating to the negligence, recklessness, or willful misconduct of Consultant brought against the City, its elected and appointed officials, officers, agents and employees arising out of the performance of the Consultant, its employees, and/or authorized subcontractors, of the work undertaken pursuant to this Agreement. The defense obligation provided for hereunder shall apply whenever any claim, action, complaint or suit asserts liability against the City, its elected and appointed officials, officers, agents and employees based upon the negligence, recklessness, or willful misconduct of the Consultant, its employees, and/or authorized subcontractors under this Agreement, whether or not the Consultant, its employees, and/or authorized subcontractors are specifically named or otherwise asserted to be liable. Notwithstanding the foregoing, the Consultant shall not be liable for the defense or indemnification of the City for claims, actions, complaints or suits arising out of the sole active negligence or willful misconduct of the City. This provision shall supersede and replace all other indemnity provisions contained either in the City specifications or Consultant's Proposal, which shall be of no force and effect.

6.9. Independent Contractor. Consultant is and shall be acting at all times as an independent contractor and not as an employee of City. Consultant shall have no power to incur any debt, obligation, or liability on behalf of City or otherwise act on behalf of City as an agent. Neither City nor any of its agents shall have control over the conduct of Consultant or any of Consultant's employees, except as set forth in this Agreement. Consultant shall not, at any time, or in any manner, represent that it or any of its or employees are in any manner agents or employees of City. Consultant shall secure, at its sole expense, and be responsible for any and all payment of Income Tax, Social Security, State Disability Insurance Compensation, Unemployment Compensation, and other payroll deductions for Consultant and its officers, agents, and employees, and all business licenses, if any are required, in connection with the services to be performed hereunder. Consultant shall indemnify and hold City harmless from any and all taxes, assessments, penalties, and interest asserted against City by reason of the independent contractor relationship created by this Agreement. Consultant further agrees to indemnify and hold City harmless from any failure of Consultant to comply with the applicable worker's compensation laws. City shall have the right to offset against the amount of any fees due to Consultant under this Agreement any amount due to City from Consultant as a result of Consultant's failure to promptly pay to City any reimbursement or indemnification arising under this paragraph.

6.10. PERS Eligibility Indemnification. In the event that Consultant or any employee, agent, or subcontractor of Consultant providing services under this Agreement claims or is determined by a court of competent jurisdiction or the California Public Employees Retirement System (PERS) to be eligible for enrollment in PERS as an employee of the City, Consultant shall indemnify, defend, and hold harmless City for the payment of any employee and/or employer contributions for PERS benefits on behalf of Consultant or its employees, agents, or subcontractors, as well as for the payment of any penalties and interest on such contributions, which would otherwise be the responsibility of City.

DocuSign Envelope ID: 5BB27AEB-8D29-4CBF-B68A-A54EDACA57E9

Notwithstanding any other agency, state or federal policy, rule, regulation, law or ordinance to the contrary, Consultant and any of its employees, agents, and subcontractors providing service under this Agreement shall not qualify for or become entitled to, and hereby agree to waive any claims to, any compensation, benefit, or any incident of employment by City, including but not limited to eligibility to enroll in PERS as an employee of City and entitlement to any contribution to be paid by City for employer contribution and/or employee contributions for PERS benefits.

6.11. Cooperation. In the event any claim or action is brought against City relating to Consultant's performance or services rendered under this Agreement, Consultant shall render any reasonable assistance and cooperation which City might require.

6.12. Ownership of Documents. All findings, reports, documents, information and data including, but not limited to, computer tapes or discs, preliminary notes, working documents, files and tapes furnished or prepared by Consultant or any of its subcontractors in the course of performance of this Agreement, shall be and remain the sole property of City. Consultant agrees that any such documents or information shall not be made available to any individual or organization without the prior consent of City, but shall be made available to the City within ten (10) days of request or within ten (10) days of termination. Any use of such documents for other projects not contemplated by this Agreement, and any use of incomplete documents, shall be at the sole risk of City and without liability or legal exposure to Consultant. City shall indemnify and hold harmless Consultant from all claims, damages, losses, and expenses, including attorneys' fees, arising out of or resulting from City's use of such documents for other projects not contemplated by this Agreement or use of incomplete documents furnished by Consultant. Consultant shall deliver to City any findings, reports, documents, information, data, preliminary notes and working documents, in any form, including but not limited to, computer tapes, discs, files audio tapes or any other Project related items as requested by City or its authorized representative, at no additional cost to the City. Consultant or Consultant's agents shall execute such documents as may be necessary from time to time to confirm City's ownership of the copyright in such documents.

6.13. Public Records Act Disclosure. Consultant has been advised and is aware that this Agreement and all reports, documents, information and data, including, but not limited to, computer tapes, discs or files furnished or prepared by Consultant, or any of its subcontractors, pursuant to this Agreement and provided to City may be subject to public disclosure as required by the California Public Records Act (California Government Code Section 6250 *et seq*.). Exceptions to public disclosure may be those documents or information that qualify as trade secrets, as that term is defined in the California Government Code Section 6254.7, and of which Consultant informs City of such trade secret. The City will endeavor to maintain as confidential all information obtained by it that is designated as a trade secret. The City shall not, in any way, be liable or responsible for the disclosure of any trade secret including, without limitation, those records so marked if disclosure is deemed to be required by law or by order of the Court.

6.14. Conflict of Interest. Consultant and its officers, employees, associates and subconsultants, if any, will comply with all conflict of interest statutes of the State of California applicable to Consultant's services under this agreement, including, but not limited to, the Political Reform Act (Government Code Sections 81000, *et seq*.) and Government Code Section 1090. During the term of this Agreement, Consultant and its officers, employees, associates and subconsultants shall not, without the prior written approval of the City Representative, perform work for another person or entity for whom Consultant is not currently performing work that would require Consultant or one of its officers, employees, associates or subconsultants to abstain from a decision under this Agreement pursuant to a conflict of interest statute.

DocuSign Envelope ID: 5BB27AEB-8D29-4CBF-B68A-A54EDACA57E9

6.15. Responsibility for Errors. Consultant shall be responsible for its work and results under this Agreement. Consultant, when requested, shall furnish clarification and/or explanation as may be required by the City's representative, regarding any services rendered under this Agreement at no additional cost to City. In the event that an error or omission attributable to Consultant occurs, then Consultant shall, at no cost to City, provide all necessary design drawings, estimates and other Consultant professional services necessary to rectify and correct the matter to the sole satisfaction of City and to participate in any meeting required with regard to the correction.

6.16. Prohibited Employment. Consultant will not employ any regular employee of City while this Agreement is in effect.

6.17. Order of Precedence. In the event of an inconsistency in this Agreement and any of the attached Exhibits, the terms set forth in this Agreement shall prevail. If, and to the extent this Agreement incorporates by reference any provision of any document, such provision shall be deemed a part of this Agreement. Nevertheless, if there is any conflict among the terms and conditions of this Agreement and those of any such provision or provisions so incorporated by reference, the conflict shall be resolved by giving precedence in the following order, if applicable: This Agreement, the City's Request for Proposals, the Consultant's Proposal.

6.18. Costs. Each party shall bear its own costs and fees incurred in the preparation and negotiation of this Agreement and in the performance of its obligations hereunder except as expressly provided herein.

6.19. No Third Party Beneficiary Rights. This Agreement is entered into for the sole benefit of City and Consultant and no other parties are intended to be direct or incidental beneficiaries of this Agreement and no third party shall have any right in, under or to this Agreement.

6.20. Headings. Paragraph and subparagraph headings contained in this Agreement are included solely for convenience and are not intended to modify, explain or to be a full or accurate description of the content thereof and shall not in any way affect the meaning or interpretation of this Agreement.

6.21. Construction. The parties have participated jointly in the negotiation and drafting of this Agreement. In the event an ambiguity or question of intent or interpretation arises with respect to this Agreement, this Agreement shall be construed as if drafted jointly by the parties and in accordance with its fair meaning. There shall be no presumption or burden of proof favoring or disfavoring any party by virtue of the authorship of any of the provisions of this Agreement.

6.22. Amendments. Only a writing executed by the parties hereto or their respective successors and assigns may amend this Agreement.

6.23. Waiver. The delay or failure of either party at any time to require performance or compliance by the other of any of its obligations or agreements shall in no way be deemed a waiver of those rights to require such performance or compliance. No waiver of any provision of this Agreement shall be effective unless in writing and signed by a duly authorized representative of the party against whom enforcement of a waiver is sought. The waiver of any right or remedy in respect to any occurrence or event shall not be deemed a waiver of any right or remedy in respect to any other occurrence or event, nor shall any waiver constitute a continuing waiver.

6.24. Severability. If any provision of this Agreement is determined by a court of competent jurisdiction to be unenforceable in any circumstance, such determination shall not

DocuSign Envelope ID: 5BB27AEB-8D29-4CBF-B68A-A54EDACA57E9

affect the validity or enforceability of the remaining terms and provisions hereof or of the offending provision in any other circumstance. Notwithstanding the foregoing, if the value of this Agreement, based upon the substantial benefit of the bargain for any party, is materially impaired, which determination made by the presiding court or arbitrator of competent jurisdiction shall be binding, then both parties agree to substitute such provision(s) through good faith negotiations.

6.25. Counterparts. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original. All counterparts shall be construed together and shall constitute one agreement.

6.26. Corporate Authority. The persons executing this Agreement on behalf of the parties hereto warrant that they are duly authorized to execute this Agreement on behalf of said parties and that by doing so the parties hereto are formally bound to the provisions of this Agreement.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed by and through their respective authorized officers, as of the date first above written.

FEHR PEERS

December 18, 2020

Sheldon Ah Sing
Principal Planner, M-Group
51 E. Campbell Avenue #1247
Campbell, CA 95009

Subject: **Proposal for a Transportation Impact Assessment for the Dollar General Project in Fort Bragg, California**

Dear Sheldon:

Thank you for contacting Fehr & Peers to prepare a transportation impact assessment (TIA) for the Dollar General project in central Fort Bragg, California. We understand that a TIA is requested to support the development of a 9,000 square foot retail building at 231 South Franklin Street in Fort Bragg. We understand that there is the potential for substantial community scrutiny on the CEQA VMT assessment for the project as well as on the informational Level of Service (LOS) assessment requested to be completed in parallel with the CEQA analysis.

The following scope of work includes five tasks.

Scope of Work

Task 1 – CEQA VMT Analysis

Fehr & Peers will leverage its recently-completed SB 743 implementation work with the Mendocino Council of Governments (MCOG) to assess the project's effect on VMT. As noted in the final report for the MCOG project, local-serving retail projects under 50,000 square feet may qualify for a finding of a less-than-significant VMT impact without further study. It is assumed, however, due to the potential for controversy on the project, a VMT calculation would still be required to demonstrate that the project's impacts are less-than-significant.

Fehr & Peers will use the latest available version of the MCOG travel demand model to assess VMT for the project. Per the MCOG report, because VMT per capita is expected to increase in the Fort Bragg area over time, Fehr & Peers will calculate project VMT (using the daily total VMT per service population metric) and project effect on VMT (using absolute VMT as the metric). VMT metrics will be calculated for the Baseline, Baseline plus Project, Cumulative and Cumulative plus Project scenarios. Plus Project VMT metrics will be compared against No Project scenario metrics using impact criteria developed through the MCOG SB 743 implementation project. Due to the project's close proximity to State Route 1, it is recommended that the thresholds in the OPR *Technical Advisory* be used as a basis for the selection of thresholds due to the high likelihood of Caltrans District 1 staff providing comments on the environmental document for the project. If significant impacts are found, mitigation measures will be proposed and their effects quantified using data from CAPCOA's *Quantifying Greenhouse Gas Reduction Measures*.

Task 2 – Other Required CEQA Analyses

Fehr & Peers will review site access and circulation for the project site using the provided site plan. This assessment will include reviewing the following items:

DocuSign Envelope ID: 5BB27AEB-8D29-4CBF-B68A-A54EDACA57E9

- Site access and interface with public roadway network, including drop-off/pick-up zones
- Vehicular access and circulation within and adjacent to the project site
- Pedestrian access and circulation within and adjacent to the project site
- Bicycle access and circulation within and adjacent to the project site
- Emergency vehicle access and circulation
- Consistency with approved plans related to the bicycle, pedestrian and transit modes

Recommendation measures will be developed to address potential deficiencies in these areas.

Task 3 – Informational Off-Site Level of Service Analysis

Fehr & Peers will complete an informational off-site LOS analysis of up to five intersections, to be selected in coordination with City staff. Per SB 743, this analysis is not part of the CEQA process, but could be helpful in determining the project's off-site effects for the purposes of comparison against City General Plan goals and policies related to the function of the circulation system.

Due to the effects of the COVID-19 pandemic, new traffic counts are generally not presently being collected for traffic studies as current traffic patterns are not considered to be representative of normal conditions. Fehr & Peers will use recent traffic count data from the City of Fort Bragg, if available. For other intersections for which data is not available from previous studies, Fehr & Peers will download and process StreetLight Data estimates of turning movement volumes and develop Existing Conditions volumes using this data. For the purposes of this scoping effort, it is assumed that all study intersections will require the StreetLight Data volume estimate approach.

Fehr & Peers will analyze intersection LOS for Existing, Existing plus Project, Cumulative and Cumulative with Project conditions using the Synchro software analysis package. Signal timing data will be requested from the relevant agencies. Project trip assignments will be developed using the data from Task 1. Cumulative forecasts will be developed using the latest version of the MCOG model. Project scenario operations will be compared against No Project scenario operations using the relevant criteria for the City of Fort Bragg; if new deficiencies are found, Fehr & Peers will propose improvement measures.

Task 4 – Documentation

Fehr & Peers will summarize the work from Tasks 1-3 in this scope of work in the following reports:

- Draft TIA
- Final TIA

It is assumed that the project team, City of Fort Bragg, and other reviewing agencies (Caltrans, etc.) may have moderate technical and editorial comments on the Draft TIA. We will respond to one round of consolidated comments (up to eight total staff hours) and prepare a Final TIA. This scope of work also assumes the TIA will serve as sufficient documentation for M-Group to incorporate findings into the DEIR; however, up to six hours of staff time is included to assist in responses to comments on the environmental documentation for the project.

DocuSign Envelope ID: 5BB27AEB-8D29-4CBF-B68A-A54EDACA57E9

Task 5 – Meetings/Conference Calls

Fehr & Peers will participate in up to two team conference calls over the course of the project. Additionally, Fehr & Peers will attend up to two four-hour evening virtual meetings over the course of the project (assumed to be Planning Commission and City Council meetings associated with adoption of the project). Additional meetings can be accommodated on a time-and-materials basis, subject to a scope amendment.

Schedule and Fee

Fehr & Peers will perform Tasks 1-5 on a time-and-materials basis for a not-to-exceed fee of $49,935. We will begin work following receipt of a fully executed contract. We anticipate that we can complete the Draft TIA within six to eight weeks of commencing work. We are committed to develop a mutually-agreeable schedule for our work based on more information about the timeline for the project. If the scope, schedule and fee are acceptable, please provide us with a contract for our review and execution.

Please contact Ian at (925) 930-7100 with questions or if you need additional information. We look forward to working with you on this project.

Sincerely,

FEHR & PEERS

Ian Barnes, PE
Senior Associate/Office Leader

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

RLIPack® FOR PROFESSIONALS
BLANKET ADDITIONAL INSURED ENDORSEMENT

This endorsement modifies insurance provided under the following:

BUSINESSOWNERS COVERAGE FORM - SECTION II – LIABILITY

1. **C. WHO IS AN INSURED** is amended to include as an additional insured any person or organization that you agree in a contract or agreement requiring insurance to include as an additional insured on this policy, but only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" caused in whole or in part by you or those acting on your behalf:

a. In the performance of your ongoing operations;

b. In connection with premises owned by or rented to you; or

c. In connection with “your work” and included within the “product-completed operations hazard”.

2. The insurance provided to the additional insured by this endorsement is limited as follows:

a. This insurance does not apply on any basis to any person or organization for which coverage as an additional insured specifically is added by another endorsement to this policy.

b. This insurance does not apply to the rendering of or failure to render any "professional services".

c. This endorsement does not increase any of the limits of insurance stated in **D. Liability And Medical Expenses Limits of Insurance**.

3. The following is added to **SECTION III H.2. Other Insurance – COMMON POLICY CONDITIONS (BUT APPLICABLE ONLY TO SECTION II – LIABILITY)**

However, if you specifically agree in a contract or agreement that the insurance provided to an additional insured under this policy must apply on a primary basis, or a primary and non-contributory basis, this insurance is primary to other insurance that is available to such additional insured which covers such additional insured as a named insured, and we will not share with that other insurance, provided that:

a. The "bodily injury" or "property damage" for which coverage is sought occurs after you have entered into that contract or agreement; or

b. The "personal and advertising injury" for which coverage is sought arises out of an offense committed after you have entered into that contract or agreement.

4. The following is added to **SECTION III K. 2. Transfer of Rights of Recovery Against Others to Us – COMMON POLICY CONDITIONS (BUT APPLICABLE TO ONLY TO SECTION II – LIABILITY)**

We waive any rights of recovery we may have against any person or organization because of payments we make for "bodily injury", "property damage" or "personal and advertising injury" arising out of "your work" performed by you, or on your behalf, under a contract or agreement with that person or organization. We waive these rights only where you have agreed to do so as part of a contract or agreement with such person or organization entered into by you before the "bodily injury" or "property damage" occurs, or the "personal and advertising injury" offense is committed.

ALL OTHER TERMS AND CONDITIONS OF THIS POLICY REMAIN UNCHANGED.

DocuSign Envelope ID: 5BB27AEB-8D29-4CBF-B68A-A54EDACA57E9

This endorsement modifies insurance provided under the following:

BUSINESS AUTO COVERAGE FORM

A. Broad Form Named Insured

The following is added to the **SECTION II – COVERED AUTOS LIABILITY COVERAGE,** Paragraph **A.1. Who Is An Insured** Provision:

Any business entity newly acquired or formed by you during the policy period, provided you own fifty percent (50%) or more of the business entity and the business entity is not separately insured for Business Auto Coverage. Coverage is extended up to a maximum of one hundred eighty (180) days following the acquisition or formation of the business entity.

This provision does not apply to any person or organization for which coverage is excluded by endorsement.

B. Employees As Insureds

The following is added to the **SECTION II – COVERED AUTOS LIABILITY COVERAGE,** Paragraph **A.1. Who Is An Insured** Provision:

Any "employee" of yours is an "insured" while using a covered "auto" you don't own, hire or borrow in your business or your personal affairs.

C. Blanket Additional Insured

The following is added to the **SECTION II – COVERED AUTOS LIABILITY COVERAGE,** Paragraph **A.1. Who Is An Insured** Provision:

Any person or organization that you are required to include as an additional insured on this coverage form in a contract or agreement that is executed by you before the "bodily injury" or "property damage" occurs is an "insured" for liability coverage, but only for damages to which this insurance applies and only to the extent that person or organization qualifies as an "insured" under the Who Is An Insured provision contained in **SECTION II – COVERED AUTOS LIABILITY COVERAGE**.

The insurance provided to the additional insured will be on a primary and non-contributory basis to the additional insured's own business auto coverage if you are required to do so in a contract or agreement that is executed by you before the "bodily injury" or "property damage" occurs.

D. Blanket Waiver Of Subrogation

The following is added to the **SECTION IV – BUSINESS AUTO CONDITIONS, A. Loss Conditions, 5. Transfer Of Rights Of Recovery Against Others To Us**:

We waive any right of recovery we may have against any person or organization to the extent required of you by a contract executed prior to any "accident" or "loss", provided that the "accident" or "loss" arises out of the operations contemplated by such contract. The waiver applies only to the person or organization designated in such contract.

E. Employee Hired Autos

1. The following is added to the **SECTION II – COVERED AUTOS LIABILITY COVERAGE,** Paragraph **A.1. Who Is An Insured** Provision:

An "employee" of yours is an "insured" while operating an "auto" hired or rented under a contract or agreement in that "employee's" name, with your permission, while performing duties related to the conduct of your business.

2. Changes In General Conditions:

Paragraph **5.b.** of the **Other Insurance** Condition in the **BUSINESS AUTO CONDITIONS** is deleted and replaced with the following:

b. For Hired Auto Physical Damage Coverage, the following are deemed to be covered "autos" you own:

(1) Any covered "auto" you lease, hire, rent or borrow; and

(2) Any covered "auto" hired or rented by your "employee" under a contract in that individual "employee's" name, with your permission, while performing duties related to the conduct of your business. However, any "auto" that is leased, hired, rented or borrowed with a driver is not a covered "auto".

F. Fellow Employee Coverage

SECTION II – COVERED AUTOS LIABILITY COVERAGE, Exclusion B.5. does not apply if you have workers compensation insurance in-force covering all of your employees.

G. Auto Loan Lease Gap Coverage

SECTION III – PHYSICAL DAMAGE COVERAGE, C. Limit Of Insurance, is amended by the addition of the following:

In the event of a total "loss" to a covered "auto" shown in the Schedule of Declarations, we will pay any unpaid amount due on the lease or loan for a covered "auto", less:

1. The amount paid under the **PHYSICAL DAMAGE COVERAGE** section of the policy; and

2. Any:

a. Overdue lease/loan payments at the time of the "loss";

Personal Financial Information

Subject: **Proposal for a Transportation Impact Assessment for the Dollar General Project in Fort Bragg, California**

Dear Personal

Thank you for contacting Fehr & Peers to prepare a transportation impact assessment (TIA) for the Dollar General project in central Fort Bragg, California. We understand that a TIA is requested to support the development of a 9,000 square foot retail building at 231 South Franklin Street in Fort Bragg. We understand that there is the potential for substantial community scrutiny on the CEQA VMT assessment for the project as well as on the informational Level of Service (LOS) assessment requested to be completed in parallel with the CEQA analysis.

The following scope of work includes five tasks.

Scope of Work

Task 1 – CEQA VMT Analysis

Fehr & Peers will leverage its recently-completed SB 743 implementation work with the Mendocino Council of Governments (MCOG) to assess the project's effect on VMT. As noted in the final report for the MCOG project, local-serving retail projects under 50,000 square feet may qualify for a finding of a less-than-significant VMT impact without further study. It is assumed, however, due to the potential for controversy on the project, a VMT calculation would still be required to demonstrate that the project's impacts are less-than-significant.

Fehr & Peers will use the latest available version of the MCOG travel demand model to assess VMT for the project. Per the MCOG report, because VMT per capita is expected to increase in the Fort Bragg area over time, Fehr & Peers will calculate project VMT (using the daily total VMT per service population metric) and project effect on VMT (using absolute VMT as the metric). VMT metrics will be calculated for the Baseline, Baseline plus Project, Cumulative and Cumulative plus Project scenarios. Plus Project VMT metrics will be compared against No Project scenario metrics using impact criteria developed through the MCOG SB 743 implementation project. Due to the project's close proximity to State Route 1, it is recommended that the thresholds in the OPR *Technical Advisory* be used as a basis for the selection of thresholds due to the high likelihood of Caltrans District 1 staff providing comments on the environmental document for the project. If significant impacts are found, mitigation measures will be proposed and their effects quantified using data from CAPCOA's *Quantifying Greenhouse Gas Reduction Measures*.

Task 2 – Other Required CEQA Analyses

Fehr & Peers will review site access and circulation for the project site using the provided site plan. This assessment will include reviewing the following items:

- Site access and interface with public roadway network, including drop-off/pick-up zones
- Vehicular access and circulation within and adjacent to the project site
- Pedestrian access and circulation within and adjacent to the project site
- Bicycle access and circulation within and adjacent to the project site
- Emergency vehicle access and circulation
- Consistency with approved plans related to the bicycle, pedestrian and transit modes

Recommendation measures will be developed to address potential deficiencies in these areas.

Task 3 – Informational Off-Site Level of Service Analysis

Fehr & Peers will complete an informational off-site LOS analysis of up to five intersections, to be selected in coordination with City staff. Per SB 743, this analysis is not part of the CEQA process, but could be helpful in determining the project's off-site effects for the purposes of comparison against City General Plan goals and policies related to the function of the circulation system.

Due to the effects of the COVID-19 pandemic, new traffic counts are generally not presently being collected for traffic studies as current traffic patterns are not considered to be representative of normal conditions. Fehr & Peers will use recent traffic count data from the City of Fort Bragg, if available. For other intersections for which data is not available from previous studies, Fehr & Peers will download and process StreetLight Data estimates of turning movement volumes and develop Existing Conditions volumes using this data. For the purposes of this scoping effort, it is assumed that all study intersections will require the StreetLight Data volume estimate approach.

Fehr & Peers will analyze intersection LOS for Existing, Existing plus Project, Cumulative and Cumulative with Project conditions using the Synchro software analysis package. Signal timing data will be requested from the relevant agencies. Project trip assignments will be developed using the data from Task 1. Cumulative forecasts will be developed using the latest version of the MCOG model. Project scenario operations will be compared against No Project scenario operations using the relevant criteria for the City of Fort Bragg; if new deficiencies are found, Fehr & Peers will propose improvement measures.

Task 4 – Documentation

Fehr & Peers will summarize the work from Tasks 1-3 in this scope of work in the following reports:

- Draft TIA
- Final TIA

It is assumed that the project team, City of Fort Bragg, and other reviewing agencies (Caltrans, etc.) may have moderate technical and editorial comments on the Draft TIA. We will respond to one round of consolidated comments (up to eight total staff hours) and prepare a Final TIA. This scope of work also assumes the TIA will serve as sufficient documentation for M-Group to incorporate findings into the DEIR; however, up to six hours of staff time is included to assist in responses to comments on the environmental documentation for the project.

Task 5 – Meetings/Conference Calls

Fehr & Peers will participate in up to two team conference calls over the course of the project. Additionally, Fehr & Peers will attend up to two four-hour evening virtual meetings over the course of the project (assumed to be Planning Commission and City Council meetings associated with adoption of the project). Additional meetings can be accommodated on a time-and-materials basis, subject to a scope amendment.

Schedule and Fee

Fehr & Peers will perform Tasks 1-5 on a time-and-materials basis for a not-to-exceed fee of $49,935. We will begin work following receipt of a fully executed contract. We anticipate that we can complete the Draft TIA within six to eight weeks of commencing work. We are committed to develop a mutually-agreeable schedule for our work based on more information about the timeline for the project. If the scope, schedule and fee are acceptable, please provide us with a contract for our review and execution.

Please contact Ian at (925) 930-7100 with questions or if you need additional information. We look forward to working with you on this project.

Sincerely,

FEHR & PEERS

Ian Barnes, PE
Senior Associate/Office Leader

CITY OF FORT BRAGG
PROFESSIONAL SERVICES AGREEMENT
WITH
FEHR & PEERS

THIS AGREEMENT is made and entered into this 29th day of January, 2021 ("Effective Date"), by and between the CITY OF FORT BRAGG, a municipal corporation, 416 N. Franklin Street, Fort Bragg, California 95437 ("City"), and FEHR & PEERS, a California corporation, 100 Pringle Avenue; Suite 600, Walnut Creek, California 94596 ("Consultant").

W I T N E S S E T H :

A. WHEREAS, City proposes to utilize the services of Consultant as an independent contractor to prepare a Transportation Impact Assessment for the Dollar General Project at 231 South Franklin Street, as more fully described herein; and

B. WHEREAS, City and Consultant desire to contract for the specific services described in **Exhibit A** (the "Project") and desire to set forth their rights, duties and liabilities in connection with the services to be performed; and

C. WHEREAS, no official or employee of City has a financial interest, within the provisions of Sections 1090-1092 of the California Government Code, in the subject matter of this Agreement.

D. WHEREAS, the legislative body of the City on January 25, 2021 by Resolution No. 4350-2021 authorized execution of this Agreement on behalf of the City in accordance with Chapter 3.20 of the City Municipal Code and/or other applicable law;

NOW, THEREFORE, for and in consideration of the mutual covenants and conditions contained herein, the parties hereby agree as follows:

1.0. SERVICES PROVIDED BY CONSULTANT

1.1. Scope of Work. Consultant shall provide the professional services described in the Consultant's Proposal ("Proposal"), attached hereto as **Exhibit A** and incorporated herein by this reference.

1.2. Professional Practices. All professional services to be provided by Consultant pursuant to this Agreement shall be provided by personnel experienced in their respective fields and in a manner consistent with the standards of care, diligence and skill ordinarily exercised by professional consultants in similar fields and circumstances in accordance with sound professional practices. Consultant also warrants that it is familiar with all laws that may affect its performance of this Agreement and shall advise City of any changes in any laws that may affect Consultant's performance of this Agreement. Consultant shall keep itself informed of State and Federal laws and regulations which in any manner affect those employed by it or in any way affect the performance of its service pursuant to this Agreement. The Consultant shall at all times observe and comply with all such laws and regulations. City officers and employees shall not be liable at law or in equity occasioned by failure of the Consultant to comply with this section.

1.3. Performance to Satisfaction of City. Consultant agrees to perform all the work to the reasonable satisfaction of the City as hereinafter specified. Evaluations of the work will be done by the City Manager or his or her designee. If the quality of work is not satisfactory, City in

DocuSign Envelope ID: 4345A746-DAFD-40F5-9802-A93138B92DD4

its discretion has the right to:

(a) Meet with Consultant to review the quality of the work and resolve the matters of concern;

(b) Require Consultant to repeat the work at no additional fee until it is satisfactory; and/or

(c) Terminate the Agreement as hereinafter set forth.

1.4. Warranty. Consultant warrants that it shall perform the services required by this Agreement in compliance with all applicable Federal and California employment laws, including, but not limited to, those laws related to minimum hours and wages; occupational health and safety; fair employment and employment practices; workers' compensation insurance and safety in employment; and all other Federal, State and local laws and ordinances applicable to the services required under this Agreement. Consultant shall indemnify and hold harmless City from and against all claims, demands, payments, suits, actions, proceedings, and judgments of every nature and description including attorneys' fees and costs, presented, brought, or recovered against City for or on account of any liability under any of the above-mentioned laws, which may be incurred by reason of Consultant's performance under this Agreement. To the extent that this Agreement may be funded by fiscal assistance from another governmental entity, Consultant and any subcontractors shall comply with all applicable rules and regulations to which City is bound by the terms of such fiscal assistance program.

1.5. Non-discrimination. In performing this Agreement, Consultant shall not engage in, nor permit its agents to engage in, discrimination in employment of persons because of their race, religion, color, national origin, ancestry, age, physical handicap, medical condition, marital status, sexual gender, sexual orientation, or disability except as permitted pursuant to Section 12940 of the Government Code. Such actions shall include, but not be limited to the following: employment, upgrading, demotion or transfer, recruitment or recruitment advertising, layoff or termination, rates of pay or other forms of compensation and selection for training, including apprenticeship. Consultant agrees to post in conspicuous places, available to employees and applicants for employment, a notice setting forth provisions of this non-discrimination clause.

Consultant shall, in all solicitations and advertisements for employees placed by, or on behalf of Consultant, state that all qualified applicants will receive consideration for employment without regard to race, religion, color, national origin, ancestry, age, physical handicap, medical condition, marital status, sexual gender, sexual orientation, or disability. Consultant shall cause the paragraphs contained in this Section to be inserted in all subcontracts for any work covered by the Agreement, provided that the foregoing provisions shall not apply to subcontracts for standard commercial supplies or raw materials.

1.6. Non-Exclusive Agreement. Consultant acknowledges that City may enter into agreements with other consultants for services similar to the services that are subject to this Agreement or may have its own employees perform services similar to those services contemplated by this Agreement.

1.7. Delegation and Assignment. This is a personal service contract, and the duties set forth herein shall not be delegated or assigned to any person or entity without the prior written consent of City. Consultant may engage a subcontractor(s) as permitted by law and may employ other personnel to perform services contemplated by this Agreement at Consultant's sole cost and expense. All insurance requirements contained in this Agreement are independently applicable to any and all subcontractors that Consultant may engage during the term of this

DocuSign Envelope ID: 4345A746-DAFD-40F5-9802-A93138B92DD4

Agreement.

1.8. Confidentiality. Employees of Consultant in the course of their duties may have access to financial, accounting, statistical, and personnel data of private individuals and employees of City. Consultant covenants that all data, documents, discussion, or other information developed or received by Consultant or provided for performance of this Agreement are deemed confidential and shall not be disclosed by Consultant without written authorization by City. City shall grant such authorization if disclosure is required by law. All City data shall be returned to City upon the termination of this Agreement. Consultant's covenant under this Section shall survive the termination of this Agreement.

2.0. COMPENSATION AND BILLING

2.1. Compensation. Consultant's total compensation shall not exceed **Forty-nine Thousand Nine Hundred Thirty-five Dollars ($49,935.00).**

2.2. Additional Services. Consultant shall not receive compensation for any services provided outside the scope of work specified in the Consultant's Proposal or which is inconsistent with or in violation of the provisions of this Agreement unless the City or the Project Manager for this Project, prior to Consultant performing the additional services, approves such additional services in writing. It is specifically understood that oral requests and/or approvals of such additional services or additional compensation shall be barred and are unenforceable. Should the City request in writing additional services that increase the hereinabove described "Scope of Work," an additional fee based upon the Consultant's standard hourly rates shall be paid to the Consultant for such additional services. The City Manager may approve contract change orders not exceeding a total of 10% of the approved contract or up to the contingency amount whichever amount is less for any one project.

2.3. Method of Billing. Consultant may submit invoices to the City for approval on a progress basis, but not more often than monthly. Said invoice shall be based on the total of all Consultant's services which have been completed to City's reasonable satisfaction. City shall pay Consultant's invoice within forty-five (45) days from the date City receives said invoice. Each invoice shall describe in detail, the services performed, the date of performance, and the associated time for completion. Any additional services approved and performed pursuant to this Agreement shall be designated as "Additional Services" and shall identify the number of the authorized change order, where applicable, on all invoices.

2.4. Records and Audits. Records of Consultant's services relating to this Agreement shall be maintained in accordance with generally recognized accounting principles and shall be made available to City or its Project Manager for inspection and/or audit at mutually convenient times for a period of three (3) years from the date of final payment.

3.0. TIME OF PERFORMANCE

3.1. Commencement and Completion of Work. The professional services to be performed pursuant to this Agreement shall commence within five (5) days from the issuance of Notice to Proceed. Said services shall be performed in strict compliance with the schedule set forth in the Scope of Work attached hereto as **Exhibit A**. Consultant will complete the services in accordance with this Agreement by **March 31, 2021.** The Time of Completion may only be modified by a written amendment of the Agreement signed by both the City and the Consultant and in accordance with its terms.

3.2. Excusable Delays. Neither party shall be responsible for delays or lack of

DocuSign Envelope ID: 4345A746-DAFD-40F5-9802-A93138B92DD4

performance resulting from acts beyond the reasonable control of the party or parties. Such acts shall include, but not be limited to, acts of God, fire, strikes, material shortages, compliance with laws or regulations, riots, acts of war, or any other conditions beyond the reasonable control of a party. If a delay beyond the control of the Consultant is encountered, a time extension may be mutually agreed upon in writing by the City and the Consultant. The Consultant shall present documentation satisfactory to the City to substantiate any request for a time extension.

4.0. TERM AND TERMINATION

4.1. Term. This Agreement shall commence on the Effective Date and expire on **June 30, 2021** unless previously terminated as provided herein or as otherwise agreed to in writing by the parties.

4.2. Notice of Termination. The City reserves and has the right and privilege of canceling, suspending or abandoning the execution of all or any part of the work contemplated by this Agreement, with or without cause, at any time, by providing at least ten (10) days prior written notice to Consultant. The termination of this Agreement shall be deemed effective upon receipt of the notice of termination. In the event of such termination, Consultant shall immediately stop rendering services under this Agreement unless directed otherwise by the City. If the City suspends, terminates or abandons a portion of this Agreement, such suspension, termination or abandonment shall not make void or invalidate the remainder of this Agreement.

If the Consultant defaults in the performance of any of the terms or conditions of this Agreement, it shall have ten (10) days after service upon it of written notice of such default in which to cure the default by rendering a satisfactory performance. In the event that the Consultant fails to cure its default within such period of time, the City shall have the right, notwithstanding any other provision of this Agreement, to terminate this Agreement without further notice and without prejudice to any other remedy to which it may be entitled at law, in equity or under this Agreement.

The City shall have the right, notwithstanding any other provisions of this Agreement, to terminate this Agreement, at its option and without prejudice to any other remedy to which it may be entitled at law, in equity or under this Agreement, immediately upon service of written notice of termination on the Consultant, if the latter should:

a. Be adjudged a bankrupt;

b. Become insolvent or have a receiver of its assets or property appointed because of insolvency;

c. Make a general assignment for the benefit of creditors;

d. Default in the performance of any obligation or payment of any indebtedness under this Agreement;

e. Suffer any judgment against it to remain unsatisfied or unbonded of record for thirty (30) days or longer; or

f. Institute or suffer to be instituted any procedures for reorganization or rearrangement of its affairs.

4.3. Compensation. In the event of termination, City shall pay Consultant for reasonable costs incurred and professional services satisfactorily performed up to and including

DocuSign Envelope ID: 4345A746-DAFD-40F5-9802-A93138B92DD4

the date of City's written notice of termination within thirty-five (35) days after service of the notice of termination. Compensation for work in progress shall be prorated based on the percentage of work completed as of the effective date of termination in accordance with the fees set forth herein. In ascertaining the professional services actually rendered hereunder up to the effective date of termination of this Agreement, consideration shall be given to both completed work and work in progress, to complete and incomplete drawings, and to other documents pertaining to the services contemplated herein whether delivered to the City or in the possession of the Consultant. City shall not be liable for any claim of lost profits.

4.4. Documents. In the event of termination of this Agreement, all documents prepared by Consultant in its performance of this Agreement including, but not limited to, finished or unfinished design, development and construction documents, data studies, drawings, maps and reports, shall be delivered to the City within ten (10) days of delivery of termination notice to Consultant, at no cost to City. Any use of uncompleted documents without specific written authorization from Consultant shall be at City's sole risk and without liability or legal expense to Consultant.

5.0. INSURANCE

5.1. Minimum Scope and Limits of Insurance. Consultant shall obtain, maintain, and keep in full force and effect during the life of this Agreement all of the following minimum scope of insurance coverages with an insurance company admitted to do business in California, rated "A," Class X, or better in the most recent Best's Key Insurance Rating Guide, and approved by City:

(a) Broad-form commercial general liability, in a form at least as broad as ISO form #CG 20 01 04 13, including premises-operations, products/ completed operations, broad form property damage, blanket contractual liability, independent contractors, personal injury or bodily injury with a policy limit of not less than One Million Dollars ($1,000,000.00) per occurrence, Two Million Dollars ($2,000,000.00) aggregate, combined single limits. If such insurance contains a general aggregate limit, it shall apply separately to this Agreement or shall be twice the required occurrence limit. If Consultant maintains higher limits than the specified minimum limits, City requires and shall be entitled to coverage for the high limits maintained by the Consultant.

(b) Business automobile liability for owned vehicles, hired, and non-owned vehicles, with a policy limit of not less than One Million Dollars ($1,000,000.00), combined single limits, each incident for bodily injury and property damage.

(c) Workers' compensation insurance as required by the State of California and Employers Liability Insurance with a minimum limit of $1,000,000 per accident for any employee or employees of Consultant. Consultant agrees to waive, and to obtain endorsements from its workers' compensation insurer waiving subrogation rights under its workers' compensation insurance policy against the City, its officials, officers, agents, employees, and volunteers for losses arising from work performed by Consultant for the City and to require each of its subcontractors, if any, to do likewise under their workers' compensation insurance policies.

DocuSign Envelope ID: 4345A746-DAFD-40F5-9802-A93138B92DD4

Before execution of this Agreement by the City, the Consultant shall file with the City Clerk the following signed certification:

> I am aware of, and will comply with, Section 3700 of the Labor Code, requiring every employer to be insured against liability of Workers' Compensation or to undertake self-insurance before commencing any of the work.

The Consultant shall also comply with Section 3800 of the Labor Code by securing, paying for and maintaining in full force and effect for the duration of this Agreement, complete Workers' Compensation Insurance, and shall furnish a Certificate of Insurance to the City Clerk before execution of this Agreement by the City. The City, its officers and employees shall not be responsible for any claims in law or equity occasioned by failure of the consultant to comply with this section.

(d) Professional errors and omissions ("E&O") liability insurance with policy limits of not less than Two Million Dollars ($2,000,000.00), combined single limits, per occurrence and aggregate. Architects' and engineers' coverage shall be endorsed to include contractual liability. If the policy is written as a "claims made" policy, the retro date shall be prior to the start of the contract work. Consultant shall obtain and maintain said E&O liability insurance during the life of this Agreement and for three years after completion of the work hereunder.

