Public's Help Requested in Surge of Graffiti 02/03/2025

The City of Fort Bragg has experienced a notable increase in graffiti over the past few weeks. We need the community's help and request if you live in an area impacted by graffiti, to please review any available surveillance footage you have during the time the graffiti occurred. Submit any suspicious activity via the online community portal.

To utilize the portal, please visit the link below or utilize the attached quick-response code (QR Code). The portal will send a link by either text or email for the reporting party to upload the evidence and allow the person submitting to provide a brief statement about when and where the activity occurred. The portal also accepts anonymous submissions. Simply uncheck "provide my information" and your submission will remain anonymous. Submissions to the portal will be uploaded directly to evidence.com where officers can review them.

Victims of graffiti are encouraged to take advantage of the City of Fort Bragg's graffiti removal program. The program entitles graffiti victims to reimbursement for items utilized in the removal of graffiti up to a value of \$75.00. To learn more about this please ask the officer taking your report for more information.

Anyone with information on these incidents are encouraged to contact the Fort Bragg Police Department at (707)964-0200 or utilize the anonymous tip line at (707)961-3049.