Neither the City nor any of its elected or appointed officials, officers, agents, employees, or volunteers makes any representation that the types of insurance and the limits specified to be carried by Consultant under this Agreement are adequate to protect Consultant. If Consultant believes that any such insurance coverage is insufficient, Consultant shall provide, at its own expense, such additional insurance as Consultant deems adequate.

5.2. Endorsements. The commercial general liability insurance policy and business automobile liability policy shall contain or be endorsed to contain the following provisions:

(a) Additional insureds: "The City of Fort Bragg and its elected and appointed boards, officers, officials, agents, employees, and volunteers are additional insureds with respect to: liability arising out of activities performed by or on behalf of the Consultant pursuant to its contract with the City; products and completed operations of the Consultant; premises owned, occupied or used by the Consultant; automobiles owned, leased, hired, or borrowed by the Consultant."

(b) [Section Removed.]

(c) Other insurance: "The Consultant's insurance coverage shall be primary insurance as respects the City of Fort Bragg, its officers, officials, agents, employees, and volunteers. Any other insurance maintained by the City of Fort Bragg shall be excess and not contributing with the insurance provided by this policy."

(d) Any failure to comply with the reporting provisions of the policies shall not affect coverage provided to the City of Fort Bragg, its officers, officials, agents, employees, and volunteers.

DocuSign Envelope ID: 4345A746-DAFD-40F5-9802-A93138B92DD4

(e) The Consultant's insurance shall apply separately to each insured against whom claim is made or suit is brought, except with respect to the limits of the insurer's liability.

5.3. Deductible or Self-Insured Retention. If any of such policies provide for a deductible or self-insured retention to provide such coverage, the amount of such deductible or self-insured retention shall be approved in advance by City. No policy of insurance issued as to which the City is an additional insured shall contain a provision which requires that no insured except the named insured can satisfy any such deductible or self-insured retention.

5.4. Certificates of Insurance. Consultant shall provide to City certificates of insurance showing the insurance coverages and required endorsements described above, in a form and content approved by City, prior to performing any services under this Agreement. The certificates of insurance and endorsements shall be attached hereto as **Exhibit B** and incorporated herein by this reference.

5.5. Non-limiting. Nothing in this Section shall be construed as limiting in any way, the indemnification provision contained in this Agreement, or the extent to which Consultant may be held responsible for payments of damages to persons or property.

5.6 Notification of Changes to Insurance: Consultant shall provide immediate written notice if: (1) any of the required insurance policies is terminated; (2) the limits of any of the required polices are reduced; or (3) the deductible or self-insured retention is increased. In the event of any cancellation or reduction in coverage or limits of any insurance, Consultant shall forthwith obtain and submit proof of substitute insurance. Should Consultant fail to immediately procure other insurance, as specified, to substitute for any canceled policy, the City may procure such insurance at Consultant's sole cost and expense.

6.0. GENERAL PROVISIONS

6.1. Entire Agreement. This Agreement constitutes the entire agreement between the parties with respect to any matter referenced herein and supersedes any and all other prior writings and oral negotiations. This Agreement may be modified only in writing, and signed by the parties in interest at the time of such modification. The terms of this Agreement shall prevail over any inconsistent provision in any other contract document appurtenant hereto, including exhibits to this Agreement.

6.2. Representatives. The City Manager or his or her designee shall be the representative of City for purposes of this Agreement and may issue all consents, approvals, directives and agreements on behalf of the City, called for by this Agreement, except as otherwise expressly provided in this Agreement.

Consultant shall designate a representative for purposes of this Agreement who shall be authorized to issue all consents, approvals, directives and agreements on behalf of Consultant called for by this Agreement, except as otherwise expressly provided in this Agreement.

6.3. Project Managers. The Project Manager designated to work directly with Consultant in the performance of this Agreement will be Chantell O'Neal, Assistant Director – Engineering Division. It shall be the Consultant's responsibility to assure that the Project Manager is kept informed of the progress of the performance of the services and the Consultant shall refer any decision, which must be made by City, to the Project Manager. Unless otherwise specified

DocuSign Envelope ID: 4345A746-DAFD-40F5-9802-A93138B92DD4

herein, any approval of City required hereunder shall mean the approval of the Project Manager.

Consultant designates Ian Barnes, PE, Senior Associate, as its Project Manager, who shall represent it and be its agent in all consultations with City during the term of this Agreement and who shall not be changed by Consultant without the express written approval by the City. Consultant or its Project Manager shall attend and assist in all coordination meetings called by City.

6.4. Notices. Any notices, documents, correspondence or other communications concerning this Agreement or the work hereunder may be provided by personal delivery, facsimile or if mailed, shall be addressed as set forth below and placed in a sealed envelope, postage prepaid, and deposited in the United States Postal Service. Such communication shall be deemed served or delivered: a) at the time of delivery if such communication is sent by personal delivery; b) at the time of transmission if such communication is sent by facsimile; and c) 72 hours after deposit in the U.S. Mail as reflected by the official U.S. postmark if such communication is sent through regular United States mail.

Fax: 925-933-7090	Fax: 707-961-2802

6.5. Attorneys' Fees. In the event that litigation is brought by any party in connection with this Agreement, the prevailing party shall be entitled to recover from the opposing party all costs and expenses, including reasonable attorneys' fees, incurred by the prevailing party in the exercise of any of its rights or remedies hereunder or the enforcement of any of the terms, conditions, or provisions hereof.

6.6. Governing Law. This Agreement shall be governed by and construed under the laws of the State of California without giving effect to that body of laws pertaining to conflict of laws. In the event of any legal action to enforce or interpret this Agreement, the parties hereto agree that the sole and exclusive venue shall be a court of competent jurisdiction located in Mendocino County, California. Consultant agrees to submit to the personal jurisdiction of such court in the event of such action.

6.7. Assignment. Consultant shall not voluntarily or by operation of law assign, transfer, sublet or encumber all or any part of Consultant's interest in this Agreement without City's prior written consent. Any attempted assignment, transfer, subletting or encumbrance shall be void and shall constitute a breach of this Agreement and cause for termination of this Agreement. Regardless of City's consent, no subletting or assignment shall release Consultant of Consultant's obligation to perform all other obligations to be performed by Consultant hereunder for the term of this Agreement.

6.8. Indemnification and Hold Harmless. Consultant agrees to defend, indemnify, hold free and harmless the City, its elected and appointed officials, officers, agents and employees, at Consultant's sole expense, from and against any and all claims, demands, actions, suits or other legal proceedings arising out of, pertaining to, or relating to the negligence, recklessness, or willful misconduct of Consultant brought against the City, its elected and appointed officials, officers, agents and employees arising out of the performance of the Consultant, its employees, and/or authorized subcontractors, of the work undertaken pursuant to this Agreement. The defense

DocuSign Envelope ID: 4345A746-DAFD-40F5-9802-A93138B92DD4

obligation provided for hereunder shall apply whenever any claim, action, complaint or suit asserts liability against the City, its elected and appointed officials, officers, agents and employees based upon the negligence, recklessness, or willful misconduct of the Consultant, its employees, and/or authorized subcontractors under this Agreement, whether or not the Consultant, its employees, and/or authorized subcontractors are specifically named or otherwise asserted to be liable. Notwithstanding the foregoing, the Consultant shall not be liable for the defense or indemnification of the City for claims, actions, complaints or suits arising out of the sole active negligence or willful misconduct of the City. This provision shall supersede and replace all other indemnity provisions contained either in the City specifications or Consultant's Proposal, which shall be of no force and effect.

6.9. Independent Contractor. Consultant is and shall be acting at all times as an independent contractor and not as an employee of City. Consultant shall have no power to incur any debt, obligation, or liability on behalf of City or otherwise act on behalf of City as an agent. Neither City nor any of its agents shall have control over the conduct of Consultant or any of Consultant's employees, except as set forth in this Agreement. Consultant shall not, at any time, or in any manner, represent that it or any of its or employees are in any manner agents or employees of City. Consultant shall secure, at its sole expense, and be responsible for any and all payment of Income Tax, Social Security, State Disability Insurance Compensation, Unemployment Compensation, and other payroll deductions for Consultant and its officers, agents, and employees, and all business licenses, if any are required, in connection with the services to be performed hereunder. Consultant shall indemnify and hold City harmless from any and all taxes, assessments, penalties, and interest asserted against City by reason of the independent contractor relationship created by this Agreement. Consultant further agrees to indemnify and hold City harmless from any failure of Consultant to comply with the applicable worker's compensation laws. City shall have the right to offset against the amount of any fees due to Consultant under this Agreement any amount due to City from Consultant as a result of Consultant's failure to promptly pay to City any reimbursement or indemnification arising under this paragraph.

6.10. PERS Eligibility Indemnification. In the event that Consultant or any employee, agent, or subcontractor of Consultant providing services under this Agreement claims or is determined by a court of competent jurisdiction or the California Public Employees Retirement System (PERS) to be eligible for enrollment in PERS as an employee of the City, Consultant shall indemnify, defend, and hold harmless City for the payment of any employee and/or employer contributions for PERS benefits on behalf of Consultant or its employees, agents, or subcontractors, as well as for the payment of any penalties and interest on such contributions, which would otherwise be the responsibility of City.

Notwithstanding any other agency, state or federal policy, rule, regulation, law or ordinance to the contrary, Consultant and any of its employees, agents, and subcontractors providing service under this Agreement shall not qualify for or become entitled to, and hereby agree to waive any claims to, any compensation, benefit, or any incident of employment by City, including but not limited to eligibility to enroll in PERS as an employee of City and entitlement to any contribution to be paid by City for employer contribution and/or employee contributions for PERS benefits.

6.11. Cooperation. In the event any claim or action is brought against City relating to Consultant's performance or services rendered under this Agreement, Consultant shall render any reasonable assistance and cooperation which City might require.

6.12. Ownership of Documents. All findings, reports, documents, information and data including, but not limited to, computer tapes or discs, preliminary notes, working documents, files

DocuSign Envelope ID: 4345A746-DAFD-40F5-9802-A93138B92DD4

and tapes furnished or prepared by Consultant or any of its subcontractors in the course of performance of this Agreement, shall be and remain the sole property of City. Consultant agrees that any such documents or information shall not be made available to any individual or organization without the prior consent of City, but shall be made available to the City within ten (10) days of request or within ten (10) days of termination. Any use of such documents for other projects not contemplated by this Agreement, and any use of incomplete documents, shall be at the sole risk of City and without liability or legal exposure to Consultant. City shall indemnify and hold harmless Consultant from all claims, damages, losses, and expenses, including attorneys' fees, arising out of or resulting from City's use of such documents for other projects not contemplated by this Agreement or use of incomplete documents furnished by Consultant. Consultant shall deliver to City any findings, reports, documents, information, data, preliminary notes and working documents, in any form, including but not limited to, computer tapes, discs, files audio tapes or any other Project related items as requested by City or its authorized representative, at no additional cost to the City. Consultant or Consultant's agents shall execute such documents as may be necessary from time to time to confirm City's ownership of the copyright in such documents.

6.13. Public Records Act Disclosure. Consultant has been advised and is aware that this Agreement and all reports, documents, information and data, including, but not limited to, computer tapes, discs or files furnished or prepared by Consultant, or any of its subcontractors, pursuant to this Agreement and provided to City may be subject to public disclosure as required by the California Public Records Act (California Government Code Section 6250 *et seq*.). Exceptions to public disclosure may be those documents or information that qualify as trade secrets, as that term is defined in the California Government Code Section 6254.7, and of which Consultant informs City of such trade secret. The City will endeavor to maintain as confidential all information obtained by it that is designated as a trade secret. The City shall not, in any way, be liable or responsible for the disclosure of any trade secret including, without limitation, those records so marked if disclosure is deemed to be required by law or by order of the Court.

6.14. Conflict of Interest. Consultant and its officers, employees, associates and subconsultants, if any, will comply with all conflict of interest statutes of the State of California applicable to Consultant's services under this agreement, including, but not limited to, the Political Reform Act (Government Code Sections 81000, *et seq*.) and Government Code Section 1090. During the term of this Agreement, Consultant and its officers, employees, associates and subconsultants shall not, without the prior written approval of the City Representative, perform work for another person or entity for whom Consultant is not currently performing work that would require Consultant or one of its officers, employees, associates or subconsultants to abstain from a decision under this Agreement pursuant to a conflict of interest statute.

6.15. Responsibility for Errors. Consultant shall be responsible for its work and results under this Agreement. Consultant, when requested, shall furnish clarification and/or explanation as may be required by the City's representative, regarding any services rendered under this Agreement at no additional cost to City. In the event that an error or omission attributable to Consultant occurs, then Consultant shall, at no cost to City, provide all necessary design drawings, estimates and other Consultant professional services necessary to rectify and correct the matter to the sole satisfaction of City and to participate in any meeting required with regard to the correction.

6.16. Prohibited Employment. Consultant will not employ any regular employee of City while this Agreement is in effect.

6.17. Order of Precedence. In the event of an inconsistency in this Agreement and any of the attached Exhibits, the terms set forth in this Agreement shall prevail. If, and to the extent

DocuSign Envelope ID: 4345A746-DAFD-40F5-9802-A93138B92DD4

this Agreement incorporates by reference any provision of any document, such provision shall be deemed a part of this Agreement. Nevertheless, if there is any conflict among the terms and conditions of this Agreement and those of any such provision or provisions so incorporated by reference, the conflict shall be resolved by giving precedence in the following order, if applicable: This Agreement, the City's Request for Proposals, the Consultant's Proposal.

6.18. Costs. Each party shall bear its own costs and fees incurred in the preparation and negotiation of this Agreement and in the performance of its obligations hereunder except as expressly provided herein.

6.19. No Third Party Beneficiary Rights. This Agreement is entered into for the sole benefit of City and Consultant and no other parties are intended to be direct or incidental beneficiaries of this Agreement and no third party shall have any right in, under or to this Agreement.

6.20. Headings. Paragraph and subparagraph headings contained in this Agreement are included solely for convenience and are not intended to modify, explain or to be a full or accurate description of the content thereof and shall not in any way affect the meaning or interpretation of this Agreement.

6.21. Construction. The parties have participated jointly in the negotiation and drafting of this Agreement. In the event an ambiguity or question of intent or interpretation arises with respect to this Agreement, this Agreement shall be construed as if drafted jointly by the parties and in accordance with its fair meaning. There shall be no presumption or burden of proof favoring or disfavoring any party by virtue of the authorship of any of the provisions of this Agreement.

6.22. Amendments. Only a writing executed by the parties hereto or their respective successors and assigns may amend this Agreement.

6.23. Waiver. The delay or failure of either party at any time to require performance or compliance by the other of any of its obligations or agreements shall in no way be deemed a waiver of those rights to require such performance or compliance. No waiver of any provision of this Agreement shall be effective unless in writing and signed by a duly authorized representative of the party against whom enforcement of a waiver is sought. The waiver of any right or remedy in respect to any occurrence or event shall not be deemed a waiver of any right or remedy in respect to any other occurrence or event, nor shall any waiver constitute a continuing waiver.

6.24. Severability. If any provision of this Agreement is determined by a court of competent jurisdiction to be unenforceable in any circumstance, such determination shall not affect the validity or enforceability of the remaining terms and provisions hereof or of the offending provision in any other circumstance. Notwithstanding the foregoing, if the value of this Agreement, based upon the substantial benefit of the bargain for any party, is materially impaired, which determination made by the presiding court or arbitrator of competent jurisdiction shall be binding, then both parties agree to substitute such provision(s) through good faith negotiations.

6.25. Counterparts. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original. All counterparts shall be construed together and shall constitute one agreement.

6.26. Corporate Authority. The persons executing this Agreement on behalf of the parties hereto warrant that they are duly authorized to execute this Agreement on behalf of said parties and that by doing so the parties hereto are formally bound to the provisions of this Agreement.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed by and through their respective authorized officers, as of the date first above written.

FEHR PEERS

December 18, 2020

Personal Financial Information

Subject: **Proposal for a Transportation Impact Assessment for the Dollar General Project in Fort Bragg, California**

Dear Person:

Thank you for contacting Fehr & Peers to prepare a transportation impact assessment (TIA) for the Dollar General project in central Fort Bragg, California. We understand that a TIA is requested to support the development of a 9,000 square foot retail building at 231 South Franklin Street in Fort Bragg. We understand that there is the potential for substantial community scrutiny on the CEQA VMT assessment for the project as well as on the informational Level of Service (LOS) assessment requested to be completed in parallel with the CEQA analysis.

The following scope of work includes five tasks.

Scope of Work

Task 1 – CEQA VMT Analysis

Fehr & Peers will leverage its recently-completed SB 743 implementation work with the Mendocino Council of Governments (MCOG) to assess the project's effect on VMT. As noted in the final report for the MCOG project, local-serving retail projects under 50,000 square feet may qualify for a finding of a less-than-significant VMT impact without further study. It is assumed, however, due to the potential for controversy on the project, a VMT calculation would still be required to demonstrate that the project's impacts are less-than-significant.

Fehr & Peers will use the latest available version of the MCOG travel demand model to assess VMT for the project. Per the MCOG report, because VMT per capita is expected to increase in the Fort Bragg area over time, Fehr & Peers will calculate project VMT (using the daily total VMT per service population metric) and project effect on VMT (using absolute VMT as the metric). VMT metrics will be calculated for the Baseline, Baseline plus Project, Cumulative and Cumulative plus Project scenarios. Plus Project VMT metrics will be compared against No Project scenario metrics using impact criteria developed through the MCOG SB 743 implementation project. Due to the project's close proximity to State Route 1, it is recommended that the thresholds in the OPR *Technical Advisory* be used as a basis for the selection of thresholds due to the high likelihood of Caltrans District 1 staff providing comments on the environmental document for the project. If significant impacts are found, mitigation measures will be proposed and their effects quantified using data from CAPCOA's *Quantifying Greenhouse Gas Reduction Measures*.

Task 2 – Other Required CEQA Analyses

Fehr & Peers will review site access and circulation for the project site using the provided site plan. This assessment will include reviewing the following items:

DocuSign Envelope ID: 4345A746-DAFD-40F5-9802-A93138B92DD4

- Site access and interface with public roadway network, including drop-off/pick-up zones
- Vehicular access and circulation within and adjacent to the project site
- Pedestrian access and circulation within and adjacent to the project site
- Bicycle access and circulation within and adjacent to the project site
- Emergency vehicle access and circulation
- Consistency with approved plans related to the bicycle, pedestrian and transit modes

Recommendation measures will be developed to address potential deficiencies in these areas.

Task 3 – Informational Off-Site Level of Service Analysis

Fehr & Peers will complete an informational off-site LOS analysis of up to five intersections, to be selected in coordination with City staff. Per SB 743, this analysis is not part of the CEQA process, but could be helpful in determining the project's off-site effects for the purposes of comparison against City General Plan goals and policies related to the function of the circulation system.

Due to the effects of the COVID-19 pandemic, new traffic counts are generally not presently being collected for traffic studies as current traffic patterns are not considered to be representative of normal conditions. Fehr & Peers will use recent traffic count data from the City of Fort Bragg, if available. For other intersections for which data is not available from previous studies, Fehr & Peers will download and process StreetLight Data estimates of turning movement volumes and develop Existing Conditions volumes using this data. For the purposes of this scoping effort, it is assumed that all study intersections will require the StreetLight Data volume estimate approach.

Fehr & Peers will analyze intersection LOS for Existing, Existing plus Project, Cumulative and Cumulative with Project conditions using the Synchro software analysis package. Signal timing data will be requested from the relevant agencies. Project trip assignments will be developed using the data from Task 1. Cumulative forecasts will be developed using the latest version of the MCOG model. Project scenario operations will be compared against No Project scenario operations using the relevant criteria for the City of Fort Bragg; if new deficiencies are found, Fehr & Peers will propose improvement measures.

Task 4 – Documentation

Fehr & Peers will summarize the work from Tasks 1-3 in this scope of work in the following reports:

- Draft TIA
- Final TIA

It is assumed that the project team, City of Fort Bragg, and other reviewing agencies (Caltrans, etc.) may have moderate technical and editorial comments on the Draft TIA. We will respond to one round of consolidated comments (up to eight total staff hours) and prepare a Final TIA. This scope of work also assumes the TIA will serve as sufficient documentation for M-Group to incorporate findings into the DEIR; however, up to six hours of staff time is included to assist in responses to comments on the environmental documentation for the project.

DocuSign Envelope ID: 4345A746-DAFD-40F5-9802-A93138B92DD4

Task 5 – Meetings/Conference Calls

Fehr & Peers will participate in up to two team conference calls over the course of the project. Additionally, Fehr & Peers will attend up to two four-hour evening virtual meetings over the course of the project (assumed to be Planning Commission and City Council meetings associated with adoption of the project). Additional meetings can be accommodated on a time-and-materials basis, subject to a scope amendment.

Schedule and Fee

Fehr & Peers will perform Tasks 1-5 on a time-and-materials basis for a not-to-exceed fee of $49,935. We will begin work following receipt of a fully executed contract. We anticipate that we can complete the Draft TIA within six to eight weeks of commencing work. We are committed to develop a mutually-agreeable schedule for our work based on more information about the timeline for the project. If the scope, schedule and fee are acceptable, please provide us with a contract for our review and execution.

Please contact Ian at (925) 930-7100 with questions or if you need additional information. We look forward to working with you on this project.

Sincerely,

FEHR & PEERS

Ian Barnes, PE
Senior Associate/Office Leader

CERTIFICATE OF LIABILITY INSURANCE

DATE (MM/DD/YYYY) 1/29/2021

THIS CERTIFICATE IS ISSUED AS A MATTER OF INFORMATION ONLY AND CONFERS NO RIGHTS UPON THE CERTIFICATE HOLDER. THIS CERTIFICATE DOES NOT AFFIRMATIVELY OR NEGATIVELY AMEND, EXTEND OR ALTER THE COVERAGE AFFORDED BY THE POLICIES BELOW. THIS CERTIFICATE OF INSURANCE DOES NOT CONSTITUTE A CONTRACT BETWEEN THE ISSUING INSURER(S), AUTHORIZED REPRESENTATIVE OR PRODUCER, AND THE CERTIFICATE HOLDER.

IMPORTANT: If the certificate holder is an ADDITIONAL INSURED, the policy(ies) must have ADDITIONAL INSURED provisions or be endorsed. If SUBROGATION IS WAIVED, subject to the terms and conditions of the policy, certain policies may require an endorsement. A statement on this certificate does not confer rights to the certificate holder in lieu of such endorsement(s).

RLIPack® FOR PROFESSIONALS
BLANKET ADDITIONAL INSURED ENDORSEMENT

This endorsement modifies insurance provided under the following:

BUSINESSOWNERS COVERAGE FORM - SECTION II – LIABILITY

1. **C. WHO IS AN INSURED** is amended to include as an additional insured any person or organization that you agree in a contract or agreement requiring insurance to include as an additional insured on this policy, but only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" caused in whole or in part by you or those acting on your behalf:

a. In the performance of your ongoing operations;

b. In connection with premises owned by or rented to you; or

c. In connection with “your work” and included within the “product-completed operations hazard”.

2. The insurance provided to the additional insured by this endorsement is limited as follows:

a. This insurance does not apply on any basis to any person or organization for which coverage as an additional insured specifically is added by another endorsement to this policy.

b. This insurance does not apply to the rendering of or failure to render any "professional services".

c. This endorsement does not increase any of the limits of insurance stated in **D. Liability And Medical Expenses Limits of Insurance**.

3. The following is added to **SECTION III H.2. Other Insurance – COMMON POLICY CONDITIONS (BUT APPLICABLE ONLY TO SECTION II – LIABILITY)**

However, if you specifically agree in a contract or agreement that the insurance provided to an additional insured under this policy must apply on a primary basis, or a primary and non-contributory basis, this insurance is primary to other insurance that is available to such additional insured which covers such additional insured as a named insured, and we will not share with that other insurance, provided that:

a. The "bodily injury" or "property damage" for which coverage is sought occurs after you have entered into that contract or agreement; or

b. The "personal and advertising injury" for which coverage is sought arises out of an offense committed after you have entered into that contract or agreement.

4. The following is added to **SECTION III K. 2. Transfer of Rights of Recovery Against Others to Us – COMMON POLICY CONDITIONS (BUT APPLICABLE TO ONLY TO SECTION II – LIABILITY)**

We waive any rights of recovery we may have against any person or organization because of payments we make for "bodily injury", "property damage" or "personal and advertising injury" arising out of "your work" performed by you, or on your behalf, under a contract or agreement with that person or organization. We waive these rights only where you have agreed to do so as part of a contract or agreement with such person or organization entered into by you before the "bodily injury" or "property damage" occurs, or the "personal and advertising injury" offense is committed.

ALL OTHER TERMS AND CONDITIONS OF THIS POLICY REMAIN UNCHANGED.

This endorsement modifies insurance provided under the following:

BUSINESS AUTO COVERAGE FORM

A. Broad Form Named Insured

The following is added to the **SECTION II – COVERED AUTOS LIABILITY COVERAGE,** Paragraph **A.1. Who Is An Insured** Provision:

Any business entity newly acquired or formed by you during the policy period, provided you own fifty percent (50%) or more of the business entity and the business entity is not separately insured for Business Auto Coverage. Coverage is extended up to a maximum of one hundred eighty (180) days following the acquisition or formation of the business entity.

This provision does not apply to any person or organization for which coverage is excluded by endorsement.

B. Employees As Insureds

The following is added to the **SECTION II – COVERED AUTOS LIABILITY COVERAGE,** Paragraph **A.1. Who Is An Insured** Provision:

Any "employee" of yours is an "insured" while using a covered "auto" you don't own, hire or borrow in your business or your personal affairs.

C. Blanket Additional Insured

The following is added to the **SECTION II – COVERED AUTOS LIABILITY COVERAGE,** Paragraph **A.1. Who Is An Insured** Provision:

Any person or organization that you are required to include as an additional insured on this coverage form in a contract or agreement that is executed by you before the "bodily injury" or "property damage" occurs is an "insured" for liability coverage, but only for damages to which this insurance applies and only to the extent that person or organization qualifies as an "insured" under the Who Is An Insured provision contained in **SECTION II – COVERED AUTOS LIABILITY COVERAGE**.

The insurance provided to the additional insured will be on a primary and non-contributory basis to the additional insured's own business auto coverage if you are required to do so in a contract or agreement that is executed by you before the "bodily injury" or "property damage" occurs.

D. Blanket Waiver Of Subrogation

The following is added to the **SECTION IV – BUSINESS AUTO CONDITIONS, A. Loss Conditions, 5. Transfer Of Rights Of Recovery Against Others To Us**:

We waive any right of recovery we may have against any person or organization to the extent required of you by a contract executed prior to any "accident" or "loss", provided that the "accident" or "loss" arises out of the operations contemplated by such contract. The waiver applies only to the person or organization designated in such contract.

E. Employee Hired Autos

1. The following is added to the **SECTION II – COVERED AUTOS LIABILITY COVERAGE,** Paragraph **A.1. Who Is An Insured** Provision:

An "employee" of yours is an "insured" while operating an "auto" hired or rented under a contract or agreement in that "employee's" name, with your permission, while performing duties related to the conduct of your business.

2. Changes In General Conditions:

Paragraph **5.b.** of the **Other Insurance** Condition in the **BUSINESS AUTO CONDITIONS** is deleted and replaced with the following:

b. For Hired Auto Physical Damage Coverage, the following are deemed to be covered "autos" you own:

(1) Any covered "auto" you lease, hire, rent or borrow; and

(2) Any covered "auto" hired or rented by your "employee" under a contract in that individual "employee's" name, with your permission, while performing duties related to the conduct of your business. However, any "auto" that is leased, hired, rented or borrowed with a driver is not a covered "auto".

F. Fellow Employee Coverage

SECTION II – COVERED AUTOS LIABILITY COVERAGE, Exclusion B.5. does not apply if you have workers compensation insurance in-force covering all of your employees.

G. Auto Loan Lease Gap Coverage

SECTION III – PHYSICAL DAMAGE COVERAGE, C. Limit Of Insurance, is amended by the addition of the following:

In the event of a total "loss" to a covered "auto" shown in the Schedule of Declarations, we will pay any unpaid amount due on the lease or loan for a covered "auto", less:

1. The amount paid under the **PHYSICAL DAMAGE COVERAGE** section of the policy; and

2. Any:

a. Overdue lease/loan payments at the time of the "loss";

DRAFT

Executive Summary

This report presents the results of the Transportation Impact Assessment (TIA) conducted for the proposed Fort Bragg Dollar General Project (the "project") located at 251 South Franklin Street in Fort Bragg, California. The project proposes to construct an approximately 9,100 square foot retail establishment on currently vacant land at the northwest corner of South Franklin Street/Maple Street. Access to the project site will be provided through the use of two driveways (one on Maple Street and one on South Franklin Street), and 30 parking spaces will be provided on-site.

The proposed project's effect on vehicle-miles of travel (VMT)[1] was estimated for CEQA purposes using the Mendocino Council of Governments (MCOG) Travel Demand Forecasting Model, which is a tool that estimates changes in travel associated with the inclusion of new land uses in the model coverage area. As the proposed project would result in a redistribution of baseline retail trips, the project's effect on VMT was compared against a net-zero change in VMT threshold. If a significant CEQA impact is identified, CEQA mitigation measures are required. The effects of the project on the public transit system, pedestrian system, bicycle system, vehicle system, and emergency access were qualitatively evaluated for CEQA purposes.

For informational, non-CEQA purposes, project effects on intersection operations at five study intersections were evaluated in a manner consistent with typical analysis methods for intersection analysis in Mendocino County. Intersection operations were evaluated under the following study scenarios:

- Existing Conditions
- Existing with Project Conditions
- Cumulative (Year 2040) without Project Conditions
- Cumulative (Year 2040) with Project Conditions

The intersection analysis identifies the potential, non-CEQA adverse effects of the proposed project on the surrounding circulation system and recommends improvement measures (not considered to be CEQA mitigation measures) to reduce these effects. Non-CEQA recommendations for improvements for the transportation system on-site and in the immediate vicinity of Analy, El Molino and Laguna high schools are provided as well.

[1] Vehicle-miles traveled is a metric that is related to the overall amount of travel. In its simplest form, VMT is the multiplicative product of number of trips by trip length. The methods used in this analysis are slightly more complex where VMT is estimated by approximating the length of vehicle trips between origin-destination pairs.

CEQA Project Effect on Vehicle-Miles of Travel (VMT) Analysis

The proposed project would result in a net increase in 44 VMT in the year 2021/2022 build year scenario. This finding was developed by interpolating between results from a MCOG model base year 2009 model run (which showed a VMT increase of 32 VMT per day) and a MCOG model future year 2030 model run (which showed a VMT increase of 52 VMT per day). Based on these results, CEQA mitigation measures are required to be implemented. To be conservative, the standard of performance for the mitigation measure is a reduction of 52 VMT per day. This roughly corresponds to the removal of ten 5.2-mile trips from the roadway system per day.

Mitigation Measure TRANS-1: Implement Transportation Demand Management (TDM) strategies from the menu of options presented in **Table 8** in **Section 4.1** of the report; these strategies are focused on increasing public transit usage, carpooling, bicycle commuting, vanpooling, and providing options for employees to not drive to work. The effectiveness of the program shall be monitored periodically by calculating the VMT reduction associated with usage of the TDM strategies by employees and patrons. Mitigation Measure TRANS-1 shall be considered effective if it can be demonstrated that an average of 52 average weekday daily VMT is removed from the roadway system.

Research indicates that achieving the required VMT reduction is feasible. The overall level of VMT reduction required is low (about 0.2% of City-wide VMT), and mitigation monitoring will demonstrate the effectiveness of the mitigation measures relative to the performance standards. Also, the State Office of Planning and Research notes that local-serving retail establishments of 50,000 square feet or less may be presumed to create a less-than-significant impact. For these reasons, it was determined that, provided the implementation of Mitigation Measure TRANS-1, the project's effect on VMT is ***less-than-significant with mitigation.***

Pedestrian and Bicycle CEQA Impacts

The proposed project is not anticipated to eliminate off-site pedestrian facilities, create hazardous conditions for pedestrians by changing off-site geometric features or introducing incompatible vehicle types to the roadway system, or conflict with any existing or planned pedestrian facilities. Therefore, pedestrian system impacts are ***less-than-significant*** as the project is not anticipated to degrade the off-site pedestrian network.

The proposed project design would not eliminate bicycle facilities that connect to the area circulation system, does not conflict with existing or planned bicycle facilities, nor would it create a hazardous condition for bicyclists by changing off-site geometric features or introducing incompatible vehicle types to the roadway system. Therefore, the impacts to bicyclists are ***less-than-significant.***

Public Transit CEQA Impacts

Fixed-route public transit services operate about 250 feet away from the project site. While the project could generate new demand for the public transit services and facilities that serve the area, transit system and transit vehicle capacities are not expected to be exceeded; the project is not in conflict with existing or planned public transit facilities. Therefore, impacts to public transit are ***less-than-significant***.

Vehicle System and Emergency Vehicle Access CEQA Impacts

The project, as currently proposed, includes a driveway along Maple Street that is immediately adjacent to an existing alleyway. This geometric condition is potentially hazardous due to the potential for inadequate sight distance between vehicles traveling south along the alleyway at Maple Street and vehicles exiting the project site; this is a **significant impact**.

Mitigation Measure TRANS-2: To improve sight distance between the Maple Street driveway and the alleyway, the Maple Street driveway should be shifted to a location further to the east, or the driveway should be signed for one-way inbound operation only. Implementing this mitigation measure would reduce the impact to a level that is ***less-than-significant with mitigation.***

The project's effects on emergency vehicle access are ***less-than-significant*** as it would not reduce emergency vehicle access points at the sites, and emergency vehicles retain the ability to bypass congestion in the vicinity of the high schools. As noted by CEQA Guidelines §15064.3, CEQA impacts related to congestion and delay on the roadway system are ***less-than-significant*** by statute.

Site Access and Circulation Recommendations (Non-CEQA)

The following recommendations have been developed to improve site access and circulation. These recommendations are not for CEQA mitigation purposes and were developed to assist in addressing on-site access and circulation:

Site Access and Vehicular Circulation

- Review and confirm adequacy of sight distance for driveway access points
- Confirm adequacy of design for cornering movement at northwest corner of project site

Pedestrian and Bicycle Access and Circulation:

- Construct sidewalk on south project frontage
- Stripe missing crosswalks at South Franklin Street/Maple Street
- Provide bicycle parking for patrons

Project Effect on Intersection Operations (Non-CEQA)

Table E-1 provides a summary of the informational, non-CEQA analysis of study intersections. Where substantial adverse effects were identified, improvement measures were proposed; these improvement measures are discussed later in this Executive Summary.

Table E-1: Summary of Project Effect on Intersection Operations

Intersection		Intersection Operations Substantially Affected Under Scenario?	
		Existing with Project	Cumulative with Project
1	Main Street (SR 1)/Oak Street	No	No
2	South Main Street (SR 1)/Madrone Street	No	No
3	South Main Street (SR 1)/Maple Street	No	**Yes**
4	South Franklin Street/Madrone Street	No	No
5	South Franklin Street/Maple Street	No	No

Source: Fehr & Peers, February 2021

The project's effects on intersection operations are ***less-than-significant*** for CEQA purposes, consistent with CEQA Guidelines §15064.3, which notes that "a project's effect on automobile delay shall not constitute a significant environmental impact."

Intersection Improvement Measures (non-CEQA)

The project is anticipated to result in non-CEQA substantial adverse effects to intersection operations at South Main Street (SR 1)/Maple Street during the PM peak hour under Cumulative with Project Conditions. The following intersection improvement measure has been developed to alleviate the potential adverse effect at the intersection:

Intersection Improvement Measure #1: Two options are available:

- Option 1: Restripe westbound Maple Street to include one left turn lane and one right turn lane, and prohibit on-street parking on the north side of Maple Street between South Main Street (SR 1) and the mid-block alley entrance
- Option 2: Install a traffic signal at the intersection

Implementation of either of these improvements would result in reducing the project effects to less-than-substantial levels. Therefore, the effects of the project on study intersection operations are ***less-than-substantial with improvements***. The installation of a traffic signal at the intersection, however, would provide opportunities to enhance pedestrian circulation along the South Main Street (SR 1) corridor. It would also provide more breaks in the traffic stream, which would reduce delays for Madrone Street at South Main Street (SR 1) as well as provide another signalized access point to South Main Street (SR 1) roughly halfway between existing traffic signals at Main Street (SR 1)/Oak Street and South Main Street (SR 1)/Chestnut Street.

DRAFT

1. Introduction

This report presents the results of the Transportation Impact Assessment (TIA) for the proposed Dollar General Project (the "project") located at 251 South Franklin Street in Fort Bragg, California. This TIA will inform the California Environmental Quality Act (CEQA) Transportation section of the environmental documentation being developed for the project. The proposed project includes the construction of a Dollar General retail establishment, totaling approximately 9,100 square feet on the northwest corner of the South Franklin Street/Maple Street intersection. The project would take access to the public street system through the use of one driveway on Maple Street and one driveway on South Franklin Street. A total of 30 parking spaces is proposed for the project site.

The conceptual site plan for the proposed project is provided as **Figure 1**.

1.1 CEQA Transportation Analysis

As noted previously, the project is being analyzed under the auspices of the California Environmental Quality Act (CEQA). For the CEQA Transportation section, projects are generally required to respond to the following CEQA Guidelines Appendix G checklist questions:

Would the project:

a) Conflict with a program, plan, ordinance or policy addressing the circulation system, including transit, roadway, bicycle and pedestrian facilities?

b) Conflict or be inconsistent with CEQA Guidelines section 15064.3, subdivision (b)?

c) Substantially increase hazards due to a geometric design feature (e.g. sharp curves or dangerous intersections) or incompatible uses (e.g. farm equipment)?

d) Result in inadequate emergency access?

Criterion B is the formal implementation of the Senate Bill (SB) 743 requirement to analyze VMT as part of the CEQA Transportation section. Under SB 743, congestion related project effects (such as those measured by Level of Service or similar metrics) are deemed to be less-than-significant by statute. Relevant subsections of CEQA Guidelines section 15064.3(b) for the project read as follows:

(1) **Land Use Projects.** *Vehicle-miles traveled exceeding an applicable threshold of significance may indicate a significant impact. Generally, projects within one-half mile of either an existing major*

Site Plan Source: Zaremba Group, December 2020.

Figure 1

Conceptual Project Site Plan

transit stop or a stop along an existing high-quality transit corridor should be presumed to cause a less than significant transportation impact. Projects that decrease vehicle-miles traveled in the project area compared to existing conditions should be presumed to have a less than significant transportation impact.

(4) **Methodology**. *A lead agency has discretion to choose the most appropriate methodology to evaluate a project's vehicle miles traveled, including whether to express the change in absolute terms, per capita, per household or in any other measure. A lead agency may use models to estimate a project's vehicle miles traveled and may revise those estimates to reflect professional judgment based on substantial evidence. Any assumptions used to estimate vehicle miles traveled and any revisions to model outputs should be documented and explained in the environmental document prepared for the project. The standard of adequacy in Section 15151 shall apply to the analysis described in this section.*

As noted above, the City of Fort Bragg, in its discretion as lead agency, has the ability to select the methodology and CEQA significance criteria for use in the CEQA Transportation section. CEQA significance criteria are provided in **Section 1.2**.

1.2 CEQA Transportation Impact Criteria

CEQA impacts are identified based on the project's effect on VMT and its effects to the pedestrian, bicycle and transit modes of travel. For land use projects, intersection operations impacts (such as those measured by congested-based metrics such as Level of Service) are specifically excluded from CEQA consideration per CEQA Guidelines §15064.3 and SB 743. The detailed CEQA Transportation section impact criteria are presented below.

1.2.1 Vehicle-Miles of Travel (VMT)

The State Office of Planning and Research (OPR), in their *Technical Advisory on the Evaluation of Transportation Impacts in CEQA* (December 2018), has provided non-binding guidance on thresholds that could be used in the analysis of CEQA transportation impacts, using VMT as the quantified metric for evaluation. The basis of these OPR-recommended thresholds includes state climate planning documents and legislation.

CEQA Guidelines §15064.3(a) notes that, for the purposes of §15064.3 and CEQA Transportation analysis, VMT "refers to the amount and distance of automobile travel attributable to a project." This statement has been interpreted by OPR to mean automobile and light-duty truck travel (e.g., pickup trucks). For many retail land uses, the amount and distance of automobile travel is the overwhelming component of weekday daily VMT. OPR notes that heavy-duty truck VMT could be included for convenience and ease of calculation, if a lead agency so chooses, but are not required to be included in the calculations.

In the *Technical* Advisory, OPR has recommended thresholds and calculation approaches for three project types: residential, office and retail. The thresholds and calculation approaches noted in the *Technical Advisory* are in part based on the legislative intent of SB 743, which include (1) promoting infill development, (2) promoting healthy communities through encouraging active transportation, and (3) assisting California in meeting its statewide climate targets. In essence, the switch to VMT as the CEQA Transportation metric measures the efficiency of land use patterns and streamlines development that enhance a diversity of land uses and access to common goods and commercial/public services.

In its discretion as lead agency, the City of Fort Bragg may choose to adopt its own thresholds of significance based on substantial evidence, or to rely on substantial evidence developed by other agencies (e.g. OPR). OPR, in its review of the legislative intent of SB 743 and its development of substantial evidence to support their published thresholds, has noted that retail projects should be analyzed on the basis of net change in total VMT because "retail projects typically re-route travel from other retail destinations."

The Mendocino Council of Governments (MCOG) has provided non-binding guidance to its member agencies to aid in addressing the switch to VMT as the CEQA Transportation metric as a result of SB 743. MCOG's *SB 743 VMT Regional Baseline Study* (Fehr & Peers, 2020) outlines VMT metrics that agencies may adopt. The two main metrics for potential adoption are a VMT per service population metric and a net-change in VMT metric. To date, no agency in Mendocino County has formally adopted the VMT per service population metric for land use projects and agencies are actively assessing other VMT metrics for projects.

Based on the guidance presented in the *Technical Advisory* and the MCOG report, the City of Fort Bragg has chosen the following VMT-based threshold to be applied to assess the CEQA significance of the project's effect on VMT:

- The project would result in a significant impact related to VMT if the project would result in a net increase in VMT.

The threshold noted above is consistent with OPR's recommended threshold; projects that are redistributive in nature (e.g., educational facility, retail, etc.) and result in an increase in VMT are not in-line with the portion of the legislative intent of SB 743 related to assisting California meeting its statewide climate targets. The VMT calculation methodologies used in the analysis of the project are presented in **Section 1.3**. The CEQA VMT analysis is presented in **Section 4.1**.

1.2.2 Public Transit System

The project would create a significant impact related to public transit service if either of the following criteria are met:

- The project generates a substantial increase in public transit riders that cannot be adequately served by existing public transit services; or,
- The project conflicts with existing or planned public transit facilities.

The CEQA analysis of the pedestrian system is presented in **Section 4.2**.

1.2.3 Pedestrian System

The project would create a significant impact related to the pedestrian system if any of the following criteria are met:

- The project design would not provide or would eliminate pedestrian facilities to connect to the area circulation system, or
- The project design would create hazardous conditions for pedestrians due to geometric design feature or introduction of incompatible uses, or
- The project conflicts with existing or planned pedestrian facilities.

The CEQA analysis of the pedestrian system is presented in **Section 4.3**.

1.2.4 Bicycle System

The project would create a significant impact related to the bicycle system if any of the following criteria are met:

- The project design would not provide or would eliminate bicycle facilities that connect to the area circulation system; or
- The project design would create hazardous conditions for bicyclists due to geometric design feature or introduction of incompatible uses; or
- The project conflicts with existing or planned bicycle facilities.

The CEQA analysis of the bicycle system is presented in **Section 4.3**.

1.2.5 Vehicle System

The project would create a significant impact related to the vehicle system if any of the following criteria are met:

- The project design would substantially increase hazards due to a geometric design feature, or
- The project introduces incompatible vehicle uses to the system.

DRAFT

The CEQA analysis of the vehicle system is presented in **Section 6.1**.

1.2.6 Emergency Access

The project would create a significant impact related to emergency vehicle access if the following criterion is met:

- The project incorporates design features that limit or result in inadequate emergency vehicle access.

The CEQA analysis of the emergency vehicle access is presented in **Section 6.3.**

1.3 CEQA VMT Analysis Methodology

As discussed in **Section 1.2**, the VMT analysis prepared for the CEQA transportation section is performed based on the total VMT metric, with a net-increase threshold being used to identify a significant CEQA impact. Typically, a travel demand model is used to assess changes in VMT resulting from a project, given their predictive power in terms of trip generation, trip distribution and trip assignment. The local travel demand model – the MCOG Travel Demand Forecasting Model (MCOG model) – was used to estimate VMT for the proposed project. The MCOG model includes a base year of 2009 and a future horizon year of 2030. The VMT analysis in this report is performed for both the 2009 and 2030 scenarios, with the delta between "no project" and "plus project" VMT for these two horizon years being interpolated to arrive at a delta reflecting a project opening year of 2021/2022.

Project VMT effect analysis for retail projects generally consider the change in VMT within a certain influence area that considers the potential effects of redistribution of project trips to the project site from other nearby land uses. Based on recommendations from the MCOG report and considering the layout of the transportation network in the vicinity of the project site, the City of Fort Bragg city limit boundary was chosen as the extents of the VMT calculation. This VMT analysis boundary reflects that the majority of travel into/out of the City crosses the SR 1 Pudding Creek or Noyo River bridges, and thus travel from areas outside the boundary is generally concentrated at the two bridge; travel patterns may differ on the street grid between the SR 1 bridges, and thus the study area captures changes in travel along the street grid.

1.4 Non-CEQA Intersection Analysis

As noted in **Section 1.2**, CEQA Guidelines §15064.3(a) notes that "a [land use] project's effect on automobile delay shall not constitute a significant environmental impact. Thus, the effect of the project on automobile congestion (as measured by metrics such as Level of Service) are ***less-than-significant*** by statute. However, an informational (i.e., not performed for CEQA purposes) intersection analysis has been performed to aid in

understanding if off-site transportation improvements may be beneficial in promoting efficient vehicular circulation in the vicinity of the project site after implementation of the project. The intersection analysis parameters are discussed in the following subsections.

1.4.1 Intersection Analysis Study Area

The intersection analysis study area includes key intersections immediately adjacent to the project site, along with intersections in the vicinity of the project site where the project may affect operations of the transportation network. Project effects on the study area roadway facilities were determined by measuring the effect that the addition of project traffic would have on intersection operations during the morning (7:00 to 9:00 AM) and evening (4:00 to 6:00 PM) weekday travel periods. A total of five intersections, presented on **Figure 2**, were selected as study locations in consultation with City staff.

1. Main Street (SR 1)/Oak Street
2. South Main Street (SR 1)/Madrone Street
3. South Main Street (SR 1)/Maple Street
4. South Franklin Street/Madrone Street
5. South Franklin Street/Maple Street

1.4.2 Intersection Analysis Scenarios

Study intersections were evaluated for the following scenarios:

Scenario 1: *Existing Conditions* – Existing volumes obtained from the StreetLight Data intersection turning movement count database, reflecting Year 2019 (pre-COVID pandemic) conditions. Volumes estimates were prepared considering the months when local schools are in session. Intersection characteristics (lane configurations, signal timings, etc.) are reflective of Year 2019 conditions.

Scenario 2: *Existing with Project Conditions* – Scenario 1 volumes plus traffic volume generated from the proposed project.

Scenario 3: *Cumulative (Year 2040) without Project Conditions* – Existing volumes plus traffic generated from regional growth anticipated to occur by Year 2040 based on projections per the MCOG travel demand model.

Scenario 4: *Cumulative (Year 2040) with Project Conditions* – Scenario 3 volumes plus traffic volume generated from the proposed project

DRAFT

1.4.3 Intersection Analysis Methodology

The operations of roadway facilities are described with the term level of service ("LOS", a qualitative description of traffic flow based on such factors as speed, travel time, delay, and freedom to maneuver). Six levels are defined from LOS A, as the best operating conditions, to LOS F, or the worst operating conditions. LOS E represents "at-capacity" operations. When traffic volumes exceed intersection capacity, stop-and-go conditions result, and operations are designated as LOS F. Generally, the City of Fort Bragg's LOS standard (per the General Plan) is LOS D for intersections along Main Street (SR 1) and LOS C for other intersections not along Main Street (SR 1).

Signalized Intersections

Operations of signalized intersections were evaluated using the method from Transportation Research Board's *Highway Capacity Manual, 6th Edition* (HCM 6th Edition), which uses various intersection characteristics (such as traffic volumes, lane geometry, and signal phasing) to estimate the average control delay experienced by motorists traveling through an intersection. Control delay incorporates delay associated with deceleration, acceleration, stopping, and moving up in the queue. **Table 1** summarizes the relationship between average delay per vehicle and LOS for signalized intersections. This method evaluates each intersection in isolation, and the effects of vehicle queue spillback are not considered in the analysis results. **Table 1** summarizes the relationship between delay and LOS for signalized intersections.

Table 1: Signalized Intersection LOS Definitions

Level of Service	Description	Delay in Seconds
A	Progression is extremely favorable and most vehicles arrive during the green phase. Most vehicles do not stop at all. Short cycle lengths may also contribute to low delay.	< 10.0
B	Progression is good, cycle lengths are short, or both. More vehicles stop than with LOS A, causing higher levels of average delay.	> 10.0 to 20.0
C	Higher congestion may result from fair progression, longer cycle lengths, or both. Individual cycle failures may begin to appear at this level, though many still pass through the intersection without stopping.	> 20.0 to 35.0
D	The influence of congestion becomes more noticeable. Longer delays may result from some combination of unfavorable progression, long cycle lengths, or high volume to capacity (V/C) ratios. Many vehicles stop, and the proportion of vehicles not stopping declines. Individual cycle failures are noticeable.	> 35.0 to 55.0
E	This level is considered by many agencies to be the limit of acceptable delay. These high delay values generally indicate poor progression, long cycle lengths, and high V/C ratios. Individual cycle failures are frequent occurrences.	> 55.0 to 80.0

DRAFT

Table 1: Signalized Intersection LOS Definitions

Level of Service	Description	Delay in Seconds
F	This level is considered unacceptable with oversaturation, which is when arrival flow rates exceed the capacity of the intersection. This level may also occur at high V/C ratios below 1.0 with many individual cycle failures. Poor progression and long cycle lengths may also be contributing factors to such delay levels.	> 80.0

Source: *Highway Capacity Manual, 6th Edition.*

Unsignalized Intersections

Operations at unsignalized intersections were evaluated using the methods from the HCM 6th Edition. With this method, operations are defined by the average control delay per vehicle (measured in seconds) for each movement that must yield the right-of-way. At two-way or side street stop-controlled intersections, the control delay (and LOS) is calculated for each controlled movement, the left-turn movement from the major street, and the entire intersection. For controlled approaches composed of a single lane, the control delay is computed as the average of all movements in that lane. The delays for the entire intersection and for the movement or approach with the highest delay are reported. **Table 2** summarizes the relationship between delay and LOS for unsignalized intersections.

Table 2: Unsignalized Intersection LOS Criteria

Level of Service	Description	Delay in Seconds
A	Little or no delays	< 10.0
B	Short traffic delays	> 10.0 to 15.0
C	Average traffic delays	> 15.0 to 25.0
D	Long traffic delays	> 25.0 to 35.0
E	Very long traffic delays	> 35.0 to 50.0
F	Extreme traffic delays with intersection capacity exceeded	> 50.0

Source: *Highway Capacity Manual, 6th Edition.*

1.4.4 Intersection Substantial Adverse Effect Criteria

The determination of whether the project results in a substantial adverse effect at a study location is based on applicable policies, regulations, goals, and guidelines defined by the City of Fort Bragg. The detailed

DRAFT

intersection operations substantial adverse effect criteria for this study are presented below. If the project results in a substantial adverse effect, improvement measures are recommended.

Signalized Intersections

The project would result in a substantial adverse effect if one of the two following criteria are met:

- The addition of project traffic to an intersection results in the degradation of intersection operations from acceptable operations (LOS D or better) to unacceptable operations (LOS E or LOS F)
- The addition of project traffic to an intersection results in the exacerbation of unacceptable operations (LOS E or F) by increasing the average control delay at the intersection by more than 5.0 seconds.

Unsignalized Intersections

The project would result in a substantial adverse effect if both of the following criteria are met:

For intersections along Main Street (SR 1) operating acceptably (LOS D or better) before the addition of project trips:

- The addition of project traffic to an intersection results in the degradation of intersection operations from acceptable operations (LOS D or better) to unacceptable operations (LOS E or LOS F)
- The Peak Hour Signal Warrant (Warrant 3B) is met under With Project conditions.

For intersections along Main Street (SR 1) operating unacceptably (LOS E or F) before the addition of project trips:

- The addition of project traffic to an intersection results in the exacerbation of unacceptable operations (LOS E or F) by increasing the average control delay (for all-way stop-controlled intersections) or worst movement/approach delay (for side-street stop-controlled intersections) at the intersection by more than 5.0 seconds.
- The Peak Hour Signal Warrant (Warrant 3B) is met under With Project conditions.

For intersections not along Main Street (SR 1) operating acceptably (LOS C or better) before the addition of project trips:

- The addition of project traffic to an intersection results in the degradation of intersection operations from acceptable operations (LOS C or better) to unacceptable operations (LOS D, LOS E or LOS F)

DRAFT

- The Peak Hour Signal Warrant (Warrant 3B) is met under With Project conditions.

For intersections not along Main Street (SR 1) operating unacceptably (LOS D, E or F) before the addition of project trips:

- The addition of project traffic to an intersection results in the exacerbation of unacceptable operations (LOS D, E or F) by increasing the average control delay (for all-way stop-controlled intersections) or worst movement/approach delay (for side-street stop-controlled intersections) at the intersection by more than 5.0 seconds.
- The Peak Hour Signal Warrant (Warrant 3B) is met under With Project conditions.

1.5 Improvement Measure Terminology

Throughout this report, recommendations are made to address potential deficiencies in the transportation system resulting from the project. *Mitigation Measures* are improvement measures that are required to be implemented as they pertain to mitigating a significant CEQA impact related to the thresholds presented in **Section 1.2**. *Recommendations or Improvement Measures* are measures that are not required to be implemented, as they do not pertain to CEQA impact analyses on the transportation system, such as those related to the criteria presented in **Section 1.4.4**. Fehr & Peers provides these non-binding recommendations for improvements to enhance multimodal circulation, mobility, and access.

1.6 Report Organization

The remainder of this report is organized into the following chapters:

- ***Chapter 2: Existing Conditions*** describes the existing multimodal transportation system in the project vicinity, including the surrounding roadway network, peak period intersection turning movement volumes, existing bicycle, pedestrian, and transit facilities, and intersection operations.
- ***Chapter 3: Project Trip Generation Estimates*** presents the estimated trip generation for each existing high school site.
- ***Chapter 4: Existing with Project Conditions*** addresses near-term conditions after implementation of the project, including CEQA VMT impacts, CEQA multimodal transportation system impacts, and non-CEQA effects on the operations of the circulation system.
- ***Chapter 5: Cumulative Conditions*** addresses future (Year 2040) conditions with and without the project and presents recommended (i.e., not CEQA mitigation) intersection improvement measures that address projected non-CEQA adverse effects on the operations of the circulation system.
- ***Chapter 6: Site Access and Circulation*** discusses multimodal site access and circulation for the project.

2. Existing Conditions

This chapter describes the existing transportation conditions in the study area, including the roadway network and the transit, pedestrian, and bicycle facilities in the vicinity of the project site.

2.1 Roadway System

The following roadways provide access to the project site under study.

Main Street is a north-south roadway that connects Fort Bragg to points north and south along the coast. The roadway is signed as SR 1 and serves as the main conveyor of traffic through Fort Bragg. Five lanes of travel are provided (two in each direction plus one two-way left-turn lane) in the vicinity of the project site. Class II bike lanes are provided on both sides of the street. The speed limit along the roadway is 35 miles-per-hour.

Oak Street is an east-west roadway running between Main Street (SR 1) and Dana Street (with a continuation to the east as Fort Bragg-Sherwood Road). In the vicinity of Main Street (SR 1), Oak Street is two lanes in width, with Class II bike lanes and parking provided on both sides of the street. The speed limit is 25 miles-per-hour

Madrone Street is a two-lane east-west roadway running between Main Street (SR 1) and South Harold Street. On-street parking is permitted on both sides of the street in the vicinity of the project site. The speed limit along the roadway is 25 miles-per-hour.

Maple Street is a two-lane, east-west roadway running between Main Street (SR 1) and South Lincoln Street. On-street parking is permitted both sides of the street, and the speed limit is 25 miles-per-hour. Class II bike lanes are provided along Maple Street east of South Franklin Street.

Franklin Street is a two-lane, north-south roadway with Class II bike lanes and parking provided on both sides of the street. The roadway runs from Harbor Drive in the south to Manzanita Street in the north and provides a parallel route to Main Street (SR 1). The speed limit along the roadway is 25 miles-per-hour.

2.2 Public Transit Service

Fort Bragg is served by Mendocino Transit Authority (MTA), which provides transit service throughout Mendocino County. The project site is served by MTA Routes 5 and 65, with the nearest bus stops located near the intersection of Franklin Street/Maple Street; these stops are approximately 250 feet away from the project site. **Table 3** details the operating characteristics of MTA Routes 5 and 65. It is noted that the MTA

operations data in **Table 3** is reflective of service during the COVID-19 pandemic, and service frequencies may increase as the pandemic subsides in late-2021.

Table 3: Existing Public Transit Services

MTA Route	From	To	Weekdays		Saturdays		Sundays	
			Operating Hours	Headway (min)	Operating Hours	Headway (min)	Operating Hours	Headway (min)
5	Fort Bragg Circulator		10:30 AM to 5:20 PM	60	No Service		No Service	
65	Santa Rosa	Fort Bragg	1 Northbound Run 1 Southbound Run		1 Northbound Run 1 Southbound Run		No Service	

Source: Mendocino Transit Authority, April 2021.

2.3 Pedestrian and Bicycle Facilities

Pedestrian Facilities

Pedestrian facilities include sidewalks, shared-use pathways, crosswalks, and pedestrian signals. Sidewalks are provided on the south side of Maple Street and on both sides of South Franklin Street. Sidewalks are not provided on the north side of Maple Street. Crosswalks are provided only on the south and east legs of the South Franklin Street/Maple Street intersection.

Bicycle Facilities

Chapter 1000 of the Caltrans *Highway Design Manual* identifies the following four bikeway classifications:

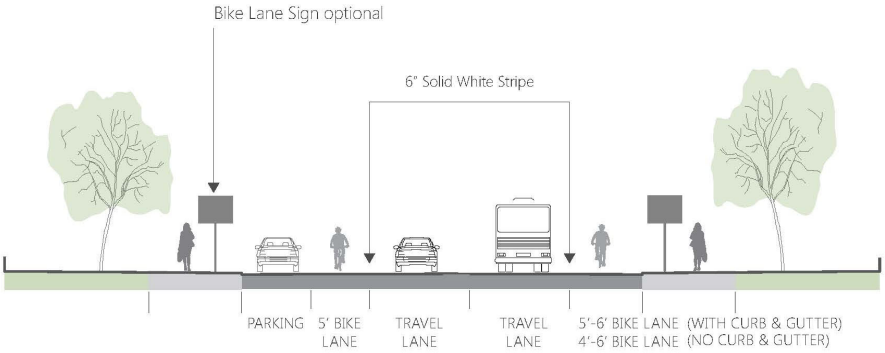

- *Class I Bikeway (Bicycle Path)* provides a completely separate right-of-way and is designated for the exclusive use of bicycles and pedestrians with vehicle and pedestrian cross-flow minimized.

- *Class II Bikeway (Bicycle Lane)* provides a restricted right-of-way and is designated for the use of bicycles with a striped lane on a street or highway. Bicycle lanes are generally four to six feet wide. Adjacent vehicle parking and vehicle/pedestrian cross-flow are permitted.

Provides a striped lane for one-way bike travel on a street or highway.

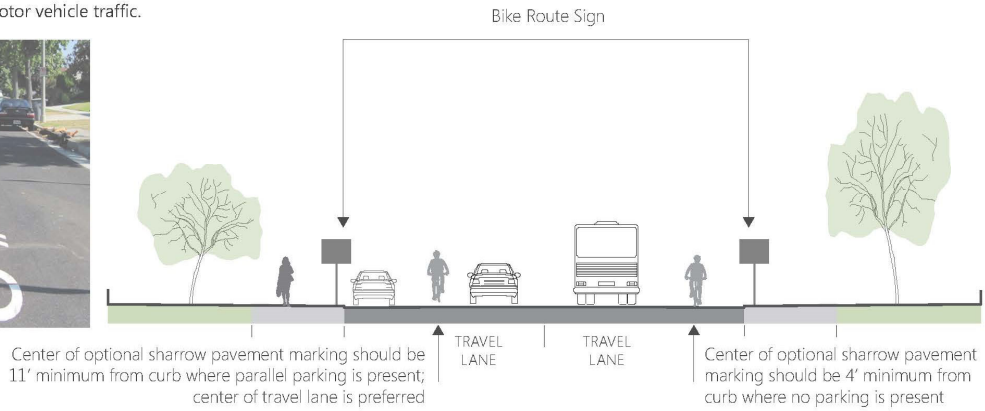

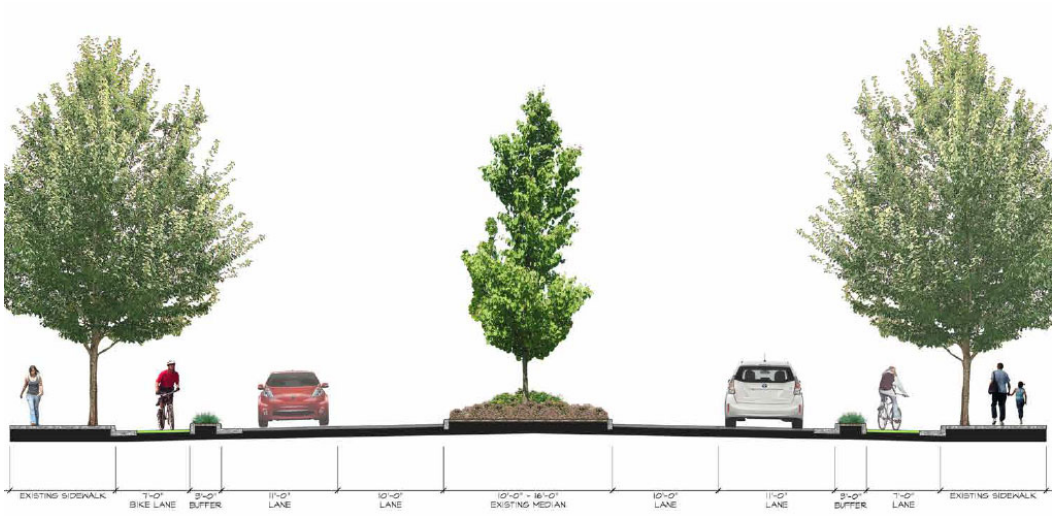

- *Class III Bikeway (Bicycle Route)* provides for a right-of-way designated by signs or pavement markings (sharrows) for shared use with pedestrians or motor vehicles. Sharrows are a type of pavement marking (bike and arrow stencil) placed to guide bicyclists to the best place to ride on the road, avoid car doors, and remind drivers to share the road with cyclists.

With Optional Sharrow Pavement Marking
Provides for shared use with motor vehicle traffic.

- *Class IV Bikeway*, also known as "cycle tracks" or "protected bike lanes," provide a right-of-way designated exclusively for bicycle travel within a roadway and which are protected from other vehicle traffic with devices, including, but not limited to, grade separation, flexible posts, inflexible physical barriers, or parked cars.

Class II bike lanes are provided along Main Street (SR 1), Oak Street, and South Franklin Street in the vicinity of the project site. Class II bike lanes are provided on both sides of the street along Maple Street east of South Franklin Street.

2.4 Baseline VMT

As noted in **Section 1.3**, the MCOG model has been used in the analysis of the project's effect on VMT. These calculations reflect weekday VMT for base model year 2009 base year and far-term year 2030 conditions. **Table 4** presents the baseline VMT estimates for the Fort Bragg city limit VMT boundary calculation.

Table 4: Baseline VMT Values – City of Fort Bragg Boundary

Analysis Year	Boundary Area Baseline VMT
Model Base Year 2019	31,863
Model Future Year 2030	28,271

Source: Fehr & Peers, 2021.

The model baseline information is used as an environmental baseline for the CEQA VMT analysis discussed in **Section 4.1**.

2.5 Existing Intersection Levels of Service

Weekday morning (7:00 AM to 9:00 AM) and afternoon (4:00 PM to 6:00 PM) peak period intersection turning movement counts were collected at study intersections using data from the StreetLight Data intersection turning movement count database. These counts reflect pre-COVID pandemic (Year 2019) travel demand conditions and are used to estimate travel demand at the study intersections for Existing Conditions. The count values were verified against counts for other recent traffic analyses in Fort Bragg.

For each study intersection, the 60-minute period with the highest traffic volumes during both the morning (AM) and evening (PM) two-hour count periods were identified as the AM and PM peak hours of traffic. The AM and PM peak hour volumes are presented on **Figure 3**, along with the existing lane configuration and traffic control. Existing intersection operations were evaluated using the methodology described in **Section 1.4**. The results are summarized in **Table 5**; control delay values were converted to LOS based on the HCM 6th Edition definitions presented in **Section 1.4.3**. Detailed intersection LOS calculation worksheets are provided in **Appendix A**.

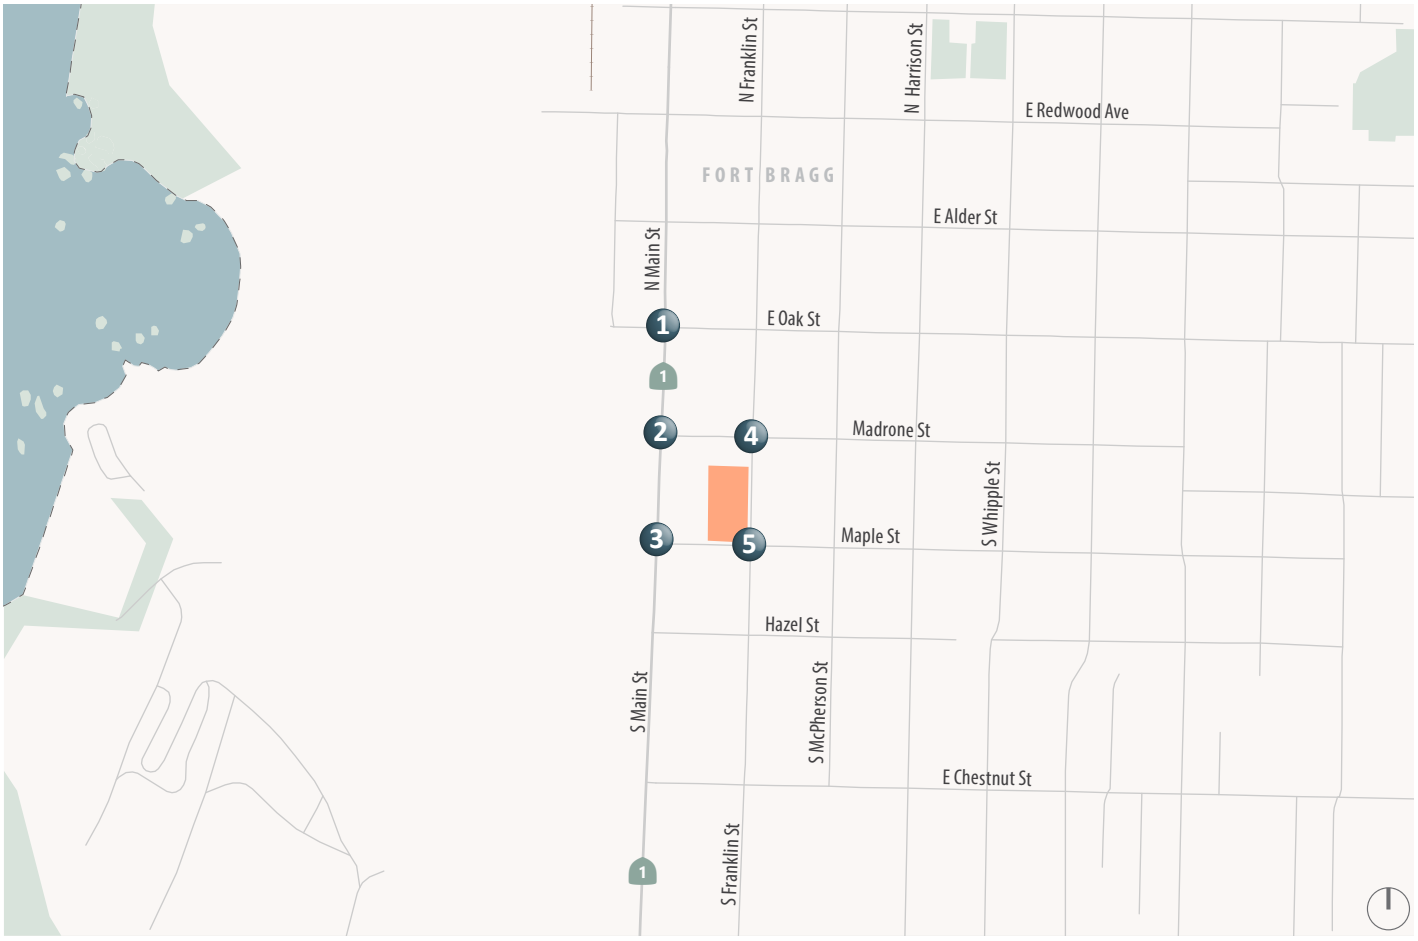

As noted in **Table 5,** all study intersections operate at LOS D or better under Existing Conditions.

Table 5: Existing Conditions - Peak Hour Intersection Levels of Service

	Intersection	Control	LOS Standard	Peak Hour	Existing Conditions	
					Delay[1]	LOS[2]
1	Main Street (SR 1)/Oak Street	Signalized	D	AM PM	15.5 47.5	B D
2	South Main Street (SR 1)/ Madrone Street	Side-Street Stop-Control	D	AM PM	0.7 (14.7) 0.7 (22.6)	A (B) A (C)
3	South Main Street (SR 1)/ Maple Street	Side-Street Stop-Control	D	AM PM	0.8 (15.2) 0.8 (21.2)	A (C) A (C)
4	South Franklin Street/ Madrone Street	Side-Street Stop-Control	C	AM PM	4.0 (10.2) 3.7 (11.3)	A (B) A (B)
5	South Franklin Street/ Maple Street	Side-Street Stop-Control	C	AM PM	5.6 (10.5) 5.1 (12.7)	A (B) A (B)

Notes: **Bold** indicates unacceptable intersection operations.
1. For side-street stop-controlled intersections, delay is presented for intersection average (worst approach).
2. LOS = Level of Service per 6th Edition HCM methodologies

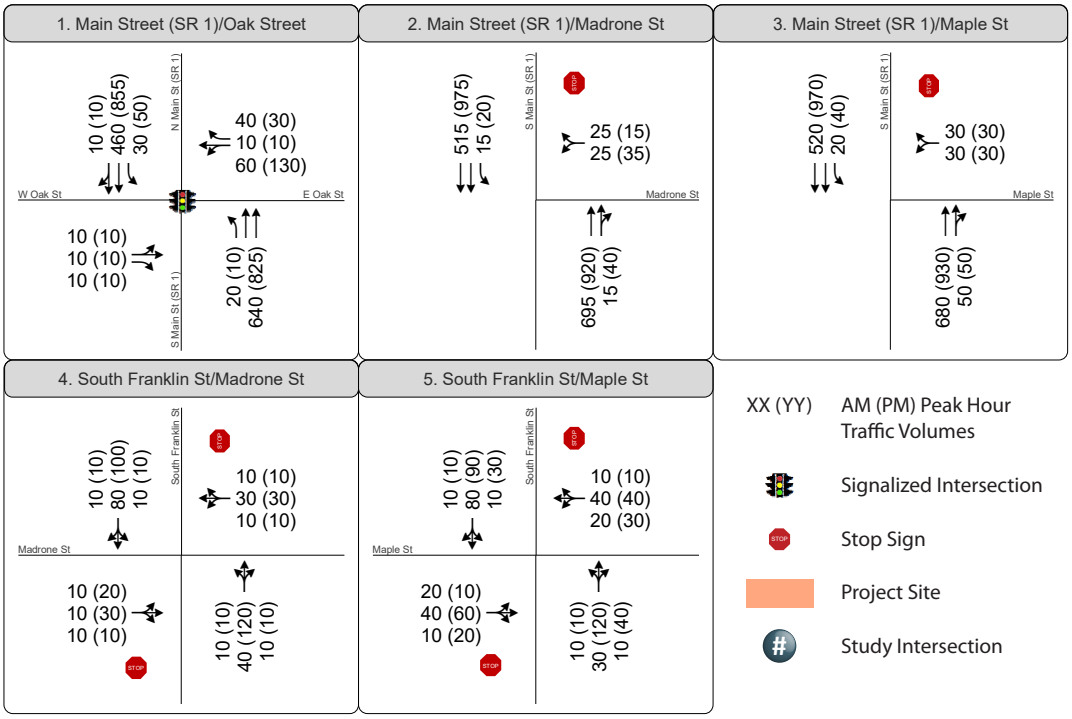

Figure 3

Existing Conditions Peak Hour Intersection Traffic Volumes, Lane Configurations and Traffic Controls

3. Project Trip Generation Estimates

This chapter provides an overview of the proposed project's trip generation, distribution, and assignment characteristics, allowing for an evaluation of project impacts on the surrounding roadway network. The amount of traffic associated with the project was estimated using a three-step process:

1. **Trip Generation** – The estimated *amount* of vehicle traffic entering/exiting the project site.
2. **Trip Distribution** – The *direction* trips are projected to approach and depart the project site.
3. **Trip Assignment** – The project trips were then *assigned* to specific roadway segments and intersection turning movements based on likely paths of travel.

3.1 Project Trip Generation

Trip generation refers to the process of estimating the amount of vehicular traffic a study site contributes to the surrounding roadway system. Project trip generation estimates were prepared for the total weekday daily, AM peak hour and PM peak hour scenarios. The estimates were prepared using data from the Institute of Transportation Engineers' *Trip Generation Manual, 10th Edition*. Data from Land Use Code 814 – Variety Store was used. As noted in the *Trip Generation Manual*, data for Land Use Code 814 applies specifically to dollar stores and other retail establishments that sell a broad range of items at a single price. **Table 6** presents the trip generation estimates for the project.

Table 6: Project Trip Generation

Land Use	Size	Daily	Weekday AM Peak Hour			Weekday PM Peak Hour		
			In	Out	Total	In	Out	Total
Dollar General[1]	9.1 KSF[2]	580	17	12	29	32	30	62

Notes:
1. Trip generation estimated using data from the Institute of Transportation Engineers' *Trip Generation Manual, 10th Edition*, using Land Use Code 814 – Variety Store.
2. 1 KSF = 1,000 square feet

Source: Fehr & Peers, 2021

As noted in **Table 6**, it is estimated that the project would generate a total of 580 trips on the typical weekday, of which 29 would occur in the AM peak hour and 62 would occur in the PM peak hour. The effect of these trips on the operations of the circulation system are discussed (for informational, non-CEQA purposes) in **Section 4.4** (for near-term effects) and **Section 5.2** (for longer-term effects).

3.2 Project Trip Distribution & Assignment

Project trip distribution refers to the directions of approach and departure that vehicles would take to access and leave the site. A set of project trip distribution assumptions were developed based on existing travel patterns in the study area, the trip making characteristics of the proposed project, and the location of complementary land uses. The resulting trip distribution is presented on **Figure 4**.

While project trip distribution provides information regarding larger-scale trip patterns, project trip assignment refers to project trip loading on specific roadway segments and intersection turning movements in the study area. The project trip assignment for the project is presented on **Figure 5**.

DRAFT

Project Trip Distribution

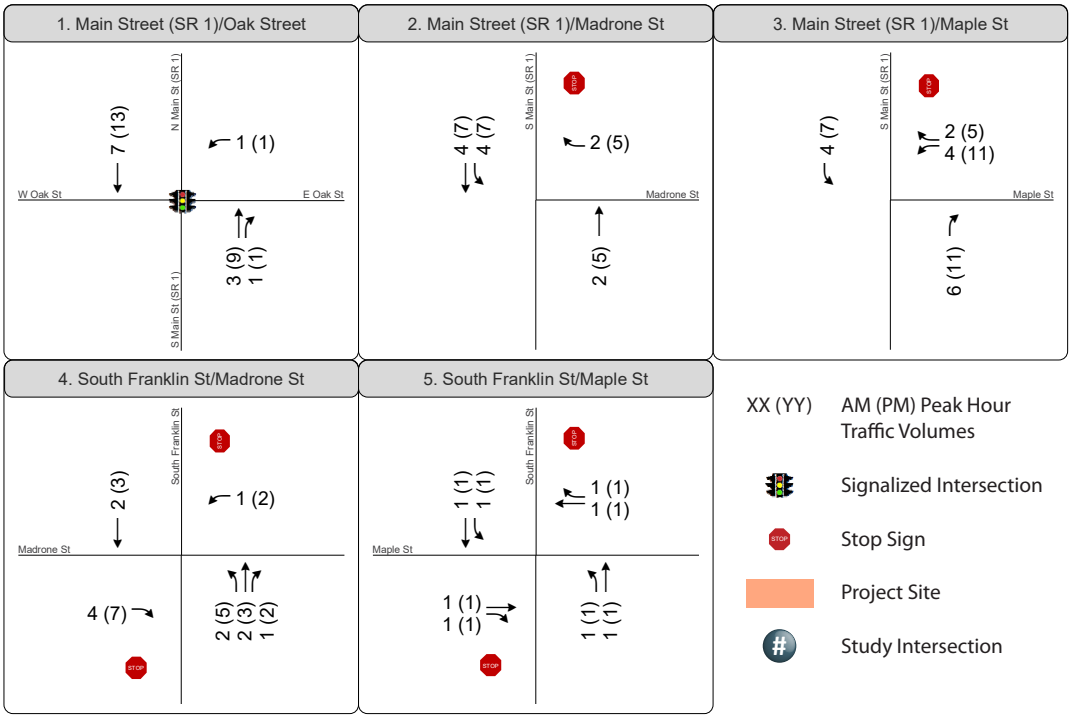

Figure 5

Project Trip Assignment

4. Existing with Project Conditions

This chapter evaluates potential VMT and multimodal impacts under Existing with Project Conditions. This chapter also includes an informational (non-CEQA) evaluation of the project's effect on intersection operations under Existing with Project Conditions.

4.1 Project Effect on Vehicle-Miles Traveled

As discussed in **Section 1.2.1**, the project's effect on VMT would be considered significant for CEQA purposes, and mitigation measures would be required, if the project would result in a net increase in VMT. The methods described in **Section 1.3** were used to assess the change in VMT associated with the project. **Table 7** presents the results of the VMT calculation for the proposed project. The results for the Plus Project scenarios are compared against the baseline data previously presented in **Table 4** to determine if a net increase in VMT will occur.

Table 7: Project Effect on VMT

Analysis Horizon Year	Scenario	Scenario VMT
Model Base Year 2009	No Project	31,863
	Plus Project	31,895
	Year 2009 Delta	***+32***
Model Future Year 2030	No Project	28,271
	Plus Project	28,324
	Year 2030 Delta	***+52***
Interpolated Opening Year 2021/2022 Delta		***+44***

Source: Fehr & Peers, February 2021.

The results in **Table 7** indicates that the project would result in a net increase in VMT over baseline conditions. Thus, per the significance criteria presented in **Section 1.2.1**, the project results in a **significant impact.** It is noted, however, than the project VMT delta in both the MCOG model Base Year 2009 and Future Year 2030 scenarios represents less than 0.2% of City-wide weekday VMT, which is well within the typical margin of error for VMT estimates from travel demand models. Similarly, the MCOG model does not take into account the project site's immediate adjacency to the South Franklin Street Class II bike lane system, which may make bicycle trips more comfortable than if the project site was located on a roadway without similar bicycle facilities.

Mitigation measures designed to reduce VMT typically focus on reducing the number of vehicle trips generated by a project and/or by reducing the length of vehicle trips generated by a project. Retail projects are somewhat unique as the operator of the project cannot generally choose how patrons of the establishment will travel to/from the site. As such, the mitigation measures developed for this project have been focused on TDM strategies that reduce the number of vehicle trips made by employees. As an added benefit, the strategies may make it more safe and convenient for patrons to use alternative modes of transportation to access the project.

Table 8 presents a listing of TDM strategies designed to reduce VMT that could be implemented as part of the project. As a conservative assumption, the TDM strategies would need to reduce project VMT by at least 52 VMT per day to be considered effective in mitigating the project's impact to a less-than-significant level. A reduction in 52 VMT per day would be equivalent to removing about ten 5-mile trips from the roadway system, which is a reasonable reduction to expect for a typical retail project; for example, converting five employees' commute trips to carpooling or transit would result in ten trips being removed from the roadway system.

Mitigation Measure TRANS-1: Implement Transportation Demand Management (TDM) strategies from the following menu of options. The effectiveness of the program shall be monitored by calculating the VMT reduction by assessing the number of employees or patrons participating in programs and estimating their trip lengths. Mitigation Measure TRANS-1 shall be considered effective if it can be demonstrated that an average of 52 average weekday daily VMT is removed from the roadway system.

Table 8: Menu of VMT-Reducing Transportation Demand Management Strategies

TDM Strategy	Description	Maximum Potential VMT Reduction[1]
Commute Trip Reduction Program	Implement a multi-strategy program that encompasses a combination of individual measures, designed to discourage single-occupancy vehicle trips and encourage alternate modes such as carpooling, transit, walking, and biking. The program should include: - Carpooling encouragement - Ride-matching assistance - Preferential carpool parking - Flexible work schedules for carpools - Half time transportation coordinator - Vanpool assistance - Bicycle end-trip facilities (parking, showers and lockers)	If participation required, up to 21% of worker VMT If participation voluntary, up to 6% of worker VMT

Table 8: Menu of VMT-Reducing Transportation Demand Management Strategies

TDM Strategy	Description	Maximum Potential VMT Reduction[1]
Ride-sharing Program	Increasing vehicle occupancy by ride sharing will result in fewer cars driving the same trip, and thus a decrease in VMT. The project will promote ride-sharing programs through a multi-faceted approach such as: - Designating a certain percentage of parking spaces for ride-sharing vehicles - Designating passenger loading, unloading, and waiting areas for ride-sharing vehicles - Providing a message board for coordinating rides	Up to 15% of worker VMT
Transit Fare Subsidy	Providing reimbursement for employee transit passes will encourage employees to take transit to and from work.	Up to 20% of worker VMT
End of Trip Facilities	Provide "end-of-trip" facilities for workers commuting by bicycle, including showers, secure bicycle lockers, and changing spaces. End-of-trip facilities encourage the use of bicycling as a viable form of travel to destinations, and provide the added convenience and security needed to encourage bicycle commuting.	*Supporting strategy* *Can also promote patron trip mode shifting to bicycle*
New Employee Commute Orientation	Incorporate information on commute alternatives and benefits into orientation and new-hire packets for employees.	*Supporting strategy*
Employer-Sponsored Vanpool/Shuttle	Implement an employer-sponsored vanpool to service employees' commute to work. Employer-sponsored vanpool programs entail an employer purchasing or leasing vans for employee use, and often subsidizing the cost of program administration, if not more. The driver usually receives personal use of the van, often for a mileage fee. Scheduling is within the employer's purview, and rider charges are normally set based on vehicle and operating cost.	Up to 13% of work VMT
Transportation Network Company (TNC) Partnership	Subsidize pooled TNC trips to/from transit stops and stations and to major destinations.	*Supporting strategy*

Notes:
1. Effectiveness research contained in the CAPCOA *Quantifying Greenhouse Gas Mitigation Measures* publication.
Source: Fehr & Peers, February 2021.

Many of the strategies noted in **Table 8** would reduce worker VMT by a considerable percentage. However, data from the California Air Pollution Control Officers Association (CAPCOA) *Quantifying Greenhouse Gas Mitigation Measures* notes that implementing multiple strategies results in diminishing returns, and a maximum reduction in worker VMT of 15 percent is expected if multiple strategies are selected.

As the effectiveness of the mitigation measures is subject to the adoption of the TDM measures by employees and patrons, it is incumbent upon the operator of the project to demonstrate the continued VMT reduction effectiveness of the TDM measures against the standard of performance of a 52 VMT per day reduction. The project operator should submit a monitoring memorandum at a regular interval (to be set by the City of Fort Bragg, typically annually or bi-annually) documenting the TDM measures implemented, the number of trips removed from the roadway system, and their estimated trip length.

Ultimately, the amount of VMT required to be mitigated is a relatively small amount of VMT in terms of absolute VMT change and VMT within the City-wide context. Several TDM strategies are available for implementation to reduce VMT, and research suggests that a reduction of 52 VMT per day is feasible provided the implementation of TDM strategies in **Table 8**. The project operator will be required to demonstrate the effectiveness of the TDM strategies to achieve the 52 VMT per day reduction performance target. In addition to the feasibility of mitigating the impact through TDM measures, OPR notes in the *Technical Advisory* that local-serving retail projects of less than 50,000 square feet in size may be presumed to create a less-than-significant impact. Based on the low level of mitigation required, the high potential for TDM measures to be successful at reducing VMT, the requirement of periodic monitoring of the implemented TDM measures to confirm performance, and the evidence offered in the OPR *Technical Advisory*, the project's CEQA Transportation VMT impact is ***less-than-significant with mitigation.***

4.2 Public Transit Impacts

Fixed-route public transit services operate within 250 feet of the project site. While the project could generate new demand for the public transit services and facilities that serve the area, transit system and transit vehicle capacities are not expected to be exceeded; the project is not in conflict with existing or planned public transit facilities. Therefore, impacts to public transit are ***less-than-significant***.

4.3 Pedestrian and Bicycle Impacts

The proposed project is not anticipated to eliminate off-site pedestrian facilities, create hazardous conditions for pedestrians by changing off-site geometric features or introducing incompatible vehicle types to the roadway system, or conflict with any existing or planned pedestrian facilities. Therefore, pedestrian system impacts are ***less-than-significant*** as the project is not anticipated to degrade the off-site pedestrian network. Recommendations to improve the on-site pedestrian network (including for the project frontages) are discussed in **Chapter 6**.

The proposed project design would not eliminate bicycle facilities that connect to the area circulation system, does not conflict with existing or planned bicycle facilities, nor would it create a hazardous condition for bicyclists by changing off-site geometric features or introducing incompatible vehicle types to the

roadway system. Therefore, the impacts to bicyclists are ***less-than-significant.*** Recommendations to improve the on-site bicycle network (including for the project frontages) are discussed in **Chapter 6**.

4.4 Intersection Levels of Service

Existing with Project Conditions peak hour intersection turning movement volumes are shown on **Figure 6.** These volumes were derived by adding the project trip assignment (presented on **Figure 5**) to the Existing Conditions volumes (presented on **Figure 3**).

Table 9 presents the Existing with Project Conditions intersection LOS results. Detailed intersection LOS calculation worksheets are provided in **Appendix A**. Existing traffic signal timings, peak hour factors, heavy vehicle percentages, and pedestrian and bicycle activity at the study intersections were assumed to remain the same as current conditions in the Existing with Project Conditions scenario.

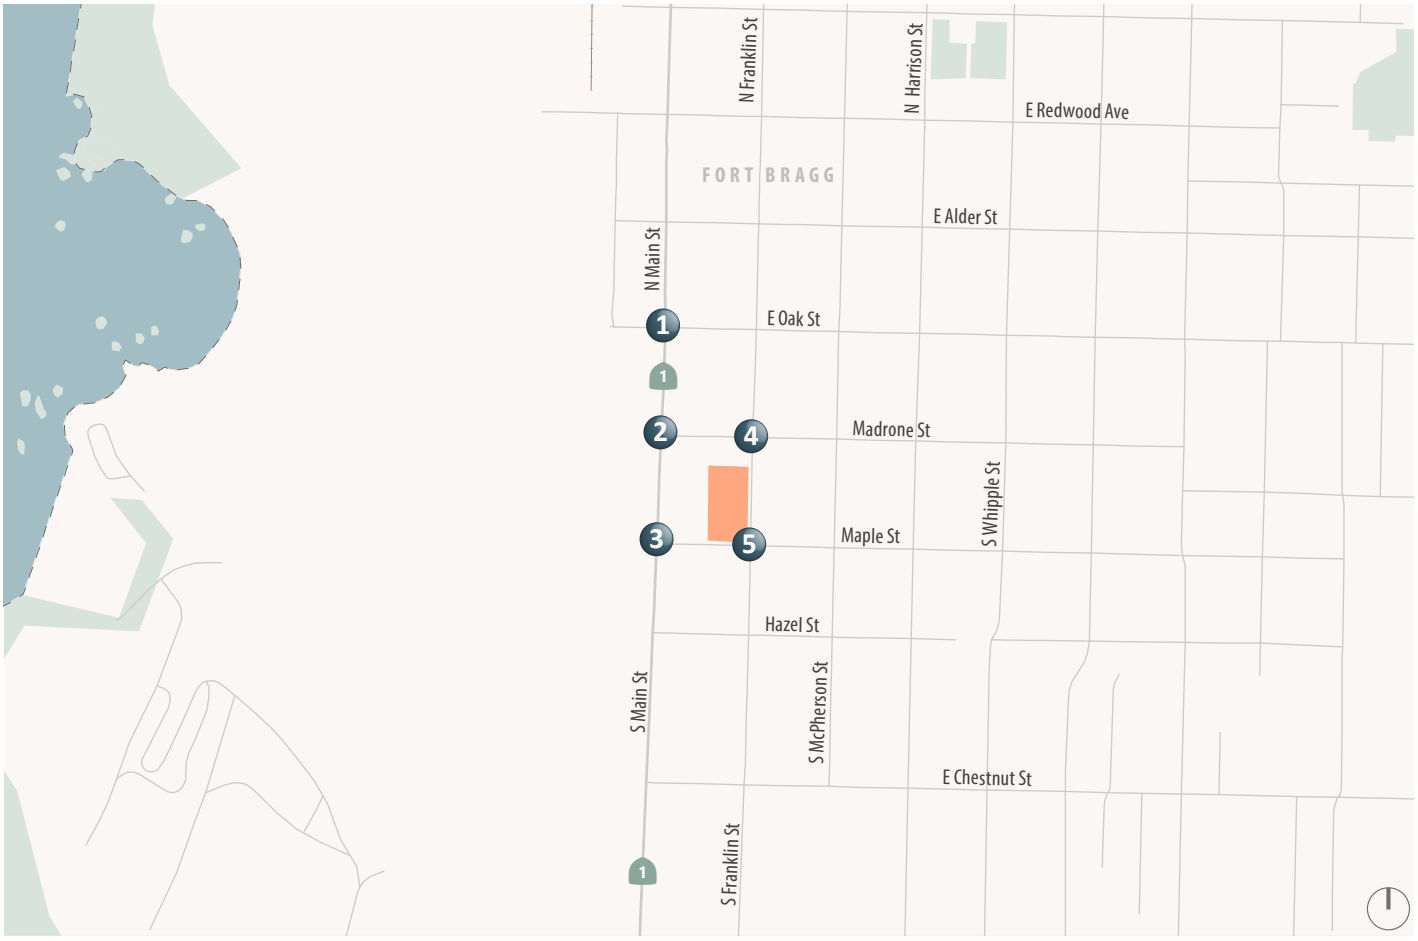

The results of the LOS calculations indicate that all the study intersections would operate at an acceptable LOS with the addition of project traffic. Thus, the project's effects on intersection operations under Existing with Project Conditions are ***less-than-substantial***.

Table 9: Existing with Project Conditions - Peak Hour Intersection Levels of Service

Intersection		Peak Hour	Existing Conditions		Existing with Project Conditions	
			Delay[1]	LOS	Delay[1]	LOS[2]
1	Main Street (SR 1)/Oak Street	AM PM	15.5 47.5	B D	15.7 47.9	B D

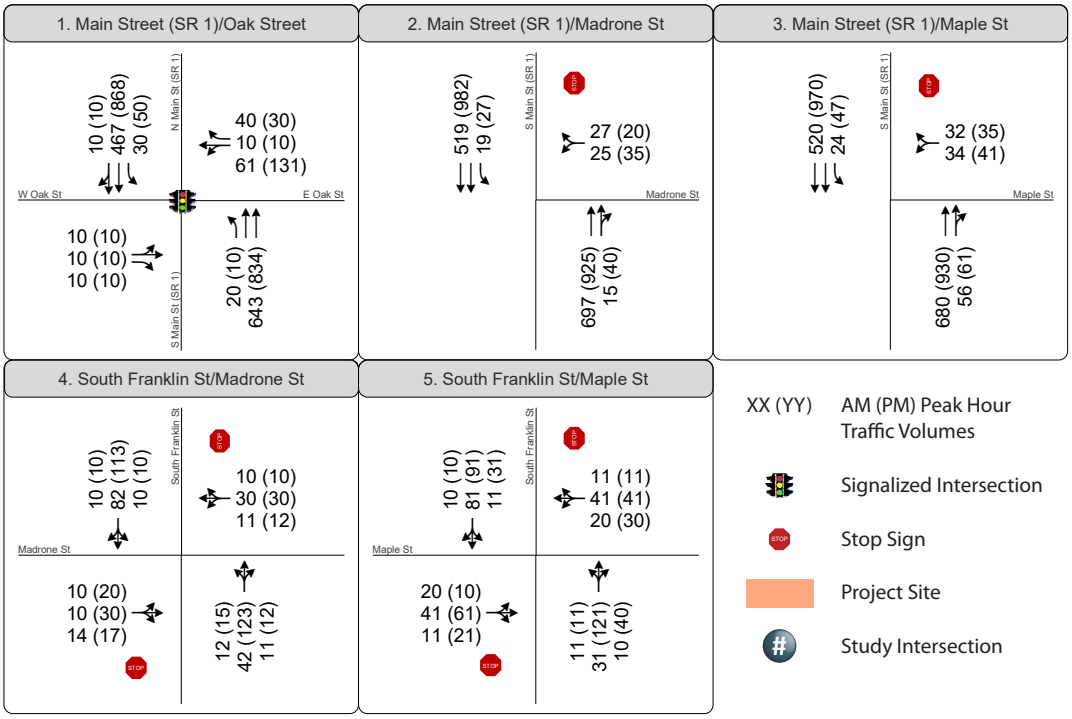

Figure 6

Existing with Project Conditions Peak Hour Intersection Traffic Volumes, Lane Configurations and Traffic Controls

5. Cumulative Conditions

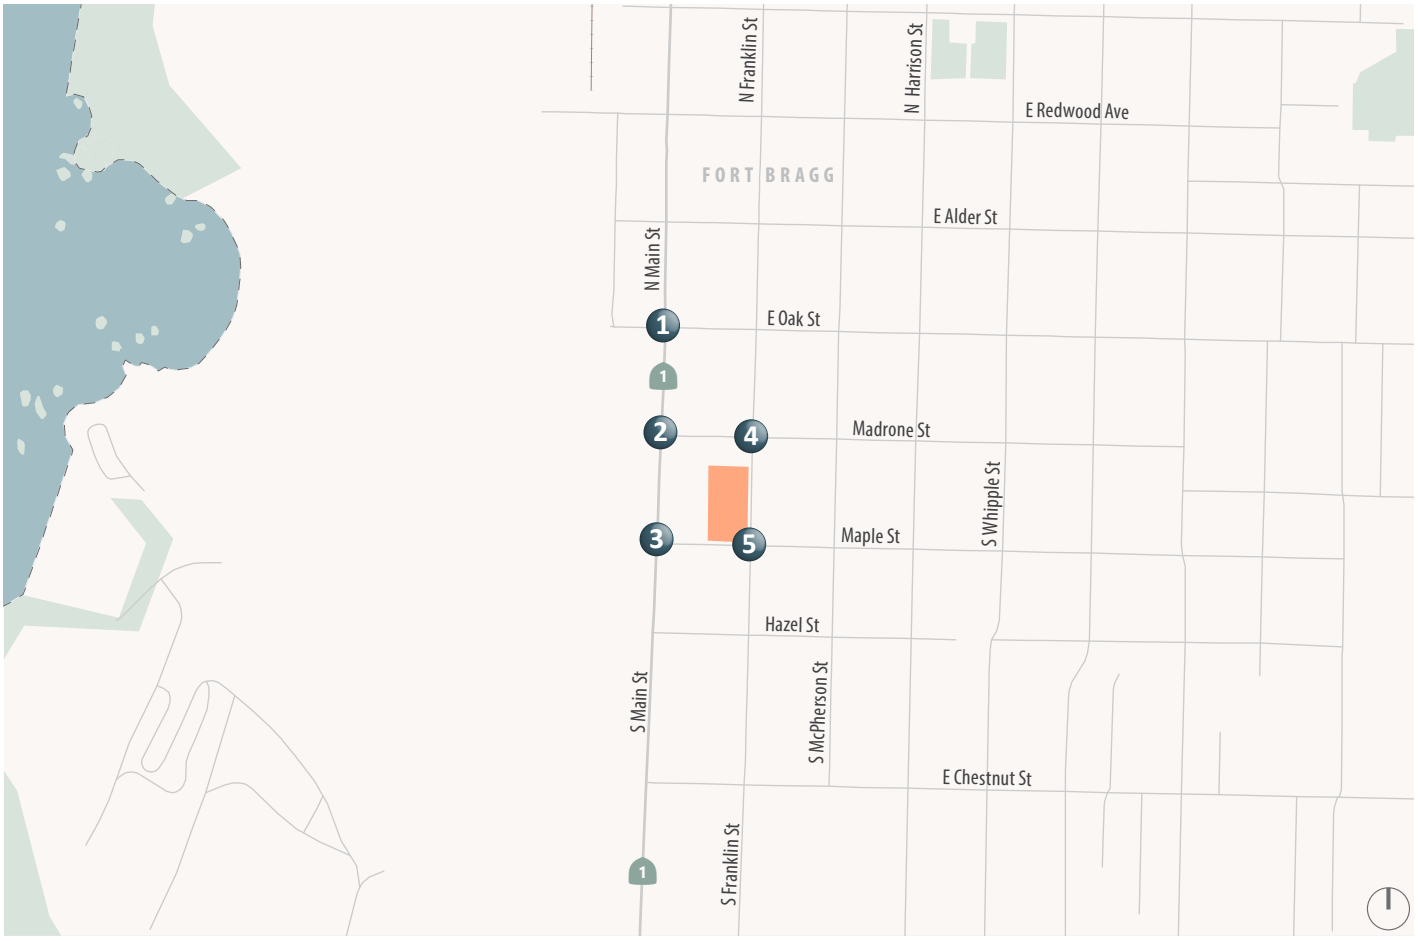

This chapter presents the results of the informational, non-CEQA intersection LOS calculations under Cumulative without Project and Cumulative with Project Conditions, in addition to CEQA impacts to the multimodal transportation system. Cumulative without Project Conditions are defined as existing volumes plus traffic generated by planned local and regional growth to occur by 2040 that would affect the transportation system in the study area. The basis for the growth projections are the traffic volume growth rates generated from the MCOG model.

5.1 Cumulative Forecasts and Assumptions

Cumulative without Project traffic volumes were calculated based on data extracted from the MCOG travel demand model. An annual linear growth rate was calculated for the AM and PM peak hours based on a comparison between the Base Year 2009 and Future Year 2030 MCOG travel demand models. Based on traffic volumes in the MCOG travel demand model, traffic volumes in the study area are anticipated to grow at a rate of 1.3 percent per year for the AM peak period and at a rate of 1.4 percent per year for the PM peak period. Applying the 1.3 and 1.4 percent per year growth rates over the 21 years between Year 2019 and Year 2040 results in Year 2040 traffic volumes in the study area that are about 27 percent higher (for the AM peak hour) to 29 percent higher (for the PM peak hour) than Existing Conditions.

Cumulative without Project Conditions peak hour intersection turning movement volumes are shown on **Figure 7**. Cumulative with Project Conditions peak hour intersection turning movement volumes are shown on **Figure 8.**

DRAFT

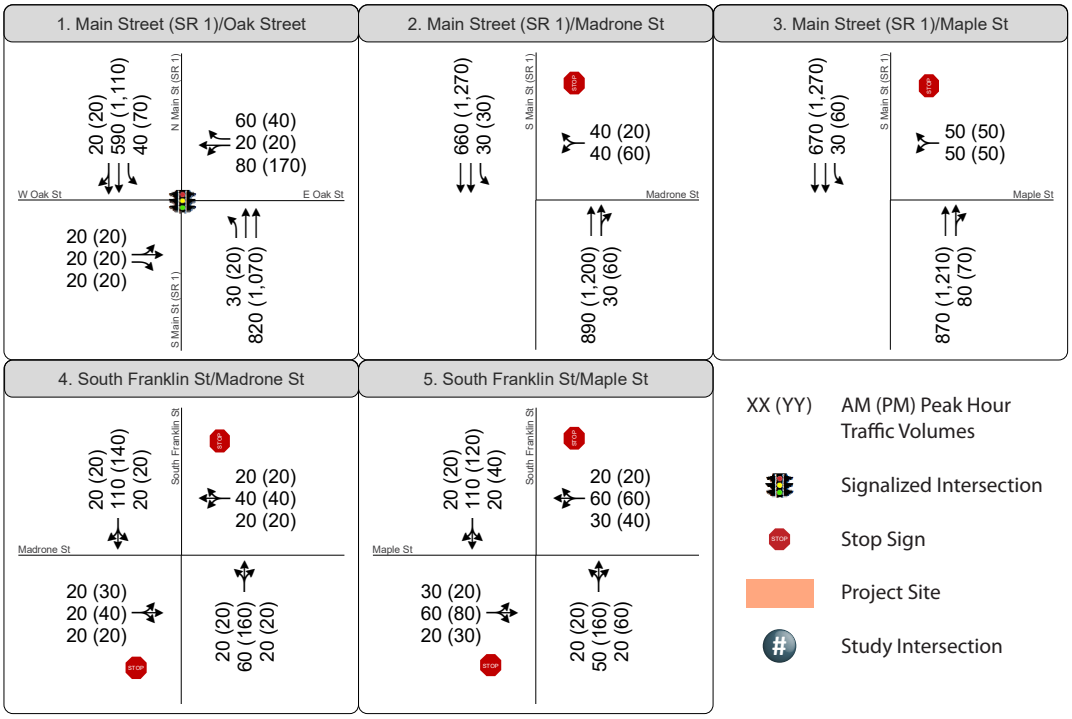

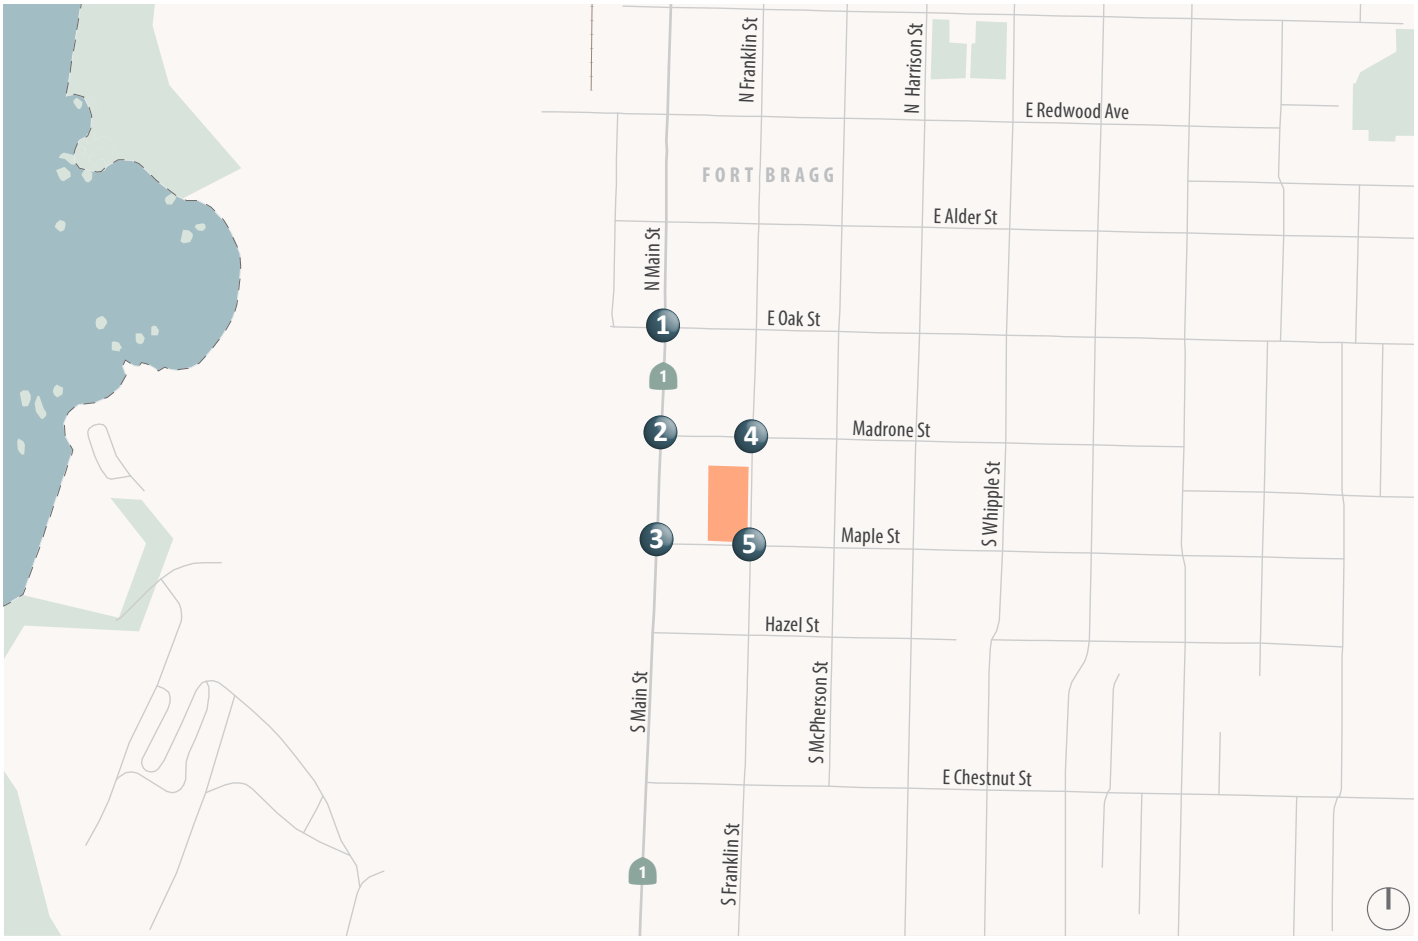

Figure 7

Cumulative without Project Conditions Peak Hour Intersection Traffic Volumes, Lane Configurations and Traffic Controls

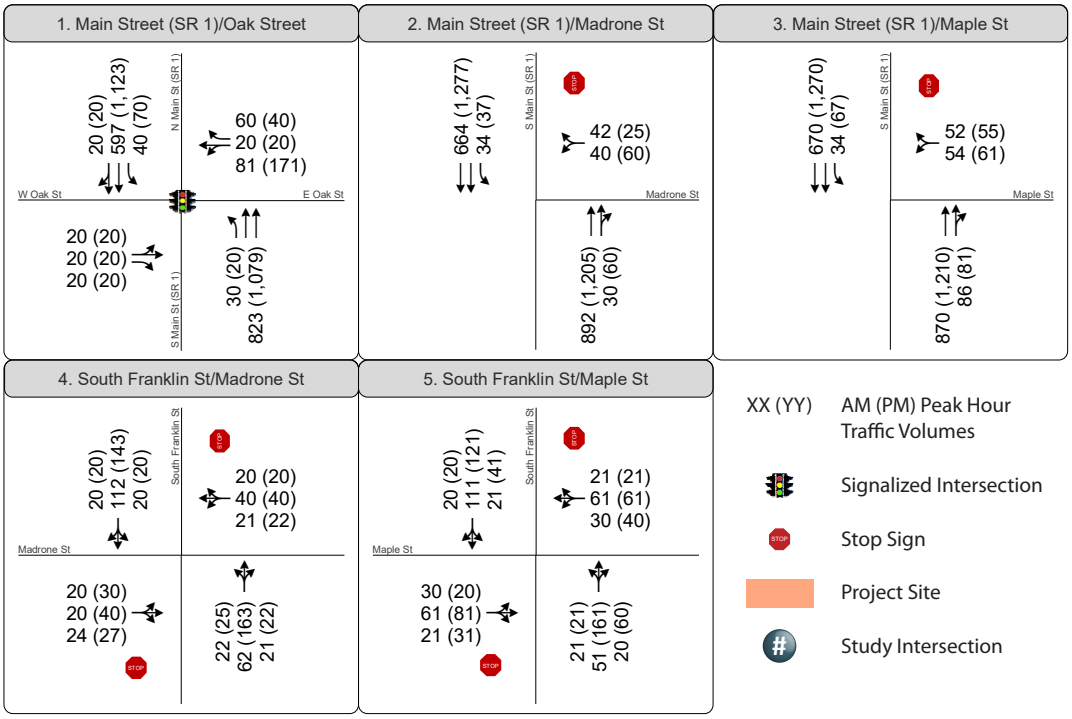

Figure 8

Cumulative with Project Conditions Peak Hour Intersection Traffic Volumes, Lane Configurations and Traffic Controls

5.2 Intersection Levels of Service

Existing heavy vehicle percentages, and pedestrian and bicycle activity at the study intersections are assumed to remain consistent in the Cumulative without Project and Cumulative with Project scenarios. **Table 10** presents the Cumulative without Project and Cumulative with Project intersection level of service results. Detailed intersection LOS calculation worksheets are provided in **Appendix A**.

The results of the LOS calculations indicate that the majority of the study intersections will not operate at an acceptable LOS under both the Cumulative without Project and Cumulative with Project scenarios. However, the following intersections would not meet the City's LOS standard under Cumulative with Project Conditions during the indicated study period:

- Intersection 1 – South Main Street (SR 1)/Oak Street: LOS F in the PM peak hour
- Intersection 2 – South Main Street (SR 1)/Madrone Street: LOS E in the PM peak hour
- Intersection 3 – South Main Street (SR 1)/Maple Street: LOS F in the PM peak hour

Table 10: Cumulative (Year 2040) Conditions - Peak Hour Intersection Levels of Service

Intersection		Peak Hour	Cumulative without Project Conditions		Cumulative with Project Conditions	
			Delay[1]	LOS	Delay[1]	LOS[2]
1	Main Street (SR 1)/Oak Street	AM PM	30.1 **83.7**	C **F**	30.4 **84.2**	C **F**
2	South Main Street (SR 1)/ Madrone Street	AM PM	1.1 (19.8) **1.6 (46.9)**	A (C) **A (E)**	1.2 (20.0) **1.7 (48.4)**	A (C) **A (E)**
3	South Main Street (SR 1)/ Maple Street	AM PM	1.4 (21.7) **1.9 (44.1)**	A (C) **A (E)**	1.5 (22.5) **2.7 (56.2)**	A (C) **A (F)**
4	South Franklin Street/ Madrone Street	AM PM	4.8 (11.3) 4.7 (13.4)	A (B) A (B)	4.9 (11.5) 4.8 (13.6)	A (B) A (B)
5	South Franklin Street/ Maple Street	AM PM	6.5 (12.2) 6.6 (16.3)	A (B) A (C)	6.5 (12.3) 6.7 (16.6)	A (B) A (C)

Notes:
1. For side-street stop-controlled intersections, delay is presented for intersection average (worst approach).
2. LOS = Level of Service per HCM 6th Edition methodologies

Source: Fehr & Peers, February 2021.

Intersection substantial adverse effects under Cumulative with Project Conditions are presented in **Section 5.4**.

5.3 Peak Hour Signal Warrant

The Peak Hour Signal Warrant (Warrant 3B) from the *California Manual on Uniform Traffic Control Devices* (CA MUTCD) was used to evaluate unsignalized intersections that operate unacceptably under Cumulative with Project Conditions to determine if a traffic signal is warranted. Because the study area for all intersections is located in communities with a population of less than 10,000 people, the rural "70% threshold" version of the warrants were used in the analysis. Signal warrant worksheets are provided in **Appendix B**. Peak hour signal warrants conducted for the following intersections indicate that warrant is met for the noted time periods:

- Intersection 2 – Main Street (SR 1)/Madrone Street: PM peak hour
- Intersection 3 – Main Street (SR 1)/Maple Street: PM peak hour

5.4 Intersection Substantial Adverse Effects

Based on the criteria listed in **Section 1.4.4**, the proposed project will have a substantial adverse effect on intersection operations at the following study intersections within the study area during the indicated peak hours. As noted in **Section 1.4**, the following substantial adverse effects noted below are not CEQA impacts.

- *Main Street (SR 1)/Oak Street (Intersection #1)* – The intersection is projected to operate at an unacceptable LOS F under Cumulative without Project Conditions. The addition of project trips increases the delay at the intersection by 0.5 seconds, which is smaller than the applicable criterion (a change in delay of more than 5.0 seconds) noted in **Section 1.4.4.** Therefore, the project's effect on intersection operations at this location is ***less-than-substantial.***
- *Main Street (SR 1)/Madrone Street (Intersection #2)* – The intersection is projected to operate at an unacceptable LOS E under Cumulative without Project Conditions, and the Peak Hour Signal Warrant is met. The addition of project trips increases the delay at the intersection by 1.5 seconds on the worst approach, which is smaller than the applicable criterion (a change in delay of more than 5.0 seconds) noted in **Section 1.4.4.** Therefore, the project's effect on intersection operations at this location is ***less-than-substantial.***
- *Main Street (SR 1)/Maple Street (Intersection #3)* – The intersection is projected to operate at an unacceptable LOS E under Cumulative without Project Conditions, and the Peak Hour Signal Warrant is met. The addition of project trips increases the delay at the intersection by 12.1 seconds on the worst approach, which is greater than the applicable criterion (a change in delay of more than 5.0 seconds) noted in **Section 1.4.4.** Therefore, the project results in a **substantial adverse effect** on intersection operations at this location**.** Improvement measures to alleviate the substantial adverse effect are presented in **Section 5.5**.

DRAFT

All other study intersections operate acceptably after the addition of project trips; therefore, the effect of the project at these intersections is ***less-than-substantial*** based on the evaluation criteria.

5.5 Intersection Improvement Measures

As noted in **Section 5.4**, the project would result in a substantial adverse effect at one study intersection, South Main Street (SR 1)/Maple Street. The following intersection improvement measure has been provided for City consideration:

Intersection Improvement Measure #1 – South Main Street (SR 1)/Maple Street: Two options are available:

- Option 1: Restripe westbound Maple Street to include one left turn lane and one right turn lane, and prohibit on-street parking on the north side of Maple Street between South Main Street (SR 1) and the mid-block alley entrance
- Option 2: Install a traffic signal at the intersection

Restriping the westbound Maple Street approach to include one left turn lane and one right turn lane would improve Cumulative (Year 2040) with Project Conditions intersection operations to LOS E in the PM peak hour; the delay at the intersection in the improved condition (38.8 seconds of delay on Maple Street) would be lower than the delay value under Cumulative without Project Conditions.

Installation of a traffic signal would improve Cumulative (Year 2040) with Project Conditions intersection operations to LOS A in the PM peak hour. The installation of a traffic signal at South Main Street (SR 1)/Maple Street would also provide an opportunity to install a signal-controlled pedestrian crossing across South Main Street (SR 1) at Maple Street; the existing sidewalk on the west side of South Main Street (SR 1) current terminates without a pedestrian crossing at the north end of the South Main Street (SR 1)/Maple Street intersection. Signalizing the intersection would also provide more breaks in the traffic stream, which would reduce delays along Madrone Street at South Main Street (SR 1) and provide another signalized access point onto South Main Street (SR 1) between the existing signals at South Main Street (SR 1)/Oak Street and South Main Street (SR 1)/Chestnut Street.

Under both options, intersection operations would be improved such that the project's effect on operations at the intersection would be ***less-than-substantial with improvements.***

DRAFT

5.6 CEQA Transit, Pedestrian, and Bicycle Impacts

The project's impact to pedestrian, bicycle, and transit facilities are discussed in the **Chapter 4** (Existing with Project Conditions). Similar to Existing with Project conditions, the impacts to pedestrian, bicycle and transit modes are expected to be ***less-than-significant*** under Cumulative with Project conditions.

DRAFT

6. Site Access and Circulation

This chapter analyzes site access and internal circulation for vehicles, pedestrians, and bicycles on-site. Ultimately, the final site plans should be reviewed to identify and improve potential deficiencies before the project is implemented. As noted in **Section 1.5**, the recommendations provided in this section are not CEQA mitigation measures (although there may be some overlap with Mitigation Measure TRANS-1), and thus are provided for informational purposes only.

6.1 Site Access and Vehicular Circulation

Vehicular access to off-street parking supply for the project site is provided by two driveways: one along South Franklin Street and another along Maple Street. Off-street parking is provided along the south and west building frontages, while the north building frontage serves as an internal circulator roadway, and the east building frontage is located along South Franklin Street. On-street parking is permitted along South Franklin Street and Maple Street.

The following recommendations have been developed to enhance site access and internal circulation for vehicles on-site:

> **Site Recommendation-1:** *Review and confirm adequacy of sight distance for driveway access points.* The project site is currently vacant, and sight distance at the project access points on South Franklin Street and Maple Street appears to be adequate based on available street-view imagery. The proposed project site plan notes that trees may be planted along the project frontages near the project access points. The final site plan for the project should be reviewed to confirm the adequacy of sight distance prior to the issuance of building permits.
>
> **Site Recommendation-2:** *Confirm adequacy of design for cornering movement at northwest corner of the project site.* The internal circulator roadway includes a 90-degree bend at the northwest corner of the project site. While the conceptual site plan shows a large area of pavement – assumed to allow for large vehicle turning movements – the geometric adequacy of the circulator roadway should be confirmed using a vehicle turning analysis assuming an appropriate design vehicle based on typical site operations for deliveries.

The Maple Street driveway is located immediately adjacent to the alleyway between Maple Street and Madrone Street. While the alleyway is assumed to be low-volume, having two access points in close proximity may result in sight distance issues where vehicles traveling south along the alleyway and vehicles

DRAFT

exiting the project site may not be able to see each other well. This represents a hazardous geometric condition, which is a **significant impact**.

Mitigation Measure TRANS-2: To improve sight distance between the Maple Street driveway and the alleyway, the Maple Street driveway should be shifted to a location further to the east, or the driveway should be signed for one-way inbound operation only. Implementing this mitigation measure would reduce the impact to a level that is ***less-than-significant with mitigation.***

6.2 Pedestrian and Bicycle Access and Circulation

The project site takes pedestrian and bicycle access from the public street system. As discussed in **Section 2.4**, sidewalks are provided along both sides of South Franklin Street on the east frontage of the project site; a sidewalk does not currently exist on the south project site frontage along Maple Street, and only two crosswalks are provided at South Franklin Street/Maple Street. Internal site pedestrian pathways connect on-site parking and the off-site pedestrians system to the project building entrances/exits. A Class II bike lane is provided along South Franklin Street, and a Class II bike lane exists along Maple Street east of South Franklin Street.

Site Recommendation-3: *Construct sidewalk on south project frontage*. The conceptual site plan appears to show the dedication of right-of-way along the south project frontage for installation of a sidewalk. The project should construct the sidewalk along this frontage as part of the project as the allowed on-street parking supply on Maple Street could serve as additional parking supply for the project.

Site Recommendation-4: *Stripe missing crosswalks at South Franklin Street/Maple Street*. The project should be required to implement crosswalk striping for the missing two crosswalks at South Franklin Street/Maple Street to enhance pedestrian circulation between the project site and the MTA bus stops on Maple Street just east of South Franklin Street.

Site Recommendation-5: *Provide bicycle parking for patrons.* The proposed project site is located at the intersection of two streets with Class II bike lanes, indicating that patrons may choose to travel by bicycle to the project site. Bicycle parking should be provided on-site to accommodate trips made by bicycle (this recommendation is in addition to the bicycle-related improvements provided in Mitigation Measure TRANS-1).

DRAFT

6.3 Emergency Vehicle Access

Factors such as the number of access points, roadway width, and proximity to fire stations determine whether a site provides sufficient emergency access. Emergency vehicle access is provided by the project driveways and the internal roadways. A combination of internal roadways and public streets encompass all sides of the project building, providing direct access in case of emergencies.

The fire station most likely to serve the site is the Fort Bragg Fire Station located on North Main Street, about 0.25 miles away from the project site. While the project may increase traffic congestion in the vicinity of the project, emergency vehicles would still retain the right to preempt traffic signals and use lights and sirens to indicate to drivers that they need to yield. Thus, the project's impacts to emergency vehicle access are ***less-than-significant***.

Intersection Summary			
HCM 6th Ctrl Delay		47.5	
HCM 6th LOS		D	

Notes

User approved pedestrian interval to be less than phase max green.

* HCM 6th computational engine requires equal clearance times for the phases crossing the barrier.

HCM 6th Ctrl Delay		15.7	
HCM 6th LOS		B	

Notes

User approved pedestrian interval to be less than phase max green.

* HCM 6th computational engine requires equal clearance times for the phases crossing the barrier.

Intersection Summary			
HCM 6th Ctrl Delay		47.9	
HCM 6th LOS		D	

Notes

User approved pedestrian interval to be less than phase max green.

* HCM 6th computational engine requires equal clearance times for the phases crossing the barrier.

Intersection Summary			
HCM 6th Ctrl Delay		84.2	
HCM 6th LOS		F	

Notes

User approved pedestrian interval to be less than phase max green.

* HCM 6th computational engine requires equal clearance times for the phases crossing the barrier.

Subject: **Proposal for a Transportation Impact Assessment for the Dollar General Project in Fort Bragg, California**

Dear Sheldon:

Thank you for contacting Fehr & Peers to prepare a transportation impact assessment (TIA) for the Dollar General project in central Fort Bragg, California. We understand that a TIA is requested to support the development of a 9,000 square foot retail building at 231 South Franklin Street in Fort Bragg. We understand that there is the potential for substantial community scrutiny on the CEQA VMT assessment for the project as well as on the informational Level of Service (LOS) assessment requested to be completed in parallel with the CEQA analysis.

The following scope of work includes five tasks.

Scope of Work

Task 1 – CEQA VMT Analysis

Fehr & Peers will leverage its recently-completed SB 743 implementation work with the Mendocino Council of Governments (MCOG) to assess the project's effect on VMT. As noted in the final report for the MCOG project, local-serving retail projects under 50,000 square feet may qualify for a finding of a less-than-significant VMT impact without further study. It is assumed, however, due to the potential for controversy on the project, a VMT calculation would still be required to demonstrate that the project's impacts are less-than-significant.

Fehr & Peers will use the latest available version of the MCOG travel demand model to assess VMT for the project. Per the MCOG report, because VMT per capita is expected to increase in the Fort Bragg area over time, Fehr & Peers will calculate project VMT (using the daily total VMT per service population metric) and project effect on VMT (using absolute VMT as the metric). VMT metrics will be calculated for the Baseline, Baseline plus Project, Cumulative and Cumulative plus Project scenarios. Plus Project VMT metrics will be compared against No Project scenario metrics using impact criteria developed through the MCOG SB 743 implementation project. Due to the project's close proximity to State Route 1, it is recommended that the thresholds in the OPR *Technical Advisory* be used as a basis for the selection of thresholds due to the high likelihood of Caltrans District 1 staff providing comments on the environmental document for the project. If significant impacts are found, mitigation measures will be proposed and their effects quantified using data from CAPCOA's *Quantifying Greenhouse Gas Reduction Measures*.

Task 2 – Other Required CEQA Analyses

Fehr & Peers will review site access and circulation for the project site using the provided site plan. This assessment will include reviewing the following items:

- Site access and interface with public roadway network, including drop-off/pick-up zones
- Vehicular access and circulation within and adjacent to the project site
- Pedestrian access and circulation within and adjacent to the project site
- Bicycle access and circulation within and adjacent to the project site
- Emergency vehicle access and circulation
- Consistency with approved plans related to the bicycle, pedestrian and transit modes

Recommendation measures will be developed to address potential deficiencies in these areas.

Task 3 – Informational Off-Site Level of Service Analysis

Fehr & Peers will complete an informational off-site LOS analysis of up to five intersections, to be selected in coordination with City staff. Per SB 743, this analysis is not part of the CEQA process, but could be helpful in determining the project's off-site effects for the purposes of comparison against City General Plan goals and policies related to the function of the circulation system.

Due to the effects of the COVID-19 pandemic, new traffic counts are generally not presently being collected for traffic studies as current traffic patterns are not considered to be representative of normal conditions. Fehr & Peers will use recent traffic count data from the City of Fort Bragg, if available. For other intersections for which data is not available from previous studies, Fehr & Peers will download and process StreetLight Data estimates of turning movement volumes and develop Existing Conditions volumes using this data. For the purposes of this scoping effort, it is assumed that all study intersections will require the StreetLight Data volume estimate approach.

Fehr & Peers will analyze intersection LOS for Existing, Existing plus Project, Cumulative and Cumulative with Project conditions using the Synchro software analysis package. Signal timing data will be requested from the relevant agencies. Project trip assignments will be developed using the data from Task 1. Cumulative forecasts will be developed using the latest version of the MCOG model. Project scenario operations will be compared against No Project scenario operations using the relevant criteria for the City of Fort Bragg; if new deficiencies are found, Fehr & Peers will propose improvement measures.

Task 4 – Documentation

Fehr & Peers will summarize the work from Tasks 1-3 in this scope of work in the following reports:

- Draft TIA
- Final TIA

It is assumed that the project team, City of Fort Bragg, and other reviewing agencies (Caltrans, etc.) may have moderate technical and editorial comments on the Draft TIA. We will respond to one round of consolidated comments (up to eight total staff hours) and prepare a Final TIA. This scope of work also assumes the TIA will serve as sufficient documentation for M-Group to incorporate findings into the DEIR; however, up to six hours of staff time is included to assist in responses to comments on the environmental documentation for the project.

Task 5 – Meetings/Conference Calls

Fehr & Peers will participate in up to two team conference calls over the course of the project. Additionally, Fehr & Peers will attend up to two four-hour evening virtual meetings over the course of the project (assumed to be Planning Commission and City Council meetings associated with adoption of the project). Additional meetings can be accommodated on a time-and-materials basis, subject to a scope amendment.

Schedule and Fee

Fehr & Peers will perform Tasks 1-5 on a time-and-materials basis for a not-to-exceed fee of $49,935. We will begin work following receipt of a fully executed contract. We anticipate that we can complete the Draft TIA within six to eight weeks of commencing work. We are committed to develop a mutually-agreeable schedule for our work based on more information about the timeline for the project. If the scope, schedule and fee are acceptable, please provide us with a contract for our review and execution.

Please contact Ian at (925) 930-7100 with questions or if you need additional information. We look forward to working with you on this project.

Sincerely,

FEHR & PEERS

Ian Barnes, PE

RE: Incomplete Application DR2-20 (Design Review/Site & Architectural Review)

Dear Applicant,

Thank you for filing an application and payment with Community Development. The application, as filed, is incomplete, because one or more of the items below is required pursuant with Inland Land Use Code Section 18.71.050.

- Floor Plan
- Locate Driveway
- Height and Elevations (Retaining Wall)

Prior to further processing, the above noted items will need to be submitted to our office. Once all the required items have been submitted, the Initial Review of your project will begin.

Please note that pursuant with ILUC 18.71.050 (I), if the application is not completed by the applicant within one year of original receipt of the application, it will be deemed withdrawn. A new application may be submitted.

Thank You,

Tia Sar,

RE: Fort Bragg Dollar General TIA

Dear Chantell O'Neal:

Enclosed is invoice number 145047 for $20,805.22 dated April 13, 2021 for costs incurred from February 27, 2021 through March 26, 2021 for the above referenced project.

Tasks completed this period include the following:

- Finalization of VMT results
- Development of VMT mitigation measures
- Finalization of LOS results
- Testing of LOS improvement measures
- Drafting of Draft TIA report and figures

We appreciate the opportunity to assist you on this project. Please call if you have any questions.

Sincerely,

FEHR & PEERS

SUBJECT: ***Preliminary*** PW Comments for proposed Dollar General 251 S Franklin

1. ***Estimated* Impact Fees –** fees are based on the 2019/2020 Fee Schedule.
    a. **Water**- water impact fees are estimated to be $10,114.10
    b. **Sewer**- sewer impact fees are estimated to be $10,930.92
    c. **Drainage**- Calculated additional area of impervious surface is 25,960 SF. The associated drainage fee is $3,796.13.
    d. **Total *estimated* Public Works Impact Fees is $21,045.02.**

2. **Water/Sewer Connections -** based on size and depth of connection.
    a. Connection fees will be provided once the utility size information has been provided.
    b. The closest water mains are all undersized at 4" diameter, so offsite improvements will be required in order to provide adequate pressure to the site.
    c. Sewer cleanout is required.

3. **Fire Sprinklers/Backflow Device -** if fire sprinklers will be installed:
    a. Cost to install a 4" fire service is based on actual cost to the City. A deposit of $3,387 will be required.
    b. Applicant shall install a Backflow device on any water line associated with the fire service.
    c. Contact Heath Daniels at (707) 813-8031 for specific backflow information.

4. **Circulation, Access, & Frontage**
    a. Curb and sidewalk are already present on S Franklin.
    b. Applicant shall install sidewalk along the Maple Street frontage.

5. **Encroachment Permit -** will be required for any activity occurring in the public right of way. (Includes the placement of a dumpster, ladders used for painting, construction vehicles not parked in conformance with parking codes, and for

installation of any frontage improvements. **Please submit the relevant encroachment permit application 2 weeks prior to anticipate construction date(s) to allow adequate time for processing.**

6. **Storm Water Runoff Pollution Control and drainage -** All proposed development associated with this project shall be complaint with the Fort Bragg Municipal Code (FBMC) section 18.64 Urban Runoff Pollution Control, and Section 12.14 Drainage Facility Improvements.
    a. As this development includes over 5,000 disturbance, the project is considered a regulated project. Applicant is required to submit a Stormwater Control Plan (SCP). Refer to Mendocino County Low Impact Development (LID) Design Standards Manual v2.1 for guidance. It can be reviewed online at: https://www.mendocinocounty.org/home/showdocument?id=27635.
    b. Per Municipal Code Section 18.64.040, Storm water runoff shall be minimized by incorporation of LID strategies that minimize impermeable areas, maximize permeable areas, and that slow, spread, and sink runoff so as to recharge groundwater and minimize runoff. Runoff that is expected shall be collected at vegetative swales or bio retention facilities and overflow finally conveyed by a storm drain system approved by the City Engineer.
    c. *Treatment Control BMPs shall be sized and designed to retain and infiltrate runoff produced by all storms up to and including the 85th percentile (0.83" in 24-hours).*
    d. *If construction is to be conducted between October and April (the rainy season) approval from the Public Works Department and additional construction BMP's will be required.*
    e. It is not permitted for construction debris and soil to be placed in the City right-of-way. All construction debris/soil shall be properly disposed.
    f. Show all calculations for **lot coverage areas of impervious surfaces** including building footprints, pavement, sidewalk, etc.
    g. There are limited storm facilities near the site which will probably be inadequate for the proposed project. Further analysis will be needed after a formal submittal is made.

RE: CITY DIRECTORY RESEARCH
251 S Franklin
Fort Bragg,CA 95437

Thank you for contacting ERIS for an City Directory Search for the site described above. Our staff has conducted a reverse listing City Directory search to determine prior occupants of the subject site and adjacent properties. We have provided the nearest addresses(s) when adjacent addresses are not listed. If we have searched a range of addresses, all addresses in that range found in the Directory are included.

Note: Reverse Listing Directories generally are focused on more highly developed areas. Newly developed areas may be covered in the more recent years, but the older directories will tend to cover only the "central" parts of the city. To complete the search, we have either utilized the ACPL, Library of Congress, State Archives, and/or a regional library or history center as well as multiple digitized directories. These do not claim to be a complete collection of all reverse listing city directories produced.

ERIS has made every effort to provide accurate and complete information but shall not be held liable for missing, incomplete or inaccurate information. To complete this search we used the general range(s) below to search for relevant findings. If you believe there are additional addresses or streets that require searching please contact us at 866-517-5204.

Search Criteria:
BEG-400 of Maple St
BEG-400 of S Franklin St

Notice: IMPORTANT LIMITATIONS and YOUR LIABILITY

Reliance on information in Report: This report DOES NOT replace a full Phase I Environmental Site Assessment but is solely intended to be used as database review of environmental records.

License for use of information in Report: No page of this report can be used without this cover page, this notice and the project property identifier. The information in Report(s) may not be modified or re-sold.

Your Liability for misuse: Using this Service and/or its reports in a manner contrary to this Notice or your agreement will be in breach of copyright and contract and ERIS may obtain damages for such mis-use, including damages caused to third parties, and gives ERIS the right to terminate your account, rescind your license to any previous reports and to bar you from future use of the Service.

No warranty of Accuracy or Liability for ERIS: The information contained in this report has been produced by ERIS Information Inc. ("ERIS") using various sources of information, including information provided by Federal and State government departments. The report applies only to the address and up to the date specified on the cover of this report, and any alterations or deviation from this description will require a new report. This report and the data contained herein does not purport to be and does not constitute a guarantee of the accuracy of the information contained herein and does not constitute a legal opinion nor medical advice. Although ERIS has endeavored to present you with information that is accurate, ERIS disclaims, any and all liability for any errors, omissions, or inaccuracies in such information and data, whether attributable to inadvertence, negligence or otherwise, and for any consequences arising therefrom. Liability on the part of ERIS is limited to the monetary value paid for this report.

Trademark and Copyright: You may not use the ERIS trademarks or attribute any work to ERIS other than as outlined above. This Service and Report (s) are protected by copyright owned by ERIS Information Inc. Copyright in data used in the Service or Report(s) (the "Data") is owned by ERIS or its licensors. The Service, Report(s) and Data may not be copied or reproduced in whole or in any substantial part without prior written consent of ERIS.

Claim No: 7606
Claim Status: Eligible (Not Yet Funded)
A2022 Assembly District: 2
A2022 Congressional District: 02
A2022 Senate District: 2
Site History:

A previous underground storage tank fuel system, at a former retail fuel station at this property, released gasoline to soil and groundwater. Soil and groundwater at and around the site have been investigated. Some remediation was performed. Groundwater monitoring at the site has shown contamination in groundwater in the vicinity of the site, but the contamination is no longer spreading and is attenuating. No water supply wells were impacted by this contamination.

Waste Code Desc:	2H-1-BENZOPYRAN-2-ONE, 4-HYDROXY-3-(3-OXO-1-PHENYLBUTYL)-, & SALTS, WHEN PRESENT AT CONCENTRATIONS GREATER THAN 0.3% (OR) WARFARIN, & SALTS, WHEN PRESENT AT CONCENTRATIONS GREATER THAN 0.3%
Waste Code:	P008
Waste Code Desc:	4-AMINOPYRIDINE (OR) 4-PYRIDINAMINE
Waste Code:	P042
Waste Code Desc:	1,2-BENZENEDIOL, 4-[1-HYDROXY-2-(METHYLAMINO)ETHYL]-, (R)- (OR) EPINEPHRINE
Waste Code:	P075
Waste Code Desc:	NICOTINE, & SALTS (OR) PYRIDINE, 3-(1-METHYL-2-PYRROLIDINYL)-,(S)-, & SALTS

Waste Code:	P081
Waste Code Desc:	1,2,3-PROPANETRIOL, TRINITRATE (R) (OR) NITROGLYCERINE (R)
Waste Code:	P108
Waste Code Desc:	STRYCHNIDIN-10-ONE, & SALTS (OR) STRYCHNINE, & SALTS
Waste Code:	P188
Waste Code Desc:	BENZOIC ACID, 2-HYDROXY-, COMPD. WITH (3AS-CIS)-1,2,3,3A,8,8A-HEXAHYDRO-1,3A,8-TRIMETHYLPYRROLO[2,3-B]INDOL-5-YL METHYLCARBAMATE ESTER (1:1) (OR) PHYSOSTIGMINE SALICYLATE
Waste Code:	P204
Waste Code Desc:	PHYSOSTIGMINE (OR) PYRROLO[2,3-B]INDOL-5-OL, 1,2,3,3A,8,8A-HEXAHYDRO-1,3A,8-TRIMETHYL-METHYLCARBAMATE (ESTER), (3AS-CIS)-
Waste Code:	U002
Waste Code Desc:	2-PROPANONE (I) (OR) ACETONE (I)
Waste Code:	U010
Waste Code Desc:	AZIRINO [2',3':3,4]PYRROLO[1,2-A]INDOLE-4,7-DIONE, 6-AMINO-8-[[(AMINOCARBONYL)OXY]METHYL]-1,1A, 2,8,8A,8B-HEXAHYDRO-8A-METHOXY-5-METHYL-, [1AS-(1AALPHA, 8BETA, 8AALPHA, 8BALPHA)]- (OR) MITOMYCIN C
Waste Code:	U031
Waste Code Desc:	1-BUTANOL (I) (OR) N-BUTYL ALCOHOL (I)
Waste Code:	U034
Waste Code Desc:	ACETALDEHYDE, TRICHLORO- (OR) CHLORAL
Waste Code:	U035
Waste Code Desc:	BENZENEBUTANOIC ACID, 4-[BIS(2-CHLOROETHYL)AMINO]- (OR) CHLORAMBUCIL
Waste Code:	U044
Waste Code Desc:	CHLOROFORM (OR) METHANE, TRICHLORO-
Waste Code:	U058
Waste Code Desc:	2H-1,3,2-OXAZAPHOSPHORIN-2-AMINE, N,N-BIS(2-CHLOROETHYL)TETRAHYDRO-, 2-OXIDE (OR) CYCLOPHOSPHAMIDE
Waste Code:	U059
Waste Code Desc:	5,12-NAPHTHACENEDIONE, 8-ACETYL-10-[(3-AMINO-2,3,6-TRIDEOXY)-ALPHA-L-LYXO-HEXOPYRANOSYL) OXY]-7,8,9,10-TETRAHYDRO-6,8,11-TRIHYDROXY-1-METHOXY-, (8S-CIS)- (OR) DAUNOMYCIN
Waste Code:	U072
Waste Code Desc:	BENZENE, 1,4-DICHLORO- (OR) P-DICHLOROBENZENE
Waste Code:	U089
Waste Code Desc:	DIETHYLSTILBESTEROL (OR) PHENOL, 4,4'-(1,2-DIETHYL-1,2-ETHENEDIYL)BIS, (E)-
Waste Code:	U112
Waste Code Desc:	ACETIC ACID, ETHYL ESTER (I) (OR) ETHYL ACETATE (I)
Waste Code:	U122
Waste Code Desc:	FORMALDEHYDE
Waste Code:	U129
Waste Code Desc:	CYCLOHEXANE, 1,2,3,4,5,6-HEXACHLORO-, (1ALPHA, 2ALPHA, 3BETA, 4ALPHA, 5ALPHA, 6BETA)- (OR) LINDANE
Waste Code:	U132
Waste Code Desc:	HEXACHLOROPHENE (OR) PHENOL, 2,2'-METHYLENEBIS[3,4,6-TRICHLORO-
Waste Code:	U144
Waste Code Desc:	ACETIC ACID, LEAD(2+) SALT (OR) LEAD ACETATE
Waste Code:	U150
Waste Code Desc:	L-PHENYLALANINE, 4-[BIS(2-CHLOROETHYL)AMINO]- (OR) MELPHALAN
Waste Code:	U154

Waste Code Desc:	METHANOL (I) (OR) METHYL ALCOHOL (I)
Waste Code:	U159
Waste Code Desc:	2-BUTANONE (I,T) (OR) METHYL ETHYL KETONE (MEK) (I,T)
Waste Code:	U165
Waste Code Desc:	NAPHTHALENE
Waste Code:	U187
Waste Code Desc:	ACETAMIDE, N-(4-ETHOXYPHENYL)- (OR) PHENACETIN
Waste Code:	U188
Waste Code Desc:	PHENOL
Waste Code:	U197
Waste Code Desc:	2,5-CYCLOHEXADIENE-1,4-DIONE (OR) P-BENZOQUINONE
Waste Code:	U200
Waste Code Desc:	RESERPINE (OR) YOHIMBAN-16-CARBOXYLIC ACID, 11,17-DIMETHOXY-18-[(3,4,5-TRIMETHOXYBENZOYL) OXY]-, METHYL ESTER, (3BETA, 16BETA, 17ALPHA, 18BETA, 20ALPHA)-
Waste Code:	U201
Waste Code Desc:	1,3-BENZENEDIOL (OR) RESORCINOL
Waste Code:	U204
Waste Code Desc:	SELENIOUS ACID (OR) SELENIUM DIOXIDE
Waste Code:	U205
Waste Code Desc:	SELENIUM SULFIDE (OR) SELENIUM SULFIDE SES2 (R,T)
Waste Code:	U206
Waste Code Desc:	D-GLUCOSE, 2-DEOXY-2-[[(METHYLNITROSOAMINO)-CARBONYL]AMINO]- (OR) GLUCOPYRANOSE, 2-DEOXY-2-(3-METHYL-3-NITROSOUREIDO)-,D- (OR) STREPTOZOTOCIN
Waste Code:	U236
Waste Code Desc:	2,7-NAPHTHALENEDISULFONIC ACID,3,3'-[(3,3'-DIMETHYL[1,1'-BIPHENYL]-4,4'-DIYL)BIS(AZO)BIS[5-AMINO-4-HYDROXY]-, TETRASODIUM SALT (OR) TRYPAN BLUE
Waste Code:	U240
Waste Code Desc:	2,4-D, SALTS & ESTERS (OR) ACETIC ACID, (2,4-DICHLOROPHENOXY)-, SALTS & ESTERS (OR) DICHLOROPHENOXYACETIC ACID 2,4-D
Waste Code:	U248
Waste Code Desc:	2H-1-BENZOPYRAN-2-ONE, 4-HYDROXY-3-(3-OXO-1-PHENYL-BUTYL)-, & SALTS, WHEN PRESENT AT CONCENTRATIONS OF 0.3% OR LESS (OR) WARFARIN, & SALTS, WHEN PRESENT AT CONCENTRATIONS OF 0.3% OR LESS
Waste Code:	U279
Waste Code Desc:	CARBARYL (OR) 1-NAPHTHALENOL, METHYLCARBAMATE

Returned to compliance on 01/29/2016.

Violation Description:

Failure to complete and/or electronically submit a business plan when storing/handling a hazardous material at or above reportable quantities.

Violations

Violation Date: 01/07/2019 ***Violation Source:*** CERS
Violation Program: UST ***Violation Division:*** Mendocino County Environmental Health
Citation: 23 CCR 16 2712(b)(1)(G) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2712(b)(1)(G)
Violation Notes:

Returned to compliance on 01/07/2019. Failed to perform an overfill inspection by October 13, 2018. Completed during inspection.

Violation Description:

Failure to comply with one or more of the following overfill prevention equipment requirements:
Alert the transfer operator when the tank is 90 percent full by restricting the flow into the tank or triggering an audible and visual alarm; or
Restrict delivery of flow to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or
Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or
Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling.

Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1, 2018.

For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter.

For USTs installed on and after October 1, 2018, perform an inspection at installation and every 36 months thereafter.

Inspected within 30 days after a repair to the overfill prevention equipment.

Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer.

Inspected by a certified UST service technician.

Maintain records of overfill prevention equipment inspection for 36 months.

Violations

Violation Date: 01/27/2015 ***Violation Source:*** CERS

Violation Notes:

Drum of hazwaste located on the south side of shop was observed without a properly completed hazardous waste label. Submit a photo to the CUPA demonstrating that the container listed above has been properly labeled.

Violation Description:

Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Violations

Violation Date: 01/16/2024 ***Violation Source:*** CERS

Violation Program: UST ***Violation Division:*** Mendocino County Environmental Health
Citation: 23 CCR 16 2636(f)(2) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2636(f)(2)
Violation Notes:

Returned to compliance on 01/16/2024. Super Line leak detector failed to meet one or more of the following requirements: Monitor at least hourly; Capable of detecting a release of 3.0 gallons per hour at 10 p.s.i.g.; Restricting or shutting off the flow of product through the piping when a leak is detected. Super LLD required adjustment. No further action required.

Violation Description:

Failure of the functional line leak detector (LLD) monitoring pressurized piping to meet one or more of the following requirements: Monitored at least hourly with the capability of detecting a release of 3.0 gallons per hour leak at 10 pounds per square inch and restrict or shut off the flow of product through the piping when a leak is detected.

Violations

Violation Date: 01/27/2015 ***Violation Source:*** CERS
Violation Program: UST ***Violation Division:*** Mendocino County Environmental Health
Citation: 23 CCR 16 2637 - California Code of Regulations, Title 23, Chapter 16, Section(s) 2637
Violation Notes:

Returned to compliance on 02/14/2015.

Violation Description:

Failure to comply with one or more of the following: conduct secondary containment testing, within six months of installation and every 36 months thereafter, conducted in accordance with proper practices, protocols, or test methods.

Claim Status: Active, Eligible (Not Yet Funded)
A2022 Assembly District: 2
A2022 Congressional District: 02
A2022 Senate District: 2
Site History:

An unauthorized release was reported in January 1999 during facility upgrade activities. Soil and groundwater samples collected indicated presence of petroleum hydrocarbons and fuel oxygenate contamination. The remaining total petroleum hydrocarbons as gasoline (TPH-g) groundwater plume is approximately 200 feet (ft) in length extending southwest of the former underground storage tanks (USTs), dispenser islands, and station building. The remaining benzene groundwater plume is approximately 100 ft in length extending from the former USTs to the property line. Direct contact and outdoor air exposure and petroleum vapor intrusion to indoor air has been evaluated and deemed a low threat under the LTCP.

Facility Identified: DHS Rural County Survey Program Drive-by - Large industrial site. Restricted access; difficult to observe. Site Screening Done: Possible pesticide/preservative use. Potential site submitted to EPA for Preliminary Assessment by their Field Investigation Team (FIT). DHS received EPA Federal Investigation Team (FIT) Prelimi-nary Assessment; EPA recommends NFA (08/30/90). DTSC needs to determine site status.

49	4 of12	NNW	0.29 / 1,514.87	62.11 / -15	GEORGIA PACIFIC WEST INC 90 W REDWOOD AVE FORT BRAGG CA 954370000	ENVIROSTOR

Envirostor ID: 80001703
Site History:

The former Georgia-Pacific Wood Products facility closed in 2002. The saw mill began operations as the Union Lumber Company is 1885 and was

purchased by Georgia-Pacific in 1973. The facility mainly processed redwood. Most of the equipment and structures associated with lumber production has been removed. The City of Fort Bragg and Georgia-Pacific is developing a redevelopment plan for the 415 acre site. The hazardous substance clean up of the closed site is being completed under the Brownfields and Environmental Restoration Program in Berkeley. The site is divided into five Operable Units (A-E). OU B includes non-industrial areas and no action is required for that OU. Remediation is complete for OUA and has been sold to the City of Fort Bragg for use as a coastal trail and park. Remedial Action Plans for OUs C, D and E are scheduled for 2012.

49	8 of12	NNW	0.29 / 1,514.87	62.11 / -15	GEORGIA-PACIFIC CORPORATION 90 WEST REDWOOD AVENUE FORT BRAGG CA 95437	LUR

Envirostor ID: 23240008
Site History:

Georgia-Pacific Corporation operated a lumber production facility onsite from 1973 until 2002. Prior to the plant closure, logs were received by truck, unloaded, and stored in the log storage areas. Logs were then removed from inventory, debarked, and milled. Milled lumber was then either shipped green, kiln dried, or air dried on site. Finished lumber was transported by rail or flatbed trailers. Bark and wood refuse were transported by truck, conveyer, or pneumatic system to the power plant where they were burned to generate steam for electricity. Historically, the facility operations were conducted in the sawmills, planer buildings, a fence plant, a power plant, lumber storage areas, and various maintenance facilities.

Facilities Details

Estor/EPA ID: 23240008
Program Type: STATE RESPONSE
Program Type1:
Status: ACTIVE - LAND USE RESTRICTIONS
Site Facility Name: GEORGIA-PACIFIC CORPORATION
Site Type: STATE RESPONSE OR NPL
Address Description: 90 WEST REDWOOD AVENUE
City: FORT BRAGG
County: MENDOCINO
Zip: 95437
Acres: 415 ACRES
Site Code: 202276, 200402
Apn: 008-010-26-00, 008-020-09, 008-020-15-00, 008-020-16, 008-053-34-00, 008-151-25, 008-161-08, 00802009, 00805334, 00816108, 00817107, 018-030-42-00, 018-040-52-00, 018-120-43, 018-430-01-00, 018-430-02-00, 018-430-21-00, 018-430-22-00, 01843001, 01843002
Assembly District: 02
Census Tract: 6045010400
Funding: RESPONSIBLE PARTY
Office: CLEANUP BERKELEY
Project Manager: KATHERINE HENRY
Special Program:
Supervisor: KIMBERLY WALSH
Senate District: 02
Public Participation Specialis: ASHA SETTY
CalEnviroScreen Score: 45-50%
National Priorities List: NO
Past Use that Caused Contam: MANUFACTURING - LUMBER/WOOD PRODUCTS
Permit Renewal Lead:
Cleanup Oversight Agencies: DTSC - SITE CLEANUP PROGRAM - LEAD AGENCY
Cleanup Status: ACTIVE AS OF 8/1/2006
Potential Cont of Conc: DIOXIN (AS 2,3,7,8-TCDD TEQ)
LEAD
PETROLEUM
POLYCHLORINATED BIPHENYLS (PCBS)
POLYNUCLEAR AROMATIC HYDROCARBONS (PAHS)
Potential Media Affected: OTHER GROUNDWATER AFFECTED (USES OTHER THAN DRINKING WATER), SEDIMENTS, SOIL
School District:

Sub Area Link:
Document Type: Monitoring Report
Date Completed: 10/5/2016
Comments: The Report presents the analytical results of the additional total petroleum hydrocarbons as diesel (TPH-d) sampling conducted at monitoring wells MW-5.18, MW-5.19, MW-5.20, and MW-5.21 as requested in the DTSC letter dated August 6, 2015. The additional sampling was requested to evaluate potential rebound of TPH-d in groundwater at the IRM and West of IRM Area of Interest based on increased concentrations detected in samples collected in the first quarter of 2015. The data in the Report show that TPH-d concentrations have declined since the March 2015 sampling event and recommends returning to a semi-annual sampling schedule for these wells.

Sub Area Link: https://www.envirostor.dtsc.ca.gov/public/profile_report?global_id=23240008&site_id=2000094
Document Type: Remedial Investigation Report
Date Completed: 2/11/2013
Comments: OUE Remedial Investigation Report. Nine Areas of Interest (AOIs) were investigated in the OUE Remedial Investigation. The OUE RI Report includes a human and ecological risk evaluation that compares detected contaminant concentrations at each AOI to Primary Screening Levels (PSLs). PSLs were selected by identifying the lowest of selected published human and ecological screening values. A background concentration is used as the PSL if the background concentration is greater than the published values. This human and ecological screening evaluation identified six Areas of Concern (AOCs) of the nine AOIs. Figure 5-1 of the OUE RI Report shows the location of the AOCs. Risk associated with the AOCs will be further evaluated in the forthcoming Baseline Human Health and Ecological Risks Assessment.

Sub Area: OU-E: Ponds / Park
Sub Area Link: https://www.envirostor.dtsc.ca.gov/public/profile_report?global_id=23240008&site_id=2000094
Document Type: Removal Action Completion Report
Date Completed: 6/27/2018
Comments: Residual COC concentrations at the Lowland Terrestrial AOI EPCs meet residential screening criteria. Residual COC concentrations at the Riparian Area AOI are below the residential screening criteria at each confirmation sample location. DTSC approved NFA for the Riparian Area AOI and the Lowland Terrestrial AOI soil. The Southern Ponds AOI and Pond 7 AOI EPCs exceed the residential screening criteria; therefore, these ponds will be evaluated in the OU-E Feasibility Study and the OU-E Remedial Action Plan (OU-E RAP).

Title: Phase II Coastal Trail Corridor Comfort letter to City of Fort Bragg
Title Link:
Area Name: PROJECT WIDE
Area Link:
Sub Area:
Sub Area Link:
Document Type: Correspondence
Date Completed: 3/9/2017
Comments: The Corridor lies within three Operable Units (C, D, and E) established by DTSC at the Former Mill Site (see attached figure). DTSC's investigations and cleanup actions for Operable Unit C, D, and E confirm that the path of the Corridor lies within locations that DTSC has concluded are acceptable for the recreational trail envisioned by the City of Fort Bragg. Further, DTSC does not expect the trail to limit other future cleanup activities of the ponds or terrestrial areas of Operable Unit E.

Sub Area Link:
Document Type: Remedial Action Completion Report
Date Completed: 6/27/2018
Comments: Remedial action activities completed in OUs C and D consisted of the removal and disposal of about 980 cubic yards of soil from the Former Dip Tank, Rail Lines East, Kilns, and Planer #2 Area of Interest (AOI). Confirmation sampling at the four AOI sites indicate that residual concentrations of the COCs met residential Remedial Action Goals (RAGs) at each confirmation sample location. Therefore, DTSC approved No Further Action at the Former Dip Tank, Rail Lines East, Kilns, and Planer #2 AOIs.

Envirostor ID:	23240008
Site History:	

Georgia-Pacific Corporation operated a lumber production facility onsite from 1973 until 2002. Prior to the plant closure, logs were received by truck, unloaded, and stored in the log storage areas. Logs were then removed from inventory, debarked, and milled. Milled lumber was then either shipped green, kiln dried, or air dried on site. Finished lumber was transported by rail or flatbed trailers. Bark and wood refuse were transported by truck, conveyer, or pneumatic system to the power plant where they were burned to generate steam for electricity. Historically, the facility operations were conducted in the sawmills, planer buildings, a fence plant, a power plant, lumber storage areas, and various maintenance facilities.

Area Name: PROJECT WIDE
Area Link:
Sub Area:
Sub Area Link:
Document Type: Monitoring Report
Date Completed: 10/5/2016
Comments: The Report presents the analytical results of the additional total petroleum hydrocarbons as diesel (TPH-d) sampling conducted at monitoring wells MW-5.18, MW-5.19, MW-5.20, and MW-5.21 as requested in the DTSC letter dated August 6, 2015. The additional sampling was requested to evaluate potential rebound of TPH-d in groundwater at the IRM and West of IRM Area of Interest based on increased concentrations detected in samples collected in the first quarter of 2015. The data in the Report show that TPH-d concentrations have declined since the March 2015 sampling event and recommends returning to a semi-annual sampling schedule for these wells.

Sub Area:
Sub Area Link:
Document Type: Remedial Action Plan
Date Completed: 12/17/2015
Comments: The Remedial Action Plan addresses approximately 268 acres of Operable Units C and D. Soil remedies include excavation at 6 Areas of Interest. Land Use Covenants will be applied at four Area of Interest(AOIs. After excavation of soil approximately 260 of the 268 acres of OUs C and D will meet unrestricted criteria and No further action will be necessary for this area. Approximately 8 acres will require Land Use Covenant for soil and soil gas. Groundwater remedies include source removal at 3 AOI, in-situ treatment at 2 AOIs, and Natural Attenuation at 7 AOIs.

Area Name: Operable Unit C and Operable Unit D
Area Link: https://www.envirostor.dtsc.ca.gov/public/profile_report?global_id=23240008&ou_id=3000815&hideside=True&printerfriendly=True
Sub Area:
Sub Area Link:
Document Type: Remedial Action Completion Report
Date Completed: 6/27/2018
Comments: Remedial action activities completed in OUs C and D consisted of the removal and disposal of about 980 cubic yards of soil from the Former Dip Tank, Rail Lines East, Kilns, and Planer #2 Area of Interest (AOI). Confirmation sampling at the four AOI sites indicate that residual concentrations of the COCs met residential Remedial Action Goals (RAGs) at each confirmation sample location. Therefore, DTSC approved No Further Action at the Former Dip Tank, Rail Lines East, Kilns, and Planer #2 AOIs.

Document Type:	Remedial Investigation Report
Date Completed:	2/11/2013
Comments:	OUE Remedial Investigation Report. Nine Areas of Interest (AOIs) were investigated in the OUE Remedial Investigation. The OUE RI Report includes a human and ecological risk evaluation that compares detected contaminant concentrations at each AOI to Primary Screening Levels (PSLs). PSLs were selected by identifying the lowest of selected published human and ecological screening values. A background concentration is used as the PSL if the background concentration is greater than the published values. This human and ecological screening evaluation identified six Areas of Concern (AOCs) of the nine AOIs. Figure 5-1 of the OUE RI Report shows the location of the AOCs. Risk associated with the AOCs will be further evaluated in the forthcoming Baseline Human Health and Ecological Risks Assessment.

Sub Area Link: https://www.envirostor.dtsc.ca.gov/public/profile_report?global_id=23240008&site_id=2000094
Document Type: Removal Action Completion Report
Date Completed: 6/27/2018
Comments: Residual COC concentrations at the Lowland Terrestrial AOI EPCs meet residential screening criteria. Residual COC concentrations at the Riparian Area AOI are below the residential screening criteria at each confirmation sample location. DTSC approved NFA for the Riparian Area AOI and the Lowland Terrestrial AOI soil. The Southern Ponds AOI and Pond 7 AOI EPCs exceed the residential screening criteria; therefore, these ponds will be evaluated in the OU-E Feasibility Study and the OU-E Remedial Action Plan (OU-E RAP).

Title: Monitored Natural Attenuation Groundwater Technical Memorandum

Title Link: https://www.envirostor.dtsc.ca.gov/public/final_documents2?global_id=23240008&doc_id=60311162
Area Name: Operable Unit C and Operable Unit D
Area Link: https://www.envirostor.dtsc.ca.gov/public/profile_report?global_id=23240008&ou_id=3000815&hideside=True&printerfriendly=True
Sub Area:
Sub Area Link:
Document Type: Technical Report
Date Completed: 4/17/2013
Comments: The purpose of the Report is to identify natural attenuation processes occurring in groundwater in select areas of interest (AOIs) within operable units (OUs) OU-C and OU-D. DTSC's February 17, 2012 approval of the OU-C and OU-D Feasibility Study (FS) required the Report to be prepared as an addendum to the FS, in order to provide specific hydrogeological support for monitored natural attenuation as the recommended groundwater remedial alternative.

Envirostor ID:	80001451
Site History:	

The California Western Railroad main site is located in Fort Bragg adjacent to the former Georgia-Pacific Mill Site. The site also includes the railroad right-of-way connecting Fort Bragg to Willets in Mendocino County. On June 29, 2001, the California Western Railroad (also known as The Skunk Train and Mendocino Railway) and DTSC entered into a Corrective Action Consent Agreement (Docket Number HWCA: P1-00/01-005) (Consent Agreement). The Consent Agreement required the California Western Railroad to conduct a preliminary assessment of the facility.

On December 14, 2001, California Western Railroad submitted a Preliminary Assessment Report (PAR) to DTSC. DTSC reviewed the PAR and issued a Facility Assessment Report on March 7, 2002. The Facility Assessment Report identified thirty-five Solid Waste Management Units which required further investigation.

Sierra Northern Railway purchased California Western Railroad assets in 2003. In June 2005 DTSC signed a new Consent Agreement with Mendocino Railway, a division of Sierra Northern Railway for the corrective action at the facility.

On October 23, 2008, DTSC approved Mendocino Railway's Interim Measures Work Plan to remove elevated concentrations of hazardous substances at former burn sites along the right of way. California Western Railroad completed the excavation of all burn sites in 2010.

California Western Railroad completed a Resource Conservation and Recovery Act (RCRA) Facility Investigation (RFI) of the maintenance facility in Fort Bragg in 2013. Based on the results of the RFI, additional work is needed to investigate lead, arsenic and petroleum and groundwater. As of September 2018, this investigation has not been completed because of limited financial resources of California Western Railroad. DTSC expects the investigation to begin in 2019. JP 09/07/2018

Envirostor ID: CAD066125758
Site History:

In September 1998, DTSC was notified by the Mendocino County Air Quality Control District (MCAQCD) that complaints were filed with that agency regarding California Western Railroad. In September 1998, DTSC, MCAQCD, Mendocino County Department of Health Services, and the California Department of Fish and Games initiated investigation. During the investigation, piles of burned and unburned ties were found. DTSC collected surface soil samples along with ash and embers. The samples were analyzed for the concentration of inorganic and organic chemicals. The sampling result showed apparent elevated levels of metals, polycyclic aromatic hydrocarbons and dioxin.

On June 29, 2001, the California Western railroad and DTSC entered into a Corrective Action Consent Agreement (Docket Number HWCA: P1-00/01-005) (Consent Agreement). The Consent Agreement required the California Western Railroad to conduct a preliminary assessment of the facility. The California Western railroad hired Erler & Kalinowski, Inc. (EKI) as their consultant.

On November 8 and 9, 2001, EKI and DTSC conducted a visual site inspection of the entire facility.

On December 14, 2001, EKI submitted a Preliminary Assessment Report (PAR) to DTSC. DTSC reviewed the PAR and issued a Facility Assessment Report on March 7, 2002. The Facility Assessment Report identified thirty-five Solid Waste Management Units which required further investigation.

Sierra Northern Railway purchased California Western Railroad assets in 2003. A new Consent Agreement was signed with Mendocino Railway, a division of Sierra Northern Railway, on June 17, 2005 for the corrective action at the facility.

DTSC is currently reviewing Mendocino Railway's Interim Measures Work Plan to remove elevated concentrations of hazardous substances at former burn sites along the right of way. The removal is anticipated to occur in 2008.

04/04/2018- This facility never applied or was granted a RCRA Permit; therefore, it was never regulated as a TSDF and is being administrative closed. The CACA that the facility signed with DTSC in 2005 addresses corrective action for previous activities, which involved the facility disposing, storing, and treating hazardous waste. Furthermore, HWTS (Hazardous Waste Tracking System) shows no TSDF related information for this facility).

Quarterly Update:

In September 1998, DTSC was notified by the Mendocino County Air Quality Control District (MCAQCD) that complaints were filed with that agency regarding California Western Railroad. In September 1998, DTSC, MCAQCD, Mendocino County Department of Health Services, and the California Department of Fish and Games initiated investigation. During the investigation, piles of burned and unburned ties were found. DTSC collected surface soil samples along with ash and embers. The samples were analyzed for the concentration of inorganic and organic chemicals. The sampling result showed apparent elevated levels of metals, polycyclic aromatic hydrocarbons and dioxin. On June 29, 2001, the California Western railroad and DTSC entered into a Corrective Action Consent Agreement (Docket Number HWCA: P1-00/01-005) (Consent Agreement). The Consent Agreement required the California Western Railroad to conduct a preliminary assessment of the facility. The California Western railroad hired Erler & Kalinowski, Inc. (EKI) as their consultant. On November 8 and 9, 2001, EKI and DTSC conducted a visual site inspection of the entire facility. On December 14, 2001, EKI submitted a Preliminary Assessment Report (PAR) to DTSC. DTSC reviewed the PAR and issued a Facility Assessment Report on March 7, 2002. The Facility Assessment Report identified thirty-five Solid Waste Management Units which required further investigation. Sierra Northern Railway purchased California Western Railroad assets in 2003. A new Consent Agreement was signed with Mendocino Railway, a division of Sierra Northern Railway, on June 17, 2005 for the corrective action at the facility. DTSC is currently reviewing Mendocino Railway's Interim Measures Work Plan to remove elevated concentrations of hazardous substances at former burn sites along the right of way. The removal is anticipated to occur in 2008. 04/04/2018- This facility never applied or was granted a RCRA Permit; therefore, it was never regulated as a TSDF and is being administrative closed. The CACA that the facility signed with DTSC in 2005 addresses corrective action for previous activities, which involved the facility disposing, storing, and treating hazardous waste. Site History:	

In June 1992, a 550-gallon gasoline UST was removed from the site. The tank reportedly had not been used since the 1940s. Based on observations and sampling during the tank removal, the Mendocino County Environmental Health department reported an unauthorized release of gasoline from the UST. Soil and groundwater at and around the site have been investigated. Groundwater monitoring at the site has shown contamination in groundwater in the immediate vicinity of the site, but the contamination is no longer spreading. No water supply wells were impacted by this contamination.

A2022 Senate District: 2
Site History:

The property was acquired by Charles and Kathleen Perkins before 1936. In March of 1936 the site was leased to Chas. R. Royce who built and operated an oil station. The site became the sole property of Kathleen Perkins later in 1936 upon the death of her husband. In May 1936, Shell Oil Company (Shell) took over the lease and operated the site as a Shell station. Either Shell or Mr. Royce installed a 6,000-gallon underground storage tank (UST) at the site. In September of 1950, Texaco Inc. took over the lease, operating the site as Texaco Oil Station. Texaco removed the 6,000-gallon UST and installed 3 USTs between 1956 and 1957. In 1966, the property passed into the Perkins Trust, with Kathleen Perkin's daughter Jean Hawkes as the first trustee. In January 1968, Jack Perkins (Jean Hawke's brother) became the operator of the Texaco station. When Texaco no longer wanted the station, the USTs were decommissioned in 1971 by filling them with water and abandoning them in place. The pumps, station building, and other improvements were removed. The property was then leased and built out as a carwash. The abandoned in place USTs were removed from the site in 1999. Soil and groundwater sampling data showed that there was a release to the subsurface. In 2009 three additional abandoned USTs were detected by geophysical testing beneath the sidewalk in front of the property. This additional source of contamination is being investigated, but the abandoned USTs have not been removed.

83	1 of1	WSW	0.66 / 3,499.71	51.87 / -26	City of Fort Bragg Coastal Trail State Highway 1 Fort Bragg CA 95437	RESPONSE

Envirostor ID: 60002118
Site History:

The 82 acre Fort Bragg Coastal Trail site is located on the coastal bluffs of the City of Fort Bragg on the former Georgia-Pacific Mill Site. The site was identified as Operable Unit A of the Georgia-Pacific site. The Coastal Trail site is now a recreational park with four miles of multi-use trail, two parking lots, three restrooms and 25 acres of habitat restoration and related improvements. The project site is bounded to the east by the vacant former industrial 320 acre remainder of the former GP Mill Site, to the west and south by the ocean and to the north by MacKerricher State Park (Figure 1). The northern section of the Coastal Trail opened in winter 2015.

Historically the site was part of the Union Lumber Company (ULC), which began sawmill operations at the site in 1885. Georgia-Pacific acquired the site in 1973 and ceased lumber operations on August 8, 2002. The lumber mill used wood waste to operate a co-generation facility and the operation of this facility and the overall Mill Site operations resulted in the following types of contamination:
1. Polycyclic Aromatic Hydrocarbons (PAHs) which are formed when material like oil, fuel, or even foods are not completely burned; and
2. Total petroleum hydrocarbons (TPH); and
3. Dioxins which were formed from the burning of construction debris and slat soaked wood waste from mill site operations; and
4. Polychlorinated biphenyls (PCBs), which were released when transformers were stored/disassembled on the site; and
5. Heavy metals.

With DTSC oversight, Georgia-Pacific completed the remediation of Operable Unit A in 2009 by removing dioxin, PCB and lead contaminated soil

The contamination was brought to the attention of the state Department of Toxic Substances Control (DTSC) in 2006. DTSC issued an Imminent and Substantial Endangerment Order (I&SE Order) in 2006 for the site, naming Georgia-Pacific as the Responsible Party.
Soil, groundwater, off shore ocean and cave water, and air samples were collected in 2007 and 2008 as part of the remedial investigation (RI) required by the I&SE Order. The RI identified five areas as appropriate for remedial action based on factors that included the presence of hazardous waste,

polychlorinated biphenyls (PCBs) above the regulatory threshold, or areas considered "hot spots" where concentrations of chemicals were over 10 times protective health-based screening levels. The five areas were targeted for remediation in the Remedial Action Plan (RAP) based on an assessment of the residual risks to human health and the environment (Risk Assessment) following assumed remediation of the five targeted areas, risks were predicted to be within the acceptable range.

The RAP includes restrictions on some parts of OU-A. DTSC established Land Use Covenant (LUC) for parts of OU-A that limits development and prohibits residential, schools and other sensitive land uses. The City of Fort Bragg completes annual inspections and reports to DTSC annually on the status and compliance of the coastal trail development to the LUC.

Envirostor ID: 60003203
Site History:

On November 9, 2021, DTSC received the Phase I Environmental Site Assessment. The Fort Bragg Unified School District is proposing to build new classrooms and a administration/student services center in the northwest quadrant on a vacant portion of the property of approximately 2.33 acres on a portion of Mendocino County Assessor's Parcel Number 020-530-01. Historically, the site consisted of dense woodland and remained vacant until at least the mid 1960s when the high school was constructed. The site has an existing driveway and parking area to the north and a shipping container on the east. The proposed building site will incorporate the existing parking and driveway and add several classrooms, a courtyard, ball courts, and an administrative/student services building. The new facilities are designed to accommodate approximately 8 classrooms and a maximum of 240 students.

The Phase I indicates that no Recognized Environmental Conditions (RECs) were found; no nearby properties were observed to exhibit the likelihood of hazardous chemical discharge; no large quantities of pesticides or herbicides are stored onsite; and no large-scale agricultural operations are present within the vicinity of the Site.
Based on the information provided, as well as a site visit conducted by DTSC on December 20, 2021, neither a release of hazardous material nor the presence of a naturally occurring hazardous material, which would pose a threat to public health or the environment under unrestricted land use, was indicated at the Site. DTSCï¿½s comments have been adequately addressed and concurs with the conclusion that further environmental investigation of the Site is not required and approved the Phase I with a no action determination on January 12, 2022.

Revised as of 2.2.2022 by ET.

Appendix: Database Descriptions

Environmental Risk Information Services (ERIS) can search the following databases. The extent of historical information varies with each database and current information is determined by what is publicly available to ERIS at the time of update. ERIS updates databases as set out in ASTM Standard E1527-13 and E1527-21, Section 8.1.8 Sources of Standard Source Information:

"Government information from nongovernmental sources may be considered current if the source updates the information at least every 90 days, or, for information that is updated less frequently than quarterly by the government agency, within 90 days of the date the government agency makes the information available to the public."

Standard Environmental Record Sources

Federal

National Priority List: NPL

The U.S. Environmental Protection Agency (EPA)'s National Priorities List (NPL) includes the most serious uncontrolled or abandoned hazardous waste sites identified for possible long-term remedial action under the Superfund program, based primarily on the score a site receives from EPA's Hazard Ranking System. A site must be on the NPL to receive money from the Superfund Trust Fund for remedial action. This data includes NPL sites represented as polygons, where available, that can be sourced from the EPA NPL Superfund Site Boundaries dataset, refreshed by the Shared Enterprise Geodata and Services (SEGS), and is limited to those sites where the NPL Status reflects the site is 'Currently on the Final NPL (F)' and/or the 'Site is Part of NPL Site (A)'. These site boundaries represent the footprint of a whole site, the sum of all the Operable Units (OUs) and the current understanding of the full extent of contamination; for Federal Facility sites, the total site polygon may be the Facility boundary. As site investigation and remediation progress, OUs may be added, modified or refined. Data provided by external parties is not independently verified by EPA. This boundary data is made available to the public strictly for informational purposes. Where there is no polygon boundary data available for a given site, the site is represented as a point.

Government Publication Date: Jul 6, 2026

National Priority List - Proposed: PROPOSED NPL

Sites proposed by the U.S. Environmental Protection Agency (EPA), the state agency, or concerned citizens for addition to the National Priorities List (NPL) due to contamination by hazardous waste and identified by the EPA as a candidate for cleanup because it poses a risk to human health and/or the environment. Sites represented as polygons, where available, can be sourced from the EPA NPL Superfund Site Boundaries dataset, refreshed by the Shared Enterprise Geodata and Services (SEGS). These site boundaries represent the footprint of a whole site, the sum of all the Operable Units (OUs) and the current understanding of the full extent of contamination; for Federal Facility sites, the total site polygon may be the Facility boundary. Data provided by external parties is not independently verified by EPA. This boundary data is made available to the public strictly for informational purposes. Where there is no polygon boundary data available for a given site, the site is represented as a point.

Government Publication Date: Jul 6, 2026

Deleted NPL: DELETED NPL

Sites deleted from the U.S. Environmental Protection Agency (EPA)'s National Priorities List (NPL). The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate. Sites represented as polygons, where available, can be sourced from the EPA NPL Superfund Site Boundaries dataset, refreshed by the Shared Enterprise Geodata and Services (SEGS). These site boundaries represent the footprint of a whole site, the sum of all the Operable Units (OUs) and the current understanding of the full extent of contamination; for Federal Facility sites, the total site polygon may be the Facility boundary. Data provided by external parties is not independently verified by EPA. This boundary data is made available to the public strictly for informational purposes. Where there is no polygon boundary data available for a given site, the site is represented as a point.

Government Publication Date: Jul 6, 2026

SEMS List 8R Active Site Inventory: SEMS

The U.S. Environmental Protection Agency's (EPA) Superfund Program has deployed the Superfund Enterprise Management System (SEMS), which integrates multiple legacy systems into a comprehensive tracking and reporting tool. This inventory contains active sites evaluated by the Superfund program that are either proposed to be or are on the National Priorities List (NPL) as well as sites that are in the screening and assessment phase for possible inclusion on the NPL. The Active Site Inventory Report displays site and location information at active SEMS sites. An active site is one at which site assessment, removal, remedial, enforcement, cost recovery, or oversight activities are being planned or conducted. This data includes SEMS sites from the List 8R Active file as well as applicable sites from the EPA's Facility Registry Service map tool. This data may also include applicable sites represented as polygons sourced from the EPA NPL Superfund Site Boundaries dataset, refreshed by the Shared Enterprise Geodata and Services (SEGS), and is limited to those sites where the NPL Status reflects the site is 'Not on the NPL (N)' , 'Removed from Proposed (R)', and/or 'Pre-Proposal Site (S)'. Data provided by external parties is not independently verified by EPA. This boundary data is made available to the public strictly for informational purposes. Where there is no polygon boundary data available for a given site, the site is represented as a point.

Government Publication Date: Jul 5, 2026

Inventory of Open Dumps, June 1985: ODI

The Resource Conservation and Recovery Act (RCRA) provides for publication of an inventory of open dumps. The Act defines "open dumps" as facilities which do not comply with EPA's "Criteria for Classification of Solid Waste Disposal Facilities and Practices" (40 CFR 257).

Government Publication Date: Jun 1985

SEMS List 8R Archive Sites: SEMS ARCHIVE

The U.S. Environmental Protection Agency's (EPA) Superfund Enterprise Management System (SEMS) Archived Site Inventory displays site and location information at sites archived from SEMS. An archived site is one at which EPA has determined that assessment has been completed and no further remedial action is planned under the Superfund program at this time. This data includes sites from the List 8R Archived site file. This data may also include applicable sites represented as polygons sourced from the EPA NPL Superfund Site Boundaries dataset, refreshed by the Shared Enterprise Geodata and Services (SEGS), and is limited to those sites where the NPL Status reflects the site is 'Not on the NPL (N)' , 'Removed from Proposed (R)', and/or 'Pre-Proposal Site (S)'. Data provided by external parties is not independently verified by EPA. This boundary data is made available to the public strictly for informational purposes. Where there is no polygon boundary data available for a given site, the site is represented as a point.

Government Publication Date: Jun 29, 2026

Comprehensive Environmental Response, Compensation and Liability Information System - CERCLIS: CERCLIS

Superfund is a program administered by the United States Environmental Protection Agency (EPA) to locate, investigate, and clean up the worst hazardous waste sites throughout the United States. CERCLIS is a database of potential and confirmed hazardous waste sites at which the EPA Superfund program has some involvement. It contains sites that are either proposed to be or are on the National Priorities List (NPL) as well as sites that are in the screening and assessment phase for possible inclusion on the NPL. The EPA administers the Superfund program in cooperation with individual states and tribal governments; this database is made available by the EPA.

Government Publication Date: Oct 25, 2013

EPA Report on the Status of Open Dumps on Indian Lands: IODI

Public Law 103-399, The Indian Lands Open Dump Cleanup Act of 1994, enacted October 22, 1994, identified congressional concerns that solid waste open dump sites located on American Indian or Alaska Native (AI/AN) lands threaten the health and safety of residents of those lands and contiguous areas. The purpose of the Act is to identify the location of open dumps on Indian lands, assess the relative health and environment hazards posed by those sites, and provide financial and technical assistance to Indian tribal governments to close such dumps in compliance with Federal standards and regulations or standards promulgated by Indian Tribal governments or Alaska Native entities.

Government Publication Date: Dec 31, 1998

CERCLIS - No Further Remedial Action Planned: CERCLIS NFRAP

An archived site is one at which EPA has determined that assessment has been completed and no further remedial action is planned under the Superfund program at this time. The Archive designation means that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL). This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Government Publication Date: Oct 25, 2013

CERCLIS Liens: CERCLIS LIENS

A Federal Superfund lien exists at any property where EPA has incurred Superfund costs to address contamination ("Superfund site") and has provided notice of liability to the property owner. A Federal CERCLA ("Superfund") lien can exist by operation of law at any site or property at which EPA has spent Superfund monies. This database is made available by the United States Environmental Protection Agency (EPA). This database was provided by the United States Environmental Protection Agency (EPA). Refer to SEMS LIEN as the current data source for Superfund Liens.

Government Publication Date: Jan 30, 2014

RCRA CORRACTS-Corrective Action: RCRA CORRACTS

RCRA Info is the U.S. Environmental Protection Agency's (EPA) comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. At these sites, the Corrective Action Program ensures that cleanups occur. EPA and state regulators work with facilities and communities to design remedies based on the contamination, geology, and anticipated use unique to each site.

Government Publication Date: May 17, 2026

RCRA non-CORRACTS TSD Facilities: RCRA TSD

RCRA Info is the U.S. Environmental Protection Agency's (EPA) comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. This database includes Non-Corrective Action sites that have indicated engagement in the treatment, storage, or disposal of hazardous waste which requires a RCRA hazardous waste permit.

Government Publication Date: May 17, 2026

RCRA Generator List: RCRA LQG

RCRA Info is the U.S. Environmental Protection Agency's (EPA) comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Large Quantity Generators (LQGs) generate 1,000 kilograms per month or more of hazardous waste or more than one kilogram per month of acutely hazardous waste. This list also includes RCRAInfo sites that have notified as LQGs that do not have a registered Site Manager or Certifier in RCRAInfo.

Government Publication Date: May 17, 2026

RCRA Small Quantity Generators List: RCRA SQG

RCRA Info is the U.S. Environmental Protection Agency's (EPA) comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Small Quantity Generators (SQGs) generate more than 100 kilograms, but less than 1,000 kilograms, of hazardous waste per month. This list also includes RCRAInfo sites that have notified as SQGs that do not have a registered Site Manager or Certifier in RCRAInfo.

Government Publication Date: May 17, 2026

RCRA Very Small Quantity Generators List: RCRA VSQG

RCRA Info is the U.S. Environmental Protection Agency's (EPA) comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Very Small Quantity Generators (VSQG) generate 100 kilograms or less per month of hazardous waste, or one kilogram or less per month of acutely hazardous waste. Additionally, VSQG may not accumulate more than 1,000 kilograms of hazardous waste at any time.

Government Publication Date: May 17, 2026

RCRA Non-Generators: RCRA NON GEN

RCRA Info is the U.S. Environmental Protection Agency's (EPA) comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Non-Generators do not presently generate hazardous waste.

Government Publication Date: May 17, 2026

RCRA Sites with Controls: RCRA CONTROLS

List of Resource Conservation and Recovery Act (RCRA) facilities with institutional controls in place. RCRA gives the U.S. Environmental Protection Agency (EPA) the authority to control hazardous waste from the "cradle-to-grave." This includes the generation, transportation, treatment, storage, and disposal of hazardous waste. RCRA also set forth a framework for the management of non-hazardous solid wastes. The 1986 amendments to RCRA enabled EPA to address environmental problems that could result from underground tanks storing petroleum and other hazardous substances.

Government Publication Date: May 17, 2026

Federal Engineering Controls-ECs: FED ENG

List of Engineering controls (ECs) made available by the United States Environmental Protection Agency (EPA). ECs encompass a variety of engineered and constructed physical barriers (e.g., soil capping, sub-surface venting systems, mitigation barriers, fences) to contain and/or prevent exposure to contamination on a property. The EC listing includes remedy component data from Superfund decision documents for applicable sites on the final or deleted on the National Priorities List (NPL); and sites with a Superfund Alternative Approach (SAA) Agreement in place. The only sites included that are not on the NPL; proposed for NPL; or removed from proposed NPL, are those with an SAA Agreement in place.

Government Publication Date: Jun 29, 2026

Federal Institutional Controls- ICs: FED INST

List of Institutional controls (ICs) made available by the United States Environmental Protection Agency (EPA). ICs are non-engineered instruments, such as administrative and legal controls, that help minimize the potential for human exposure to contamination and/or protect the integrity of the remedy. Although it is EPA's expectation that treatment or engineering controls will be used to address principal threat wastes and that groundwater will be returned to its beneficial use whenever practicable, ICs play an important role in site remedies because they reduce exposure to contamination by limiting land or resource use and guide human behavior at a site. The IC listing includes remedy component data from Superfund decision documents for applicable sites on the final or deleted on the National Priorities List (NPL); and sites with a Superfund Alternative Approach (SAA) Agreement in place. The only sites included that are not on the NPL; proposed for NPL; or removed from proposed NPL, are those with an SAA Agreement in place.

Government Publication Date: Jun 29, 2026

Land Use Controls Information System: LUCIS

The Land Use Controls Information System (LUCIS) database is sourced from the U.S. Department of the Navy (DON). This data contains information for former Base Realignment and Closure (BRAC) properties across the United States. DON's BRAC office was tasked with tracking certain base closures while requiring the prevention of risks to human health and the environment of those properties with LUCs in place. Regarding currently available LUC Sites data, the sites listing is limited to centroid point locations for the overall installation property boundaries. Formerly obtained LUC Sites data may reflect site details that applied previously for a BRAC property.

Government Publication Date: Jun 13, 2024

Institutional Control Boundaries at NPL sites: NPL IC

These boundaries of Institutional Control areas at sites on the U.S. Environmental Protection Agency's (EPA) National Priorities List (NPL), or as Proposed or Deleted, are sourced from the EPA NPL Superfund Site Boundaries dataset, refreshed by the Shared Enterprise Geodata and Services (SEGS). The EPA's NPL includes the most serious uncontrolled or abandoned hazardous waste sites identified for possible long-term remedial action under the Superfund program. Institutional controls are non-engineered instruments such as administrative and legal controls that help minimize the potential for human exposure to contamination and/or protect the integrity of the remedy. Data provided by external parties is not independently verified by EPA. This boundary data is made available to the public strictly for informational purposes.

Government Publication Date: Jul 6, 2026

Emergency Response Notification System: ERNS 1982 TO 1986

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories.

Government Publication Date: 1982-1986

Emergency Response Notification System: ERNS 1987 TO 1989

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories.

Government Publication Date: 1987-1989

Emergency Response Notification System: ERNS

Database of oil and hazardous substances spill reports made available by the United States Coast Guard National Response Center (NRC). The NRC fields initial reports for pollution and railroad incidents and forwards that information to appropriate federal/state agencies for response. These data contain initial incident data that has not been validated or investigated by a federal/state response agency.

Government Publication Date: Apr 12, 2026

Brownfields Properties: FED BROWNFIELDS

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. This list of Brownfields Properties is provided by the United States Environmental Protection Agency (EPA) and is sourced from the Cleanups in My Community (CIMC) web application. The brownfields data are reported by grant recipients through the EPA's Assessment, Cleanup and Redevelopment Exchange System (ACRES). Many properties meet the definition of a brownfield but are not funded by the EPA's program. Such properties may instead be supported by state or local governments, private organizations, or nonprofit entities.

Government Publication Date: Mar 31, 2026

FEMA Underground Storage Tank Listing: FEMA UST

The Federal Emergency Management Agency (FEMA) of the Department of Homeland Security maintains a list of FEMA owned underground storage tanks.

Government Publication Date: Dec 31, 2017

Facility Response Plan: FRP

This listing contains facilities that have submitted Facility Response Plans (FRPs) to the U.S. Environmental Protection Agency (EPA). Facilities that could reasonably be expected to cause "substantial harm" to the environment by discharging oil into or on navigable waters are required to prepare and submit FRPs. Harm is determined based on total oil storage capacity, secondary containment and age of tanks, oil transfer activities, history of discharges, proximity to a public drinking water intake or sensitive environments. The list includes FRP facilities sourced from the EPA FOIA office and from previously available Homeland Infrastructure Foundation-Level Data (HIFLD) file/s. Disclaimer: Per the EPA FOIA Office, the verification process for current requested FRP data is undergoing review and revision, and any similar reporting will be made public in Fiscal Year 2027. For this reason, the latest available FOIA file may be incomplete.

Government Publication Date: Jun 1, 2025

Delisted Facility Response Plans: DELISTED FRP

Facilities that once appeared in - and have since been removed from - the list of facilities that have submitted Facility Response Plans (FRP) to EPA. Facilities that could reasonably be expected to cause "substantial harm" to the environment by discharging oil into or on navigable waters are required to prepare and submit Facility Response Plans (FRPs). Harm is determined based on total oil storage capacity, secondary containment and age of tanks, oil transfer activities, history of discharges, proximity to a public drinking water intake or sensitive environments.

Government Publication Date: Jun 1, 2025

Historical Gas Stations: HIST GAS STATIONS

This historic directory of service stations is provided by the Cities Service Company. The directory includes Cities Service filling stations that were located throughout the United States in 1930.

Government Publication Date: Jul 1, 1930

Petroleum Refineries: REFN

This list of petroleum refineries is sourced from the U.S. Energy Information Administration (EIA), Refinery Capacity Report. The listing includes operating and idle petroleum refineries (including new refineries under construction) and refineries shut down during the previous year. The geographic area the report covers is the 50 States, the District of Columbia, Puerto Rico, the U.S. Virgin Islands, Guam, and other U.S. possessions. Per the EIA, the facility location data represents the approximate location based on research of publicly available information from sources such as Federal agencies, company websites, and satellite images on public websites.

Government Publication Date: Oct 31, 2024

Petroleum Product and Crude Oil Rail Terminals: BULK TERMINAL

A list of petroleum product and crude oil rail terminals from the U.S. Energy Information Administration (EIA), as well as petroleum terminals sourced from Oak Ridge National Laboratory hosted by the Homeland Infrastructure Foundation-Level Database. Data includes operable bulk petroleum product terminals with a total bulk shell storage capacity of 50,000 barrels or more, and/or the ability to receive volumes from tanker, barge, or pipeline; also rail terminals handling the loading and unloading of crude oil with activity between 2017 and 2018. EIA petroleum product terminal data comes from the EIA-815 Bulk Terminal and Blender Report, which includes working, shell in operation, and shell idle for several major product groupings.

Government Publication Date: Jun 5, 2025

LIEN on Property: SEMS LIEN

The U.S. Environmental Protection Agency's (EPA) Superfund Enterprise Management System (SEMS) provides Lien details on applicable properties, such as the Superfund lien on property activity, the lien property information, and the parties associated with the lien.

Government Publication Date: Jun 29, 2026

Superfund Decision Documents: SUPERFUND ROD

This database contains a list of decision documents for Superfund sites. Decision documents serve to provide the reasoning for the choice of (or) changes to a Superfund Site cleanup plan. The decision documents include completed Records of Decision (ROD), ROD Amendments, Explanations of Significant Differences (ESD) for active and archived sites stored in the Superfund Enterprise Management System (SEMS), along with other associated memos and files. This information is maintained and made available by the U.S. Environmental Protection Agency.

Government Publication Date: Mar 31, 2026

State

State Response Sites: RESPONSE

A list of identified confirmed release sites where the Department of Toxic Substances Control (DTSC) is involved in remediation, either in a lead or oversight capacity. These confirmed release sites are generally high-priority and high potential risk. This database serves a purpose similar to that of the federal NPL, functioning as a state-level counterpart for prioritizing cleanup efforts at hazardous substance release sites.

Government Publication Date: Apr 9, 2026

EnviroStor Database: ENVIROSTOR

The EnviroStor Data Management System is made available by the Department of Toxic Substances Control (DTSC). Includes Corrective Action sites, Tiered Permit sites, Historical Sites and Evaluation/Investigation sites. This database serves a purpose similar to that of the federal Superfund Enterprise Management System (SEMS), functioning as a state-level counterpart for tracking potential hazardous substance release sites.

Government Publication Date: Apr 9, 2026

Delisted State Response Sites: DELISTED ENVS

Sites removed from the list of State Response Sites made available by the EnviroStor Data Management System, Department of Toxic Substances Control (DTSC).

Government Publication Date: Apr 9, 2026

Solid Waste Information System (SWIS): SWF/LF

The Solid Waste Information System (SWIS) database made available by the Department of Resources Recycling and Recovery (CalRecycle) contains information on solid waste facilities, operations, and disposal sites throughout the State of California. The types of facilities found in this database include landfills, transfer stations, material recovery facilities, composting sites, transformation facilities, waste tire sites, and closed disposal sites.

Government Publication Date: May 10, 2026

Solid Waste Disposal Sites with Waste Constituents Above Hazardous Waste Levels: SWRCB SWF

This is a list of solid waste disposal sites identified by California State Water Resources Control Board with waste constituents above hazardous waste levels outside the waste management unit, sourced from the California Environmental Protection Agency (CalEPA) Cortese List data resources. Per this CalEPA site listing, Regarding Government Code section 65962.5(c)(2), because Regional Water Board review of Solid Waste Assessment Test (SWAT) reports pursuant to Water Code section 13273 has been completed, the Water Board will not add sites going forward.

Government Publication Date: Feb 27, 2026

Waste Management Unit Database: WMUD

The Waste Management Unit Database System tracks and inventories waste management units. CCR Title 27 contains criteria stating that Waste Management Units are classified according to their ability to contain wastes. Containment shall be determined by geology, hydrology, topography, climatology, and other factors relating to the ability of the Unit to protect water quality. Water Code Section 13273.1 requires that operators submit a water quality solid waste assessment test (SWAT) report to address leak status. The WMUDS was last updated by the State Water Resources control board in 2000.

Government Publication Date: Jan 1, 2000

EnviroStor Hazardous Waste Facilities: HWP

A list of hazardous waste facilities including permitted, post-closure and historical facilities found in the Department of Toxic Substances Control (DTSC) EnviroStor database.

Government Publication Date: Apr 9, 2026

Sites Listed in the Solid Waste Assessment Test (SWAT) Program Report: SWAT

In a 1993 Memorandum of Understanding, the State Water Resources Control Board (SWRCB) agreed to submit a comprehensive report on the Solid Waste Assessment Test (SWAT) Program to the California Integrated Waste Management Board (CIWMB). This report summarizes the work completed to date on the SWAT Program, and addresses both the impacts that leakage from solid waste disposal sites (SWDS) may have upon waters of the State and the actions taken to address such leakage.

Government Publication Date: Dec 31, 1995

Construction and Demolition Debris Recyclers: C&D DEBRIS RECY

This listing of Construction and Demolition Debris Recyclers is maintained by the California Integrated Waste Management Board-common C&D materials include lumber, drywall, metals, masonry (brick, concrete, etc.), carpet, plastic, pipe, rocks, dirt, paper, cardboard, or green waste related to land development.

Government Publication Date: Jun 20, 2018

Recycling Centers: RECYCLING

This list of Certified Recycling Centers that are operating under the state of California's Beverage Container Recycling Program is maintained by the California Department of Resources Recycling and Recovery.

Government Publication Date: May 10, 2026

Listing of Certified Processors: PROCESSORS

This list of Certified Processors that are operating under the state of California's Beverage Container Recycling Program is maintained by the California Department of Resources Recycling and Recovery.

Government Publication Date: May 10, 2026

Listing of Certified Dropoff, Collection, and Community Service Programs: CONTAINER RECY

This list of Certified Dropoff, Collection, and Community Service Programs (non-buyback) operating under the state of California's Beverage Container Recycling Program is maintained by the California Department of Resources Recycling and Recovery.

Government Publication Date: Jun 12, 2026

Land Disposal Sites: LDS

Land Disposal Sites in GeoTracker, the State Water Resources Control Board (SWRCB)'s data management system. The Land Disposal program regulates of waste discharge to land for treatment, storage and disposal in waste management units. Waste management units include waste piles, surface impoundments, and landfills.

Government Publication Date: May 1, 2026

Leaking Underground Fuel Tank Reports: LUST

List of Leaking Underground Storage Tanks within the Cleanup Sites data in GeoTracker database. GeoTracker is the State Water Resources Control Board's (SWRCB) data management system for managing sites that impact groundwater, especially those that require groundwater cleanup (Underground Storage Tanks, Department of Defense and Site Cleanup Program) as well as permitted facilities such as operating Underground Storage Tanks. The Leak Prevention Program that overlooks LUST sites is the SWRCB in California's Environmental Protection Agency.

Government Publication Date: May 1, 2026

Delisted Leaking Storage Tanks: DELISTED LST

List of Leaking Underground Storage Tanks (LUST) cleanup sites removed from GeoTracker, the State Water Resources Control Board (SWRCB)'s database system, as well as sites removed from the SWRCB's list of UST Case closures.

Government Publication Date: May 1, 2026

Permitted Underground Storage Tank (UST) in GeoTracker: UST

List of Permitted Underground Storage Tank (UST) sites, Single Walled UST sites, and Abandoned UST sites made available by the State Water Resources Control Board (SWRCB) in California's Environmental Protection Agency (EPA).

Government Publication Date: May 17, 2026

Proposed Closure of Underground Storage Tank Cases: UST CLOSURE

This listing includes Proposed Closure of Underground Storage Tank (UST) Cases which are being considered for closure by either the State Water Resources Control Board at a Future Board Meeting or the Executive Director that have been posted for a 60-day public comment period, and Closure of UST Cases with Closure Denials and Approved Orders. The lists are provided by the California Water Boards.

Government Publication Date: Apr 17, 2026

Historical Hazardous Substance Storage Information Database: HHSS

The Historical Hazardous Substance Storage database contains information collected in the 1980s from facilities that stored hazardous substances. The information was originally collected on paper forms, was later transferred to microfiche, and recently indexed as a searchable database. When using this database, please be aware that it is based upon self-reported information submitted by facilities which has not been independently verified. It is unlikely that every facility responded to the survey and the database should not be expected to be a complete inventory of all facilities that were operating at that time. This database is maintained by the California State Water Resources Control Board's (SWRCB) Geotracker.

Government Publication Date: Aug 27, 2015

Statewide Environmental Evaluation and Planning System: UST SWEEPS

The Statewide Environmental Evaluation and Planning System (SWEEPS) is a historical listing of active and inactive underground storage tanks made available by the California State Water Resources Control Board (SWRCB).

Government Publication Date: Oct 1, 1994

Aboveground Storage Tanks: AST

A statewide list from 2009 of aboveground storage tanks (ASTs) made available by the Cal FIRE Office of the State Fire Marshal (OSFM). This list is no longer maintained or updated by the Cal FIRE OSFM.

Government Publication Date: Aug 31, 2009

SWRCB Historical Aboveground Storage Tanks: AST SWRCB

A list of aboveground storage tanks made available by the California State Water Resources Control Board (SWRCB). Effective January 1, 2008, the Certified Unified Program Agencies (CUPAs) are vested with the responsibility and authority to implement the Aboveground Petroleum Storage Act (APSA).

Government Publication Date: Dec 1, 2007

Oil and Gas Facility Tanks: TANK OIL GAS

Locations of oil and gas tanks that fall under the jurisdiction of the Geologic Energy Management Division of the California Department of Conservation (CalGEM) (CCR 1760). CalGEM was formerly the Division of Oil, Gas, and Geothermal Resources (DOGGR).

Government Publication Date: Jun 16, 2026

Delisted Storage Tanks: DELISTED TNK

This database contains a list of storage tank sites that were removed by the State Water Resources Control Board (SWRCB) in California's Environmental Protection Agency (EPA) and the Cal FIRE Office of State Fire Marshal (OSFM).

Government Publication Date: Jul 21, 2026

California Environmental Reporting System (CERS) Tanks: CERS TANK

List of sites in the California Environmental Protection Agency (CalEPA) Regulated Site Portal which fall under the Aboveground Petroleum Storage and Underground Storage Tank regulatory programs. The CalEPA oversees the statewide implementation of the Unified Program which applies regulatory standards to protect Californians from hazardous waste and materials. This data also includes military underground storage tank sites sourced from the CalEPA's Water Boards' GeoTracker system.

Government Publication Date: May 20, 2026

Delisted California Environmental Reporting System (CERS) Tanks: DELISTED CTNK

This database contains a list of Aboveground Petroleum Storage and Underground Storage Tank sites that were removed from in the California Environmental Protection Agency (CalEPA) Regulated Site Portal.

Government Publication Date: May 20, 2026

Historical Hazardous Substance Storage Container Information - Facility Summary: HIST TANK

The State Water Resources Control Board maintained the Hazardous Substance Storage Containers listing and inventory in the 1980s. This facility summary lists historic tank sites where the following container types were present: farm motor vehicle fuel tanks; waste tanks; sumps; pits, ponds, lagoons, and others; and all other product tanks. This set, published in May 1988, lists facility and owner information, as well as the number of containers. This data is historic and will not be updated.

Government Publication Date: May 27, 1988

Site Mitigation and Brownfields Reuse Program Facility Sites with Land Use Restrictions: LUR

The Department of Toxic Substances Control (DTSC) Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents land use restrictions that are active. Some sites have multiple land use restrictions.

Government Publication Date: Apr 9, 2026

CALSITES Database: CALSITES

This historical database was maintained by the Department of Toxic Substance Control (DTSC) for more than a decade. CALSITES contains information on Brownfield properties with confirmed or potential hazardous contamination. In 2006, DTSC introduced EnviroStor as the latest Brownfields site database.

Government Publication Date: May 1, 2004

Hazardous Waste Management Program Facility Sites with Deed / Land Use Restrictions: HLUR

The Department of Toxic Substances Control (DTSC) Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

Government Publication Date: Feb 18, 2021

Deed Restrictions and Land Use Restrictions: DEED

List of Deed Restrictions, Land Use Restrictions and Covenants in GeoTracker made available by the State Water Resources Control Board (SWRCB) in California's Environmental Protection Agency. A deed restriction (land use covenant) may be required to facilitate the remediation of past environmental contamination and to protect human health and the environment by reducing the risk of exposure to residual hazardous materials.

Government Publication Date: May 1, 2026

Voluntary Cleanup Program: VCP

List of sites in the Voluntary Cleanup Program made available by the Department of Toxic Substances and Control (DTSC). The Voluntary Cleanup Program was designed to respond to lower priority sites. Under the Voluntary Cleanup Program, DTSC enters site-specific agreements with project proponents for DTSC oversight of site assessment, investigation, and/or removal or remediation activities, and the project proponents agree to pay DTSC's reasonable costs for those services.

Government Publication Date: Apr 9, 2026

GeoTracker Cleanup Program Sites: CLEANUP SITES

A list of Cleanup Program sites in the state of California made available by The State Water Resources Control Board (SWRCB) of the California Environmental Protection Agency (EPA). SWRCB tracks leaking underground storage tank cleanups as well as other water board cleanups.

Government Publication Date: May 1, 2026

Delisted Cleanup Program Sites: DELISTED CLEANUP

A list of Cleanup Program sites which were once included - and have since been removed from - the list of Cleanup Program Sites in GeoTracker. GeoTracker is the State Water Resource Control Boards' data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

Government Publication Date: May 1, 2026

Delisted County Records: DELISTED COUNTY

Records removed from county or CUPA databases. Records may be removed from the county lists made available by the respective county departments because they are inactive, or because they have been deemed to be below reportable thresholds.

Government Publication Date: Jul 27, 2026

Delisted County Tanks: DELISTED COUNTY TANK

Storage Tank records removed from county or CUPA databases. Records may be removed from the county lists made available by the respective county departments because they are inactive, or because they have been deemed to be below reportable thresholds.

Government Publication Date: Jul 24, 2026

Delisted County Leaking Tanks: DELISTED COUNTY LTANK

Leaking Storage tank records removed from county or CUPA databases.

Government Publication Date: Jul 21, 2026

Tribal

Leaking Underground Storage Tanks on Tribal/Indian Lands: INDIAN LUST

This list of leaking underground storage tanks (LUSTs) on Tribal/Indian Lands in Region 9, which includes California, is made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: May 27, 2026

Underground Storage Tanks on Tribal/Indian Lands: INDIAN UST

This list of underground storage tanks (USTs) on Tribal/Indian Lands in Region 9, which includes California, is made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: May 28, 2026

Delisted Tribal Leaking Storage Tanks: DELISTED INDIAN LST

Leaking Underground Storage Tank (LUST) facilities which once appeared on - and have since been removed from - the Regional Tribal/Indian LUST lists made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: May 28, 2026

Delisted Tribal Underground Storage Tanks: DELISTED INDIAN UST

Underground Storage Tank (UST) facilities which once appeared on - and have since been removed from - the Regional Tribal/Indian UST lists made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: May 28, 2026

County

Mendocino County - UST List: UST MENDOCINO

A list of facilities in Mendocino County with active Underground Storage Tanks (USTs). This list is made available by Mendocino County Environmental Health.

Government Publication Date: Sep 22, 2021

Mendocino County - CUPA Facilities List: CUPA MENDOCINO

A list of Certified Unified Program Agency (CUPA) facilities in Mendocino County. This list is made available by the Mendocino County Environmental Health Division.

Government Publication Date: Dec 21, 2020

Additional Environmental Record Sources

Federal

On-Scene Coordinator Response Sites: OSC RESPONSE

This list of On-Scene Coordinator (OSC) Response Sites is provided by the U.S. Environmental Protection Agency (EPA). OSCs are the federal officials responsible for monitoring or directing responses to all oil spills and hazardous substance releases reported to the federal government. OSCs coordinate all federal efforts with, and provide support and information to local, state, and regional response communities. An OSC is an agent of either EPA or the U.S. Coast Guard (USCG), depending on where the incident occurs. EPA's OSCs have primary responsibility for spills and releases to inland areas and waters. USCG OSCs have responsibility for coastal waters and the Great Lakes. In general, an OSC has the following key responsibilities during and after a response: Assessment, Monitoring, Response Assistance, and Evaluation. The site listing is made available by the EPA's secure Freedom of Information Act (FOIA) process.

Government Publication Date: Mar 24, 2026

PFAS Greenhouse Gas Emissions Data: PFAS GHG

The U.S. Environmental Protection Agency's (EPA) Greenhouse Gas Reporting Program (GHGRP) collects Greenhouse Gas (GHG) data from large emitting facilities (25,000 metric tons of carbon dioxide equivalent (CO2e) per year), and suppliers of fossil fuels and industrial gases that results in GHG emissions when used. This dataset is sourced from the EPA through its Enforcement and Compliance History Online (ECHO) PFAS Analytic Tools, and it includes GHG emissions data for facilities that emit or have emitted since 2010 chemicals identified as PFAS based on EPA's CompTox Chemicals Dashboard lists of PFAS with defined and undefined structures. PFAS emissions data has been identified for facilities engaged in the following industrial processes: Aluminum Production (GHGRP Subpart F), HCFC-22 Production and HFC-23 Destruction (Subpart O), Electronics Manufacturing (Subpart I), Fluorinated Gas Production (Subpart L), Magnesium Production (Subpart T), Electrical Transmission and Distribution Equipment Use (Subpart DD), and Manufacture of Electric Transmission and Distribution Equipment (Subpart SS). Over time, other industrial processes with required GHGRP reporting may include PFAS emissions data and the list of reportable gases may change over time. Note that some regulatory programs have specified chemical structure requirements that define PFAS differently than the lists in EPA's CompTox Chemicals Dashboard.

Government Publication Date: May 18, 2026

Facility Registry Service/Facility Index: FINDS/FRS

The Facility Registry Service (FRS) is a centrally managed database that identifies facilities, sites, or places subject to environmental regulations or of environmental interest. FRS creates high-quality, accurate, and authoritative facility identification records through rigorous verification and management procedures that incorporate information from program national systems, state master facility records, and data collected from EPA's Central Data Exchange registrations and data management personnel. This list is made available by the U.S. Environmental Protection Agency (EPA).
Government Publication Date: Mar 1, 2026

Toxics Release Inventory (TRI) Program: TRIS

The U.S. Environmental Protection Agency's Toxics Release Inventory (TRI) is a database containing data on disposal or other releases of toxic chemicals from U.S. facilities and information about how facilities manage those chemicals through recycling, energy recovery, and treatment. There are currently 770 individually listed chemicals and 33 chemical categories covered by the TRI Program. Facilities that manufacture, process or otherwise use these chemicals in amounts above established levels must submit annual reporting forms for each chemical. Note that the TRI chemical list does not include all toxic chemicals used in the U.S. One of TRI's primary purposes is to inform communities about toxic chemical releases to the environment. This database includes TRI Reporting Data for calendar years 1987 through 2024.
Government Publication Date: Nov 5, 2025

PFOA/PFOS Contaminated Sites: PFAS NPL

This list of Superfund Sites with Per- and Polyfluoroalkyl Substances (PFAS) detections is provided by the U.S. Environmental Protection Agency (EPA) through its Enforcement and Compliance History Online (ECHO) PFAS Analytic Tools. EPA's Office of Land and Emergency Management and EPA Regional Offices maintain what is known about site investigations, contamination, and remedial actions under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) where PFAS is present in the environment. Limitations: Detections of PFAS at National Priorities List (NPL) sites do not mean that people are at risk from PFAS, are exposed to PFAS, or that the site is the source of the PFAS. For Federal Facilities data, the other Federal agencies (OFA) are the lead agency for their data and provided them to EPA.
Government Publication Date: Mar 30, 2026

Federal Agency Locations with Known or Suspected PFAS Detections: PFAS FED SITES

This site list of Federal Agency Locations with known or suspected detections of Per- and Polyfluoroalkyl Substances (PFAS) is provided by the U.S. Environmental Protection Agency (EPA) through its Enforcement and Compliance History Online (ECHO) PFAS Analytic Tools. The EPA outlines that these data are gathered from several federal entities, such as the federal Superfund program, Department of Defense (DOD), National Aeronautics and Space Administration (NASA), Department of Transportation (DOT), and Department of Energy (DOE). The dates this data was extracted for the PFAS Analytic Tools range from 2021 to 2025 per agency entity dataset. Sites on this list do not necessarily reflect the source/s of PFAS contamination and detections do not indicate level of risk or human exposure at the site. Agricultural notifications in this data are limited to DOD sites only. At this time, the EPA is aware that this list is not comprehensive of all Federal agencies.
Government Publication Date: Dec 15, 2025

SSEHRI PFAS Contamination Sites: PFAS SSEHRI

This PFAS Contamination Site Tracker database is compiled by the PFAS Project Lab, part of the Social Science Environmental Health Research Institute (SSEHRI) at Northeastern University. According to the SSEHRI, the database records qualitative and quantitative data from each known site of PFAS contamination, including timeline of discovery, sources, levels, health impacts, community response, and government response. The goal of this database is to compile information and support public understanding of the rapidly unfolding issue of PFAS contamination. All data presented was extracted from government websites, news articles, or publicly available documents. Locations for the Known PFAS Contamination Sites are sourced from the PFAS Sites and Community Resources Map by the PFAS-REACH team, credited to PFAS Project Lab, Silent Spring Institute, and PFAS Exchange. Disclaimer: The source conveys the data undergoes regular updates as new information becomes available, some sites may be missing and/or contain information that is incorrect or outdated, as well as their information represents all contamination sites SSEHRI is aware of, not all possible contamination sites. This data is not intended to be used for legal purposes. Access the following source link for the most current information: https://pfasproject.com/pfas-sites-and-community-resources/
Government Publication Date: Aug 1, 2025

National Response Center PFAS Spills: PFAS ERNS

This Per- and Poly-Fluoroalkyl Substances (PFAS) Spills dataset is provided by the U.S. Environmental Protection Agency (EPA) through its Enforcement and Compliance History Online (ECHO) PFAS Analytic Tools. The National Response Center (NRC), operated by the U.S. Coast Guard, is the designated federal point of contact for reporting all oil, chemical, and other discharges into the environment, for the United States and its territories. This dataset contains NRC spill information from 1990 to the present that is restricted to records associated with PFAS and PFAS-containing materials. Incidents are filtered to include only records with a "Material Involved" or "Incident Description" related to Aqueous Film Forming Foam (AFFF). The keywords used to filter the data included "AFFF," "Fire Fighting Foam," "Aqueous Film Forming Foam," "Fire Suppressant Foam, "PFAS," "PERFL," "PFOA," "PFOS," and "Genx." Limitations: The data from the NRC website contains initial incident data that has not been validated or investigated by a federal/state response agency. Keyword searches may misidentify some incident reports that do not contain PFAS. This dataset should also not be considered to be exhaustive of all PFAS spills/release incidents.
Government Publication Date: Jul 20, 2026

PFAS NPDES Discharge Monitoring: PFAS NPDES

This list of National Pollutant Discharge Elimination System (NPDES) Discharge Monitoring Report (DMR) permitted facilities, with required monitoring for Per- and Polyfluoroalkyl Substances (PFAS), is provided by the U.S. Environmental Protection Agency (EPA) through its Enforcement and Compliance History Online (ECHO) PFAS Analytic Tools. Any point-source wastewater discharger to waters of the United States must have a NPDES permit, which defines a set of parameters for pollutants and monitoring to ensure that the discharge does not degrade water quality or impair human health. This list includes NPDES permitted facilities associated with permits that monitor for PFAS, limited to the years 2007 - present. EPA Disclaimer: Currently, fewer than half of states have required PFAS monitoring for at least one of their permittees, and fewer states have established PFAS effluent limits for permittees. New rulemakings have been initiated that may increase the number of facilities monitoring for PFAS in the future. For states that may have required monitoring, some reporting and data transfer issues may exist on a state-by-state basis.

Government Publication Date: Mar 30, 2026

Perfluorinated Alkyl Substances (PFAS) from Toxic Release Inventory: PFAS TRI

List of Toxics Release Inventory (TRI) facilities at which the reported chemical is a per- or polyfluoroalkyl (PFAS) substance included in the U.S. Environmental Protection Agency's (EPA) consolidated PFAS Master List of PFAS Substances. Encompasses Toxics Release Inventory records included in the EPA PFAS Analytic Tools. The EPA's TRI database currently tracks information on disposal or releases of 770 individually listed toxic chemicals and 33 chemical categories from thousands of U.S. facilities and details about how facilities manage those chemicals through recycling, energy recovery, and treatment. This listing includes TRI Reporting Data for calendar years 1987 through 2021 and Preliminary Data for 2022.

Government Publication Date: Sep 20, 2023

PFAS Water Quality Portal Sampling Data: PFAS WATER

This Per- and Poly-Fluoroalkyl Substances (PFAS) Environmental Media Sampling Data is made available via the U.S. Environmental Protection Agency's (EPA) PFAS Analytic Tools. The Water Quality Portal (WQP), as a cooperative service sponsored by the United States Geological Survey, the EPA, and the National Water Quality Monitoring Council, is part of a modernized repository storing ambient sampling data for all environmental media and tissue samples. A wide range of federal, state, tribal and local governments, academic and non-governmental organizations, and individuals submit project details and sampling results to this public repository. Limitations: EPA did not carry out the sampling or testing of a majority of the data in the WQP PFAS dataset. EPA can only speak to the accuracy and completeness of the data from projects like the National Aquatic Resource Surveys for which EPA is the data owner/organization. Data may exist within the file on Quality Assurance Project Plans (QAPPs) and the approving agency of the QAPP, if a QAPP is entered.

Government Publication Date: Feb 2, 2026

PFAS TSCA Manufacture and Import Facilities: PFAS TSCA

The U.S. Environmental Protection Agency (EPA) issued the Chemical Data Reporting (CDR) Rule under the Toxic Substances Control Act (TSCA) and requires chemical manufacturers and facilities that manufacture or import chemical substances to report data to EPA. This list is specific only to TSCA Manufacture and Import Facilities with reported per- and poly-fluoroalkyl (PFAS) substances. Data file is sourced from EPA's PFAS Analytic Tools TSCA dataset which includes CDR/Inventory Update Reporting data from 1998 up to 2020. Disclaimer: This data file includes production and importation data for chemicals identified in EPA's CompTox Chemicals Dashboard list of PFAS without explicit structures and list of PFAS structures in DSSTox. Note that some regulations have specific chemical structure requirements that define PFAS differently than the lists in EPA's CompTox Chemicals Dashboard. Reporting information on manufactured or imported chemical substance amounts should not be compared between facilities, as some companies claim Chemical Data Reporting Rule data fields for PFAS information as Confidential Business Information.

Government Publication Date: Jan 5, 2023

PFAS Waste Transfers from RCRA e-Manifest: PFAS E-MANIFEST

This Per- and Poly-Fluoroalkyl Substances (PFAS) Waste Transfers dataset is provided by the U.S. Environmental Protection Agency (EPA) through its Enforcement and Compliance History Online (ECHO) PFAS Analytic Tools. Every shipment of hazardous waste in the U.S. must be accompanied by a shipment manifest, which is a critical component of the cradle-to-grave tracking of wastes mandated by the Resource Conservation and Recovery Act (RCRA). According to the EPA, currently no Federal Waste Code exists for any PFAS compounds. To work around the lack of PFAS waste codes in the RCRA database, EPA developed the PFAS Transfers dataset by mining e-Manifest records containing at least one of these common PFAS keywords: • PFAS • PFOA • PFOS • PERFL • AFFF • GENX • GEN-X (plus the Vermont state-specific waste codes). Limitations: Amount or concentration of PFAS being transferred cannot be determined from the manifest information. Keyword searches may misidentify some manifest records that do not contain PFAS. This dataset should also not be considered to be exhaustive of all PFAS waste transfers.

Government Publication Date: Apr 25, 2026

PFAS Industry Sectors: PFAS IND

This Per- and Poly-Fluoroalkyl Substances (PFAS) Industry Sectors dataset is provided by the U.S. Environmental Protection Agency (EPA) through its Enforcement and Compliance History Online (ECHO) PFAS Analytic Tools. The dataset was developed from various sources that show which industries may be handling PFAS including: EPA's ECHO records restricted to potential PFAS-handling industry sectors, based on the North American Industry Classification System (NAICS) Codes and Standard Industrial Classification (SIC) Codes associated federal regulatory programs (e.g., Clean Water Act, Clean Air Act, and Resource Conservation and Recovery Act) at the facility level; ECHO records for Fire Training Sites identified where fire-fighting foam may have been used in training exercises; and 14 CFR Part 139 Airports compiled from historic and current records from the FAA Airport Data and Information Portal. Since July 2006, all certificated Part 139 Airports are required to have fire-fighting foam onsite that meet certain military specifications, which to date have been fluorinated (Aqueous Film Forming Foam). Limitations: Inclusion in this dataset does not indicate that PFAS are being manufactured, processed, used, or released by the facility. Listed facilities potentially handle PFAS based on their industrial profile but are unconfirmed by the EPA. Keyword searches in ECHO for Fire Training Sites may misidentify some facilities and should not be considered to be an exhaustive list of fire training facilities in the U.S.

Government Publication Date: May 4, 2026

Hazardous Materials Information Reporting System: HMIRS

The Hazardous Materials Incident Reporting System (HMIRS) database contains unintentional hazardous materials release information reported to the U.S. Department of Transportation, Pipeline and Hazardous Materials Safety Administration.

Government Publication Date: Jan 29, 2026

National Clandestine Drug Labs: NCDL

The U.S. Department of Justice ("the Department"), Drug Enforcement Administration (DEA), provides this data as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy.

Government Publication Date: Nov 30, 2023

Toxic Substances Control Act: TSCA

The U.S. Environmental Protection Agency (EPA) is amending the Toxic Substances Control Act (TSCA) section 8(a) Inventory Update Reporting (IUR) rule and changing its name to the Chemical Data Reporting (CDR) rule. The CDR enables EPA to collect and publish information on the manufacturing, processing, and use of commercial chemical substances and mixtures (referred to hereafter as chemical substances) on the TSCA Chemical Substance Inventory (TSCA Inventory). This includes current information on chemical substance production volumes, manufacturing sites, and how the chemical substances are used. This information helps the Agency determine whether people or the environment are potentially exposed to reported chemical substances. EPA publishes submitted CDR data that is not Confidential Business Information (CBI). EPA CDR collections occur approximately every four years and reporting requirements change per collection.

Government Publication Date: May 12, 2022

Hist TSCA: HIST TSCA

The Environmental Protection Agency (EPA) is amending the Toxic Substances Control Act (TSCA) section 8(a) Inventory Update Reporting (IUR) rule and changing its name to the Chemical Data Reporting (CDR) rule.
The 2006 IUR data summary report includes information about chemicals manufactured or imported in quantities of 25,000 pounds or more at a single site during calendar year 2005. In addition to the basic manufacturing information collected in previous reporting cycles, the 2006 cycle is the first time EPA collected information to characterize exposure during manufacturing, processing and use of organic chemicals. The 2006 cycle also is the first time manufacturers of inorganic chemicals were required to report basic manufacturing information.

Government Publication Date: Dec 31, 2006

FTTS Administrative Case Listing: FTTS ADMIN

An administrative case listing from the Federal Insecticide, Fungicide, & Rodenticide Act (FIFRA) and Toxic Substances Control Act (TSCA), together known as FTTS. This database was obtained from the Environmental Protection Agency's (EPA) National Compliance Database (NCDB). The FTTS and NCDB was shut down in 2006.

Government Publication Date: Jan 19, 2007

FTTS Inspection Case Listing: FTTS INSP

An inspection case listing from the Federal Insecticide, Fungicide, & Rodenticide Act (FIFRA) and Toxic Substances Control Act (TSCA), together known as FTTS. This database was obtained from the Environmental Protection Agency's (EPA) National Compliance Database (NCDB). The FTTS and NCDB was shut down in 2006.

Government Publication Date: Jan 19, 2007

Potentially Responsible Parties List: PRP

Early in the site cleanup process, the U.S. Environmental Protection Agency (EPA) conducts a search to find the Potentially Responsible Parties (PRPs). The EPA looks for evidence to determine liability by matching wastes found at the site with parties that may have contributed wastes to the site. This listing contains PRPs, Noticed Parties, at sites in the EPA's Superfund Enterprise Management System (SEMS).

Government Publication Date: Mar 26, 2026

State Coalition for Remediation of Drycleaners Listing: SCRD DRYCLEANER

The State Coalition for Remediation of Drycleaners (SCRD) was established in 1998, with support from the U.S. Environmental Protection Agency (EPA) Office of Superfund Remediation and Technology Innovation. Coalition members are states with mandated programs and funding for drycleaner site remediation. Current members are Alabama, Connecticut, Florida, Illinois, Kansas, Minnesota, Missouri, North Carolina, Oregon, South Carolina, Tennessee, Texas, and Wisconsin. Since 2017, the SCRD no longer maintains this data, refer to applicable state source data where available.

Government Publication Date: Nov 08, 2017

Integrated Compliance Information System (ICIS): ICIS

The Integrated Compliance Information System (ICIS) database contains integrated enforcement and compliance information across most of U.S. Environmental Protection Agency's (EPA) programs. The vision for ICIS is to replace EPA's independent databases that contain enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions and a subset of the Permit Compliance System (PCS), which supports the National Pollutant Discharge Elimination System (NPDES). This information is maintained by the EPA Headquarters and at the Regional offices. A future release of ICIS will completely replace PCS and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities that support compliance and enforcement programs, including incident tracking, compliance assistance, and compliance monitoring.

Government Publication Date: May 2, 2026

Drycleaner Facilities: FED DRYCLEANERS

A list of drycleaner facilities from Enforcement and Compliance History Online (ECHO) data as made available by the U.S. Environmental Protection Agency (EPA), sourced from the ECHO Exporter file. This EPA source file tracks facilities that possess NAICS and SIC codes that classify businesses as drycleaner establishments.

Government Publication Date: Apr 19, 2026

Delisted Drycleaner Facilities: DELISTED FED DRY

List of sites which once appeared on - and have since been removed from - the list of drycleaner facilities included in Enforcement and Compliance History Online (ECHO) data as made available by the U.S. Environmental Protection Agency (EPA), sourced from the ECHO Exporter file. This EPA source file tracks facilities that possess NAICS and SIC codes that classify businesses as drycleaner establishments.

Government Publication Date: Apr 19, 2026

Formerly Used Defense Sites: FUDS

Formerly Used Defense Sites (FUDS) are properties formerly owned by, leased to, or otherwise possessed by and under the jurisdiction of the Secretary of Defense prior to October 1986, where the Department of Defense (DOD) is responsible for environmental restoration. The FUDS Annual Report to Congress (ARC) is published by the U.S. Army Corps of Engineers (USACE). This data is sourced from the USACE's Geospatial FUDS Property Point, FUDS Project Point, and FUDS Property Polygon layers which apply to the Fiscal Year 2024 Inventory. DISCLAIMER: Polygon data are based on preliminary findings, and not all properties currently have polygon data available. This data represents the results of data collection/processing for a specific USACE activity and is in no way considered comprehensive or to be used in any legal or official capacity as presented on this site. The USACE makes no warranty, representation or guaranty, either expressed or implied, as to the content, sequence, accuracy, timeliness or completeness of any of the data provided herein.

Government Publication Date: Apr 15, 2026

FUDS Munitions Response Sites: FUDS MRS

This Munitions Response Sites (MRS) dataset is published with the Formerly Used Defense Sites (FUDS) Annual Report to Congress (ARC) for Fiscal Year 2024 by the U.S. Army Corps of Engineers (USACE). An MRS is a discrete location within a Munitions response area (MRA) that is known to require a munitions response. An MRA means any area on a defense site that is known or suspected to contain unexploded ordnance (UXO), discarded military munitions (DMM), or munitions constituents (MC). This data is compiled from the USACE's Geospatial FUDS MRS data layer. The USACE makes no warranty, representation or guaranty, either expressed or implied, as to the content, sequence, accuracy, timeliness or completeness of any of the data provided herein.

Government Publication Date: Apr 15, 2026

Former Military Nike Missile Sites: FORMER NIKE

This information was taken from report DRXTH-AS-IA-83A016 (Historical Overview of the Nike Missile System, 12/1984) which was performed by Environmental Science and Engineering, Inc. for the U.S. Army Toxic and Hazardous Materials Agency Assessment Division. The Nike system was deployed between 1954 and the mid-1970's. Among the substances used or stored on Nike sites were liquid missile fuel (JP-4); starter fluids (UDKH, aniline, and furfuryl alcohol); oxidizer (IRFNA); hydrocarbons (motor oil, hydraulic fluid, diesel fuel, gasoline, heating oil); solvents (carbon tetrachloride, trichloroethylene, trichloroethane, stoddard solvent); and battery electrolyte. The quantities of material a disposed of and procedures for disposal are not documented in published reports. Virtually all information concerning the potential for contamination at Nike sites is confined to personnel who were assigned to Nike sites. During deactivation most hardware was shipped to depot-level supply points. There were reportedly instances where excess materials were disposed of on or near the site itself at closure. There was reportedly no routine site decontamination.

Government Publication Date: Dec 2, 1984

PHMSA Pipeline Safety Flagged Incidents: PIPELINE INCIDENT

This list of flagged pipeline incidents is made available by the U.S. Department of Transportation (US DOT) Pipeline and Hazardous Materials Safety Administration (PHMSA). PHMSA regulations require incident and accident reports for five different pipeline system types. Accidents reported on hazardous liquid gravity lines (§195.13) and reporting-regulated-only hazardous liquid gathering lines (§195.15) and incidents reported on Type R gas gathering (§192.8(c)) are not included in the flagged incident file data.

Government Publication Date: Jan 7, 2026

Material Licensing Tracking System (MLTS): MLTS

A list of sites that store radioactive material subject to the Nuclear Regulatory Commission (NRC) licensing requirements. This list is maintained by the NRC. As of September 2016, the NRC no longer releases location information for sites. Site locations were last received in July 2016.

Government Publication Date: May 11, 2021

Historic Material Licensing Tracking System (MLTS) sites: HIST MLTS

A historic list of sites that have inactive licenses and/or removed from the Material Licensing Tracking System (MLTS). In some cases, a site is removed from the MLTS when the state becomes an "Agreement State". An Agreement State is a State that has signed an agreement with the Nuclear Regulatory Commission (NRC) authorizing the State to regulate certain uses of radioactive materials within the State.

Government Publication Date: Jan 31, 2010

Mines Master Index File: MINES

The Master Index File (MIF) is provided by the United States Department of Labor, Mine Safety and Health Administration (MSHA). This file, which was originally created in the 1970's, contained many Mine-IDs that were invalid. MSHA removes invalid IDs from the MIF upon discovery. MSHA applicable data includes the following: all Coal and Metal/Non-Metal mines under MSHA's jurisdiction since 1/1/1970; mine addresses for all mines in the database except for Abandoned mines prior to 1998 from MSHA's legacy system (addresses may or may not correspond with the physical location of the mine itself); violations that have been assessed penalties as a result of MSHA inspections beginning on 1/1/2000; and violations issued as a result of MSHA inspections conducted beginning on 1/1/2000.

Government Publication Date: May 8, 2026

Surface Mining Control and Reclamation Act Sites: SMCRA

This inventory of land and water impacted by past mining (primarily legacy coal mining operations) is maintained by the U.S. Department of the Interior's Office of Surface Mining Reclamation and Enforcement (OSMRE), as it provides information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). This inventory contains information on the type and extent of Abandoned Mine Land (AML) Problems, as well as information on the cost associated with the reclamation of those problems. The data is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed. Disclaimer: Per the OSMRE, States and tribes who enter their data into e-AMLIS (AML Inventory System) may truncate their latitude and longitude so the precise location of usually dangerous AMLs is not revealed in an effort to protect the public from searching for these AMLs, most of which are on private property. If more precise location information is needed, please contact the applicable state/tribe of interest.

Government Publication Date: May 7, 2026

Mineral Resource Data System: MRDS

The Mineral Resource Data System (MRDS) is a collection of reports describing metallic and nonmetallic mineral resources throughout the world. Included are deposit name, location, commodity, deposit description, geologic characteristics, production, reserves, resources, and references. This database contains the records previously provided in the Mineral Resource Data System (MRDS) of USGS and the Mineral Availability System/Mineral Industry Locator System (MAS/MILS) originated in the U.S. Bureau of Mines, which is now part of USGS. The USGS has ceased systematic updates of the MRDS database with their focus more recently on deposits of critical minerals while providing a well-documented baseline of historical mine locations from USGS topographic maps.

Government Publication Date: Mar 15, 2016

DOE Legacy Management Sites: LM SITES

The U.S. Department of Energy (DOE) Office of Legacy Management (LM) currently manages radioactive and chemical waste, environmental contamination, and hazardous material at over 100 sites across the U.S. The LM manages sites with diverse regulatory drivers (statutes or programs that direct cleanup and management requirements at DOE sites) or as part of internal DOE or congressionally-recognized programs, such as but not limited to: Formerly Utilized Sites Remedial Action Program (FUSRAP), Uranium Mill Tailings Radiation Control Act (UMTRCA Title I, Tile II), Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), Resource Conservation and Recovery Act (RCRA), Decontamination and Decommissioning (D&D), Nuclear Waste Policy Act (NWPA). The intent of the site location is to provide a general reference point to the site on a national scale. The coordinates of each site point can be the location of a site monument, the centroid of the site boundary, or a general location of the site. This site listing includes data exported from the DOE Office of LM's Geospatial Environmental Mapping System (GEMS). GEMS Data disclaimer: The DOE Office of LM makes no representation or warranty, expressed or implied, regarding the use, accuracy, availability, or completeness of the data presented herein.

Government Publication Date: Jan 9, 2026

Alternative Fueling Stations: ALT FUELS

This list of alternative fueling stations is sourced from the U.S. Department of Energy's (DOE) Alternative Fuels Data Center (AFDC) and National Renewable Energy Laboratory (NREL). The DOE's Office of Energy Efficiency & Renewable Energy launched the AFDC in 1991 as a repository for alternative fuel vehicle performance data, which provides a wealth of information and data on alternative and renewable fuels, advanced vehicles, fuel-saving strategies, and emerging transportation technologies. The data includes Biodiesel (B20 and above), Compressed Natural Gas (CNG), Electric, Ethanol (E85), Hydrogen, Liquefied Natural Gas (LNG), Propane (LPG), and Renewable Diesel (R20 and above) fuel type locations.

Government Publication Date: Jun 4, 2026

Superfunds Consent Decrees: CONSENT DECREES

This list of Superfund consent decrees is provided by the Department of Justice, Environment & Natural Resources Division (ENRD) through a Freedom of Information Act (FOIA) applicable file. This listing includes Cases filed since 2010 limited to the following: Consent Decrees for CERCLA or Superfund Sites filed and/or as proposed within the ENRD's Case Management System (CMS); and applicable ENRD's Environmental Defense Section (EDS) CERCLA Cases with "Consent" in History Note. CMS may not reflect the latest developments in a case, nor can the agency guarantee the accuracy of the data. ENRD Disclaimer: Congress excluded three discrete categories of law enforcement and national security records from the requirements of the FOIA; response is limited to those records that are subject to the requirements of the FOIA; however, this should not be taken as an indication that excluded records do, or do not, exist.

Government Publication Date: Dec 30, 2025

Air Facility System: AFS

This EPA retired Air Facility System (AFS) dataset contains emissions, compliance, and enforcement data on stationary sources of air pollution. Regulated sources cover a wide spectrum; from large industrial facilities to relatively small operations such as dry cleaners. AFS does not contain data on facilities that are solely asbestos demolition and/or renovation contractors, or landfills. ECHO Clean Air Act data from AFS are frozen and reflect data as of October 17, 2014; the EPA retired this system for Clean Air Act stationary sources and transitioned to ICIS-Air.

Government Publication Date: Oct 17, 2014

Registered Pesticide Establishments: SSTS

This national list of active EPA-registered foreign and domestic pesticide and/or device-producing establishments is based on data from the Section Seven Tracking System (SSTS). The Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) Section 7 requires that each producing establishment must place its EPA establishment number on the label or immediate container of each pesticide, active ingredient or device produced. An EPA establishment number on a pesticide product label identifies the EPA registered location where the product was produced. The list of establishments is made available by the U.S. Environmental Protection Agency (EPA).

Government Publication Date: Sep 26, 2025

Polychlorinated Biphenyl (PCB) Transformers: PCBT

Locations of Transformers Containing Polychlorinated Biphenyls (PCBs) registered with the United States Environmental Protection Agency. PCB transformer owners must register their transformer(s) with EPA. Although not required, PCB transformer owners who have removed and properly disposed of a registered PCB transformer may notify EPA to have their PCB transformer de-registered. Data made available by EPA.

Government Publication Date: Oct 15, 2019

Polychlorinated Biphenyl (PCB) Notifiers: PCB

Facilities included in the national list of facilities that have notified the United States Environmental Protection Agency (EPA) of Polychlorinated Biphenyl (PCB) activities. Any company or person storing, transporting or disposing of PCBs or conducting PCB research and development must notify the EPA and receive an identification number.

Government Publication Date: Aug 12, 2025

Power Plants: POWER PLANTS

This list of power plants is provided by the U.S. Energy Information Administration (EIA). The listing includes operable electric generating plants in the United States by energy source, originating from the EIA-860, Annual Electric Generator Report; EIA-860M, Monthly Update to the Annual Electric Generator Report; and EIA-923, Power Plant Operations Report. It includes all operable plants by energy source with a combined nameplate capacity of 1 megawatt or more that are operating, are on standby, or out of service for short- or long-term.

Government Publication Date: Jun 5, 2025

Historical Business Activity Risk: HIST RISK

Proprietary list of sites identified as potentially having engaged in business activity that poses a higher-than-normal risk of contamination. Records originate from historical city directories, and are included in this list based on broad business categories Potentially Hazardous Chemical Users and Fuel and Automotive, including but not limited to Dry Cleaners and Fuel Stations, Garages, etc. Inclusion in this listing does not indicate that there is or ever has been contamination; rather, sites are included in this list due to their potential for having engaged in a business activity presenting an elevated risk of contamination. The list was compiled from various city directories including Polks, Millers, Mullin Kille, Interstate Directory, and State Directory Co; spanning roughly 1920s through 1960 depending on information available by city.

Government Publication Date: Jan 1, 1960

NPDES Biosolids Program Permit Holders: NPDES BIOSOLIDS

This Water National Pollutant Discharge Elimination System (NPDES) Biosolids Permits list is sourced from the U.S. Environmental Protection Agency's (EPA) Enforcement and Compliance History Online data. EPA's Integrated Compliance Information System (ICIS) for NPDES includes facility and compliance information for NPDES permits in the ECHO Biosolids facility universe. Per the EPA, when sewage from households and businesses (and sometimes wastewater from industrial dischargers) is sent to a wastewater treatment plant, the liquids are separated from the solids, producing a semi-solid, nutrient-rich product known as "sewage sludge" or "biosolids". The EPA typically uses the term "biosolids" to mean sewage sludge that has been treated to meet the agency's regulatory requirements and is intended to be land applied as a soil conditioner or fertilizer.

Government Publication Date: May 2, 2026

State

PFAS Sampling Locations: PFAS SAMPLING

This data is sourced from the State Water Board's GeoTracker Per- and Polyfluoroalkyl Substances (PFAS) Map tool which contains individual sampling points (i.e., soil boring, groundwater monitoring well, drinking water well for municipal drinking water systems, etc.) or a site location with PFAS analytical data. Includes analytical results that are finalized and submitted electronically by the Responsible Parties via GeoTracker's Electronic Submittal of Information Portal, and after it's accepted by a Regional Water Quality Control Board.

Government Publication Date: Mar 4, 2026

Dry Cleaning Facilities: DRYCLEANERS

A list of drycleaner related facilities that have EPA ID numbers. These are facilities with certain SIC codes: power laundries, family and commercial, linen supply, commercial laundry, dry cleaning and pressing machines - Coin Operated Laundry and Dry Cleaning. This is provided by the Department of Toxic Substance Control.

Government Publication Date: Dec 20, 2021

Delisted Drycleaners: DELISTED DRYCLEANERS

Sites removed from the list of drycleaner related facilities that have EPA ID numbers, made available by the California Department of Toxic Substance Control.

Government Publication Date: Aug 3, 2023

Non-Toxic Dry Cleaning Incentive Program: DRYC GRANT

This list of past Non-Toxic Dry Cleaning Incentive Program grant award recipients is provided by the California Air Resources Board (CARB). The program provided grants to eligible dry cleaning businesses to assist them in transitioning away from perchloroethylene (Perc) machines to alternative non-toxic and non-smog forming technologies such as water-based and CO2 cleaning systems. Per the CARB, this program ended in January 2023 and the information is historical.

Government Publication Date: Aug 3, 2023

PFAS GeoTracker Cleanup Sites: PFAS GT CLEANUPS

A list of applicable cleanup sites from the State Water Resources Control Board's (SWRCB) GeoTracker data management system where one or more of the potential contaminants of concern are identified in the PFAS Structure List and/or PFAS Chemicals Without Explicit Structure List made available by the United States Environmental Protection Agency (US EPA).

Government Publication Date: May 1, 2026

PFOA/PFOS Groundwater: PFAS GW

A list of water wells from the Groundwater Ambient Monitoring and Assessment Program (GAMA) Groundwater Information System with the groundwater chemical perfluorooctanoic acid (PFOA) (NL = 0.014 UG/L) or perfluorooctanoic sulfonate (PFOS) (NL = 0.013 UG/L). The GAMA Groundwater Information System search is made available by California Water Boards.

Government Publication Date: May 10, 2026

PFAS Investigations: PFAS INVEST

This list of potential Per- and Polyfluoroalkyl Substance (PFAS) sites is compiled from the California State Water Resources Control Board's (SWRCB) PFAS Investigations Map tool. The SWRCB issued investigative orders, per California Water Code (CWC) Section 13267 and/or 13383, to these sites. Orders were also issued to the public water systems to sample wells in the vicinity of these locations. Military facilities have been identified by the Department of Defense (DOD) as part of their efforts to investigate PFAS per the Defense Environmental Restoration Program (DERP) under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). The data includes locations for Airports, Chrome Plating Facilities, Landfills, Publicly Owned Treatment Works, Refineries and Bulk Terminals, DOD Facilities, and Monitored Drinking Water Wells being investigated for potential PFAS.

Government Publication Date: Jan 23, 2024

Hazardous Waste and Substances Site List - Cortese: HWSS CORTESE

The Hazardous Waste and Substances Sites (Cortese) List is a planning document used by the state, local agencies, and developers to comply with the California Environmental Quality Act (CEQA) requirements. It provides information about the location of hazardous materials release sites and is published by the California Department of Toxic Substances Control (DTSC).

Government Publication Date: Apr 29, 2026

Toxic Pit Cleanup Act Sites: TOXIC PITS

The Toxic Pits Cleanup Act (TPCA) list identifies sites suspected of containing hazardous substances where cleanup has not yet been completed. This list was maintained by the State Water Resources Control Board (SWRCB), is not longer maintained, and updates are not planned.

Government Publication Date: Jul 1, 1995

List of Hazardous Waste Facilities Subject to Corrective Action: DTSC HWF

This is a list of hazardous waste facilities subject to corrective action pursuant to Section 25187.5 of the Health and Safety Code (HSC), identified by California Department of Toxic Substance Control (DTSC), sourced from the California Environmental Protection Agency (CalEPA) Cortese List data resources. Per this CalEPA site listing, Section 65962.5(a)(1) of the HSC requires the DTSC to compile and update as appropriate, but at least annually, and shall submit to the Secretary for Environmental Protection, a list of these facilities under Section 25187.5. The hazardous waste facilities identified in HSC § 25187.5 are those where DTSC has taken or contracted for corrective action because a facility owner/operator has failed to comply with a date for taking corrective action in an order issued under HSC § 25187, or because DTSC determined that immediate corrective action was necessary to abate an imminent or substantial endangerment. This is a very small and specific subgroup of facilities and they are not separately posted on the DTSC or CalEPA's website.

Government Publication Date: Nov 19, 2025

EnviroStor Inspection, Compliance, and Enforcement: INSP COMP ENF

A list of permitted facilities with inspections and enforcements tracked by the California Department of Toxic Substance Control's (DTSC) EnviroStor data management system.

Government Publication Date: Jun 4, 2026

School Property Evaluation Program Sites: SCH

A list of sites registered with The Department of Toxic Substances Control (DTSC) School Property Evaluation and Cleanup (SPEC) Division. SPEC is responsible for assessing, investigating and cleaning up proposed school sites. The Division ensures that selected properties are free of contamination or, if the properties were previously contaminated, that they have been cleaned up to a level that protects the students and staff who will occupy the new school.

Government Publication Date: Apr 9, 2026

California Hazardous Material Incident Report System (CHMIRS): CHMIRS

A list of reported hazardous material incidents, spills, and releases from the California Hazardous Material Incident Report System (CHMIRS). This listing has been made available by the California Governor's Office of Emergency Services (Cal OES).

Government Publication Date: Jul 11, 2025

Historical California Hazardous Material Incident Report System (CHMIRS): HIST CHMIRS

A list of reported hazardous material incidents, spills, and releases from the California Hazardous Material Incident Report System (CHMIRS) prior to 1993. This list has been made available by the California Office of Emergency Services (OES).

Government Publication Date: Jan 1, 1993

Handlers from Hazardous Waste Manifest Data: HAZNET

A list of handlers not otherwise classified as Treatment, Storage, Disposal facilities (TSDF) or generators from the facilities and manifests data made available by the California Department of Toxic Substances Control (DTSC) in their Hazardous Waste Tracking System (HWTS).

Government Publication Date: Jun 1, 2026

Generators from Hazardous Waste Manifest Data: HAZ GEN

List of handlers listed as having generated waste from the facilities and manifests data made available by the California Department of Toxic Substances Control (DTSC) in their Hazardous Waste Tracking System (HWTS).

Government Publication Date: Jun 1, 2026

TSDF from Hazardous Waste Manifest Data: HAZ TSD

List of Treatment, Storage, and Disposal Facilities (TSDFs) from the facilities and manifests data made available by the California Department of Toxic Substances Control (DTSC) in their Hazardous Waste Tracking System (HWTS).

Government Publication Date: Jun 1, 2026

Historical Hazardous Waste Manifest Data: HIST MANIFEST

A list of historic hazardous waste manifests received by the Department of Toxic Substances Control (DTSC) from year the 1980 to 1992. The volume of manifests is typically 900,000 - 1,000,000 annually, representing approximately 450,000 - 500,000 shipments.

Government Publication Date: Dec 31, 1992

DTSC Registered Hazardous Waste Transporters: HW TRANSPORT

The California Department of Toxic Substances Control (DTSC) maintains this list of Registered Hazardous Waste Transporters.

Government Publication Date: May 20, 2026

Registered Waste Tire Haulers: WASTE TIRE

This list of registered waste tire haulers is maintained by the California Department of Resources Recycling and Recovery.

Government Publication Date: Jun 28, 2026

California Medical Waste Management Program Facility List: MEDICAL WASTE

This list of Medical Waste Management Program Facilities is maintained by the California Department of Public Health. The Medical Waste Management Program (MWMP) regulates the generation, handling, storage, treatment, and disposal of medical waste by providing oversight for the implementation of the Medical Waste Management Act (MWMA). The MWMP permits and inspects all medical waste off-site treatment facilities, medical waste transporters, and medical waste transfer stations. This list contains transporters, treatment, and transfer facilities.

Government Publication Date: Apr 3, 2026

Historical Cortese List: HIST CORTESE

List of sites which were once included on the Cortese list. The Hazardous Waste and Substances Sites (Cortese) List is a planning document used by the State, local agencies and developers to comply with the California Environmental Quality Act requirements for providing information about the location of hazardous sites.

Government Publication Date: Nov 13, 2008

Cease and Desist Orders and Cleanup and Abatement Orders: CDO/CAO

This list of Site Cleanup Program (SCP) sites on the Cortese List from the Water Boards is sourced from California Environmental Protection Agency (CalEPA) data resources. Under California Government Code § 65962.5(c)(3), the California State Water Resources Control Board (SWRCB) must compile and update a list of Cease and Desist Orders (CDOs) and Cleanup and Abatement Orders (CAOs) concerning discharges of wastes that are hazardous materials. Because the SWRCB does not always distinguish among order types, the list may also include discharges that do not contain hazardous materials, such as domestic sewage, food-processing waste, or sediment. In 2026, CalEPA's Department of Toxic Substances Control (DTSC) replaced the former CDO and CAO site listings with this named SCP list.

Government Publication Date: Mar 5, 2026

California Environmental Reporting System (CERS) Hazardous Waste Sites: CERS HAZ

List of sites in the California Environmental Protection Agency (CalEPA) Regulated Site Portal which fall under the following regulatory programs: Hazardous Chemical Management, Hazardous Waste Onsite Treatment, Household Hazardous Waste Collection, Hazardous Waste Generator, RCRA LQ HW Generator. The CalEPA oversees the statewide implementation of the Unified Program which applies regulatory standards to protect Californians from hazardous waste and materials.

Government Publication Date: May 20, 2026

Delisted Environmental Reporting System (CERS) Hazardous Waste Sites: DELISTED HAZ

This database contains a list of sites that were removed from the California Environmental Protection Agency (CalEPA) in the following regulatory programs: Hazardous Chemical Management, Hazardous Waste Onsite Treatment, Household Hazardous Waste Collection, Hazardous Waste Generator, RCRA LQ HW Generator.

Government Publication Date: Nov 29, 2018

Sites in GeoTracker: GEOTRACKER

GeoTracker is the State Water Resource Control Boards' data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater. This is a list of sites in GeoTracker that aren't otherwise categorized as LUST, Land Disposal Sites (LDS), Cleanup Sites, or sites having Waste Discharge Requirements (WDR). This listing includes program types such as Underground Injection Control (UIC), Confined Animal Facilities (CAF), Irrigated Lands Regulatory Program, plans, and non-case information.

Government Publication Date: May 1, 2026

Mines Listing: MINE

This list includes mine site locations extracted from the Mines Online database, maintained by the California Department of Conservation. Mines Online (MOL) is an interactive web map designed with GIS features that provide information such as the mine name, mine status, commodity sold, location, and other mine specific data. Please note: Mine location information is provided to assist experts in determining the location of mine operators in accordance with California Civil Code section 1103.4 and reflects information reported by mine operators in annual reports provided under Public Resources Code section 2207. While the Division of Mine Reclamation (DMR) attempts to populate MOL with accurate location information, the DMR cannot guarantee the accuracy of operator reported location information.

Government Publication Date: May 15, 2026

Recorded Environmental Cleanup Liens: LIEN

The California Department of Toxic Substance Control (DTSC) maintains this list of liens placed upon real properties. A lien is utilized by the DTSC to obtain reimbursement from responsible parties for costs associated with the remediation of contaminated properties.

Government Publication Date: Feb 5, 2026

Waste Discharge Requirements: WASTE DISCHG

List of sites in California State Water Resources Control Board (SWRCB) Waste Discharge Requirements (WDRs) Program in California, made available by the SWRCB via GeoTracker. The WDR program regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

Government Publication Date: May 1, 2026

Toxic Pollutant Emissions Facilities: EMISSIONS

A list of criteria and toxic pollutant emissions data for facilities in California made available by the California Environmental Protection Agency - Air Resources Board (ARB). Risk data may be based on previous inventory submittals. The toxics data are submitted to the ARB by the local air districts as requirement of the Air Toxics "Hot Spots" Program.

Government Publication Date: May 15, 2026

Clandestine Drug Lab Sites: CDL

The Department of Toxic Substances Control (DTSC) maintains a listing of drug lab sites. DTSC is responsible for removal and disposal of hazardous substances discovered by law enforcement officials while investigating illegal/clandestine drug laboratories.

Government Publication Date: Dec 13, 2024

Tribal

No Tribal additional environmental record sources available for this State.

County

Definitions

Database Descriptions: This section provides a detailed explanation for each database including: source, information available, time coverage, and acronyms used. They are listed in alphabetic order.

Detail Report: This is the section of the report which provides the most detail for each individual record. Records are summarized by location, starting with the project property followed by records in closest proximity.

Distance: The distance value is the distance between plotted points, not necessarily the distance between the sites' boundaries. All values are an approximation.

Direction: The direction value is the compass direction of the site in respect to the project property and/or center point of the report.

Elevation: The elevation value is taken from the location at which the records for the site address have been plotted. All values are an approximation. Source: Google Elevation API.

Executive Summary: This portion of the report is divided into 3 sections:

'Report Summary'- Displays a chart indicating how many records fall on the project property and, within the report search radii.

'Site Report Summary'-Project Property'- This section lists all the records which fall on the project property. For more details, see the 'Detail Report' section.

'Site Report Summary-Surrounding Properties'- This section summarizes all records on adjacent properties, listing them in order of proximity from the project property. For more details, see the 'Detail Report' section.

Map Key: The map key number is assigned according to closest proximity from the project property. Map Key numbers always start at #1. The project property will always have a map key of '1' if records are available. If there is a number in brackets beside the main number, this will indicate the number of records on that specific property. If there is no number in brackets, there is only one record for that property.

The symbol and colour used indicates 'elevation': the red inverted triangle will dictate 'ERIS Sites with Lower Elevation', the yellow triangle will dictate 'ERIS Sites with Higher Elevation' and the orange square will dictate 'ERIS Sites with Same Elevation.'

Unplottables: These are records that could not be mapped due to various reasons, including limited geographic information. These records may or may not be in your study area, and are included as reference.

Detail Report....24
Radon Information....235
Appendix....236
Liability Notice....238

The ERIS ***Physical Setting Report - PSR*** provides comprehensive information about the physical setting around a site and includes a complete overview of topography and surface topology, in addition to hydrologic, geologic and soil characteristics. The location and detailed attributes of oil and gas wells, water wells, public water systems and radon are also included for review.

The compilation of both physical characteristics of a site and additional attribute data is useful in assessing the impact of migration of contaminants and subsequent impact on soils and groundwater.

Disclaimer

This Report does not provide a full environmental evaluation for the site or adjacent properties. Please see the terms and disclaimer at the end of the Report for greater detail.

Zone subtype:	AREA OF MINIMAL FLOOD HAZARD

Hydrologic Information

FEMA Flood Zone Definitions

Special Flood Hazard Areas – High Risk

Special Flood Hazard Areas represent the area subject to inundation by 1-percent-annual chance flood. Structures located within the SFHA have a 26-percent chance of flooding during the life of a standard 30-year mortgage. Federal floodplain management regulations and mandatory flood insurance purchase requirements apply in these zones.

ZONE	DESCRIPTION
A	Areas subject to inundation by the 1-percent-annual-chance flood event. Because detailed hydraulic analyses have not been performed, no Base Flood Elevations (BFEs) or flood depths are shown.
AE, A1-A30	Areas subject to inundation by the 1-percent-annual-chance flood event determined by detailed methods. BFEs are shown within these zones. (Zone AE is used on new and revised maps in place of Zones A1–A30.)
AH	Areas subject to inundation by 1-percent-annual-chance shallow flooding (usually areas of ponding) where average depths are 1–3 feet. BFEs derived from detailed hydraulic analyses are shown in this zone.
AO	Areas subject to inundation by 1-percent-annual-chance shallow flooding (usually sheet flow on sloping terrain) where average depths are 1–3 feet. Average flood depths derived from detailed hydraulic analyses are shown within this zone.
AR	Areas that result from the decertification of a previously accredited flood protection system that is determined to be in the process of being restored to provide base flood protection.
A99	Areas subject to inundation by the 1-percent-annual-chance flood event, but which will ultimately be protected upon completion of an under-construction Federal flood protection system. These are areas of special flood hazard where enough progress has been made on the construction of a protection system, such as dikes, dams, and levees, to consider it complete for insurance rating purposes. Zone A99 may be used only when the flood protection system has reached specified statutory progress toward completion. No BFEs or flood depths are shown.

Coastal High Hazard Areas – High Risk

Coastal High Hazard Areas (CHHA) represent the area subject to inundation by 1-percent-annual chance flood, extending from offshore to the inland limit of a primary front al dune along an open coast and any other area subject to high velocity wave action from storms or seismic sources. Structures located within the CHHA have a 26-percent chance of flooding during the life of a standard 30-year mortgage. Federal floodplain management regulations and mandatory purchase requirements apply in these zones.

ZONE	DESCRIPTION
V	Areas along coasts subject to inundation by the 1-percent-annual-chance flood event with additional hazards associated with storm-induced waves. Because detailed coastal analyses have not been performed, no BFEs or flood depths are shown.
VE, V1-V30	Areas along coasts subject to inundation by the 1-percent-annual-chance flood event with additional hazards due to storm-induced velocity wave action. BFEs derived from detailed hydraulic coastal analyses are shown within these zones. (Zone VE is used on new and revised maps in place of Zones V1–V30.)

Hydrologic Information

Moderate and Minimal Risk Areas

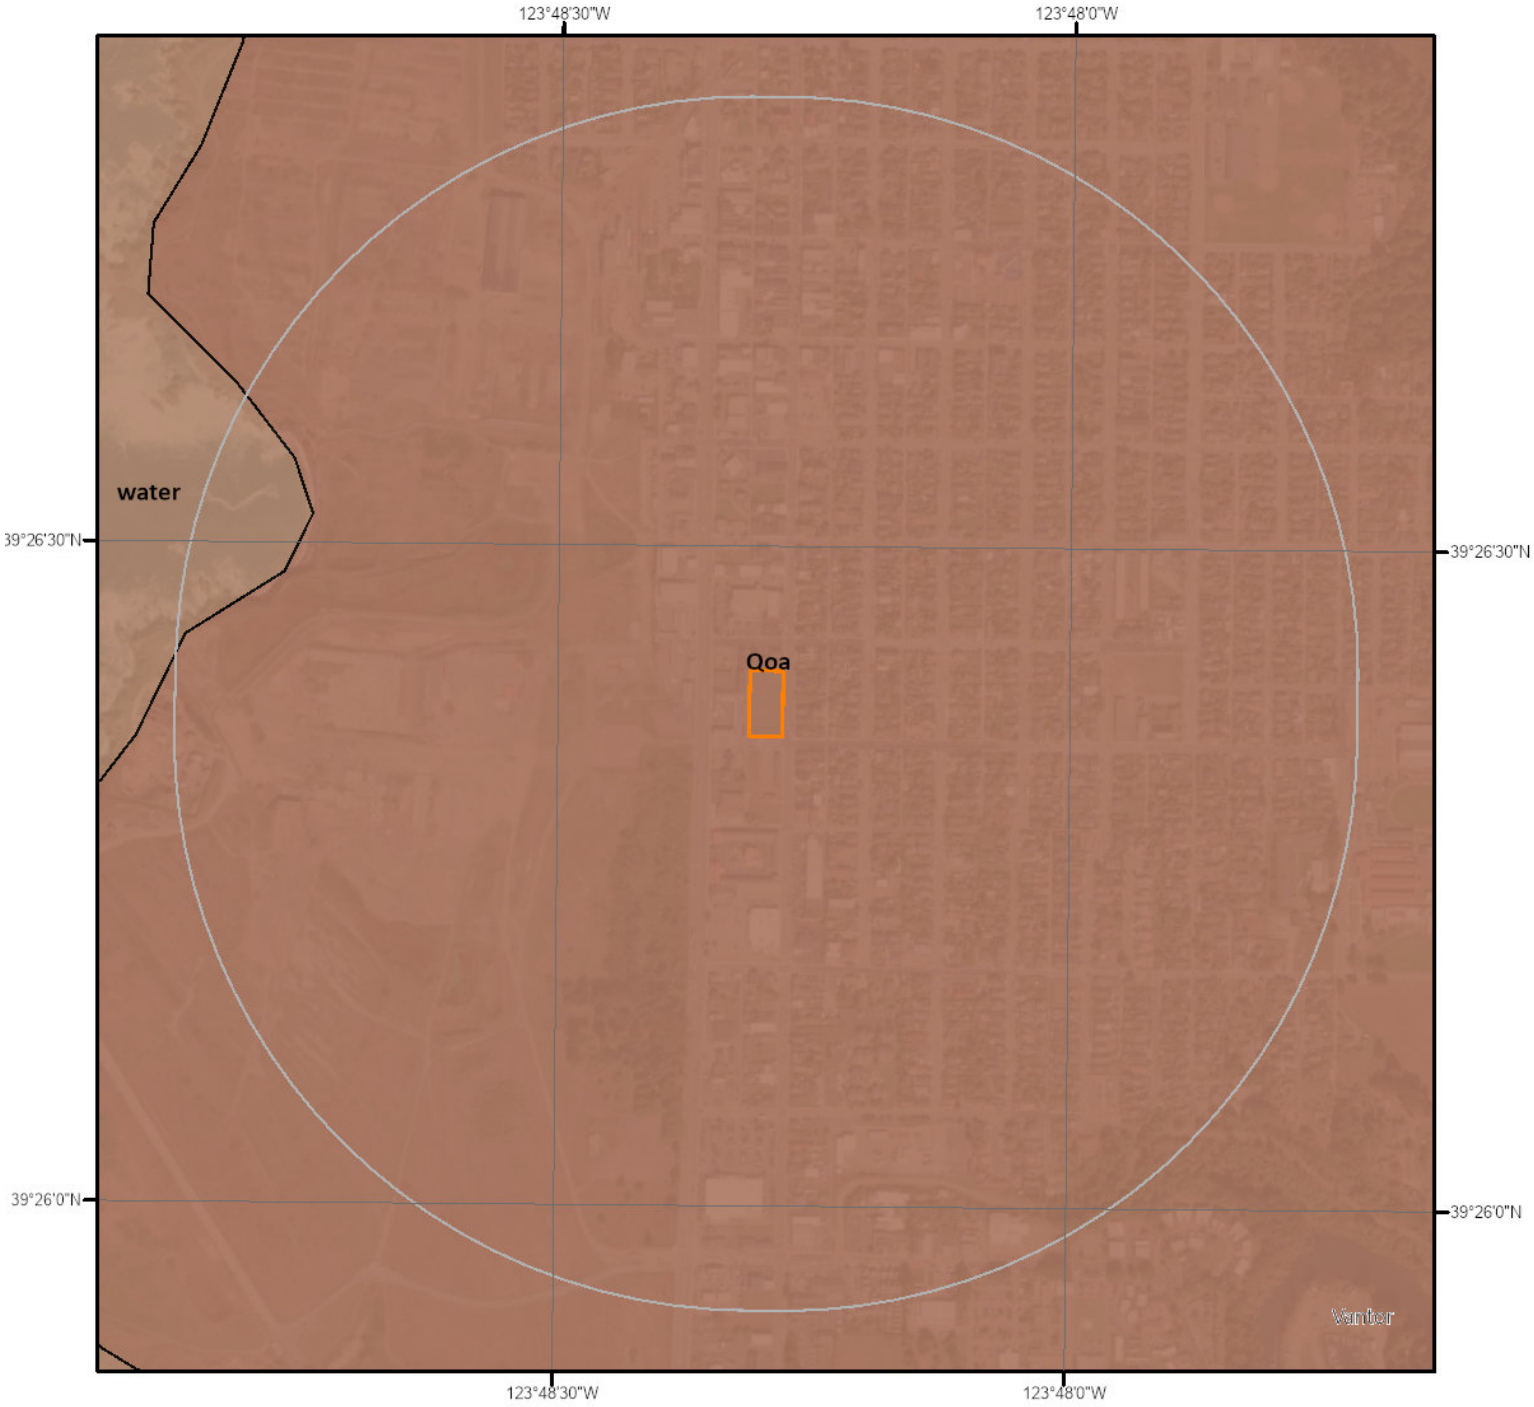

Areas of moderate or minimal hazard are studied based upon the principal source of flood in the area. However, buildings in these zones could be flooded by severe, concentrated rainfall coupled with inadequate local drainage systems. Local stormwater drainage systems are not normally considered in a community's flood insurance study. The failure of a local drainage system can create areas of high flood risk within these zones. Flood insurance is available in participating communities, but is not required by regulation in these zones. Nearly 25-percent of all flood claims filed are for structures located within these zones.

ZONE	DESCRIPTION
B, X (shaded)	Moderate risk areas within the 0.2-percent-annual-chance floodplain, areas of 1-percent-annual-chance flooding where average depths are less than 1 foot, areas of 1-percent-annual-chance flooding where the contributing drainage area is less than 1 square mile, and areas protected from the 1-percent-annual-chance flood by a levee. No BFEs or base flood depths are shown within these zones. (Zone X (shaded) is used on new and revised maps in place of Zone B.)
C, X (unshaded)	Minimal risk areas outside the 1-percent and .2-percent-annual-chance floodplains. No BFEs or base flood depths are shown within these zones. (Zone X (unshaded) is used on new and revised maps in place of Zone C.)

Undetermined Risk Areas

ZONE	DESCRIPTION
D	Unstudied areas where flood hazards are undetermined, but flooding is possible. No mandatory flood insurance purchase requirements apply, but coverage is available in participating communities.

Geologic Information

Geologic Units

This maps shows geologic units in the area. Please refer to the report for detailed descriptions.

Soil Information

The previous page shows a soil map using SSURGO data from USDA Natural Resources Conservation Service. Detailed information about each unit is provided below.

Map Unit 219 (100.0%)

Map Unit Name: Urban land

No more attributes available for this map unit

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 219 - Urban land

Component: Urban land (75%)
Generated brief soil descriptions are created for major soil components. The Urban land is a miscellaneous area.

Component: Biaggi (3%)
Generated brief soil descriptions are created for major soil components. The Biaggi soil is a minor component.

Component: Tregoning (3%)
Generated brief soil descriptions are created for major soil components. The Tregoning soil is a minor component.

Component: Tropaquepts (3%)
Generated brief soil descriptions are created for major soil components. The Tropaquepts soil is a minor component.

Component: Cabrillo (3%)
Generated brief soil descriptions are created for major soil components. The Cabrillo soil is a minor component.

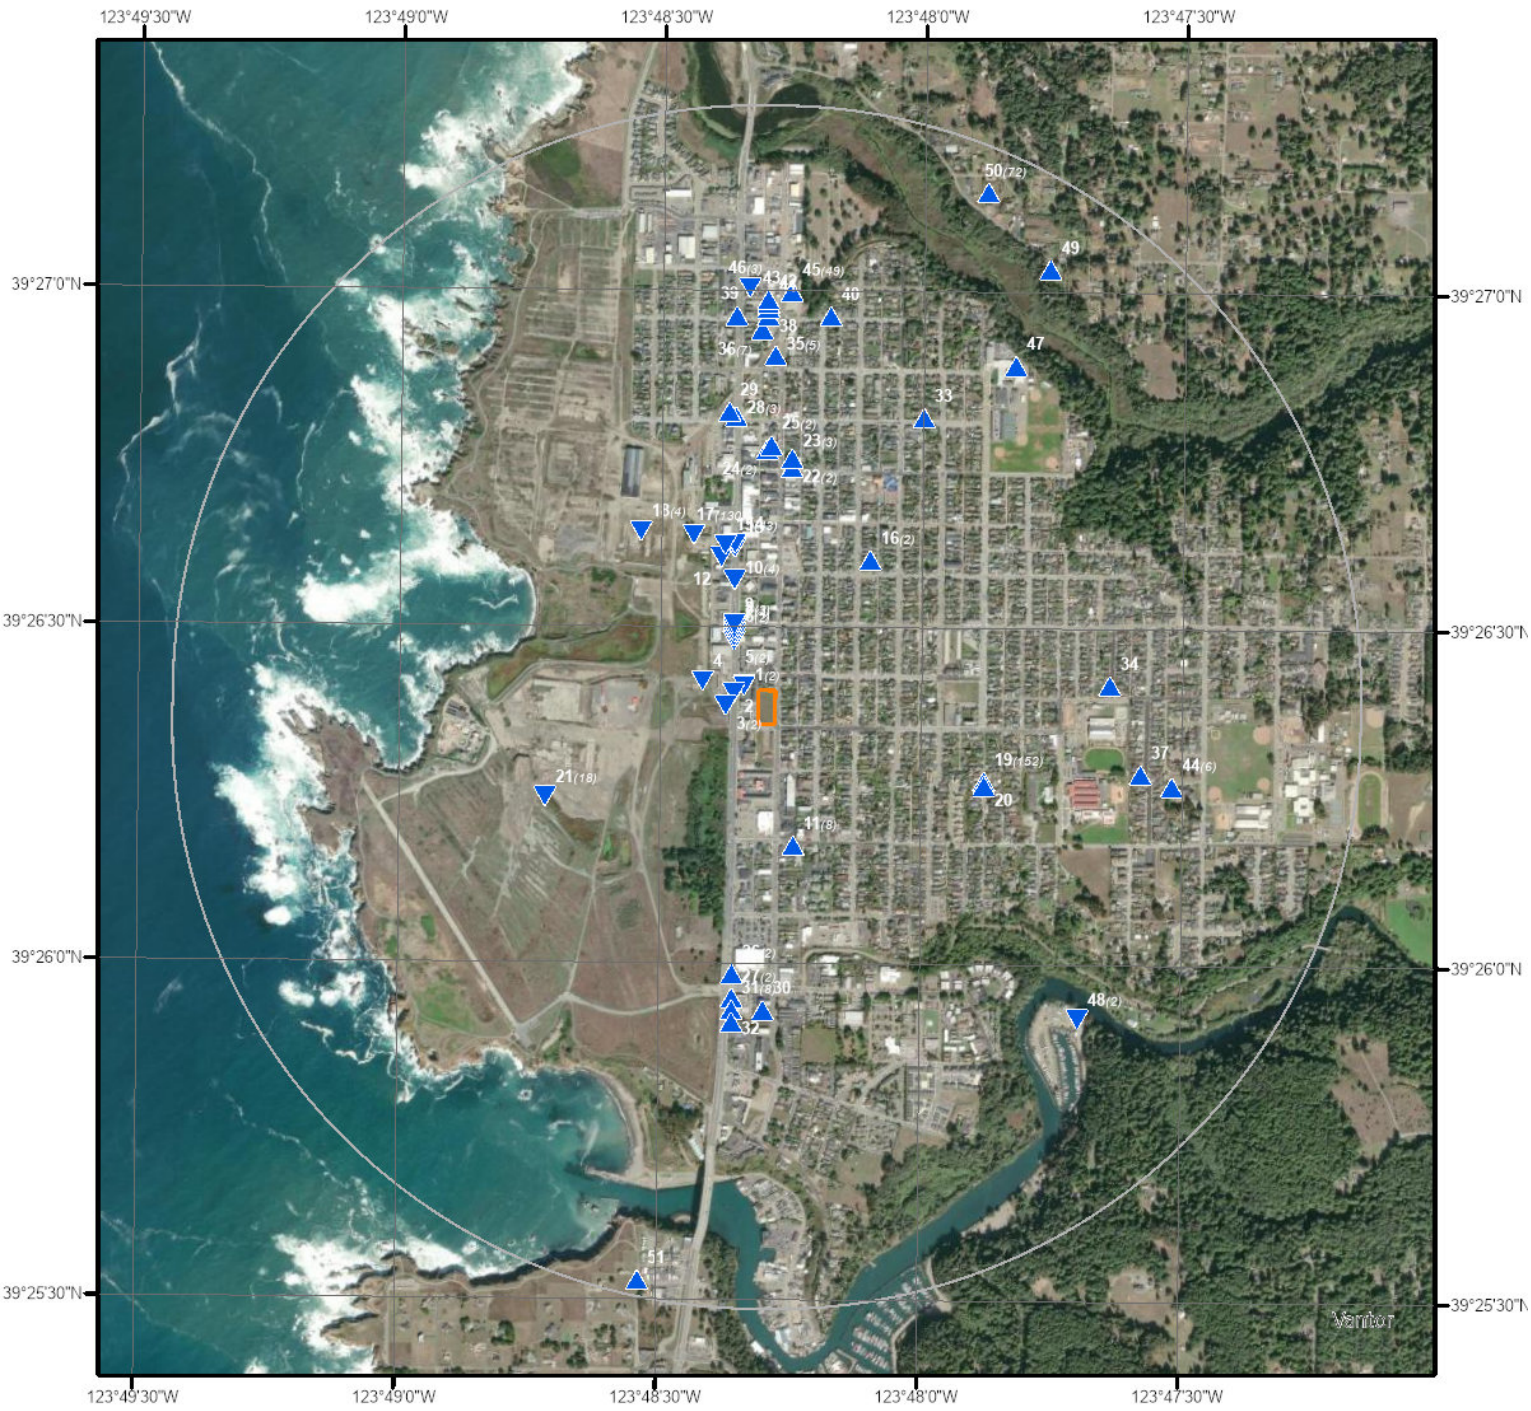

Component: Shinglemill (3%)
Generated brief soil descriptions are created for major soil components. The Shinglemill soil is a minor component.

Component: Heeser (3%)
Generated brief soil descriptions are created for major soil components. The Heeser soil is a minor component.

Component: Gibney (3%)
Generated brief soil descriptions are created for major soil components. The Gibney soil is a minor component.

Component: Harecreek (3%)
Generated brief soil descriptions are created for major soil components. The Harecreek soil is a minor component.

Radon Information

This section lists any relevant radon information found for the target property.

Federal EPA Radon Zone for *MENDOCINO* County: **3**

Zone 1: Counties with predicted average indoor radon screening levels greater than 4 pCi/L
Zone 2: Counties with predicted average indoor radon screening levels from 2 to 4 pCi/L
Zone 3: Counties with predicted average indoor radon screening levels less than 2 pCi/L

Federal Area Radon Information for *MENDOCINO* County

No Measures/Homes:	17
Geometric Mean:	0.2
Arithmetic Mean:	0.4
Median:	0.3
Standard Deviation:	0.5
Maximum:	1.3
% >4 pCi/L:	0
% >20 pCi/L:	0
Notes on Data Table:	TABLE 1. Screening indoor radon data from the EPA/State Residential Radon Survey of California conducted during 1989-90. Data represent 2-7 day charcoal canister measurements from the lowest level of each home tested.

Appendix

Federal Sources

FEMA National Flood Hazard Layer — **FEMA FLOOD**

The National Flood Hazard Layer (NFHL) data incorporates Flood Insurance Rate Map (FIRM) databases published by the Federal Emergency Management Agency (FEMA), and any Letters Of Map Revision (LOMRs) that have been issued against those databases since their publication date. The FIRM Database is the digital, geospatial version of the flood hazard information shown on the published paper FIRMs. The FIRM Database depicts flood risk information and supporting data used to develop the risk data. The FIRM Database is derived from Flood Insurance Studies (FISs), previously published FIRMs, flood hazard analyses performed in support of the FISs and FIRMs, and new mapping data, where available.

Indoor Radon Data — **INDOOR RADON**

Indoor radon measurements tracked by the Environmental Protection Agency(EPA) and the State Residential Radon Survey.

Public Water Systems Violations and Enforcement Data — **PWSV**

This list of drinking water violations and enforcement actions is sourced from the U.S Environmental Protection Agency's (EPA) Enforcement and Compliance History Online (ECHO) system that incorporates Public Water Systems data from EPA's Safe Drinking Water Information System (SDWIS) database, as part of the national download of Safe Drinking Water Act (SDWA) data. SDWIS contains information on public water systems from the Public Water System Supervision (PWSS) Program, including monitoring, enforcement, and violation data related to requirements established by the SWDA. Address information provided in SWDIS may correspond either with the physical location of the water system, or with a contact address.

Radon Zone Level — **RADON ZONE**

Areas showing the level of Radon Zones (level 1, 2 or 3) by county. This data is maintained by the Environmental Protection Agency (EPA).

Safe Drinking Water Information System (SDWIS) — **SDWIS**

This national download of Safe Drinking Water Act (SDWA) data is sourced from the U.S Environmental Protection Agency's (EPA) Enforcement and Compliance History Online (ECHO) system that incorporates Public Water Systems data from EPA's Safe Drinking Water Information System (SDWIS) database. SDWIS contains information on public water systems from the Public Water System Supervision (PWSS) Program related to requirements established by the Safe Drinking Water Act (SDWA). Address information provided in SWDIS may correspond either with the physical location of the water system, or with a contact address.

Soil Survey Geographic database — **SSURGO**

The Soil Survey Geographic database (SSURGO) contains information about soil as collected by the National Cooperative Soil Survey at the Natural Resources Conservation Service (NRCS). Soil maps outline areas called map units. The map units are linked to soil properties in a database. Each map unit may contain one to three major components and some minor components.

U.S. Fish & Wildlife Service Wetland Data — **US WETLAND**

The U.S. Fish & Wildlife Service Wetland layer represents the approximate location and type of wetlands and deepwater habitats in the United States.

USGS Current Topo — **US TOPO**

US Topo topographic maps are produced by the National Geospatial Program of the U.S. Geological Survey (USGS). The project was launched in late 2009, and the term "US Topo" refers specifically to quadrangle topographic maps published in 2009 and later.

USGS Geology — **US GEOLOGY**

Seamless maps depicting geological information provided by the United States Geological Survey (USGS).

USGS National Water Information System — **FED USGS**

The U.S. Geological Survey's (USGS) National Water Information System (NWIS) is the nation's principal repository of water resources data. The data includes comprehensive information of well-construction details, time-series data for gage height, streamflow, groundwater level, and precipitation and water use data. This NWIS database information is obtained through the Water Quality Data Portal (WQP). The WQP

is a cooperative service sponsored by the USGS, the Environmental Protection Agency (EPA), and the National Water Quality Monitoring Council (NWQMC). WQX3.0 is the newest version of the data standard that is delivered from the WQP, and this updated version holds new profiles containing USGS data added since March 11, 2024 sourced from their beta version website.

State Sources

Oil and Gas Wells **OGW**

The California Department of Conservation, Geologic Energy Management Division (CalGEM) provides this oil and gas wells dataset. CalGEM makes no warranties, whether expressed or implied, and the data is for informational purposes.

Periodic Groundwater Level Measurement Locations **MONITOR WELLS**

Locations of groundwater level monitoring wells in the Department of Water Resources (DWR)'s Periodic Groundwater Levels dataset. The DWR Periodic Groundwater Levels dataset contains seasonal and long-term groundwater level measurements collected by the Department of Water Resources and cooperating agencies.

Well Completion Reports **WATER WELLS**

List of wells from the Well Completion Reports data made available by the California Department of Water Resources' (DWR) Online System for Well Completion Reports (OSWCR). Please note that the majority of well completion reports have been spatially registered to the center of the 1x1 mile Public Land Survey System section that the well is located in.

Liability Notice

Reliance on information in Report: The Physical Setting Report (PSR) DOES NOT replace a full Phase I Environmental Site Assessment but is solely intended to be used as a review of environmental databases and physical characteristics for the site or adjacent properties.

License for use of information in Report: No page of this report can be used without this cover page, this notice and the project property identifier. The information in Report(s) may not be modified or re-sold.

Your Liability for misuse: Using this Service and/or its reports in a manner contrary to this Notice or your agreement will be in breach of copyright and contract and ERIS may obtain damages for such mis-use, including damages caused to third parties, and gives ERIS the right to terminate your account, rescind your license to any previous reports and to bar you from future use of the Service.

No warranty of Accuracy or Liability for ERIS: The information contained in this report has been produced by ERIS Information Inc. ("ERIS") using various sources of information, including information provided by Federal and State government departments. The report applies only to the address and up to the date specified on the cover of this report, and any alterations or deviation from this description will require a new report. This report and the data contained herein does not purport to be and does not constitute a guarantee of the accuracy of the information contained herein and does not constitute a legal opinion nor medical advice. Although ERIS has endeavored to present you with information that is accurate, ERIS Information Inc. disclaims, any and all liability for any errors, omissions, or inaccuracies in such information and data, whether attributable to inadvertence, negligence or otherwise, and for any consequences arising therefrom. Liability on the part of ERIS is limited to the monetary value paid for this report.

Trademark and Copyright: You may not use the ERIS trademarks or attribute any work to ERIS other than as outlined above. This Service and Report(s) are protected by copyright owned by ERIS Information Inc. Copyright in data used in the Service or Report(s) (the "Data") is owned by ERIS or its licensors. The Service, Report(s) and Data may not be copied or reproduced in whole or in any substantial part without prior written consent of ERIS.

Questionnaires

Site Assessment Questionnaire

Parcel No. or Address:

Question	Owner			Occupant (if applicable)			Observed During Site Visit		
1. Is the property or any adjoining property used for an industrial use?	Yes	No	Unk	Yes	No	Unk	Yes	(No)	Unk
Comments: Zoned Commercial									
2. To the best of your knowledge, has the property or any adjoining property been occupied by an industrial use in the past?	Yes	No	Unk	Yes	No	Unk	Yes	(No)	Unk
Comments:									
3. Is the property or any adjoining property used as a gasoline station, motor repair facility, commercial printing facility, dry cleaners, photo developing laboratory, junkyard, or landfill, or as a waste treatment storage, disposal, processing, or recycling facility?	Yes	No	Unk	Yes	No	Unk	Yes	(No)	Unk
Comments:									
4. To the best of your knowledge has the property or any adjoining property been used as a gasoline station, motor repair facility, commercial printing facility, dry cleaners, photo developing laboratory, junkyard, or landfill, or as a waste treatment, storage, disposal, processing, or recycling facility?	Yes	No	Unk	Yes	No	Unk	Yes	(No)	Unk
Comments:									
5. Are there currently, or to the best of your knowledge have there been previously, any damaged or discarded automotive or industrial batteries, pesticides, paints, or other chemicals in individual containers of greater than 5 gal (19 L) in volume or 50 gal (190 L) in the aggregate, stored on or used at the property or at the facility?	Yes	No	Unk	Yes	No	Unk	Yes	No	(Unk)
Comments: None observed									
6. Are there currently, or the best of your knowledge have there been previously, any industrial drums (typically 55-gal, 208-L) or sacks of chemicals located on the property or at the facility?	Yes	No	Unk	Yes	No	Unk	Yes	No	(Unk)

Question	Owner			Occupant (if applicable)			Observed During Site Visit		
Comments: none observed									
7. Has fill dirt been brought on the property that originated from a contaminated site or that is of an unknown origin?	Yes	No	Unk	Yes	No	Unk	Yes	No	(Unk)
Comments: Various Greyish/brown sandy material in NE corner SE corner of site									
8. Are there currently, or to the best of your knowledge have there been previously, any pits, ponds, or lagoons located on the property in connection with waste treatment or waste disposal?	Yes	(No)	Unk	Yes	No	Unk	Yes	(No)	Unk
Comments:									
9. Is there currently, or to the best of your knowledge has there been previously, any stained soil on the property?	Yes	No	Unk	Yes	No	Unk	Yes	No	(Unk)
Comments:									
10. Are there currently, or to the best of your knowledge have there been previously, any registered or unregistered storage tanks (above or underground) located on the property?	Yes	No	Unk	Yes	No	Unk	Yes	No	(Unk)
Comments:									
11. Are there currently, or to the best of your knowledge have there been previously, any vent pipes, fill pipes, or access ways indicating a fill pipe protruding from the ground on the property or adjacent to any structure located on the property?	Yes	No	Unk	Yes	No	Unk	Yes	No	(Unk)
Comments: none observed									
12. Are there currently, or to the best of your knowledge have there been previously, any flooring, drains, or walls located within the facility that are stained by substances other than water or are emitting foul odors?	Yes	No	Unk	Yes	No	Unk	Yes	(No)	Unk
Comments: Undeveloped - no buildings									

Question	Owner			Occupant (if applicable)			Observed During Site Visit		
13. If the property is served by a private well or non-public water system, have contaminants been identified in the well or system that exceed guidelines applicable to the water system or has the well been designated as contaminated by any government environmental/health agency?	Yes	No	Unk	Yes	No	Unk	Yes	No	Unk
Comments: public water system									
14. Does the owner or of the property have any knowledge of environmental liens or governmental notification relating to past or recurrent violations of environmental laws with respect to the property or any facility located on the property?	Yes	No	Unk	Yes	No	Unk	Yes	No	Unk
Comments:									
15. Has the owner or occupant or the property been informed of the past or current existence of hazardous substances or petroleum products or environmental violations with respect to the property or any facility located on the property?	Yes	No	Unk	Yes	No	Unk	Yes	No	Unk
Comments:									
16. Does the owner or occupant of the property have any knowledge of any environmental site assessment for the property or facility that indicated the presence of hazardous substances or petroleum products on, or contamination of, the property, or recommend further assessment of the property?	Yes	No	Unk	Yes	No	Unk	Yes	No	Unk
Comments:									
17. Does the owner or occupant of the property know of any past, threatened, or pending lawsuits or administrative proceedings concerning a release or threatened release of any hazardous substance or petroleum products involving the property by any owner or occupant of the property?	Yes	No	Unk	Yes	No	Unk	Yes	No	Unk
Comments:									

Question	Owner			Occupant (if applicable)			Observed During Site Visit		
18. Does the property discharge wastewater on or adjacent to the property other than storm water into a sanitary sewer system?	Yes	No	Unk	Yes	No	Unk	Yes	(No)	Unk
Comments:									
19. To the best of your knowledge, have any hazardous substances or petroleum products, unidentified waste materials, tires, automotive or industrial batteries or any other waste materials been dumped above ground, buried and/or burned on the property?	Yes	No	Unk	Yes	No	Unk	Yes	(No)	Unk
Comments:									
20. Is there a transformer, capacitor, or any hydraulic equipment for which there are any records indicating the presence of PCBs?	Yes	No	Unk	Yes	No	Unk	Yes	(No)	Unk
Comments:									

21. What date did you purchase the property?		And from whom?	
22. Any other pertinent information or contacts?

Phase I ESA User Questionnaire

This User Questionnaire was prepared in general accordance with ASTM Standard E1527-21, Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process.

Section I. Landowner Liability Protection Required Information

In order to qualify for one of the Landowner Liability Protections (LLPs) offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the "Brownfields Amendments") the user must provide the following information (if available) to the environmental professional. Failure to provide this information could result in a determination that "all appropriate inquiry" is not complete.

Question	Determination		
	Yes	No	Unk
1. **Environmental cleanup liens that are filed or recorded against the site (40 CFR 312.25).** Are you aware of any environmental cleanup liens against the property that are filed or recorded under federal, tribal, state, or local law?		X	
Comments:			
2. **Activity and land use limitations that are in place on the site or that have been filed or recorded in a registry (40 CFR 312.26).** Are you aware of any Activity and Use Limitations (AULs), such as engineering controls, land use restrictions, or institutional controls that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state, or local law?		X	
Comments:			
3. **Specialized knowledge or experience of the person seeking to qualify for the LLP (40 CFR 312.28).** As the user of this ESA do you have any specialized knowledge or experience related to the property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the property or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business?		X	
Comments:			

Question	Determination		
4. Relationship of the purchase price to the fair market value of the property if it were not contaminated (40 CFR 312.20). Does the purchase price being paid for this property reasonably reflect the fair market value of the property? If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the property?	Yes X	No	Unk
Comments:			
5. Commonly known or reasonably ascertainable information about the property (40 CFR 312.30). Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example, as user,	Yes	No	Unk
a. Do you know the past uses of the property? BARE LAND, NEVER USED			
b. Do you know of specific chemicals that are present or once were present at the property?	N/A		
c. Do you know of spills or other chemical releases that have taken place at the property?	N/A		
d. Do you know of any environmental cleanups that have taken place at the property?	N/A		
Comments: a.) BARE LAND, NEVER DEVELOPED			
6. The degree of obviousness of the presence or likely presence of contamination at the property, and the ability to detect the contamination by appropriate investigation (40 CFR 312.13). As the user of this ESA, based on your knowledge and experience related to the property are there any obvious indicators that point to the presence or likely presence of contamination at the property?	Yes	No X	Unk
Comments:			

Completed by: Cynthia Sluss Date: 8/20/26
HMC Board President

Section II. Useful Information for Conducting the Phase I ESA

Please answer the following questions and provide the requested information. (This information is intended to assist the environmental professional but is not necessarily required to qualify for one of the LLPs.) The information includes:

1. Why is this Phase I ESA required?
   Required as part of the NEPA report prior to HUD funding the purchase price
2. What type of property and property transaction is involved (for example, sale, purchase, exchange, etc.,)?
   Purchase of land from seller
3. Provide the complete and correct address for the property. (Attaching a map or other documentation showing property location and boundaries is helpful, if available.)
   251 S. Franklin St Fort Bragg CA 95437
4. Provide the scope of services desired for the Phase I (including whether any parties to the property transaction may have a required standard scope of services on whether any considerations beyond the requirements of Practice E 1527 are to be considered).
   Please see RFP - HUD requires an ASTM E1527-21 compliant phase I
5. Please identify and provide contact information for all parties who will rely on the Phase I Report.
   Housing Mendocino Coast - Cynthia Sharon - 707-357-0359
   City of Fort Bragg - Marie Jones - 707-357-6480
6. Identify the site contact and provide contact information (name and phone number).
   see above - Cynthia Sharon
7. Are there any special terms and conditions that must be agreed upon by the environmental professional? ☐ Yes ☑ No If so, what are they?
8. Please provide any other knowledge or experience with the property that may be pertinent to the environmental professional (for example, copies of any available prior environmental site assessment reports, documents, correspondence, etc., concerning the property and its environmental condition).

Completed by: Cynthia Sharon Date: 8/20/26
